- 6.1 The risk factor titled “Volatility Control” in the “Risks Related to Proprietary Indices” sub-section of the “Risk Factors” section of the Base Prospectus is replaced in its entirety with the following:
- Volatility Control*
- For the purposes of a Proprietary Index, “volatility” is a measure of how much an investment has deviated from its average over a defined time. A Proprietary Index may have an automatic feature that aims to protect against some of the inherent volatility exhibited by its underlying components and, (which may include a core index tracked by the Proprietary Index) by reducing exposure to the underlying components in times of high volatility. In periods of higher market volatility, the reduction in exposure to the underlying components may cushion the effects of market falls but constrain the benefit of market rises
- The exposure of a Proprietary Index with a volatility control feature to its underlying components during periods of low volatility may be over 100 per cent of the level of the underlying components but will proportionally reduce (and may decrease to below 100 per cent of the level of the underlying components) as the volatility of those underlying components increases to above defined percentage thresholds.

Annex A

RBS Aurum+ Index USD (ER) (the “Index”)

The Index is calculated by RBS Business Services Private Limited (or its successor, replacement or substitute, the “**Calculation Agent**”) based on a methodology developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”). The Index is denominated in USD (the “**Base Currency**”).

The Index aims to track a notional strategy after deduction of any costs incurred by the Index Sponsor. The Index is a trend-following strategy obtained by investing in either an underlying representing gold or an underlying representing crude oil, depending on the trend identified using spot indicators (each, a “**Spot Indicator**” and together the “**Spot Indicators**”), and deducting access costs from the performance of the selected Underlying (defined below). Figure 1 below illustrates the relationship between the underlying indices and the Index.

Figure 1 : Relationship between the Underlyings and the Index

Description of the Underlyings

The Index consists of a trend-following strategy deriving its value from a long exposure to one of two individual underlying indices (each, an “**Underlying**” and together the “**Underlyings**”) based on the trend of a ratio of Spot Indicators.

The Underlyings are as follows:

RICI[®] EnhancedSM Gold Excess Return Index (Bloomberg page: “RIEHGC Index”) (“**Underlying 1**”);

RICI[®] EnhancedSM Crude Oil Excess Return Index (Bloomberg page: “RIEHCRER Index”) (“**Underlying 2**”).

The Underlyings represent the commodity sectors of gold and crude oil.

Applying the trend based strategy

The Spot Indicators are as follows:

Gold rolling futures (“**Spot Indicator 1**”);

Average of WTI rolling futures and Brent Crude rolling futures (“**Spot Indicator 2**”).

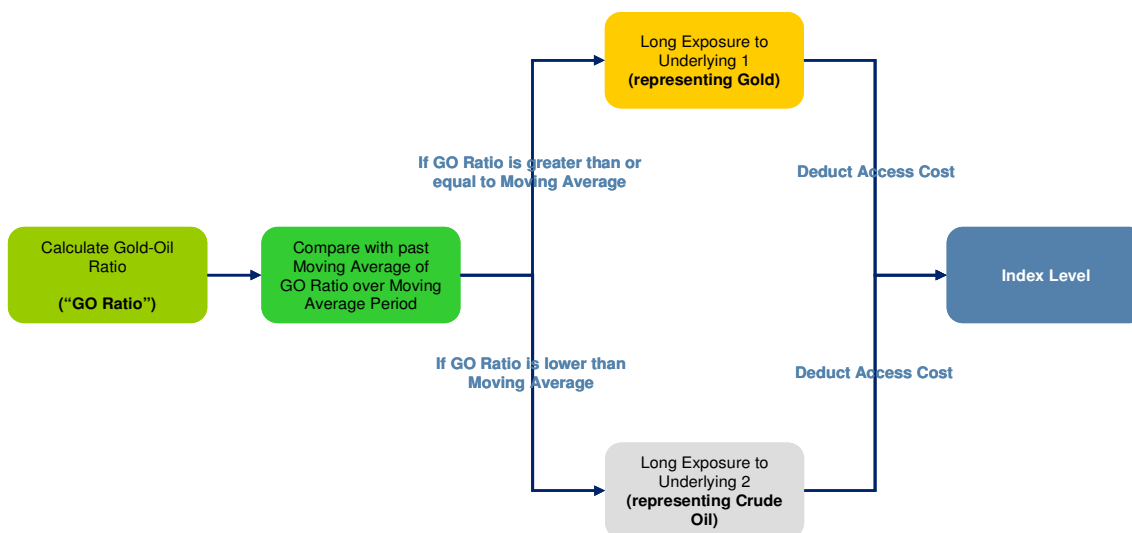

Spot Indicators are used to determine the trend of Underlyings. Unlike the Underlyings, which are optimised for seasonality and liquidity, the performance of Spot Indicators highlight the purest form of commodity trend. Hence, Spot Indicators, rather than the Underlyings, are used to derive the gold-oil ratio.

The level of Spot Indicator 1 (“**Spot Indicator 1 Level**”) is divided by the level of Spot Indicator 2 (“**Spot Indicator 2 Level**”) to obtain a gold-oil ratio (the “**GO Ratio**”). On each weekly determination date (a “**Determination Date**”), the GO Ratio on such date is compared to the moving average level of the GO Ratio (the “**Moving Average**”) over a fixed period (the “**Moving Average Period**”). If the GO Ratio on the Determination Date is greater than or equal to its Moving Average, the Index will have a long exposure to Underlying 1 (i.e., the Index will reflect the performance of Underlying 1). If not, the Index will have a long exposure to Underlying 2 (i.e., the Index will reflect the performance of Underlying 2). This exposure is maintained for one week. The aim of taking a long position in Underlying 1 is to benefit from the strengthening of gold compared to crude oil as represented by the Spot Indicators. The aim of taking a long position in Underlying 2 is to benefit from the strengthening of crude oil compared to gold.

The Index is based on the assumption that the GO Ratio is a good indicator of the ratio between gold and crude oil, and that the Moving Average of the GO Ratio is a good indicator of the relative strength of the performance of gold compared to crude oil. There is no assurance that either of these assumptions is correct, nor any assurance that this strategy will generate positive returns.

An access cost is deducted from the performance of each Underlying. The deduction of the access cost from the performance of the Underlying represents the specific expenses incurred by the Index Sponsor. The access cost will reduce the level of the Index. Figure 2 below illustrates the application of the GO Ratio.

Figure 2: Application of GO Ratio trend-based strategy

Assumptions underlying the strategy adopted by the Index

The Index shall be calculated at the Valuation Time on each Scheduled Trading Day which is not a Disrupted Day (each such day being a “**Calculation Date**”). The information above describes the methodology and material rules and risks relating to the Index. This information is subject to change. The Index Sponsor makes no representation or warranty that the Index will achieve its stated objectives.

Investors should note that this description of the index rules is subject to the detailed provisions of the index rules. RBS VC Aurum+ I Index (USD) ER 6% (the “Index”)

The Index is calculated by RBS Business Services Private Limited (or its successor, replacement or substitute, the “**Calculation Agent**”) based on a methodology developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”). The Index is denominated in USD (the “**Base Currency**”).

The Index aims to track a notional strategy that applies a volatility control overlay to the core index (the “**Core Index**” being the strategy on the two Underlyings where long or neutral exposures are determined in accordance with the gold-oil ratio (the “**GO Ratio**”) as compared to the moving average and consequently whose value is based on the performance of the Underlying to which the core index has a long exposure from time to time) and deducts index costs from the performance of the Core Index. The Core Index is a trend-following strategy obtained by investing in either an underlying representing gold or an underlying representing crude oil, depending on the trend identified using spot indicators (each, a “**Spot Indicator**” and together the “**Spot Indicators**”), and deducting access costs from the performance of the selected Underlying. *Figure 1* below illustrates the relationship between the Underlyings, the Core Index and the Index.

Figure 1: Relationship between the Underlyings, the Core Index and the Index

Description of the Underlyings

The Core Index consists of a trend-following strategy deriving its value from a long exposure to one of two individual underlying indices (each, an “**Underlying**” and together the “**Underlyings**”) based on the trend of a ratio of Spot Indicators.

The Underlyings are as follows:

RICI[®] EnhancedSM Gold Excess Return Index (Bloomberg page: “RIEHGC Index”) (“**Underlying 1**”);

RICI[®] EnhancedSM Crude Oil Excess Return Index (Bloomberg page: “RIEHCRER Index”) (“**Underlying 2**”).

The Underlyings represent the following commodity sectors: Gold and Crude Oil.

Applying the trend-based strategy

The Spot Indicators are as follows:

Gold Rolling Futures (“**Spot Indicator 1**”);

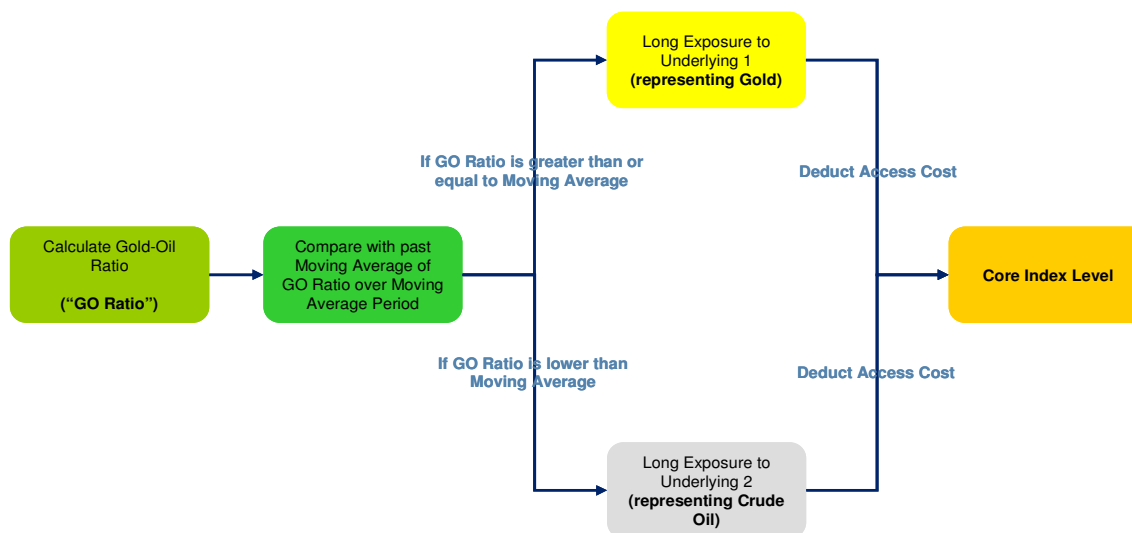

Average of WTI Rolling Futures and Brent Rolling Futures (“**Spot Indicator 2**”).

Spot Indicators are used to determine the trend of Underlyings. Unlike the Underlyings, which are optimised for seasonality and liquidity, the performance of Spot Indicators highlight the purest form of commodity trend and hence used to derive the GO Ratio rather than using Underlyings.

The level of Spot Indicator 1 (“**Spot Indicator 1 Level**”) is divided by the level of Spot Indicator 2 (“**Spot Indicator 2 Level**”) to obtain a gold-oil ratio. On each determination date, which occurs every week (a “**Determination Date**”), the GO Ratio on such date is compared to the moving average level of the GO Ratio (the “**Moving Average**”) over a fixed period (the “**Moving Average Period**”). If the GO Ratio on the Determination Date is greater than or equal to its Moving Average, the Core Index will have a long exposure to Underlying 1 (i.e., the Core Index will reflect the performance of Underlying 1). Otherwise, the Core Index will have a long exposure to Underlying 2 (i.e., the Core Index will reflect the performance of Underlying 2). This exposure is maintained for 1 week. The aim of taking a long position in Underlying 1 is to benefit from the strengthening of gold compared to crude oil as represented by the Spot Indicators. The aim of taking a long position in Underlying 2 is to benefit from the strengthening of crude oil compared to gold.

An access cost is deducted from the performance of each Underlying. The deduction of the access cost from the performance of the Underlying represents the specific expenses incurred by the Index Sponsor. The access cost will reduce the level of the Core Index and, therefore, the Index. The application of the GO Ratio is illustrated in *Figure 2* below.

Figure 2: Application of GO Ratio trend-based strategy

Applying the Dynamic Exposure to create the Index

The volatility control overlay consists of applying a dynamically adjusted exposure (the “**Dynamic Exposure**”) to the Core Index. Dynamic Exposure is applied to reduce or increase exposure to the Core Index, as described below.

The Dynamic Exposure is a function of the maximum realised historical volatility (the “**Maximum Realised Volatility**”). The Maximum Realised Volatility in respect of a Calculation Date is the highest Realised Volatility observed over five reference observation dates (“**Observation Dates**”). These Observation Dates are the five consecutive Calculation Dates ending on the current Calculation Date.

The “**Realised Volatility**” in respect of an Observation Date is a daily measure of how much the daily returns of the Underlying to which the Core Index is currently exposed (the “**Portfolio Returns**”) have or would have fluctuated around its average over a defined time period. The time period for the Portfolio Returns is taken to be twenty (20) consecutive historical Calculation Dates preceding and ending on such relevant Observation Date.

Exposure to an Underlying in the Core Index can change every week due to rebalancing. For this reason, in order to calculate the Dynamic Exposure to the Core Index on any Calculation Date, the Realised Volatility of the Portfolio Returns is observed instead of the Realised Volatility of the Core Index. This contrasts with the Core Index, where the exposure to an Underlying may actually vary over any 20 Calculation Date periods, since rebalancing can change the Core Index’s exposure to an Underlying every week.

Exposure to the Core Index is reduced if the Maximum Realised Volatility increases to certain levels. Conversely, exposure to the Core Index is increased if the Maximum Realised Volatility decreases to certain levels.

The Dynamic Exposure provides for the Index to have exposure to the Core Index within a range from a minimum of 0% to a maximum of 100%. The Dynamic Exposure is thus determined according to the range that the Maximum Realised Volatility falls within. The Index will be 100% exposed to the Core Index (i.e., one-for-one exposed) when the Maximum Realised Volatility is greater than or equal to 0.00% but less than 6.00% (the Maximum Realised Volatility can never be less than 0.00%). If Maximum Realised Volatility increases to 6.00% or above, the Dynamic Exposure will be adjusted in accordance with the table below:

Maximum Realised Volatility greater than or equal to	Maximum Realised Volatility less than	Dynamic Exposure
0.00%	6.00%	100.00%
6.00%	11.00%	54.55%
11.00%	16.00%	37.50%
16.00%	21.00%	28.57%
21.00%	26.00%	23.08%
26.00%	31.00%	19.35%
31.00%	36.00%	16.67%
36.00%	46.00%	13.04%
46.00%	56.00%	10.71%
56.00%	66.00%	9.09%
66.00%	76.00%	5.00%
76.00%	86.00%	2.50%
86.00%	(no upper limit)	0.00%

For example, if Maximum Realised Volatility equals 6.00%, then the Index will be 54.55% exposed to the Core

Index. If Maximum Realised Volatility equals 14.00%, the Index will be 37.50% exposed to the Core Index. An index cost is also deducted from the performance of the Index. The index cost represents the general costs incurred by the Index Sponsor to create and maintain the Index.

Assumptions underlying the strategy adopted by the Core Index

The strategy adopted by the Core Index is based on the assumption that the GO Ratio (which is based on comparing the levels of commodity futures contracts) is a good indicator of the ratio between gold and crude oil, and that the Moving Average of the GO Ratio is a good indicator of the relative strength of the performance of gold compared to crude oil. There is no assurance that either of these assumptions is correct, nor any assurance that this strategy will generate positive returns.

The information contained in this description is subject to change. The Index Sponsor makes no representation or warranty that the Index will achieve its stated objectives.

RBS VC Aurum+ II Index (USD) ER 10% (the “Index”)

The Index is based on a strategy that allocates between gold, as a “safe haven asset”, and oil, as an “aggressive asset” based on market trends. The market trend is determined by the behaviour of the gold-oil ratio (the “GO Ratio”). The behaviour of the GO Ratio is based on its recent moving average. The Index also includes a volatility control overlay.

The Index is calculated by RBS Business Services Private Limited (or its successor, replacement or substitute, the “Calculation Agent”) based on a methodology developed by The Royal Bank of Scotland plc (the “Index Sponsor”). The Index is denominated in USD (the “Base Currency”).

The Index aims to track a notional strategy that applies a volatility control overlay to the core index (the “Core Index” being the strategy on the two Underlyings where long or neutral exposures are determined in accordance with the GO Ratio as compared to the moving average and consequently whose value is based on the performance of the Underlying to which the core index has a long exposure from time to time) and deducts index costs from the performance of the Core Index. The Core Index is a trend-following strategy obtained by investing in either an underlying representing gold or an underlying representing crude oil, depending on the trend identified using spot indicators (each, a “Spot Indicator” and together the “Spot Indicators”), and deducting access costs from the performance of the selected Underlying. *Figure 1* below illustrates the relationship between the Underlyings, the Core Index and the Index.

Figure 1: Relationship between the Underlyings, the Core Index and the Index

Description of the Underlyings

The Core Index consists of a trend-following strategy deriving its value from a long exposure to one of two individual underlying indices (each, an “Underlying” and together the “Underlyings”) based on the trend of a ratio of Spot Indicators.

The Underlyings are as follows:

RICI[®] EnhancedSM Gold Excess Return Index (Bloomberg page: “RIEHGC Index”) (“Underlying 1”);

RICI[®] EnhancedSM Crude Oil Excess Return Index (Bloomberg page: “RIEHCRER Index”) (“Underlying 2”).

The Underlyings represent the following commodity sectors: Gold and Crude Oil.

Applying the trend-based strategy

The Spot Indicators are as follows:

Gold Rolling Futures (“**Spot Indicator 1**”);

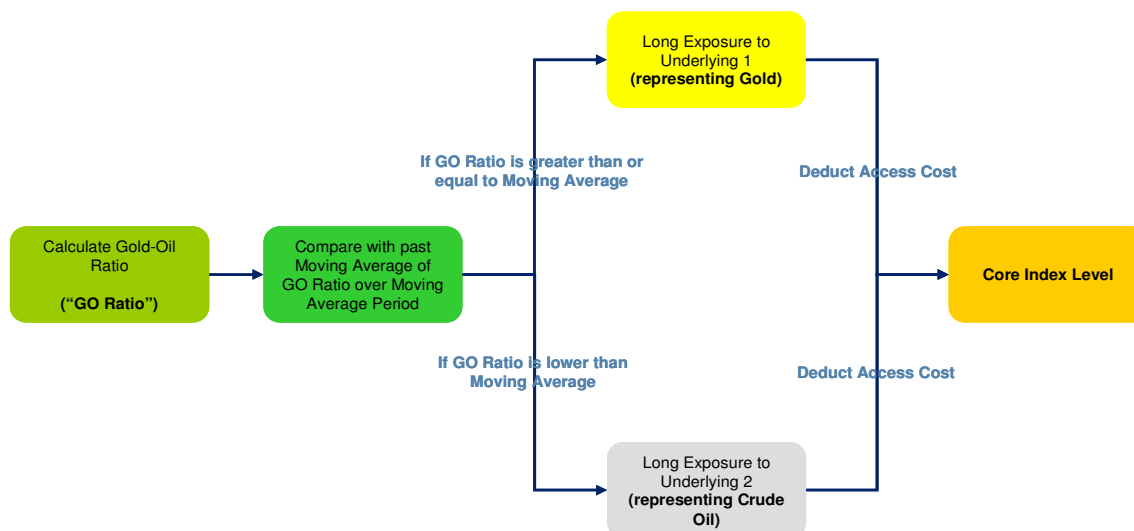

Average of WTI Rolling Futures and Brent Rolling Futures (“**Spot Indicator 2**”).

Spot Indicators are used to determine the trend of Underlyings. Unlike the Underlyings, which are optimised for seasonality and liquidity, the performance of Spot Indicators highlight the purest form of commodity trend and hence used to derive the GO Ratio rather than using Underlyings.

The level of Spot Indicator 1 (“**Spot Indicator 1 Level**”) is divided by the level of Spot Indicator 2 (“**Spot Indicator 2 Level**”) to obtain a gold-oil ratio. On each determination date, which occurs every week (a “**Determination Date**”), the GO Ratio on such date is compared to the moving average level of the GO Ratio (the “**Moving Average**”) over a fixed period (the “**Moving Average Period**”). If the GO Ratio on the Determination Date is greater than or equal to its Moving Average, the Core Index will have a long exposure to Underlying 1 (i.e., the Core Index will reflect the performance of Underlying 1). Otherwise, the Core Index will have a long exposure to Underlying 2 (i.e., the Core Index will reflect the performance of Underlying 2). This exposure is maintained for 1 week. The aim of taking a long position in Underlying 1 is to benefit from the strengthening of gold compared to crude oil as represented by the Spot Indicators. The aim of taking a long position in Underlying 2 is to benefit from the strengthening of crude oil compared to gold.

An access cost is deducted from the performance of each Underlying. The deduction of the access cost from the performance of the Underlying represents the specific expenses incurred by the Index Sponsor. The access cost will reduce the level of the Core Index and, therefore, the Index. The application of the GO Ratio is illustrated in *Figure 2* below.

Figure 2: Application of GO Ratio trend-based strategy

Applying the Dynamic Exposure to create the Index

The volatility control overlay consists of applying a dynamically adjusted exposure (the “**Dynamic Exposure**”) to the Core Index. Dynamic Exposure is applied to reduce or increase exposure to the Core Index, as described below.

The Dynamic Exposure is a function of the maximum realised historical volatility (the “**Maximum Realised Volatility**”). The Maximum Realised Volatility in respect of a Calculation Date is the highest Realised Volatility observed over five reference observation dates (“**Observation Dates**”). These Observation Dates are the five consecutive Calculation Dates ending on the current Calculation Date.

The “**Realised Volatility**” in respect of an Observation Date is a daily measure of how much the daily returns of the Underlying to which the Core Index is currently exposed (the “**Portfolio Returns**”) have or would have fluctuated around its average over a defined time period. The time period for the Portfolio Returns is taken to be twenty (20) consecutive historical Calculation Dates preceding and ending on such relevant Observation Date.

Exposure to an Underlying in the Core Index can change every week due to rebalancing. For this reason, in order to calculate the Dynamic Exposure to the Core Index on any Calculation Date, the Realised Volatility of the Portfolio Returns is observed instead of the Realised Volatility of the Core Index. This contrasts with the Core Index, where the exposure to an Underlying may actually vary over any twenty (20) Calculation Date period, since rebalancing can change the Core Index’s exposure to an Underlying every week.

Exposure to the Core Index is reduced if the Maximum Realised Volatility increases to certain levels. Conversely, exposure to the Core Index is increased if the Maximum Realised Volatility decreases to certain levels.

The Dynamic Exposure provides for the Index to have exposure to the Core Index within a range from a minimum of 0% to a maximum of 150%. The Dynamic Exposure is thus determined according to the range that the Maximum Realised Volatility falls within. The Index will be 150% exposed to the Core Index (levered) when the Maximum Realised Volatility is greater than or equal to 0.00% and less than 5.00% (the Maximum Realised Volatility can never be less than 0.00%). The Index will be 100% exposed to the Core Index (i.e., one-for-one exposed) when the Maximum Realised Volatility is greater than or equal to 5.00% but less than 10.00%. If Maximum Realised Volatility increases to 10.00% or above, the Dynamic Exposure will be adjusted in accordance with the table below:

Maximum Realised Volatility greater than or equal to	Maximum Realised Volatility less than	Dynamic Participation
0.00%	5.00%	150.00%
5.00%	10.00%	100.00%
10.00%	15.00%	66.67%
15.00%	20.00%	50.00%
20.00%	25.00%	40.00%
25.00%	30.00%	33.33%
30.00%	35.00%	28.57%

35.00%	40.00%	25.00%
40.00%	50.00%	20.00%
50.00%	60.00%	15.00%
60.00%	70.00%	10.00%
70.00%	80.00%	5.00%
80.00%	(no upper limit)	0.00%

For example, if Maximum Realised Volatility equals 10.00%, then the Index will be 66.67% exposed to the Core Index. If Maximum Realised Volatility equals 18.00%, the Index will be 50.00% exposed to the Core Index.

An index cost is also deducted from the performance of the Index. The index cost represents the general costs incurred by the Index Sponsor to create and maintain the Index.

Assumptions underlying the strategy adopted by the Core Index

The strategy adopted by the Core Index is based on the assumption that the GO Ratio (which is based on comparing the levels of commodity futures contracts) is a good indicator of the ratio between gold and crude oil, and that the Moving Average of the GO Ratio is a good indicator of the relative strength of the performance of gold compared to crude oil. There is no assurance that either of these assumptions is correct, nor any assurance that this strategy will generate positive returns.

RBS VC Autopilot Index (SEK) ER 10% Index (the “Index”)

The Index is calculated by RBS Business Services Private Limited or its successor (the “**Calculation Agent**”) based on a methodology developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”). The Index is denominated in SEK (the “**Base Currency**”).

The Index aims to track a notional strategy that applies a volatility control overlay to an underlying core index (the “**Core Index**”). The Core Index consists of a trend-following strategy deriving its value from long or neutral exposures to individual underlying indices and assets. based on the trend of the relationship between the level of each individual Underlying and its moving average. The Core Index will always have a long exposure to the Constant Long Exposure Underlyings (defined below) regardless of their trend.

Figure 1 below diagrams the Index construction and the relationship among the Underlyings, the Core Index and the Index.

Fig. 1: Index Construction

Description of the Underlyings

The individual indices and assets comprising the Core Index (each, an “**Underlying**” and together the “**Underlyings**”) are:

The RBS Aurum+ Index (USD) ER (Bloomberg page: “RBSDASU0 Index”), a systematic strategy allocating exposure to indices linked to gold or oil pending on their price ratio;

The RBS QUEST GEM (Market Neutral) Index (USD) ER (Bloomberg page: “RBQMANU0 Index”), a systematic strategy allocating a long exposure to emerging market equities based on fundamental measures and a short exposure to a broad emerging market equity benchmark (together with the RBS Aurum+ Index (USD) ER, the “**Constant Long Exposure Underlyings**”);

The RBS Sweden 30 Index (SEK) ER (Bloomberg page: “RBSEROK1 Index”) comprised of Swedish equities;

The World Equity ER Asset, which provides excess return exposure to global developed equities markets by tracking the performance of the MSCI Daily TR Net World Index (Bloomberg Page: “NDDUWI Index”) with deduction of the cost of funding represented by British Bankers Association (“BBA”) LIBOR USD 3 month (determined with reference to Bloomberg page: “US0003M Index”);

The Private Equity ER Asset, which provides excess return exposure to private equity companies by tracking the performance of the S&P Listed Private Equity Index (TR) (Bloomberg Page: “SPLPEQTR Index”) with the deduction of the cost of funding represented by BBA LIBOR USD 3 month (determined with reference to Bloomberg page: “US0003M Index”);

The Bond ER Asset, which is linked to the performance of the iShares Barclays Aggregate Bond Fund (Bloomberg Page: “AGG UP Equity”), a U.S. exchange-traded fund which seeks investment results that correspond to the price and yield performance of the total United States investment grade bond market as defined by the Barclays Capital U.S. Aggregate Index. The Bond ER Asset provides excess return exposure to the iShares Barclays Aggregate Bond Fund with reinvestment of the fund’s distributions (net of tax) and deduction of the cost of funding represented by BBA LIBOR USD 3 month (determined with reference to Bloomberg page: “US0003M Index”); ;

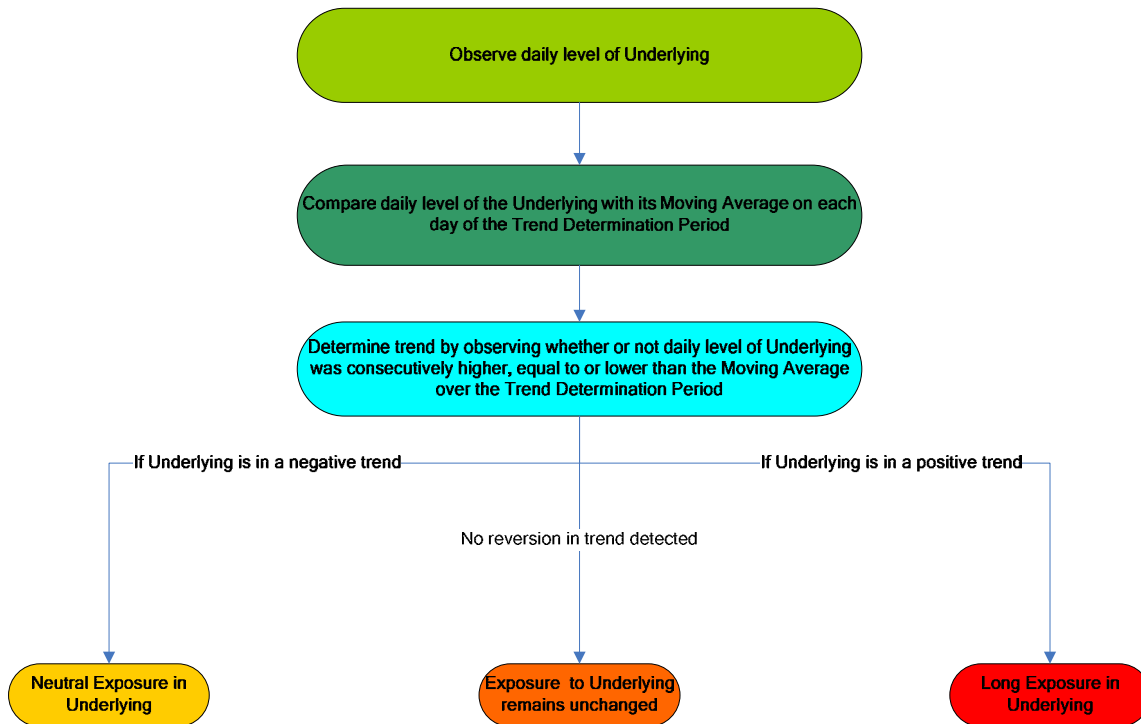

The RICI[®] EnhancedSM Excess Return Index, an index exposed to commodities (Bloomberg page: “RIEHGLER Index”); and

The Global Property ER Asset, which provides excess return exposure to certain global property companies by tracking the performance of the GPR/RBS Global Top30 Property World Index (Bloomberg Page: “GPRAG30P Index”) with deduction of the cost of funding represented by BBA LIBOR USD 3 month (determined with reference to Bloomberg page: “US0003M Index”).

The Underlyings are each assigned a target weight ranging from 10% to 15% and are re-weighted back to their target weights on a monthly basis. These target weights are fixed on the live date of the Index and will not change over the life of the Index. This target weighting and re-weighting of the Underlyings will occur regardless of (a) whether the Core Index takes a long or neutral exposure to any Underlying as further described below or (b) what the Dynamic Exposure to the Core Index is.

Applying the allocation strategy

Fig. 2: How Underlying exposure is determined
(Not applicable for Underlyings 1 and 2)

As illustrated in Figure 2 above, on every day that is not a Saturday or Sunday and on which the Calculation Agent is able to publish the level of the Index (a “**Calculation Date**”) the simple moving average of each Underlying is calculated by using values up to and including that Calculation Date (the “**Moving Average**”). The time period for calculating the Moving Average (the “**Moving Average Period**”) may vary for each Underlying. However, in respect of each Underlying, the Moving Average Period is set by the Index Sponsor prior to the date the level of the Index is first calculated and remains constant throughout the life of the Index. The Moving Average Period in respect of each Underlying will fall within a range between 50 and 200 Calculation Dates. The Moving Average for each Underlying is determined by summing all the levels of the Underlying over the Moving Average Period, and dividing the result by the number of Calculation Dates in such Moving Average Period.

Whether exposure to an individual Underlying (other than the Constant Long Exposure Underlyings) in the Core Index will be long or neutral is determined on a daily basis by comparing the level of the Underlying to its Moving Average over a defined number of consecutive Calculation Dates (the “**Trend Determination Period**”) The time period for the Trend Determination Date is five Calculation Dates for each Underlying. The trend will not be determined Constant Long Exposure Underlyings, and the Core Index will always have an economic long exposure to those Underlyings.

If, on a given Calculation Date, it is observed that the level of an Underlying has been higher than its Moving Average on each day of the Trend Determination Period, then the Underlying is deemed to be in a positive trend, resulting in the Core Index taking an economic long exposure in the Underlying. If, instead, on a given Calculation Date, it is observed that the level of an Underlying has been lower than or equal to its Moving Average on each day in the Trend Determination Period, then the Underlying is deemed to be in a negative trend, resulting in the Core Index taking an economic neutral exposure in the Underlying.

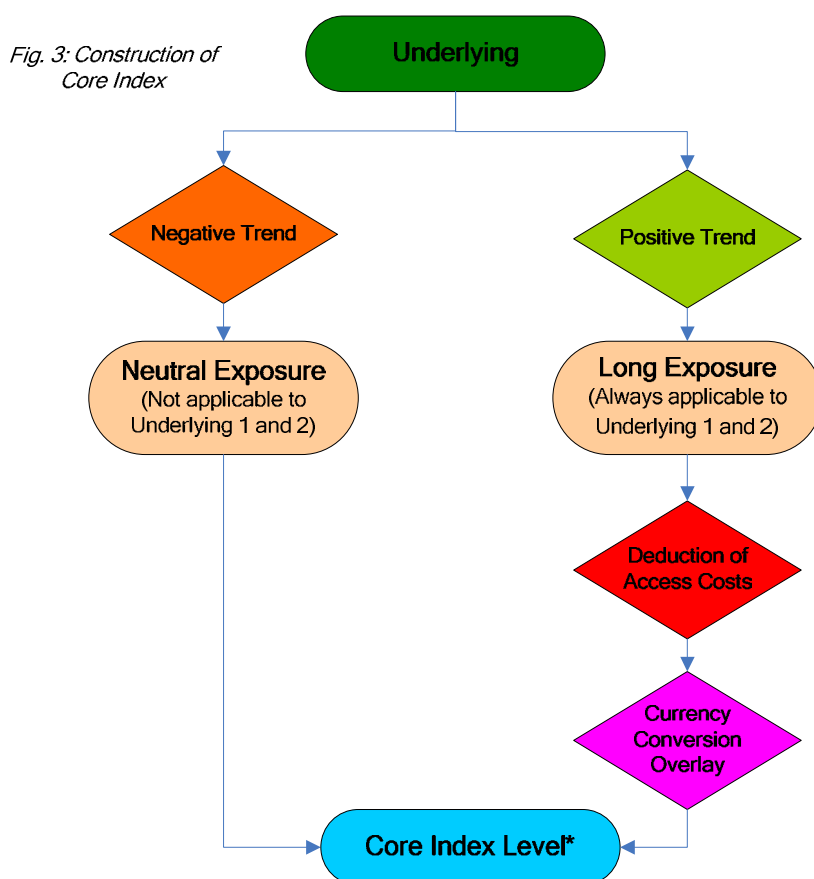

If the Core Index has a neutral exposure to an Underlying on a monthly re-weighting date, that Underlying will be re-weighted even though the Core Index is not currently exposed to it. If the Underlying subsequently displays a

positive trend on a later Trend Determination Date, the Core Index will have an exposure to that Underlying equal to its current weight. As an example, if, immediately after a monthly re-weighting date, the Bond ER Asset underlying has a target weight of 10% but is in a negative trend, while the other underlyings are in a positive trend, then the Core Index level will have an exposure to the other seven underlyings according to their weights for a total of 90% exposure, while 10% of the Core Index will have no exposure. If instead the Bond ER Asset, along with all the other Underlyings, is in a positive trend, then the Core Index level would have a 100% exposure across all eight Underlyings at that time.

A trend will revert (and therefore exposure to an Underlying will change) only if (a) in the case of a trend reverting from positive to negative, it is observed that the levels of an Underlying have been uniformly equal to or lower than its Moving Average on each day of the Trend Determination Period and (b) in the case of a trend reverting from negative to positive, it is observed that the levels of an Underlying have been uniformly greater than its Moving Average on each day of the Trend Determination Period.

Construction of the Core Index

Figure 3 below illustrates how each Underlying contributes to the level of the Core Index:

An access cost, representing the costs charged and expenses incurred by a notional investment in each Underlying, is deducted from the performance of each Underlying. Access costs will reduce the level of the Index.

A currency conversion overlay is applied to each Underlying after the deduction of the Access Cost from the performance of the Underlying. The currency conversion overlay involves the application of the Quampo™ technology. Quampo™ is a dynamic technology created by the Index Sponsor for dealing with currency risk

exposures. Quampo™ implements an algorithm that converts an Underlying’s original currency to another desired currency. As a result of applying this technology, only the change in value of an underlying asset is exposed to currency risk, instead of the full notional value as would be the case otherwise. In this Index, the technology allows the Index Sponsor to create an Index denominated in Swedish Kronor from the Underlyings, which are denominated in U.S. dollars.

The volatility control overlay consists of applying a dynamically adjusted exposure (the “**Dynamic Exposure**”) to the Core Index. Dynamic Exposure is applied to reduce or increase exposure to the Core Index, as described below.

The Dynamic Exposure is a function of the Maximum Realised Volatility. The “**Maximum Realised Volatility**” in respect of a Calculation Date is the highest Realised Volatility observed over five reference observation dates (“**Observation Dates**”). These Observation Dates are five consecutive Calculation Dates ending on the current Calculation Date.

The “**Realised Volatility**” in respect of an Observation Date is a measure of how much the daily returns of the Underlyings to which the Core Index is currently exposed (the “**Portfolio Returns**”) have fluctuated around its average over a defined time period. The time period for the Portfolio Returns is taken to be 20 consecutive historical Calculation Dates preceding and ending on such relevant Observation Date.

Exposure to an Underlying in the Core Index can change due to change in determined trend. For this reason, in order to calculate the Dynamic Exposure on any Calculation Date, the Realised Volatility of the Portfolio Returns (that is, the Realised Volatility of the Underlyings to which the Core Index is exposed on a Calculation Date) is observed rather than the Realised Volatility of the Core Index. The Realised Volatility of the Portfolio Returns contrast with the Core Index in that the Core Index’s exposure to an Underlying may actually vary over any 20 Calculation Date period.

Once the Realised Volatility and Maximum Realised Volatility are calculated, the Dynamic Exposure to the Core Index is determined. If the Maximum Realised Volatility increases to certain levels, exposure to the Core Index is reduced. Conversely, exposure to the Core Index is increased if the Maximum Realised Volatility decreases to certain levels.

On a daily basis, the Dynamic Exposure provides for the Index to have exposure to the Core Index within a range from a minimum of zero per cent to a maximum of 150 per cent. The Dynamic Exposure is thus determined according to the range that the Maximum Realised Volatility falls within. The Index will be 150.00% exposed (levered) to the Core Index when the Maximum Realised Volatility is greater than or equal to 0.00% but less than 6.00% per cent and 133.33% exposed to the Core Index when the Maximum Realised Volatility is greater than or equal to 6.00% and less than 7.50%. The Index will be 100% exposed to the Core Index (i.e., one-for-one exposed) when the Maximum Realised Volatility is greater than or equal to 5.00% but less than 10.00%. If Maximum Realised Volatility increases to 10.00% or above, the Dynamic Exposure will be adjusted in accordance with the table below:

Maximum Realised Volatility greater than or equal to	Maximum Realised Volatility less than	Dynamic Participation
0.00%	6.00%	150.00%
6.00%	7.50%	133.33%
7.50%	10.00%	100.00%
10.00%	13.33%	75.00%
13.33%	20.00%	50.00%
20.00%	30.00%	33.33%

30.00%	50.00%	20.00%
50.00%	(no upper limit)	33.00%

For example, if Maximum Realised Volatility equals 10.00%, then the Index will be 75.00% exposed to the Core Index. If Maximum Realised Volatility equals 18.00%, the Index will be 50.00% exposed to the Core Index.

Trading costs will be deducted from the level of the Index if the application of the volatility control overlay causes the Dynamic Exposure to change on any Calculation Date. Trading costs represent the expenses incurred by the Index Sponsor when notionally buying or selling units of the Underlying to adjust to the new exposure. The deduction of the trading costs will reduce the performance of the Index.

The level of the Index will be calculated by the Calculation Agent on each Calculation Date. Assumptions regarding the strategy adopted by the Index Sponsor

The strategy adopted by the Core Index is based on the assumption that observing the trend of the Underlyings (other than the Constant Long Exposure Underlyings) is an effective way of determining future performance and allocates exposure accordingly. For this reason, the Core Index is designed to allocate exposure to those Underlyings with positive trend, based on the assumption that they will offer a continued positive performance. However, investors should be aware that these are assumptions, and there is no guarantee that the trend analysis performed by the Index will be an effective way of allocating exposure to the Underlyings. Some of the general shortcomings of trend measures include (but are not limited to):

The trend measure used is based on performance of assets measured in the past. Past results are not indicative of future performance.

The trends are determined over a historical time period, and views may differ as to what type of performance over such time period is needed to be deemed a trend. For the purposes of this Index, an Underlying's price must be above or below its Moving Average for five consecutive Calculation Dates to be deemed a trend.

Trend following strategies may lack positive performance during market environments that have no clear direction in price movements.

The Core Index will always be exposed to the performance of the Constant Long Exposure Underlyings, regardless of their prevailing trends.

The volatility control overlay implemented in the Index is an automatic feature that aims to protect against some of the inherent volatility exhibited by the Underlyings comprising the Core Index by reducing exposure to the Underlyings comprising the Core Index in times of high volatility. In periods of higher volatility of the Core Index, the reduction in exposure to the Core Index may cushion the effect of falls in the level of the Underlyings but constrain the benefit of rises in the level of the Underlyings. The effectiveness of the volatility control overlay also depends on the measure of risk (volatility) adopted in the calculation and there is no assurance that the measure of risk (volatility) adopted by the volatility control overlay will be an accurate measure of the risk (volatility) exhibited by the Underlyings in the future.

The Royal Bank of Scotland plc

Schedule

Litigation – London Interbank Offered Rate (LIBOR)

Certain members of the Group have been named as defendants in a number of class actions and individual claims filed in the US with respect to the setting of LIBOR. It is possible that further claims may be threatened or brought in the US or elsewhere relating to the setting of interest rates or interest rate-related trading.

Investigations

LIBOR

The Group continues to co-operate fully with investigations by various governmental and regulatory authorities into its submissions, communications and procedures relating to the setting of LIBOR and other interest rates. The relevant authorities include, amongst others, the US Commodity Futures Trading Commission, the US Department of Justice (Fraud Division), the Financial Services Authority and the Japanese Financial Services Agency. The Group has dismissed a number of employees for misconduct as a result of its investigations into these matters.

The Group is also under investigation by competition authorities in a number of jurisdictions, including the European Commission, Department of Justice (Antitrust Division) and Canadian Competition Bureau, stemming from the actions of certain individuals in the setting of LIBOR and other interest rates, as well as interest rate-related trading. The Group is also co-operating fully with these investigations.

It is not possible to reliably measure what effect these investigations, any regulatory findings and any related developments may have on the Group, including the timing and amount of fines or settlements.

Technology incident

On 19 June 2012, the Group was affected by a technology incident, as a result of which the processing of certain customer accounts and payments were subject to considerable delay. The cause of the incident is being investigated by independent external counsel with the assistance of third party advisers, who have been instructed to carry out an independent review. The Group has agreed to reimburse customers for any loss suffered as a result of the incident and has made a provision of £125 million in the RBSG Interim Results 2012 for this matter. Additional costs may arise once all redress and business disruption items are clear and a further update will be given in the third quarter.

The incident, the Group's handling of the incident and the systems and controls surrounding the processes affected, are the subject of regulatory enquiries (both from the UK and Ireland) and the Group could become a party to litigation. In particular, the Group could face legal claims from those whose accounts were affected and could itself have claims against third parties.

- 2** Each of the Base Prospectuses was approved as a base prospectus pursuant to Directive 2003/71/EC (the “**Prospectus Directive**”) by the AFM. This Supplement constitutes a supplemental prospectus to each of the Base Prospectuses for the purposes of Article 5:23 of the Financial Supervision Act (*Wet op het financieel toezicht*).
- 3** This Supplement is supplemental to, and should be read in conjunction with, each of the Base Prospectuses and any other supplements thereto issued by the Issuer. Terms defined in the Base Prospectuses have the same meanings when used in this Supplement.

- 4 In accordance with Article 5:23(6) of the Financial Supervision Act (*Wet op het financieel toezicht*), investors who have agreed to purchase or subscribe for securities issued under any of the Base Prospectuses before this Supplement is published have the right, exercisable before the end of the period of two working days beginning with the working day after the date on which this Supplement was published, to withdraw their acceptances.

To the best of the knowledge of the Issuer (which has taken all reasonable care to ensure that such is the case), the information contained in this Supplement is in accordance with the facts and does not omit anything likely to affect the import of such information.
- 6 Further to the announcement dated 18 June 2012, The Royal Bank of Scotland Group plc, RBS, RBS Holdings N.V., The Royal Bank of Scotland N.V. and RBS II B.V. have decided that, as a result of technology issues which have affected the Group in the UK and Ireland, it would be prudent to defer the implementation of the Dutch Scheme which was scheduled to take place on 9 July 2012. The Financial Services Authority has been advised of the delay and has no objections. De Nederlandsche Bank is aware of the delay. The Issuer will produce a supplement to its disclosure once the new effective date for the Dutch Scheme has been set, which is subject to regulatory and court approvals.
- 7 By virtue of this Supplement, the following shall be inserted at the end of the sub-section entitled “Recent Developments” in the section entitled “General Information” in each of the Base Prospectuses:

“FSA agreement in relation to interest rate swap products for SMEs

On 29 June 2012, RBS announced that it, in common with a number of other UK banks, had reached an agreement with the Financial Services Authority on an approach to the mis-selling issues surrounding interest rate swap products for SMEs. The agreement includes an independent review process which is intended to provide certainty for affected customers and other stakeholders. In respect of less sophisticated customers who entered into more complex swap products, RBS has agreed to provide direct and immediate redress. RBS is currently not able to reliably estimate the financial impact of this agreement.”.

- 1** This supplement dated 25 June 2012 (this “**Supplement**”) constitutes (i) the first supplement to each of the base prospectuses dated 25 May 2012 in relation to the Issuer’s LaunchPAD Programme for the issuance of Notes, Open End Certificates, Reverse Exchangeable Securities, Turbos and Warrants; and (ii) the second supplement to the base prospectus dated 25 May 2012 in relation to the Issuer’s LaunchPAD Programme for the issuance of Certificates, each approved by the Netherlands Authority for the Financial Markets (*Stichting Autoriteit Financiële Markten*, the “**AFM**”) on 25 May 2012 (the “**Base Prospectuses**” and, each, a “**Base Prospectus**”).
- 2** Each of the Base Prospectuses was approved as a base prospectus pursuant to Directive 2003/71/EC (the “**Prospectus Directive**”) by the AFM. This Supplement constitutes a supplemental prospectus to each of the Base Prospectuses for the purposes of Article 5:23 of the Financial Supervision Act (*Wet op het financieel toezicht*).
- 3** This Supplement is supplemental to, and should be read in conjunction with, each of the Base Prospectuses and any other supplements thereto issued by the Issuer. Terms defined in the Base Prospectuses have the same meanings when used in this Supplement.

- 4 In accordance with Article 5:23(6) of the Financial Supervision Act (*Wet op het financieel toezicht*), investors who have agreed to purchase or subscribe for securities issued under any of the Base Prospectuses before this Supplement is published have the right, exercisable before the end of the period of two working days beginning with the working day after the date on which this Supplement was published, to withdraw their acceptances.
- 5 The Issuer accepts responsibility for the information contained in this Supplement. To the best of the knowledge of the Issuer (which has taken all reasonable care to ensure that such is the case), the information contained in this Supplement is in accordance with the facts and does not omit anything likely to affect the import of such information.
- 6 On 24 February 2012, the registration document of The Royal Bank of Scotland plc dated 24 February 2012 (the “**Registration Document**”) was published via the Regulatory News Service of the London Stock Exchange plc. The Registration Document is incorporated by reference in each of the Base Prospectuses and has previously been filed with the AFM.
- 7 By virtue of this Supplement, the following information within the section entitled “Introduction” in the Registration Document shall no longer be incorporated by reference in any of the Base Prospectuses:
 - 7.1 the final sentence of the fourth paragraph of such section, which begins with the words “Moody’s Investors Service Limited”;
 - 7.2 the seventh paragraph of such section, which begins with the words “As defined by Moody’s”; and
 - 7.3 limb (ii) of the eighth paragraph of such section, which begins with the words “the ratings definitions set out above”.
- 8 By virtue of this Supplement, the following shall be inserted as a new sub-section entitled “Recent Developments - Ratings” in the section entitled “General Information” in each of the Base Prospectuses:

“Moody’s Investors Service Limited (“**Moody’s**”) is expected to rate: senior notes issued by RBS with a maturity of one year or more “A3”; senior notes issued by RBS with a maturity of less than one year “P-2”; and dated subordinated notes and undated tier 2 notes issued by RBS will be rated on a case-by-case basis.

As defined by Moody’s, an “A” rating means the capacity of the Issuer to meet its obligations on the relevant notes issued by it is considered to be upper-medium grade subject to low credit risk. As defined by Moody’s, the addition of a “3” indicates that the obligation ranks in the lower end of its generic rating category. As defined by Moody’s, a “P-2” rating means that the Issuer has a strong ability to repay its short-term debt obligations on the relevant notes issued by it.

The rating definitions set out above constitute third-party information and were obtained in the English language from the publication entitled “Rating Symbols and Definitions - June 2012” published by Moody’s (available at www.moody.com).

The rating definitions set out in this Base Prospectus have been accurately reproduced from the sources identified above and, so far as RBS is aware and is able to ascertain from information published by the third parties referred to above, no facts have been omitted which would render the ratings definitions set out above inaccurate or misleading.

A rating is not a recommendation to buy, sell or hold securities and may be subject to change, suspension or withdrawal at any time by the assigning rating agency.”

- 9 The amendments described in paragraphs 7 and 8 above arise following an announcement by Moody's on 21 June 2012 of revisions to the expected ratings of notes issued by RBS and those of certain other global banks and securities firms, reflecting changes in the Moody's rating methodology to assess global capital markets business models and its broader concerns about the additional pressures arising from a difficult Euro-zone operating environment. The Group (as defined in each of the Base Prospectuses) believes the impacts of this downgrade are manageable, bearing in mind its £153 billion liquidity portfolio. The amount of collateral that may have to be posted by the Group following this downgrade by Moody's is estimated to be £9 billion as of 31 May 2012.
- 10 By virtue of this Supplement, the final sentence of the sub-section entitled "Recent Developments – Proposals – Dutch Scheme" in the section entitled "General Information" in each of the Base Prospectuses which begins with the words "Subject to these matters" shall be deleted in its entirety and replaced by the following:
- "On 18 June 2012, the Court of Session in Scotland made an order, inter alia, approving the completion of the Merger for the purposes of Article 11 of Directive 2005/56/EC of the European Parliament and the Council of the European Union. It is expected that the Dutch Scheme will take effect on 9 July 2012."
- 11 A copy of this Supplement, the Base Prospectuses and all other supplements thereto and all documents incorporated by reference in the Base Prospectuses are accessible on <http://markets.rbs.com/bparchive> or <http://markets.rbs.com/launchpad> and can be obtained, on request, free of charge, by writing or telephoning, The Royal Bank of Scotland Group Investor Relations, 280 Bishopsgate, London EC2M 4RB, United Kingdom, telephone +44 207 672 1758, e-mail investor.relations@rbs.com.
- 12 To the extent that there is any inconsistency between (a) any statement in this Supplement and (b) any other statement in any of the Base Prospectuses or any previous supplement to the Base Prospectuses, the statements referred to in (a) above will prevail.
- 13 Save as disclosed in any previous supplement to any of the Base Prospectuses or this Supplement, no other significant new factor, material mistake or inaccuracy relating to information included in the Base Prospectuses (as supplemented at the date hereof) has arisen or has been noted since the publication of the each of the Base Prospectuses.

ANY STABILISATION ACTION OR OVER-ALLOTMENT MUST BE CONDUCTED BY THE RELEVANT STABILISING MANAGER(S) (OR PERSONS ACTING ON BEHALF OF ANY STABILISATION MANAGER(S)) IN ACCORDANCE WITH ALL APPLICABLE LAWS AND RULES.

FOR UNITED KINGDOM TAX PURPOSES, THE TERM “SECURITY” OR “SECURITIES” REFERS TO INSTRUMENTS OF THE TYPE DESCRIBED IN THIS BASE PROSPECTUS AND IS NOT INTENDED TO BE DETERMINATIVE (OR INDICATIVE) OF THE NATURE OF THE INSTRUMENT FOR THE PURPOSES OF UNITED KINGDOM TAXATION.

SUMMARY

This summary must be read as an introduction to this Base Prospectus and any decision to invest in any Securities should be based on a consideration of this Base Prospectus as a whole, including the documents incorporated by reference. No civil liability attaches to the Issuer in respect of this Summary, including any translation thereof, unless it is misleading, inaccurate or inconsistent when read together with the other parts of this Base Prospectus. Where a claim relating to information contained in this Base Prospectus is brought before a court in a Member State of the European Economic Area (an “EEA State”), the claimant may, under the national legislation of the EEA State where the claim is brought, be required to bear the costs of translating the Base Prospectus before the legal proceedings are initiated.

Words and expressions defined elsewhere in this Base Prospectus shall have the same meanings in this summary.

Issuer:

The Royal Bank of Scotland plc (the “**Issuer**” or “**RBS**”)

The Issuer is a public limited company incorporated in Scotland with registration number SCO90312 and was incorporated under Scots law on 31 October 1984. The Issuer (together with its subsidiaries, the “**Issuer Group**”) is a wholly owned subsidiary of The Royal Bank of Scotland Group plc (“**RBSG**” (RBSG together with its subsidiaries consolidated in accordance with International Financial Reporting Standards, the “**Group**”)). RBSG is the holding company of a large global banking and financial services group. Headquartered in Edinburgh, the Group operates in the United Kingdom, the United States and internationally through its principal subsidiaries, the Issuer and National Westminster Bank Plc (“**NatWest**”). Both the Issuer and NatWest are major United Kingdom clearing banks. In the United States, the Group’s subsidiary, Citizens Financial Group, Inc. is a large commercial banking organisation. Globally, the Group has a diversified customer base and provides a wide range of products and services to personal, commercial and large corporate and institutional customers.

The Group had total assets of £1,507 billion and owners’

equity of £75 billion as at 31 December 2011. The Group's capital ratios as at 31 December 2011 were a total capital ratio of 13.8 per cent., a Core Tier 1 capital ratio of 10.6 per cent. and a Tier 1 capital ratio of 13.0 per cent.

The Issuer Group had total assets of £1,432.8 billion and owners' equity of £61.7 billion as at 31 December 2011. As at 31 December 2011, the Issuer Group's capital ratios were a total capital ratio of 14.6 per cent., a Core Tier 1 capital ratio of 9.2 per cent. and a Tier 1 capital ratio of 11.0 per cent.

In 2007, RFS Holdings B.V. ("**RFS Holdings**"), which was jointly owned by the Group, the Dutch State (successor to Fortis Bank Nederland (Holding) N.V.) and Banco Santander, S.A. (together, the "**Consortium Members**"), completed the acquisition of ABN AMRO Holding N.V.

On 6 February 2010, the businesses of ABN AMRO Holding N.V. acquired by the Dutch State were legally demerged to a newly established company, ABN AMRO Bank N.V. which on 1 April 2010 was transferred to ABN AMRO Group N.V., itself owned by the Dutch State.

Following legal separation, RBS Holdings (formerly ABN AMRO Holding N.V.) has one operating subsidiary, The Royal Bank of Scotland N.V. ("**RBS N.V.**"), a fully operational bank within the Group. RBS N.V. is independently rated and regulated by the Dutch Central Bank. Certain assets within RBS N.V. continue to be shared by the Consortium Members.

Risk Factors:

Risks Relating to the Issuer

Certain factors may affect the Issuer's ability to fulfil its obligations under the Securities, including:

- The Group's businesses and performance can be negatively affected by actual or perceived global economic and financial market conditions and by other geopolitical risks.
- The Group's ability to meet its obligations including its funding commitments depends on the Group's ability to

access sources of liquidity and funding.

- The Independent Commission on Banking has published its final report on competition and possible structural reforms in the UK banking industry. The UK Government has indicated that it supports and intends to implement the recommendations substantially as proposed, which could have a material adverse effect on the Group.
- The Group's ability to implement its strategic plan depends on the success of the Group's refocus on its core strengths and its balance sheet reduction programme.
- The occurrence of a delay in the implementation of (or any failure to implement) the approved proposed transfers of a substantial part of the business activities of The RBS N.V. to RBS may have a material adverse effect on the Group.
- The Group is subject to a variety of risks as a result of implementing the state aid restructuring plan and is prohibited from making discretionary dividend or coupon payments on existing hybrid capital instruments (including preference shares and B shares) which may impair the Group's ability to raise new Tier 1 capital.
- RBSG and its United Kingdom bank subsidiaries may face the risk of full nationalisation or other resolution procedures under the Banking Act 2009 which may result in various actions being taken in relation to any Securities.
- The financial performance of the Group has been, and continues to be, materially affected by deteriorations in borrower and counterparty credit quality and further deteriorations could arise due to prevailing economic and market conditions, and legal and regulatory developments.
- The Group's earnings and financial condition have been, and its future earnings and financial condition may continue to be, materially affected by depressed asset valuations resulting from poor market conditions.

- The value or effectiveness of any credit protection that the Group has purchased depends on the value of the underlying assets and the financial condition of the insurers and counterparties.
- Changes in interest rates, foreign exchange rates, credit spreads, bond, equity and commodity prices, basis, volatility and correlation risks and other market factors have significantly affected and will continue to affect the Group's business and results of operations.
- The Group's borrowing costs, its access to the debt capital markets and its liquidity depend significantly on its and the United Kingdom Government's credit ratings.
- The Group's business performance could be adversely affected if its capital is not managed effectively or as a result of changes to capital adequacy and liquidity requirements.
- The Group is and may be subject to litigation and regulatory investigations that may have a material impact on its business.
- The value of certain financial instruments recorded at fair value is determined using financial models incorporating assumptions, judgements and estimates that may change over time or may ultimately not turn out to be accurate.
- The Group operates in markets that are highly competitive and its business and results of operations may be adversely affected.
- The Group could fail to attract or retain senior management, which may include members of the board, or other key employees, and it may suffer if it does not maintain good employee relations.
- Each of the Group's businesses is subject to substantial regulation and oversight. Significant regulatory developments, including changes in tax law, could have an

adverse effect on how the Group conducts its business and on its results of operations and financial condition.

- The Group's results could be adversely affected in the event of goodwill impairment.
- The Group may be required to make further contributions to its pension schemes if the value of pension fund assets is not sufficient to cover potential obligations.
- Operational risks are inherent in the Group's businesses.
- HM Treasury (or UKFI on its behalf) may be able to exercise a significant degree of influence over the Group and any proposed offer or sale of its interests may affect the price of the Securities.
- The Group's operations have inherent reputational risk.
- In the United Kingdom and in other jurisdictions, the Group is responsible for contributing to compensation schemes in respect of banks and other authorised financial services firms that are unable to meet their obligations to customers.
- The recoverability and regulatory capital treatment of certain deferred tax assets recognised by the Group depends on the Group's ability to generate sufficient future taxable profits and there being no adverse changes to tax legislation, regulatory requirements or accounting standards.
- The Group's participation in the asset protection scheme is costly and may not produce the benefits expected and the occurrence of associated risks may have a material adverse impact on the Group's business, capital position, financial condition and results of operations.
- The extensive governance, asset management and information requirements under the scheme conditions may have an adverse impact on the Group and the expected benefits of the asset protection scheme.

- Any changes to the expected regulatory capital treatment of the asset protection scheme, the B shares or the contingent B shares may have a material adverse impact on the Group.
- RBS has entered into a credit derivative and a financial guarantee contract with RBS N.V. which may adversely affect the Issuer Group's results.
- If the Group is unable to issue the contingent B shares to HM Treasury, it may have a material adverse impact on the Group's capital position, liquidity, operating results and future prospects.
- *Risks Relating to the Securities*

Certain factors represent risks inherent in investing in the Securities issued, including:

- The Securities are notes which may or may not bear interest. Securities which are not capital protected may result in the holder of the Securities (each, a "**Holder**" and together, the "**Holders**") losing some or all of their investment. Securities where the interest amount paid is dependant on the performance of the Underlying may result in the Holder receiving no or only a limited periodic return on his investment.
- The Securities may not be a suitable investment for all investors and each potential investor must determine the suitability in light of its own circumstances. Some Securities are complex financial instruments and a potential investor should not invest in such Securities unless it has the relevant expertise.
- Several factors will influence the value of the Securities and many of which are beyond the Issuer's control. Such factors include changes in the value of the Underlying, interest rate risk with respect to the currency of denomination of the Underlying and/or the Securities, the volatility of the Underlying, fluctuations in the rates of

exchange or value of currencies relating to the Securities and/or the Underlying, restrictions on the exchangeability of currencies relating to the Securities and/or the Underlying, disruptions affecting the value or settlement of the Securities and/or the Underlying and the creditworthiness of the Issuer.

- There may not be a secondary market in the Securities. As a consequence, liquidity in the Securities should be considered as a risk. In the event that such a secondary market does not develop, an investor selling the Securities is unlikely to be able to sell its Securities or at prices that will provide him with a yield comparable to similar investments that have developed a secondary market.
- As part of its issuing, market making and/or trading arrangements, the Issuer may issue more Securities than those which are to be subscribed or purchased by third-party investors. The issue size is therefore not indicative of the depth or liquidity of the market or of the demand for such Series of Securities.
- The Securities may not be a perfect hedge to an Underlying nor may it be possible to liquidate the Securities at a level which directly reflects the price of the Underlying.
- The Issuer and/or its affiliates may enter into transactions or carry out other activities in relation to the Underlying which may affect the market price, liquidity or value of the Underlying and/or the Securities in a way which could be adverse to the interests of the Holders.
- The Issuer's hedge position (if any) in the jurisdiction of the relevant Underlying could be impacted by foreign exchange control, or other similar, restrictions. In certain circumstances, including the insolvency of the hedging counterparty or the unenforceability of the associated hedging transaction (if any), the investor may lose some or

all of its investment.

- The Securities convey no interest in the Underlying to the investors. The Issuer may choose not to hold the Underlying or any derivative contracts linked to the Underlying.
- The Calculation Agent is the agent of the Issuer and not the Holders. The Calculation Agent may make adjustments as a result of certain corporate or other actions affecting the Underlying. In making such adjustments, the Calculation Agent is entitled to exercise substantial discretion and may be subject to conflicts of interest.
- Taxes may be payable by purchasers and sellers of the Securities and tax regulations and their application may change from time to time.
- If payments on the Securities are or become subject to a withholding or deduction required by law, none of the Issuer, the Principal Agent nor any other person shall pay any additional amounts to the Holders in respect of such withholding or deduction.
- The Issuer may elect to terminate the Securities early should U.S. withholding tax apply to any current or future payments on the Securities.
- The Issuer may terminate the Securities early if it determines that the performance of its obligations under the Securities or that maintaining its hedging arrangement (if any) is no longer legal or practical in whole or in part for any reason.
- Where the Securities are held in global or dematerialised form by or on behalf of a clearing system, the Issuer and any Agent shall treat the bearer of the Securities or the relevant clearing system as the sole holder of such Securities. Holders must look to the relevant clearing system in respect of payments made in respect of such

Securities.

- Where an investor uses a nominee service provider or holds interests in Securities through accounts with a clearing system, such investor will receive payments in respect of the Securities solely on the basis of the arrangements with such third party and is exposed to the credit risk and default risk of such third party.
- An investor's total return on an investment in any Securities will be affected by the level of fees charged by any nominee service provider or clearing system used by the investor.
- No assurance can be given as to the impact of any possible change to English law or administrative practice. English law may be materially different from the equivalent law in the home jurisdiction of prospective investors.
- Credit ratings assigned to the Securities may not reflect the potential impact of all the risks that may affect the value of the Securities.
- The investment activities of investors may be restricted by legal investment laws and regulations, or by the review or regulation by certain authorities.
- The Issuer may make modifications to the Securities without the consent of the Holders which may affect the Holders' interest for the purpose of curing an error or ambiguity, substituting itself as debtor or in any other manner which is not materially prejudicial to the interests of the Holders.

Listing and Admission to Trading:

Application will be made to NYSE Euronext or any other stock exchange or market specified in the Final Terms for Securities to be admitted to trading and listed on Euronext

Amsterdam by NYSE Euronext or any other stock exchange or market specified in the Final Terms up to the expiry of 12 months from the date of this Base Prospectus. The Issuer may also issue unlisted Securities.

Description of the Securities:

A range of notes may be issued under this Base Prospectus. The terms and conditions (the “**Conditions**”) applicable to such notes are contained in the General Conditions which are applicable to all notes, the Product Conditions applicable to the particular type of note being issued, the applicable Additional Conditions (if any) and the Final Terms applicable to the particular Series being issued.

The notes are investment instruments which may or may not bear interest and which, at maturity or earlier termination, either pay a cash amount which may or may not be equal to the nominal amount of the relevant note, less certain expenses (the “**Cash Amount**”) or, in the case of exchangeable notes, permit the Holder to exchange his note for, depending on the terms of the relevant note, a defined amount of the Underlying (as defined below) or an amount in cash calculated by reference to the value of the Underlying (the “**Conversion Amount**”). The amount of interest to be paid and/or the Cash Amount and/or the Conversion Amount may or may not be dependent upon the performance of an underlying reference rate, share, index (including in the case of an index, the index and its constituent elements) or basket (each an “**Underlying**” and together the “**Underlyings**”), in all cases, as provided in the terms of the relevant note. The types of note that may be issued under this Base Prospectus are described below.

Range Accrual Notes:

Range accrual notes are interest bearing cash settled securities. Range accrual notes are redeemed at a percentage of their nominal amount. The amount of interest paid on a range accrual note depends on the performance of one or more underlying reference rates, as specified in the applicable Final Terms. Typically, interest will accrue for each relevant day in an interest period on which the Underlying performs in the

manner specified in the Final Terms but will not accrue in respect of other days. Interest on a range accrual note may also be paid at a pre-determined specified rate for certain interest periods specified in the applicable Final Terms.

Ladder Notes:

Ladder notes are interest bearing cash settled securities which may be called by the Issuer on specified dates. Ladder notes are redeemed at a percentage of their nominal amount. The amount of interest paid on a ladder note depends on the performance of an underlying reference rate, as specified in the applicable Final Terms. Typically, interest will be paid in respect of each interest period either at a pre-determined specified rate or at the difference between a pre-determined specified rate and an identified floating rate for the relevant interest period, subject in the latter case to any minimum rate specified for the relevant interest period, all as specified in the applicable Final Terms.

Target Coupon Notes:

Target coupon notes are interest bearing cash settled securities. Target coupon notes are redeemed at a percentage of their nominal amount. The amount of interest paid on a target coupon note depends on the performance of one or more underlying shares, as specified in the applicable Final Terms. Typically, a target interest amount will be set which, if reached prior to maturity, may result in early termination of the securities. In certain cases additional interest amounts may also be paid as specified in the applicable Final Terms.

Rate Notes:

Rate notes are cash settled securities which may or may not bear interest and are redeemed at their nominal amount or a stated percentage thereof. The amount of interest paid on a rate note may depend on the performance of one or more underlying reference rates and/or may be determined by reference to a fixed rate or rates, as specified in the applicable Final Terms.

Zero Coupon Notes:

Zero coupon notes are cash settled securities which are issued at a percentage of the nominal amount and which do not bear any interest.

Currency Exchange Notes:

Currency exchange notes are cash settled securities which may or may not bear interest and are redeemed at (i) their nominal amount or a stated percentage thereof or (ii) an amount equal to a percentage of the Underlying as specified in the applicable Final Terms. The amount of interest paid on a currency exchange note will depend on the performance of one or more underlying currency exchange rates, as specified in the applicable Final Terms.

Yield Discovery Notes:

Yield discovery notes are capital protected interest bearing cash settled securities. Yield discovery notes are redeemed at their nominal amount. The amount of interest paid on a yield discovery note depends on the performance of an underlying basket of shares, as specified in the applicable Final Terms. The maximum rate of interest so determined may be capped at the level specified in the applicable Final Terms. Interest on a yield discovery note may also be paid at a pre-determined specified rate for certain interest periods as specified in the applicable Final Terms. The rate of interest for certain interest periods may be at least the level of the previous year.

Certificate Notes:

Certificate notes are cash settled securities which may or may not be interest bearing or capital protected. The Cash Amount payable at maturity of a certificate note will at least equal its nominal amount (if it is capital protected) plus a return (which may be zero) calculated by reference to the performance of one or more underlying certificates, as specified in the applicable Final Terms.

Index Notes:

Index notes are cash settled securities which may be partially or fully capital protected and may be interest bearing. If applicable, interest may be payable at a rate specified in the applicable Final Terms. The Cash Amount payable at maturity on an index note will at least equal a specified percentage of its nominal amount but may be higher than that amount and may be subject to a capped maximum gain depending on the performance of the Underlying, as specified in the applicable Final Terms.

Inflation Index Notes:

Inflation index notes are fixed-income securities that track an inflation index. The Cash Amount payable at maturity on an inflation index note may equal a specified percentage of its nominal amount but may depend on the performance of the inflation index, as specified in the applicable Final Terms.

Callable Index Notes:

Callable index notes are non-interest bearing cash settled securities. The Cash Amount payable on the note will depend on the performance of the underlying index specified in the applicable Final Terms. If during the life of the note the Issuer determines that an early redemption event has occurred, the note may be redeemed at an amount determined in the manner specified in the applicable Final Terms. If, by the maturity date, an early redemption event has not occurred, the Cash Amount paid in respect of the note will depend upon the performance of the Underlying at maturity and may be less than the nominal amount of the note.

Autocallable Notes:

Autocallable Notes are cash settled or physically settled (if specified in the applicable Final Terms) securities which may or may not be capital protected and may be interest bearing. The Cash Amount payable on, and the maturity date of, the note will depend on the performance of the Underlying specified in the applicable Final Terms. If on specified dates during the life of the note the level of the Underlying performs in a specified manner (an “**Early Termination Event**”), the note will be redeemed at its nominal amount plus an additional amount specified in the applicable Final Terms. If, by the maturity date, an Early Termination Event has not occurred, the Cash Amount paid in respect of the note will depend upon the performance of the Underlying at maturity and may be less than the nominal amount of the note.

Share Notes:

Share notes are cash settled securities and may be interest bearing. If applicable, interest may be payable on a share note at a rate specified in the applicable Final Terms. The Cash Amount payable at maturity of a share note may be at least

equal to a specified percentage of its nominal amount, may be subject to a capped gain and/or may depend on the performance of the Underlying, as specified in the applicable Final Terms.

Exchangeable Notes:

Exchangeable notes may be cash settled or physically settled securities and may be interest bearing. If applicable, interest may be payable on an exchangeable note at a rate specified in the applicable Final Terms. The cash amount payable at maturity of a cash settled exchangeable note may be at least equal to a specified percentage of its nominal amount, may be subject to a capped gain and/or may depend on the performance of the Underlying, as specified in the applicable Final Terms. In the case of a physically settled exchangeable note, the share amount to be delivered will be determined by reference to the performance of the underlying share in the manner specified in the applicable Final Terms.

Multi-Asset Basket Linked Notes:

Multi-asset Basket Linked Notes are cash settled securities which may be partially or fully capital protected and may be interest bearing. If applicable, interest may be payable at a rate specified in the applicable Final Terms. The cash amount payable at maturity on a note will at least equal a specified percentage of its Nominal Amount but may be higher than that amount and may be subject to a capped maximum gain depending on the performance of the Underlying, as specified in the applicable Final Terms.

Fund Linked Notes:

Fund linked notes are cash settled securities which may be partially or fully capital protected and may be interest bearing. If applicable, interest may be payable at a rate specified in the applicable Final Terms.

Basket related Capital Protected Notes:

Basket related capital protected notes enable investors to participate in the performance of one or more baskets of different components relating to the relevant Series (including, without limitation and as specified in the applicable Final Terms, an index component, a real estate index component, a commodity component or a bond index component). In

addition to capital protection, an investor may, as specified in the applicable Final Terms, receive an additional amount depending on the performance of one or more baskets of different components. If specified in the applicable Final Terms, an Interim Cash Settlement Amount or Interest Amount (each as defined in the applicable Final Terms) will be payable (subject to any applicable conditions being met) on the Interim Cash Settlement Amount Payment Date or each Interest Payment Date, as the case may be.

Commodity Notes:

Commodity notes are cash settled securities which may be partially or fully capital protected and may or may not be interest bearing. The Cash Amount payable at maturity of a commodity note is calculated by reference to the performance of one or more underlying commodities, as specified in the applicable Final Terms.

Index and Inflation Index Notes:

Index and Inflation Index notes are cash settled securities which are redeemed at their nominal amount or a stated percentage thereof, and may be interest bearing. If applicable, interest will be payable at a rate specified in the applicable Final Terms; that may depend upon the performance of both the index and the inflation index to which the notes are linked.

Indicative Issue Price:

The Securities will be issued at their nominal amount or a percentage thereof.

Maturity:

The Securities have a fixed maturity date, as specified in the applicable Final Terms, but may be subject to early termination in the event that the level of the Underlying exceeds a level specified in the applicable Final Terms or if the Issuer has a call option.

Interest:

The Securities may bear interest, as specified in the applicable Final Terms.

General Conditions:

Set out below is a summary of certain significant provisions of the General Conditions applicable to all Securities issued under this Base Prospectus.

Status of the Securities:

The Securities constitute unsecured and unsubordinated obligations of the Issuer and rank pari passu among themselves and with all other present and future unsecured and unsubordinated obligations of the Issuer save for those preferred by mandatory provisions of law.

Early Termination:

The Issuer may terminate any Securities if it shall have determined in its absolute discretion that its performance thereunder shall have become unlawful in whole or in part as a result of compliance in good faith by the Issuer with any applicable law. In such circumstances the Issuer will, to the extent permitted by law, pay to each Holder in respect of each Security held by such Holder an amount calculated by it as the fair market value of the Security immediately prior to such termination (ignoring such illegality) less the cost to the Issuer of unwinding any related hedging arrangements.

The Issuer may terminate any Securities if it shall have determined in its absolute discretion that payments made on the Securities are, in whole or in part, directly or indirectly contingent upon, or determined by reference to, the payment of a dividend from a U.S. entity and that these payments have or will become subject to U.S. withholding tax. In such circumstances the Issuer will, to the extent permitted by law, pay to each Holder in respect of each Security held by such Holder an amount calculated by it as the fair market value of the Security immediately prior to such termination less the cost to the Issuer of unwinding any related hedging arrangements and of paying any required U.S. withholding tax.

Hedging Disruption:

If a Hedging Disruption Event (as defined in General Condition 5) occurs, the Issuer will at its discretion (i) terminate the Securities and pay to each Holder in respect of each Security held by such Holder an amount calculated by it as the fair market value of the Security immediately prior to such termination less the cost to the Issuer of unwinding any related hedging arrangements or (ii) make a good faith adjustment to the relevant reference asset as described in

General Condition 5(c) or (iii) make any other adjustment to the Conditions as it considers appropriate in order to maintain the theoretical value of the Securities after adjusting for the relevant Hedging Disruption Event. The Issuer may make adjustments following any event likely to have a material adverse effect on the Issuer's hedge position, subject to the conditions set out in General Condition 5(d).

Substitution:

The Issuer may at any time, without the consent of the Holders substitute for itself as Issuer of the Securities any entity subject to the conditions set out in General Condition 8. In certain cases, substitution may be required to be effected in accordance with the rules of one or more clearing systems specified in the applicable Final Terms.

Taxation:

The Holder (and not the Issuer) shall be liable for and/or pay any tax, duty or charge in connection with the ownership of and/or any transfer, payment or delivery in respect of the Securities held by such Holder. The Issuer shall have the right, but shall not be obliged, to withhold or deduct from any amount payable to any Holder such amount as shall be necessary to account for or to pay any such tax, duty, charge, withholding or other payment.

Events of Default:

The terms of the Securities will contain the following events of default:

- (a) default in payment of any principal or interest due in respect of the Securities, continuing for a specified period of time;
- (b) non-performance or non-observance by the Issuer of any of its other obligations under the Securities continuing for a specified period of time; and
- (c) events relating to the winding up of the Issuer.

Product Conditions:

Set out below is a summary of certain significant provisions of the Product Conditions applicable to the Securities to be issued under this Base Prospectus.

Form of Securities:

The Securities, other than Securities issued in dematerialised form, will be issued in global bearer form. If SIX SIS Ltd is specified as Clearing Agent, Securities will, following their issuance, be transformed into intermediated securities in accordance with article 6 of the Swiss Federal Intermediated Securities Act.

If CREST (defined below under “General Information” – “Clearing and Settlement Systems”) is specified as the Clearing Agent in the applicable Final Terms, notwithstanding any provisions to the contrary contained in this Base Prospectus, the Securities will be registered Securities in dematerialised and uncertificated form.

Settlement of Securities:

Securities shall be cash settled or, in the case of exchangeable notes, either cash settled or physically settled, as specified in the applicable Final Terms.

Market Disruption Events:

If a Market Disruption Event occurs Holders of Securities may experience a delay in settlement or delivery and the cash price paid or share amount delivered, as the case may be, on settlement may be adversely affected. Market Disruption Events are defined in Product Condition 4 for each type of Security and vary depending on the type of Security.

Emerging Market Disruption Events:

The Emerging Market Disruption Events reflect the substantial risks associated with investing in emerging markets in addition to those risks normally associated with making investments in other countries. Potential investors should note that the securities markets in emerging market jurisdictions are generally substantially smaller and at times have been more volatile and illiquid than the major securities markets in more developed countries. If an Emerging Market Disruption Event occurs Holders may experience a delay in settlement or delivery and the cash price paid on settlement may be adversely affected. Emerging Market Disruption Events are defined in Product Condition 1 for each type of Security.

Settlement Disruption Event:

If a Settlement Disruption Event occurs in relation to a physically settled certificate, the Holder may experience a

delay in delivery of the Underlying and, where a cash price equivalent to the value of the Underlying is paid in lieu of delivery of the Underlying, the cash price paid may be adversely affected. Settlement Disruption Events are defined in the Product Conditions for Securities which may be physically settled and vary depending on the type of Security.

Potential Adjustment Event:

If a Potential Adjustment Event occurs the Calculation Agent may adjust one or more of the Conditions to account for the diluting or concentrative effect of the Potential Adjustment Event. Potential Adjustment Events are defined in Product Condition 4 for each type of Security (if applicable) and vary depending on the type of Security.

Fund Event:

If a Fund Event occurs, the Issuer or the Calculation Agent on its behalf, in each case acting in good faith and in a commercially reasonable manner, may adjust one or more of the Conditions to reflect the impact of the Fund Event, or may terminate the Securities. Fund Events are defined in Product Condition 4 for each type of Security (if applicable).

Adjustments to an Index:

The Calculation Agent may adjust the level of an index Underlying upon the occurrence of certain specified events in connection with any component share(s) of such index or any other similar event having a dilutive or concentrative effect on the theoretical value of any such share(s). The Calculation Agent may be required by the Issuer to terminate the Securities following a material modification of an index Underlying.

De-listing, Merger Event, Nationalisation or Insolvency:

If a De-listing, Merger Event, Nationalisation or Insolvency occurs, the Issuer may require the Calculation Agent to adjust one or more of the Conditions, including replacing the relevant Underlying, to account for such event or may cancel the Securities. De-listing, Merger Event, Nationalisation and Insolvency are each defined in Product Condition 4 for each type of Security (if applicable).

Governing Law:

English law.

English courts:

The courts of England have exclusive jurisdiction to settle any

dispute arising from or in connection with the Securities.

Final Terms:

Each Series will be the subject of a Final Terms which will contain the final terms applicable to the Series. The form of the Final Terms applicable to each type of Security is set out in this Base Prospectus.

The Final Terms applicable to each Series may specify amendments to the General Conditions and/or the relevant Product Conditions as they apply to that Series.

RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under Securities issued. Most of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring.

In addition, factors which are material for the purpose of assessing the market risks associated with Securities issued are also described below.

The Issuer believes that the factors described below represent the principal risks inherent in investing in Securities issued, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Securities, or to perform any delivery obligations in relation to the Securities, may occur for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Securities are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

Before making an investment decision with respect to any Securities, prospective investors should consult their own stockbroker, bank manager, lawyer, accountant or other financial, legal and tax advisers and carefully review the risks entailed by an investment in the Securities and consider such an investment decision in the light of the prospective investor's personal circumstances.

Words and expressions defined elsewhere in this Base Prospectus shall have the same meaning in this section.

Factors that may affect the Issuer's ability to fulfil its obligations under Securities issued

Each potential investor in the Securities should refer to the Risk Factors section in the Registration Document incorporated by reference in this Base Prospectus for a description of those factors which may affect the Issuer's ability to fulfil its obligations under Securities issued.

Factors which are material for the purpose of assessing the market risks associated with Securities issued

The Securities are notes which entail particular risks

The notes to be issued are investment instruments which may or may not bear interest and which (except in the case of exchangeable notes) at maturity or earlier termination pay the Cash Amount which may or may not be equal to the nominal amount of the relevant note. In the case of exchangeable notes, the Holder has the option at maturity or earlier termination to exchange the notes for a defined amount of the Underlying or the Conversion Amount, depending upon the terms of the exchangeable securities. As such, each note will

entail particular risks. Notes which are not capital protected may result in the Holder losing some or, in certain limited cases, all of his initial investment. Notes where the interest amount paid is dependent upon the performance of the Underlying may result in the Holder receiving no or only a limited periodic return on his investment.

The price at which a Holder will be able to sell notes prior to their redemption may be at a potentially substantial discount to the market value of the notes at the issue date, if, at such time and in addition to any other factors, the value of the Underlying is below, equal to or not sufficiently above the value of the Underlying at the issue date.

The Securities may not be a suitable investment for all investors

Each potential investor in the Securities must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of the Securities, the merits and risks of investing in the Securities and the information contained or incorporated by reference in this Base Prospectus or any applicable Final Terms;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Securities and the impact the Securities will have on its overall investment portfolio;
- (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Securities, including Securities with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (d) understand thoroughly the terms of the Securities and be familiar with the behaviour of any relevant indices and financial markets;
- (e) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks; and
- (f) NOT consider that the issue of Securities linked to a particular Underlying is a recommendation by the Issuer or any Dealer to invest (whether directly or indirectly) in that Underlying or any of its constituent elements. The Issuer and/or its affiliates may make investment decisions for themselves which differ from those that a potential investor would make by investing in the Securities. In particular, investment decisions of the Issuer and/or its affiliates are based on their current economic circumstances, overall credit exposure, risk tolerance and economic conditions, which are subject to change. The Issuer is not required to hold the Underlying (or its constituent elements) as a hedge and it may choose not to do so.

Some Securities are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Securities which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Securities will perform under changing conditions, the resulting effects on the value of the Securities and the impact this investment will have on the potential investor's overall investment portfolio.

The value of the Securities may fluctuate

The value of the Securities may move up and down between their date of purchase and their maturity date. Holders may sustain a total loss of their investment (unless the Securities are of a type in which capital is protected). Prospective purchasers should therefore ensure that they understand fully the nature of the Securities before they invest in the Securities.

Several factors, many of which are beyond the Issuer's control, will influence the value of the Securities at any time, including the following:

- (a) *Valuation of the Underlying.* The market price of the Securities at any time is expected to be affected primarily by changes in the level of the Underlying to which such Securities are linked. It is impossible to predict how the value of the relevant Underlying will vary over time. Factors which may have an affect on the value of the Underlying include, in the case of a stock or index, the rate of return of the Underlying and the financial position and prospects of the issuer of the Underlying or any component thereof. In addition, the value of the Underlying may depend on a number of interrelated factors, including economic, financial and political events and their effect on the capital markets generally and relevant stock exchanges. Potential investors should also note that whilst the market value of the Securities is linked to the relevant Underlying and will be influenced (positively or negatively) by it, any change may not be comparable and may be disproportionate. It is possible that while the Underlying is increasing in value, the value of the Securities may fall. Further, where no market value is available for an Underlying, the Calculation Agent may determine its value to be zero notwithstanding the fact that there may be no Market Disruption Event (including an Emerging Market Disruption Event) and/or no Potential Adjustment Events and/or no De-listing and/or no Fund Event which apply.
- (b) *Interest Rates.* Investments in the Securities may involve interest rate risk with respect to the currency of denomination of the Underlying and/or the Securities. A variety of factors influence interest rates such as macro economic, governmental, speculative and market sentiment factors. Such fluctuations may have an impact on the value of the Securities at any time prior to valuation of the Underlying relating to the Securities.

- (c) *Volatility.* The term “volatility” refers to the actual and anticipated frequency and magnitude of changes of the market price with respect to an Underlying. Volatility is affected by a number of factors such as macro economic factors, speculative trading and supply and demand in the options, futures and other derivatives markets. Volatility of an Underlying will move up and down over time (sometimes more sharply than others) and different Underlyings will most likely have separate volatilities at any particular time.
- (d) *Exchange Rates.* Even where payments in respect of the Securities are not expressly linked to a rate or rates of exchange between currencies, the value of the Securities could, in certain circumstances, be affected by such factors as fluctuations in the rates of exchange between any currency in which any payment in respect of the Securities is to be made and any currency in which the Underlying is traded, appreciation or depreciation of any such currencies and any existing or future governmental or other restrictions on the exchangeability of such currencies. There can be no assurance that rates of exchange between any relevant currencies which are current rates at the date of issue of any Securities will be representative of the relevant rates of exchange used in computing the value of the relevant Securities at any time thereafter. If the Securities are denominated in the lawful currency of the People’s Republic of China (which for the purpose of this document, excludes the Hong Kong Special Administrative Region of the People’s Republic of China, the Macau Special Administrative Region of the People’s Republic of China and Taiwan) (“**CNY**”), please also refer to the risk factor below entitled “Risks in relation to Securities denominated in CNY only”.
- (e) *Disruption.* If so indicated in the Conditions, the Calculation Agent may determine that a Market Disruption Event (which includes Emerging Market Disruption Events), Fund Event, Potential Adjustment Event and/or De-listing has occurred or exists at a relevant time. Any such determination may affect the value of the Securities and/or may delay settlement in respect of the Securities. In addition, if so indicated in the Conditions, a Calculation Agent may determine that a Settlement Disruption Event has occurred or exists at any relevant time in relation to a physically settled note. Any such determination may cause a delay in delivery of the Underlying and, where a cash price equivalent to the value of the Underlying is paid in lieu of delivery of the Underlying, the cash price paid may be adversely affected.
- Prospective purchasers should review the Conditions to ascertain whether and how such provisions apply to the Securities.
- (f) *Creditworthiness.* Any person who purchases the Securities is relying upon the creditworthiness of the Issuer and has no recourse, in that respect, against any other person. The Securities constitute general, unsecured, contractual obligations of the Issuer and of no other person. Investors in Securities may therefore lose the entire value of their investment or part of it. The Securities rank pari passu among themselves.

There may not be a secondary market in the Securities

Potential investors should be willing to hold the Securities through their life. The nature and extent of any secondary market in the Securities cannot be predicted. As a consequence any person intending to hold the Securities should consider liquidity in the Securities as a risk. If the Securities are listed or quoted on an exchange or quotation system this does not imply greater or lesser liquidity than if equivalent Securities were not so listed or quoted. However, if Securities are not listed or quoted there may be a lack of transparency with regard to pricing information. Liquidity may also be affected by legal restrictions on offers for sale in certain jurisdictions. The Issuer may affect the liquidity of the Securities by purchasing and holding the Securities for its own account during trading in the secondary market. Any such Securities may be resold at any time into the market.

The Issuer may, in its sole and absolute discretion, decide to offer a secondary market in the Securities. In the event that the Issuer elects to offer such secondary market, the Issuer shall be entitled to impose such conditions as it, in its sole and absolute discretion, shall deem fit, including but not limited to:

- (a) providing a large bid/offer spread determined by the Issuer in its sole and absolute discretion by reference to the Issuer's own appreciation of the risks involved in providing such secondary market;
- (b) providing the timing that any secondary market quotation will remain actionable, or in any event, not longer than what the Issuer considers a reasonable time;
- (c) normal market conditions prevailing at such date; and
- (d) limiting the number of Securities in respect of which it is prepared to offer such secondary market.

Holders should note that the imposition of any of the above conditions may severely limit the availability of any such secondary market and may result in Holders receiving significantly less than they otherwise would have received if the Securities were redeemed at maturity.

The Issuer may determine a secondary market price in a different manner than other market participants, and prices can vary. Sometimes this variance may be substantial. If the Securities are not traded on any exchange, pricing information may be more difficult to obtain and the liquidity and price of the Securities may be adversely affected. The bid/offer spread will be subject to the Issuer's discretion. Any market making activity commenced may be discontinued at any time.

In the event that a secondary market does not develop, it is unlikely that an investor in the Securities will be able to sell his Securities or at prices that will provide him with a yield comparable to similar investments that have a developed secondary market.

Over-Issuance

As part of its issuing, market-making and/or trading arrangements, the Issuer may issue more Securities than those which are to be subscribed or purchased by third party investors. The Issuer (or any of its affiliates)

may hold such Securities for the purpose of meeting any investor interest in the future. Prospective investors in the Securities should therefore not regard the issue size of any Series as indicative of the depth or liquidity of the market for such Series, or of the demand for such Series.

Purchasing the Securities as a hedge may not be effective

Any person intending to use the Securities as a hedge instrument should recognise the correlation risk. The Securities may not be a perfect hedge to an Underlying or portfolio of which the Underlying forms a part. In addition, it may not be possible to liquidate the Securities at a level which directly reflects the price of the Underlying or portfolio of which the Underlying forms a part.

Actions taken by the Issuer may affect the value of the Securities

The Issuer and/or any of its affiliates may carry out activities that minimise its and/or their risks related to the Securities, including effecting transactions for their own account or for the account of their customers and hold long or short positions in the Underlying whether for risk reduction purposes or otherwise. In addition, in connection with the offering of any Securities, the Issuer and/or any of its affiliates may enter into one or more hedging transactions with respect to the Underlying. In connection with such hedging or market-making activities or with respect to proprietary or other trading activities by the Issuer and/or any of its affiliates, the Issuer and/or any of its affiliates may enter into transactions in the Underlying which may affect the market price, liquidity or value of the Underlying and/or the Securities and which could be deemed to be adverse to the interests of the Holders. The Issuer and/or its affiliates are likely to modify their hedging positions throughout the life of the Securities whether by effecting transactions in the Underlying or in derivatives linked to the Underlying. Further, it is possible that the advisory services which the Issuer and/or its affiliates provide in the ordinary course of its/their business could lead to an adverse impact on the value of the Underlying.

The Issuer may also make adjustments to the Conditions if it determines that an event has occurred which, whilst not a Hedging Disruption Event or other disruption event is likely to have a material adverse effect on the Issuer's Hedge Position. Any such determination may affect the value of the Securities and/or may delay settlement in respect of the Securities.

Disruption of the Issuers Hedge Position may affect the value of the Securities

The Issuer may enter into a hedging transaction in the relevant jurisdiction of the Underlying in order to offer exposure to the Underlying. Foreign exchange control restrictions, including restrictions which prevent the conversion of the Underlying Currency (as defined in the Product Conditions) into the Settlement Currency (as defined in the Product Conditions) and the transfer of the Settlement Currency to accounts outside the jurisdiction of the Underlying could result in a delay in the determination of the Final Reference Price and the Settlement Date, which delay could be lengthy.

In certain circumstances, including but not limited to, the insolvency of the hedging counterparty or the

unenforceability of the associated hedging transaction, an investor may lose some or all of its investment as specified in Product Condition 3(d) below.

Holders have no ownership interest in the Underlying

The Securities convey no interest in the Underlying. The Issuer may choose not to hold the Underlying or any derivatives contracts linked to the Underlying. There is no restriction through the issue of the Securities on the ability of the Issuer and/or its affiliates to sell, pledge or otherwise convey all right, title and interest in any Underlying or any derivatives contracts linked to the Underlying.

Actions taken by the Calculation Agent may affect the Underlying

The Calculation Agent is the agent of the Issuer and not the agent of the Holders or any of them. The Issuer may itself act as the Calculation Agent. The Calculation Agent will make such adjustments as it considers appropriate as a consequence of certain corporate or other actions affecting the Underlying. In making these adjustments the Calculation Agent is entitled to exercise substantial discretion and may be subject to conflicts of interest in exercising this discretion. The Calculation Agent is not required to make adjustments with respect to each and every corporate action.

Taxes may be payable by investors

Potential purchasers and sellers of the Securities should be aware that they may be required to pay stamp taxes or other documentary charges in accordance with the laws and practices of the country where the Securities are transferred. Holders are subject to the provisions of General Condition 9 and payment and/or delivery of any amount due in respect of the Securities will be conditional upon the payment of any Expenses as provided in the Product Conditions.

Potential purchasers who are in any doubt as to their tax position should consult their own independent tax advisers. In addition, potential purchasers should be aware that tax regulations and their application by the relevant taxation authorities change from time to time. Accordingly, it is not possible to predict the precise tax treatment which will apply at any given time.

No tax gross-up

If payments on the Securities are or become subject to a withholding or deduction required by law on account of any present or future taxes, duties, assessments or governmental charges of whatever nature, the Issuer will make the required withholding or deduction, as the case may be, and neither the Issuer nor the Principal Agent nor any other person shall pay any additional amounts to the Holders in respect of such withholding or deduction. Please refer to section “General Condition 9 - Taxation”.

Payments on the Securities may be subject to U.S. withholding tax and/or early termination on account of U.S. withholding tax

Due to recently enacted U.S. legislation, payments on any Security that are, in whole or in part, directly or indirectly contingent upon, or determined by reference to, the payment of a dividend from a U.S. entity (a “**Dividend Equivalent Payment**”) may become subject to a 30% U.S. withholding tax when made to a beneficial owner that is not: (i) a citizen or individual resident of the United States, as defined in Section 7701(b) of the U.S. Internal Revenue Code, (ii) a corporation, including any entity treated as a corporation for U.S. federal income tax purposes, created or organised in or under the laws of the United States, any State thereof or the District of Columbia; (iii) an estate the income of which is subject to U.S. federal income tax without regard to its source; or (iv) a trust if (x) a court within the United States is able to exercise primary supervision over the administration of the trust, and one or more United States persons have the authority to control all substantial decisions of the trust, or (y) such trust has a valid election in effect under applicable U.S. Treasury Regulations to be treated as a United States person (a “**Non-U.S. holder**”). The imposition of this U.S. withholding tax will reduce the amounts received by Non-U.S. holders. Neither the Issuer nor the Principal Agent nor any other person shall pay any additional amounts to the Non-U.S. holders in respect of such U.S. withholding. Additionally, the Issuer may elect to terminate the Securities, in accordance with General Condition 3(b), should this U.S. withholding tax apply to any current or future payments on the Securities. If a Non-U.S. holder becomes subject to this withholding tax, the Non-U.S. holder may be able to claim any exemptions under its applicable double tax treaty. The application and interpretation of the rules governing U.S. withholding tax on Dividend Equivalent Payments is subject to change. The Securities may be terminated prior to their stated date.

U.S. Foreign Account Tax Compliance Withholding

The Issuer and other non-U.S. financial institutions through which payments on the Securities are made may be required to withhold U.S. tax at a rate of 30 per cent. on all, or a portion of, payments made after 31 December 2016 in respect of (i) any Securities issued or materially modified on or after 1 January 2013 (and (ii) any Securities which are treated as equity for U.S. federal tax purposes, whenever issued) pursuant to the foreign account provisions (“**FATCA**”) of the Hiring Incentives to Restore Employment Act of 2010. This withholding tax may be triggered if (i) the Issuer is a foreign financial institution (“**FFI**”) (as defined in FATCA) which enters into and complies with an agreement with the U.S. Internal Revenue Service (“**IRS**”) to provide certain information on its account holders (making the Issuer a “**Participating FFI**”), (ii) the Issuer has a positive “passthru percentage” (as defined in FATCA), and (iii)(a) an investor does not provide information sufficient for the relevant Participating FFI to determine whether the investor is subject to withholding under FATCA U.S. person or should otherwise be treated as holding a “United States Account” of such Issuer, or (b) any FFI to or through which payment on such Securities is made is not a Participating FFI or otherwise exempt from FATCA withholding.

The application of FATCA to interest, principal or other amounts paid with respect to the Securities is not clear. If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, principal or other payments on the Securities as a result of a holder's failure to comply with these rules or as a result of the presence in the payment chain of a non-Participating FFI, none of the Issuer, any paying agent or any other person would, pursuant to the Conditions, be required to pay additional amounts as a result of the deduction or withholding of such tax other than in respect of payments that the Issuer makes itself to the Paying Agents (as defined in the Conditions). As a result, investors may, if FATCA is implemented as currently proposed by the IRS, receive less interest or principal than expected. Holders of the Securities should consult their own tax advisers on how these rules may apply to payments they receive under the Securities.

The application of FATCA to Securities issued or materially modified on or after 1 January 2013 (or whenever issued, in the case of Securities treated as equity for U.S. federal tax purposes) may be addressed in the applicable Final Terms or a supplement to this Base Prospectus, as applicable.

FATCA IS PARTICULARLY COMPLEX AND ITS APPLICATION TO THE ISSUER, THE SECURITIES AND THE HOLDERS IS UNCERTAIN AT THIS TIME. EACH HOLDER OF SECURITIES SHOULD CONSULT ITS OWN TAX ADVISER TO OBTAIN A MORE DETAILED EXPLANATION OF FATCA AND TO LEARN HOW THIS LEGISLATION MIGHT AFFECT EACH HOLDER IN ITS PARTICULAR CIRCUMSTANCE.

The Securities may be terminated prior to their stated date

If the Issuer determines that the performance of its obligations under the Securities has become illegal or impractical in whole or in part for any reason or the Issuer determines that it is no longer legal or practical for it to maintain its hedging arrangement with respect to the Securities for any reason, the Issuer may at its discretion and without obligation terminate early the Securities. If the Issuer terminates early the Securities, the Issuer will, if and to the extent permitted by applicable law, pay the holder of each such Security an amount determined by the Calculation Agent to be its fair market value less the cost to the Issuer of unwinding any underlying related hedging arrangements notwithstanding the illegality or impracticality.

Risks associated with Securities held in global form

The Securities will initially be held by or on behalf of one or more clearing systems specified in the applicable Final Terms (each a "**Relevant Clearing System**"), either in the form of a global Security which will be exchangeable for definitive Securities in the event of the closure of all Relevant Clearing Systems or in dematerialised form depending on the rules of the Relevant Clearing System. For as long as any Securities are held by or on behalf of a Relevant Clearing System, payments of principal, interest and any other amounts will be made through the Relevant Clearing System, where required, against presentation or surrender (as the case may be) of any relevant global Security and, in the case of a temporary global Security in bearer form, certification as to non-U.S. beneficial ownership. The risk is that the bearer, as the case may

be, of the relevant global Security, typically a depository or a nominee for a depository for the Relevant Clearing System, or, in the case of Securities in dematerialised form, the Relevant Clearing System and not the Holder itself, shall be treated by the Issuer and any Agent (as defined in the Conditions) as the sole holder of the relevant Securities with respect to the payment of principal, interest (if any) and any other amounts payable in respect of the Securities or any securities deliverable in respect of the Securities. Holders therefore are required to look to the Relevant Clearing System in respect of payments made to it by the Issuer in respect of Securities in global or dematerialised form.

Securities which are held by or on behalf of a Relevant Clearing System will be transferable only in accordance with the rules and procedures for the time being of the Relevant Clearing System.

Risk associated with nominee arrangements

Where a nominee service provider is used by an investor to hold Securities or such investor holds interests in any Security through accounts with a Relevant Clearing System, such investor will receive payments in respect of principal, interest, or any other amounts due, or securities deliverable, as applicable, solely on the basis of the arrangements entered into by the investor with the relevant nominee service provider or Relevant Clearing System, as the case may be. Furthermore, such investor must rely on the relevant nominee service provider or Relevant Clearing System to distribute all payments or securities attributable to the relevant Securities which are received from the Issuer. Accordingly, such an investor will be exposed to the credit risk of, and default risk in respect of, the relevant nominee service provider or Relevant Clearing System, as well as the Issuer.

In addition, such a Holder will only be able to sell any Securities held by it prior to their stated maturity date with the assistance of the relevant nominee service provider.

None of the Issuer or any Agent shall be responsible for the acts or omissions of any relevant nominee service provider or Relevant Clearing System nor makes any representation or warranty, express or implied, as to the service provided by any relevant nominee service provider or Relevant Clearing System.

The return on an investment in Securities will be affected by charges incurred by investors

An investor's total return on an investment in any Securities will be affected by the level of fees charged by any nominee service provider and/or Relevant Clearing System used by the investor. Such a person or institution may charge fees for the opening and operation of an investment account, transfers of Securities, custody services and on payments of interest, principal and other amounts or delivery of securities. Potential investors are therefore advised to investigate the basis on which any such fees will be charged on the relevant Securities.

Change of law and jurisdiction

The Conditions are based on English law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible change to English law or administrative practice after the date of this

Base Prospectus. Prospective investors in the Securities should note that the courts of England and Wales shall have jurisdiction in respect of any disputes involving the Securities. Holders may, however, take any suit, action or proceedings arising out of or in connection with the Securities against the Issuer in any court of competent jurisdiction. English law may be materially different from the equivalent law in the home jurisdiction of prospective investors in its application to the Securities.

There may be changes to laws, or their interpretation, in other countries which affect the Securities. Changes in taxation, corporate, regulatory and money laundering laws in any relevant jurisdiction could have a negative impact on the value of the Securities.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Issuer or the Securities. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Securities. Where a Series of Securities is to be rated, such rating will not necessarily be the same as any rating assigned to any Securities already issued. Whether or not a rating in relation to any Series of Securities will be treated as having been issued by a credit rating agency established in the European Union and registered under the CRA Regulation will be disclosed in the relevant Final Terms. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Securities are legal investments for it, (ii) Securities can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Securities. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Securities under any applicable risk-based capital or similar rules.

Modification, waivers and substitution

The Issuer may decide to make modifications to the Securities without the consent of the Holders which may affect the Holders' interest either:

- (a) for the purpose of curing any ambiguity or of curing, correcting or supplementing any manifest error, proven error or other defective provision, as determined by the Issuer; or
- (b) in any other manner which is not materially prejudicial to the interests of the Holders; or
- (c) for the purpose of the substitution of another company as principal debtor under any Securities in place of the Issuer, in the circumstances described in General Condition 8.

Risks in relation to Securities denominated in CNY only

CNY is not freely convertible and may adversely affect the liquidity of the Securities

CNY is not freely convertible at present. The government of the People's Republic of China (which for the purpose of this document, excludes the Hong Kong Special Administrative Region of the People's Republic of China, the Macau Special Administrative Region of the People's Republic of China and Taiwan) ("**PRC**") continues to regulate conversion between CNY and foreign currencies, including the Hong Kong dollar, despite the significant reduction over the years by the PRC government of its control over routine foreign exchange transactions under current accounts. The People's Bank of China ("**PBOC**") has established a clearing and settlement system pursuant to the Settlement Agreement on the Clearing of CNY Business between PBOC and Bank of China (Hong Kong) Limited. However, the current size of CNY and CNY denominated financial assets in Hong Kong is limited, and its growth is subject to many constraints which are corollary of PRC laws and regulations on foreign exchange and may adversely affect the liquidity of the Securities.

CNY currency risk

Except in limited circumstances, all payments of CNY under the Securities will be made solely by transfer to a CNY bank account maintained in Hong Kong in accordance with the prevailing rules and regulations. The Issuer cannot be required to make payment by any other means (including in bank notes or by transfer to a bank account in the PRC or anywhere else outside Hong Kong). CNY is not freely convertible at present, and conversion of CNY through banks in Hong Kong is subject to certain restrictions. In particular, for personal investors, currently conversions of CNY conducted through CNY deposit accounts are subject to a daily limit (as of the date of this Supplement, such limit being up to CNY20,000 per person per day), and investors may have to allow time for conversion of CNY from/to another currency of an amount exceeding such daily limit.

In addition, there can be no assurance that access to CNY funds for the purposes of making payments under the Securities or generally may remain or will not become restricted. If it becomes impossible to convert CNY from/to another freely convertible currency, or transfer CNY between accounts in Hong Kong, or the general CNY exchange market in Hong Kong becomes illiquid, any payment of CNY under the Securities may be delayed or the Issuer may make such payments in another currency using an exchange rate determined by the Calculation Agent, or the Issuer may redeem the Securities.

Investment in the Securities is subject to exchange rate risk

The value of CNY against the Hong Kong dollar and other foreign currencies fluctuates and is affected by changes in the PRC and international political and economic conditions and by many other factors. The Issuer will make all CNY payments under the Securities in CNY. As a result, the value of such payments in CNY (in Hong Kong dollar or other applicable foreign currency terms) may vary with the prevailing exchange rates in the marketplace. If the value of CNY depreciates against the Hong Kong dollar or other

foreign currencies, the value of an investor's investment in Hong Kong dollar or other applicable foreign currency terms will decline.

Interest rate risk

The value of CNY payments under the Securities may be susceptible to interest rate fluctuations, including Chinese CNY Repo Rates and/or the Shanghai Interbank Offered Rate (SHIBOR).

Offshore CNY Currency Event

If any one of CNY Non-Transferability, CNY Inconvertibility or CNY Illiquidity exists on a payment date, the Calculation Agent may make such adjustments and/or determinations or take such actions in relation to the Securities, in its sole and absolute discretion, as set out in the Conditions, where:

CNY Non-Transferability means the occurrence of any event that makes it impossible, impracticable or illegal for the Issuer and/or any of its affiliates to transfer CNY: (i) between accounts inside Hong Kong; (ii) from an account inside Hong Kong to an account outside Hong Kong and outside the PRC; or (iii) from an account outside Hong Kong and outside the PRC to an account inside Hong Kong;

CNY Inconvertibility means the occurrence of any event that makes it impossible, impracticable or illegal for the Issuer and/or any of its affiliates to convert any amount as may be required to be paid by the Issuer under the Securities on any payment date or such other amount as may be determined by the Calculation Agent in its sole and absolute discretion at the general CNY exchange market in Hong Kong; and

CNY Illiquidity means the occurrence of any event that makes it impossible, impracticable or illegal for the Issuer and/or any of its affiliates to obtain a firm quote of an offer price in respect of an amount in CNY equal to any amount which the Issuer considers necessary to discharge its obligations under the Securities.

Risks relating to Proprietary Indices

Proprietary and rules-based trading index or strategy

Each index or strategy set out in Proprietary Index Descriptions herein (each a "**Proprietary Index**") follows a notional rules-based proprietary trading strategy that operates on the basis of pre-determined rules. Accordingly, potential investors in Securities which are linked to the performance of a Proprietary Index should determine whether the relevant rules are appropriate in light of their individual circumstances and investment objectives.

No assurance can be given that the strategy of a Proprietary Index employed by the sponsor of such Proprietary Index (the "**Index Sponsor**") will be successful, generate positive returns, outperform any benchmark or other indices or that the return (if any) on a Proprietary Index will be as projected or estimated.

An investment in Securities linked to any Proprietary Index may not be a suitable investment for all investors

Securities linked to a Proprietary Index are complex financial instruments and such Securities may be purchased as a way for investors to acquire particular market exposures or seek enhanced yield with an

appropriate addition of risk to their overall portfolio. Prospective investors should not invest in complex financial instruments unless they have the expertise to evaluate how such an instrument may perform under changing conditions, the resulting effects on the value of such instrument and the impact this investment will have on their overall investment portfolio.

No recourse to assets

Each Proprietary Index is purely synthetic. The exposure to the components of a Proprietary Index is purely notional and will exist only in the records held by the relevant Index Sponsor. There are no assets or components to which any person is entitled or in which any person has any ownership interest or which serve as collateral for any investment product related to a Proprietary Index.

Termination, cancellation and suspension of a Proprietary Index

The Index Sponsor and the calculation agent of a Proprietary Index are under no obligation to continue the calculation, publication and dissemination of the Proprietary Index. A Proprietary Index may be terminated, cancelled or suspended at any time by the relevant Index Sponsor. This may cause the Issuer to amend or terminate Securities linked to the Proprietary Index. The termination of a Proprietary Index or the amendment or termination of Securities may have a negative impact on the return on any investment in an Securities related to the Proprietary Index.

Simulated operating history

Each Proprietary Index was first calculated on or about the date on which the relevant Proprietary Index documentation was completed and therefore lacks actual historical performance. The relevant Index Sponsor may have retrospectively calculated the closing levels of a Proprietary Index from a defined base date to but excluding the first live date. Such levels are simulated and must be considered hypothetical and illustrative only. Simulated data may be based on certain assumptions (which may not be true in the future) and constructed using procedures that vary from those used to calculate the Proprietary Index following its establishment. The simulated operating history may materially differ from the actual performance of a Proprietary Index. Past performance should not be considered indicative of future performance.

Amendment or modification to Proprietary Index rules

The rules governing a Proprietary Index may be amended, modified or adjusted from time to time by the calculation agent and/or the relevant Index Sponsor, as applicable. Any such amendment may be made without the consent of or notice to investors in instruments linked to a Proprietary Index and may have an adverse effect on the level of such Proprietary Index.

Notwithstanding the foregoing paragraph, in the event that the relevant Index Sponsor makes a material change in the formula for or the method of calculating the relevant Proprietary Index or in any other way materially modifies that Proprietary Index (other than a modification prescribed in that formula or method to

maintain that Proprietary Index in the event of changes in an underlying asset and other routine events), the Issuer shall give notice as soon as practicable to investors in accordance with General Condition 4 giving details of the action proposed to be taken.

Sponsor/Calculation Agent discretion

A Proprietary Index confers on the relevant calculation agent and/or Index Sponsor, as applicable, discretion in making certain determinations, calculations and corrections from time to time. The exercise of such discretion in the making of calculations, determinations and corrections may adversely affect the performance of the relevant Proprietary Index.

Dynamic Participation

A Proprietary Index may be calculated using dynamic participation which means that the synthetic exposure to the components of such Proprietary Index can increase and/or decrease, and, in certain circumstances, create synthetic exposure to the components of such Proprietary Index in excess of 100 per cent. The use of dynamic participation may therefore leverage returns of a Proprietary Index. Leverage has the potential to magnify the gains or losses of the Proprietary Index which may (in the case of losses) have a negative impact on the value of the Securities.

Market risk

A Proprietary Index will be exposed to one or more of the following markets: equity, credit, commodity, foreign exchange, interest rate and fixed income markets. Investments in Securities linked to a Proprietary Index relating to these markets will be exposed to the market performance of the components of the Proprietary Index. This may be negatively affected by global economic, financial, political and natural developments, and such developments, among other things, may have a material effect on the performance of a Proprietary Index.

A Proprietary Index may be exposed to foreign exchange rates, which are volatile and subject to market conditions. The value of foreign exchange rates and futures are affected by rates of exchange between currencies or appreciation or depreciation of any currency and any existing or future governmental or other restrictions on the availability of exchanges between the relevant currencies.

A Proprietary Index may be exposed to emerging markets. Investing in emerging markets involves certain risks and special considerations not typically associated with investing in other more established economies or securities markets. The principal risks and special considerations are as follows: (i) the risk of nationalisation or expropriation of assets or confiscatory taxation; (ii) social, economic and political uncertainty; (iii) dependence on exports and the corresponding importance of international trade and commodities prices; (iv) less liquidity of securities markets; (v) currency exchange rate fluctuations; (vi) potentially higher rates of inflation (including hyper-inflation); (vii) controls on investment and limitations on repatriation of invested capital; (viii) a higher degree of governmental involvement in and control over

the economies; (ix) government decisions to discontinue support for economic reform programmes and imposition of centrally planned economies; (x) differences in auditing and financial reporting standards which may result in the unavailability of material information about economics and issuers; (xi) less extensive regulatory oversight of securities markets; (xii) longer settlement periods for securities transactions; (xiii) less stringent laws regarding the fiduciary duties of officers and directors and protection of investors; and (xiv) certain consequences regarding the maintenance of portfolio securities and cash with sub-custodians and securities depositories in emerging market countries.

A Proprietary Index may reference the performance of commodities. The value of commodities is volatile and subject to market conditions. For example, the value of a commodity is subject to the supply of, and/or demand for, such commodity and whether or not any alternatives to that commodity exist. Additionally, commodity prices can be influenced by the prevailing political climate and government stability in commodity producing nations. Current market conditions for a commodity do not guarantee the performance, demand or supply of that commodity in the future. Changes in demand or supply of a commodity and the stability of political affairs will affect the performance of any Proprietary Index linked to the performance of commodities.

A Proprietary Index may reference the performance of futures contracts. Transactions in futures contracts involve the obligation to make, or to take, delivery of the underlying asset of the contract at a future date, or in some cases to settle the position with cash. They carry a high degree of risk. The ‘gearing’ or ‘leverage’ often obtainable in futures trading means that a small deposit or down payment can lead to large losses as well as gains. It also means that a relatively small movement can lead to a proportionately much larger movement in the value of an investment.

Access Costs, Trading Costs, Performance Adjustment and Management Fee

Prospective investors should be aware that the level of a Proprietary Index may be reduced by an Access Cost, Trading Cost, Performance Adjustment, Performance Fee and/or Management Fee all of which may be payable to the relevant Index Sponsor. For the avoidance of doubt, such costs, adjustments and fees are not passed on to investors in Securities linked to any Proprietary Index as a payment but instead are deducted from the level of any such Proprietary Index. This will, accordingly, have a negative impact on the return (if any) of an investment linked to any such Proprietary Index.

Definitions:

For these purposes:

“**Access Cost**” means the actual or notional costs charged and expenses incurred by the relevant Index Sponsor in connection with investing in each of the Constituents. The Access Cost is typically deducted from the daily return of the relevant Proprietary Index on a pro-rata daily basis and reduces the level of such Proprietary Index. The relevant Index Sponsor may change the Access Cost, acting in good faith, to reflect the changes in the costs charged and expenses incurred in gaining exposure to the Constituents.

“**Constituents**” mean the assets to which the relevant Proprietary Index are linked.

“**LIBOR**” means the London Interbank Offered Rate which represents the rate at which banks borrow from other banks in the financial markets in London. There is a LIBOR figure for most major currencies (i.e. EUR, GBP, USD) and the LIBOR figure can differ depending on its maturity. For example, the 1 month USD LIBOR can be 1.2 per cent. whilst the 3 month USD LIBOR can be 1.5 per cent.

“**Management Fee**” means a fee charged by the relevant Index Sponsor to maintain the relevant Proprietary Index (which includes, among other matters, operation, administrative and personnel costs). The Management Fee is deducted from the level of a Proprietary Index on a pro-rata daily basis and therefore reduces the level of such Proprietary Index.

“**Performance Adjustment**” means an amount which is deducted from the relevant Proprietary Index to reflect (i) the costs incurred by the relevant Index Sponsor in gaining exposure to the Constituents and (ii) the costs to investor in funding exposure to the Constituents. The Performance Adjustment reduces the cost to the Issuer of taking a position in, and therefore gaining exposure to, a Constituent and is deducted from such Proprietary Index on a pro-rata daily basis. The Performance Adjustment can be a fixed level or a floating level. The floating level is often benchmarked to a LIBOR.

“**Performance Fee**” means a daily fee charged by the relevant Index Sponsor. The Performance Fee will be equal to a percentage of the daily performance of the Proprietary Index and will be deducted only if the level of the relevant Proprietary Index on a day on which the fee is deducted is above the highest level of the Proprietary Index previously seen.

“**Trading Cost**” means an actual or notional cost incurred by the relevant Index Sponsor in linking the relevant Proprietary Index to each Constituent in order to maintain the Proprietary Index. It may be deducted from the level of such Proprietary Index by such Index Sponsor when exposure to a Constituent is changed. The relevant Index Sponsor may change the Trading Cost, acting in good faith, to reflect the cost of changing exposure to each Constituent.

Potential conflicts of interest

The Issuer or one of its affiliates (including, but not limited to, The Royal Bank of Scotland N.V. and RBS Business Services Private Limited) may be the Index Sponsor or calculation agent in respect of a Proprietary Index to which the Securities are linked. As described above, the role of Index Sponsor or calculation agent would provide the Issuer (or one of its affiliates) with discretions to make certain determinations and judgements which may influence the Level of such Proprietary Index. Those discretions may be adverse to the interest of the holders of the Securities and may negatively impact the value of the Securities.

Roll Return

A Proprietary Index may have a long only exposure to futures contracts which means that the performance of such Proprietary Index (which can either be a positive or negative) will correlate with the performance of

the relevant futures contract(s). Additionally, a Proprietary Index may be exposed to “roll return”. As each current front month contract (“**Current Front Month Contract**”) approaches expiry, it needs to be 'rolled' into a near front month contract (“**Near Front Month Contract**”) This involves selling the Current Front Month Contract and simultaneously purchasing the Near Front Month Contract. The roll return is the difference between the price at which the Current Front Month Contract is sold and the Near Front Month Contract is bought. The roll return will be negative if the Near Front Month Contract has a higher price than the Current Front Month Contract, which means the number of the Near Front Month Contracts bought will be lower than the amount of Current Front Month Contracts sold. Conversely, the roll return will be positive if the Near Front Month Contract has a lower price than the Current Front Month Contract, and the number of the Near Front Month Contract bought will be higher than the amount of Current Front Month Contracts sold.

Volatility Control

For the purposes of a Proprietary Index , “volatility” is a measure of how much an investment has deviated from its average over a defined time. A Proprietary Index may have an automatic feature that aims to protect against some of the inherent volatility exhibited by its underlying components.

A Proprietary Index's exposure to its underlying components will change depending on the volatility of those underlying components. A Proprietary Index's exposure to its underlying component(s) will proportionally reduce as that Proprietary Index's volatility increases above certain percentage thresholds. When volatility decreases below certain percentage thresholds, the Proprietary Index's exposure to its underlying components will proportionally increase. In periods of higher market volatility this feature may cushion the effect of market falls but constrain the benefit of market rises. This feature may not be successful and this may have an impact on the performance of a Proprietary Index with a volatility control feature.

Trend Risk

A Proprietary Index may use a mechanism by which it compares the performance of a component against its Moving Average in an effort to determine each Underlying’s trend. “**Moving Average**” means the simple average of the performance of a component over a defined time period. When a component’s performance is above its Moving Average for a certain number of consecutive measurement dates, that component is said to be in a positive trend. When the performance is equal to or below its Moving Average for a certain number of consecutive measurement dates, the component is said to be in a negative trend. If the trend is determined to be positive for a component, the Proprietary Index may allocate exposure to the component. If a trend is determined to be negative for component, the Proprietary Index may reduce exposure to such component to zero. If the Proprietary Index has no exposure to a negative trending component for any given period, then the Proprietary Index will not benefit from any appreciation of such component during that given period. Further, if the Proprietary Index has exposure to a positively trending component during a given period,

investors will be exposed to any downside movements of that component during the period.

A Proprietary Index using this mechanism is based on the assumption that the past moving average of its components compared to their current performance is a good indicator of the future direction of those components. There is no assurance that this assumption is correct, nor is there any assurance that the strategy taken by the Index will generate positive returns.

Specific risks relating to RBS Symbiosis Index (USD) ER, RBS Symbiosis II Index (USD) ER and RBS VC Symbiosis III Index (SEK) ER 11.5%

The above Proprietary Indices make notional long or short investments in certain assets by reference to a technical indicator (an “**Indicator**”) for each asset. Each month, directional risk is dependent on the exposure to each asset is set by its Indicator. If the Indicator of an asset is positive at the start of a certain month due to the historical performance of that asset, (i.e. the relevant Indicator deems the asset is in a positive trend), the exposure of the Proprietary Index to that asset is long for that month. If the asset depreciates in value during that month, the Proprietary Index will also depreciate in value. If the Indicator of an asset is negative at the start of a certain month due to the historical performance of that asset (i.e. the Indicator deems the asset is in a negative trend), the exposure of the Index to that asset is short for that month. If the asset appreciates in value during that month, the Index will depreciate in value, which may have a negative impact on the value of the Proprietary Index and any Securities linked to it. There can be no guarantee the use of an Indicator will yield positive returns for the Proprietary Index or any Securities linked to it.

TAXATION

Potential purchasers who are in any doubt about their tax position on purchase, ownership, transfer, exercise or non-exercise of any Security should consult their professional tax advisers.

1. GENERAL

Purchasers of Securities may be required to pay stamp taxes and/or other charges in accordance with the laws and practices of the country of purchase in addition to the issue or purchase price of each Security.

The Issuer shall not be liable for or otherwise obliged to pay any tax, duty or other payment which may arise as a result of the ownership, transfer or exercise of any Securities.

Prospective purchasers should be aware that tax treatment depends on the individual circumstances of each purchaser and may be subject to change in the future.

2. EU SAVINGS DIRECTIVE

Under EC Council Directive 2003/48/EC on the taxation of savings income (the “**Directive**”), EU member states, subject to the following exceptions, are required to provide to the tax authorities of another EU member state details of payments of interest (or similar income) paid by a person within its jurisdiction to (or for the benefit of) an individual resident in that other EU member state or to certain limited types of entities established in that other EU member state. However, for a transitional period Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

The European Commission has proposed certain amendments to the Directive, which may, if implemented, amend or broaden the scope of the requirements described above.

3 UNITED KINGDOM

The following applies only to persons who are the beneficial owners of Securities and is a summary of the Issuer’s understanding of current United Kingdom tax law and United Kingdom HM Revenue & Customs (“HMRC”) practice relating only to certain aspects of United Kingdom taxation. It does not deal with any other United Kingdom taxation

implications of acquiring, holding or disposing of Securities and should not be relied upon by Holders or prospective Holders of Securities. Some aspects do not apply to certain classes of person (such as persons carrying on a trade of dealing in Securities and persons connected with the Issuer) to whom special rules may apply. The United Kingdom tax treatment of prospective Holders of Securities depends on their individual circumstances and may be subject to change in the future. The precise tax treatment of a Holder of Securities will depend for each issue on the terms of the Securities, as specified in the Conditions of the Securities as amended and supplemented by the applicable Final Terms. For United Kingdom tax purposes, the term “Security” or “Securities” refers to instruments of the type described in this Base Prospectus and is not intended to be determinative (or indicative) of the nature of the instrument for the purposes of United Kingdom taxation. Prospective Holders of Securities who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

Withholding on account of United Kingdom tax

Payments made in respect of the Securities may be made without deduction or withholding for or on account of United Kingdom income tax where such payments are not regarded as interest, manufactured payments or annual payments for United Kingdom tax purposes.

Even if such payments were to be regarded as interest, manufactured payments or annual payments for United Kingdom tax purposes, the Issuer should not be required to withhold or deduct sums for or on account of United Kingdom income tax from payments made in respect of the Securities provided that the Securities are derivative contracts, the profits and losses arising from which are calculated in accordance with the provisions of Part 7 of the Corporation Tax Act 2009 (which broadly they should be provided that they are options, futures or contracts for differences for the purposes of Part 7 of that Act, are derivatives for the purposes of FRS25 (or International Accounting Standard 32) and are not excluded for the purposes of Part 7 of that Act by virtue of their underlying subject matter).

Interest on the Securities

If interest is payable on the Securities or if payments made in respect of the Securities were to be regarded as interest for United Kingdom tax purposes, such payments may be made without deduction or withholding for or on account of United Kingdom income tax, provided that the Issuer continues to be a bank within the meaning of section 991 of the Income Tax Act 2007 (the “Act”), and provided that any such interest is paid in the ordinary course of the Issuer’s business within the meaning of section 878 of the Act.

Payments of interest on or in respect of the Securities may also be made without deduction or withholding for or on account of United Kingdom income tax provided that the Securities are and

continue to be listed on a “recognised stock exchange” within the meaning of section 1005 of the Act. Provided, therefore, that the Securities are and remain so listed, interest on the Securities will be payable without withholding or deduction for or on account of United Kingdom income tax.

Interest on or in respect of the Securities may also be paid without withholding or deduction for or on account of United Kingdom income tax where interest on or in respect of the Securities is paid by the Issuer and, at the time the payment is made, the Issuer reasonably believes (and any person by or through whom interest on or in respect of the Securities is paid reasonably believes) that the beneficial owner is within the charge to United Kingdom corporation tax as regards the payment of interest; provided that HMRC has not given a direction (in circumstances where it has reasonable grounds to believe that the above exemption is not available in respect of such payment of interest at the time the payment is made) that the interest should be paid under deduction of tax.

Interest on or in respect of the Securities may also be paid without withholding or deduction for or on account of United Kingdom income tax where the maturity of the Securities is less than 365 days and those Securities do not form part of a scheme or arrangement of borrowing intended to be capable of remaining outstanding for more than 364 days. HMRC has issued a consultation document which, amongst other things, invites views on the proposal that deduction on account of United Kingdom income tax at the basic rate be required from payments of interest arising in the United Kingdom irrespective of whether such payments are payments of yearly interest. It is uncertain at this stage whether, and in what form, such proposal will be implemented.

In other cases, an amount must generally be withheld from payments of interest on or in respect of the Securities on account of United Kingdom income tax at the basic rate (currently 20 per cent.). However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Holder of Securities, HMRC can issue a notice to the Issuer to pay interest to the Holder of Securities without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty, as applicable).

Holders of Securities may wish to note that, in certain circumstances, HMRC has power to obtain information (including the name and address of the beneficial owner) from any person in the United Kingdom who either pays or credits interest (or amounts treated as interest) to or receives interest (or amounts treated as interest) for the benefit of a Holder of Securities. HMRC also has power, in certain circumstances, to obtain information from any person in the United Kingdom who pays amounts payable on the redemption of Securities which are deeply discounted securities for the purposes of the Income Tax (Trading and Other Income) Act 2005 to or receives such amounts for the benefit of another person, although HMRC published practice indicates that HMRC will not exercise the power referred to above to require this information in respect of amounts payable on the redemption of deeply discounted securities where such amounts are paid on or before 5 April 2013.

Such information may include the name and address of the beneficial owner of the amount payable on redemption. Any information obtained may, in certain circumstances, be exchanged by HMRC with the tax authorities of the jurisdiction in which the Holder of Securities is resident for tax purposes.

Stamp Duty and Stamp Duty Reserve Tax (“SDRT”)

For the purposes of the following paragraphs, it has been assumed that the Securities constitute loan capital for the purposes of section 78 Finance Act 1986 (“**FA 1986**”) and stock and/or loan capital for the purposes of section 99(3) FA 1986 (“**Loan Capital**”). A Security should be Loan Capital if the Holder has a right in all circumstances to be paid on redemption an amount equal to substantially all of the amount subscribed for the Security, either with or without any additional amount that may be payable on redemption. In addition, it is likely that HMRC would regard a Security as Loan Capital even if there is no guarantee that the holder will receive on redemption an amount equal to all or substantially all of the amount subscribed for the Security. This will, however, depend on the terms and conditions relating to the Security.

Securities which are capable of being cash settled only are referred to as “**Cash Settled Securities**” and Securities which are capable of being settled by way of physical delivery are referred to as “**Physically Settled Securities**”.

For the purposes of the following paragraphs, “**Exempt Loan Capital**” means any security which constitutes Loan Capital and: (a) does not carry rights to acquire shares or securities (by way of exchange, conversion or otherwise); (b) has not carried and does not carry a right to interest the amount of which exceeds a reasonable commercial return on the nominal amount of the relevant security; (c) subject to certain exceptions has not carried and does not carry a right to interest the amount of which falls or has fallen to be determined to any extent by reference to the results of, or any part of, a business or to the value of any property; and (d) has not carried and does not carry a right to a premium which is not reasonably comparable with amounts payable on securities listed on the London Stock Exchange.

Stamp Duty

Stamp duty on the issue of Securities

No stamp duty will generally be payable in relation to the issue of Securities, including where such Securities are issued into CREST.

Stamp duty on the transfer of Securities

No United Kingdom stamp duty should be required to be paid on transfers of Securities on sale provided no instrument of transfer is used to complete such sales.

An instrument transferring Securities on sale may be subject to stamp duty at a rate of 0.5 per cent. (or 1.5 per cent. in the case of a transfer to a Clearance Service (as defined below) or to a person issuing depositary receipts) of the consideration paid for the Securities if the Securities are not Exempt Loan Capital.

Stamp duty on the redemption of Securities

No United Kingdom stamp duty should be payable in relation to the redemption of a Security which is cash settled. United Kingdom stamp duty may be required to be paid in relation to the transfer of assets on the redemption of a Security which is settled by way of physical delivery.

SDRT

SDRT on the issue of Securities to a Clearance Service

No SDRT should be payable in relation to the issue to any person providing a clearance service, or a nominee for any such person, within the meaning of section 96 FA 1986 (a “**Clearance Service**”) of a Security provided that it is Exempt Loan Capital.

Subject to the comments in the paragraph below regarding a decision of the European Court of Justice (the “**ECJ**”) and a decision of the First-tier Tax Tribunal, except where an election has been made under which the alternative system of charge as provided for in section 97A FA 1986 (a “**s97A Election**”) applies, SDRT should generally be payable in relation to the issue to a Clearance Service of a Security which is not Exempt Loan Capital, unless that Security is in bearer form and either: (i) it is denominated in sterling; or (ii) it is not denominated in sterling (and if it is a loan that is repayable in sterling this is solely at the option of the holder) and either raises new capital or is issued in exchange for an instrument raising new capital, in each case for the purposes of section 97(3)(b) FA 1986. Any such SDRT would be payable at a rate of 1.5 per cent. of the issue price.

Following the ECJ decision in C-569/07 HSBC Holdings plc and Vidacos Nominees Ltd v The Commissioners of Her Majesty’s Revenue & Customs (Case C-569/07) and the First-tier Tax Tribunal decision in HSBC Holdings Plc and the Bank of New York Mellon Corporation v The Commissioners of Her Majesty’s Revenue & Customs, HMRC has indicated that it will not seek to collect 1.5% SDRT where new shares are first issued to an EU or non-EU clearance service or EU or non-EU depositary receipt system. However, in the case of issues to non-EU clearance services or non-EU depositary receipt systems, HMRC has indicated that it would seek to collect (with interest) any SDRT found to be due following successful appeal by HMRC against the First-tier Tax Tribunal decision. . It is not clear the extent to which these decisions apply to the Securities or the way in which any change in legislation or HMRC practice in response to these decisions may alter the position outlined above.

SDRT on the issue of Securities into CREST

No SDRT will be payable in respect of the issue of Securities into CREST, provided they are not issued into the CREST account of a Clearance Service or to a person issuing depositary receipts (or an agent or nominee for such a person).

SDRT on the transfer of Securities held within a Clearance Service where no s97A Election has been made

SDRT should generally not be payable in relation to an agreement to transfer a Security held within a Clearance Service provided that no s97A Election applies in respect of the Security.

SDRT on the transfer of Securities held outside a Clearance Service, held within CREST or held within a Clearance Service where a s97A Election has been made

In the case of Securities held outside a Clearance Service, Securities held within CREST or Securities held within a Clearance Service where a s97A Election has been made, no SDRT should be payable in relation to the transfer of a Security within CREST or any agreement to transfer a Security, in each case, provided that it is Exempt Loan Capital.

In the case of Securities held outside a Clearance Service, Securities held within CREST or Securities held within a Clearance Service where a s97A Election has been made, SDRT should generally be payable in relation to the transfer of a Loan Security within CREST or any agreement to transfer a Security, in each case, which is not Exempt Loan Capital, unless that Security is in bearer form and: (i) it constitutes Loan Capital, it is listed on a recognised stock exchange and it carries no right to obtain securities which are not so listed (for example by way of conversion or exchange); (ii) it was not exempt from stamp duty on issue because it does not constitute Loan Capital and it is denominated in sterling; or (iii) it was exempt from stamp duty on issue solely because it is denominated in a currency other than sterling and it is listed on a recognised stock exchange. Any such SDRT would be payable at a rate of 0.5 per cent. of the consideration given under an agreement to transfer such Securities, unless the transfer is to a Clearance Service or to a person issuing depositary receipts (or to an agent or nominee of such a person) where SDRT may be payable at a rate of 1.5 per cent.

SDRT on the redemption of Securities

SDRT may be required to be paid in respect of the agreement to transfer an asset pursuant to a Physically Settled Security. However, any such liability to SDRT will be cancelled (or if already paid, will be repayable) if an instrument effecting the transfer is executed, which is duly stamped or is not chargeable with stamp duty or otherwise required to be stamped, within six years of the agreement being made or, in the case of a conditional agreement, within six years of all conditions being satisfied.

4. SWITZERLAND

The following is a general summary of the Issuer's understanding of certain Swiss tax consequences in relation to dealings in the Securities according to the currently valid Swiss tax laws and the Swiss tax authorities' practice as of the date of publication of this Base Prospectus. This outline is a summary and not exhaustive and does not take into consideration possible special circumstances of some investors. Tax laws and the tax authorities' practice may undergo changes (or their interpretation or application may change) and their validity might also be retroactive.

Potential investors should consult their own tax advisors, legal advisers or financial consultants regarding their personal tax situation when entering into transactions with reference to the Securities.

- (a) **General Information.** The Swiss tax treatment of notes, bonds and other financial instruments are primarily regulated pursuant to the conditions set forth in the Circular Letter no. 15 of the Federal Tax Administration regarding the treatment of Bonds and Derivatives Financial Instruments for the purpose of the Federal Income Tax, Federal Withholding Tax and Federal Stamp Duties, as published on 7 February 2007. These rules are usually also applied by the Cantonal and Communal tax authorities. It should be noted that the Swiss tax terms "notes" and "bonds" are not consistent with the corresponding terms stipulated by Swiss security laws and the international or foreign understanding of such terms.

- (b) **Swiss Stamp Taxes.** The issuance of Securities issued by a foreign resident issuer is in general not subject to the Swiss Issue Stamp Tax ("Emissionsabgabe"). Secondary market transactions of Securities which are considered as (debt) financing instruments, share-like products, fund-like products and Low Exercise Price Options (LEPO) on shares with maturity more than one year and the issuance of fund-like Securities issued by a foreign resident issuer are subject to the Swiss Securities Transfer Tax, provided that a Swiss securities dealer ("Effekthändler"), as defined in art. 13 para. 3 of the Swiss Federal Act on Stamp Duties ("Stempelabgabengesetz"), is a party to the Securities transaction or acts as an intermediary thereto. Certain exemptions may, inter alia, apply with regard to institutional investors such as mutual funds, life insurance companies and social security institutions. Pure derivatives for Swiss tax purposes like options and futures do normally not classify as taxable securities and are therefore not subject to Swiss Issue Stamp Tax and Swiss Securities Transfer Tax. If upon the exercise or redemption of a Security an underlying security is delivered to the holder of the Security, the transfer of the underlying security may be subject to Swiss Securities Transfer Tax.

- (c) **Swiss Withholding Tax.** Securities issued by a foreign resident issuer are in general not subject to Swiss withholding tax. Payments or credit of (deemed) interest or dividends on a Security issued by a Swiss resident issuer may be subject to Swiss federal withholding tax at a rate of 35%. This may apply likewise to payments or credits of yield from Securities which classify for tax purposes as fund-like products. The holder of a Security who is resident in Switzerland may be entitled to a full refund of or a full tax credit for the Swiss federal withholding tax, subject to conditions being met. A non Swiss resident holder of a Security may be able to claim a full or partial refund of the Swiss federal withholding tax if such a holder is entitled to claim benefits with regard to such a payment of a double taxation treaty between Switzerland and his or her country of residence.
- (d) **Swiss Income Tax Treatment for Securities Held by Private Investors (Individuals) with Tax Residence in Switzerland as Part of their Private Assets.** Payments or credits received by a holder of a Security, which are considered in a Swiss tax perspective as dividends or interests, are subject to income tax. Gains or losses realised upon a sale or other disposition by individuals with tax residence in Switzerland holding a Security as part of their private assets (private capital gain or losses) are in general not subject to Swiss Income Tax and are not deductible from taxable income respectively. However, capital gains may be subject to income taxation, if a Security qualifies as predominant one-time interest paying bond. Also gains or losses realised by buying or selling of pure derivatives for Swiss tax purposes (options and futures) are not subject to income tax as they are considered as tax-exempt capital gains or losses. Whether a Security generates taxable income (dividend and interest) or tax-exempt capital gains is depending on certain features of the Security (1-delta pay-off, reverse convertible, guaranteed coupon payments or capital protection etc.), on the underlying of the Security and on the maturity of the Security. Some Securities may be divided into taxable bonds and a tax-exempt option (or combinations of options) provided that the Security is, for Swiss tax purposes, made transparent by the issuer. A Security is considered transparent if the value on issuance of its bond and its option components can be determined separately. Under the condition of transparency, the option premium paid by the issuer is exempt from income taxation (where otherwise applicable); taxation is limited to the interest of the bond part which would have been paid for an investment in a comparable straight bond of the same issuer with a similar term and the same currency at market conditions. If the interest part of the Security is paid as a one-time compensation, the so-called “modifizierte Differenzbesteuerung” may apply in each case of pre-maturity sale or redemption of the Security. If a Security is not made transparent for Swiss tax purposes (only if the security needs to be transparent for Swiss tax purposes) the total payment to the investor (except the repayment of the invested capital) could be considered as taxable

income.

- (e) Swiss Income Tax Treatment for Securities Held by Swiss Resident Entities or Individuals as Part of Business Assets. Income of any kind realised from Securities as part of business assets of individuals (including deemed securities dealers for Swiss tax purposes) or entities in Switzerland are subject to personal income tax or corporate income tax respectively as part of their overall net income.
- (f) Wealth Taxation of Securities Held by Private Investors (Individuals) with Tax Residence in Switzerland. The market value of the Securities may be subject to wealth tax levied on overall net wealth of individuals with tax residence in Switzerland, regardless of whether the Securities are held as part of their private or business assets.
- (g) EU Savings Tax. On 26 October 2004, the European Community and Switzerland entered into an agreement on the taxation of savings income pursuant to which Switzerland adopts measures equivalent to those of the European Directive 2003/48/EC of 3 June 2003 on the taxation of savings income in the form of interest payments. The agreement came into force as of 1 July 2005. On the basis of this agreement, Switzerland introduced a withholding tax on interest payments and other similar income paid by a paying agent within Switzerland to an individual resident in an EU member state. The withholding tax is withheld at a rate of 15 % for the first three years beginning with 1 July 2005, 20 % for the next three years and 35 % thereafter, with the option of such an individual to have the paying agent and Switzerland provide to the tax authorities of the Member State details of the payments in lieu of the withholding. The beneficial owner of the interest payments may be entitled to a tax credit or refund of the withholding, if any, provided that that certain conditions are met. Securities issued under this programme may be subject to EU Savings Tax. The qualification regarding “in scope” or “out of scope” of the EU Savings Tax is depending on certain features of the Security and on the underlying of the Security.

SELLING RESTRICTIONS

In respect of each Series of Securities issued under the Programme, a Dealer and/or distributor may, by entering into a purchase agreement, agree with the Issuer the basis upon which it agrees to purchase Securities. Any such agreement will extend to those matters stated under “Form of the Securities” and the Conditions.

The statements which follow are of a general nature. Potential purchasers in each jurisdiction must ensure that they are able validly to take delivery of the Securities and any assets into which they may convert or be settled. Additional certifications may be required by the Issuer and/or any clearance system at the time of exercise and/or settlement.

1. GENERAL

No action has been or will be taken by the Issuer of any Dealer that would permit a public offering of the Securities or possession or distribution of any offering material in relation to the Securities in any jurisdiction where action for that purpose is required. No offers, sales or deliveries of any Securities, or distribution of any offering material relating to the Securities, may be made in or from any jurisdiction except in circumstances which will result in compliance with any applicable laws and regulations and will not impose any obligation on the Issuer.

2. PUBLIC OFFER SELLING RESTRICTION UNDER THE PROSPECTUS DIRECTIVE

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a “**Relevant Member State**”), each Dealer represents and agrees that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the “**Relevant Implementation Date**”) it has not made and will not make an offer of Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the final terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Securities to the public in that Relevant Member State:

- (a) if the final terms in relation to the Securities specify that an offer of those Securities may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State (a “**Non-exempt Offer**”), following the date of publication of a prospectus in relation to such Securities which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State provided that any

such prospectus has subsequently been completed by the final terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable, and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;

- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (c) at any time to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive); or
- (d) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Securities referred to in (b) to (d) above shall require the Issuer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an “**offer of Securities to the public**” in relation to any Securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe the Securities, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression “**Prospectus Directive**” means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State) and includes any relevant implementing measure in the Relevant Member State and the expression “**2010 PD Amending Directive**” means Directive 2010/73/EU.

3. THE NETHERLANDS

Securities which qualify as savings certificates as defined in the Savings Certificates Act (“*Wet inzake spaarbewijzen*”) may only be transferred or accepted through the mediation of either the Issuer or an admitted institution of Euronext Amsterdam N.V. with due observance of the Savings Certificates Act and its implementing regulations (including registration requirements), provided that no mediation is required in respect of:

- (a) the initial issue of those Securities to the first holders thereof;
- (b) any transfer and delivery by individuals who do not act in the conduct of a profession or trade; and

- (c) the issue and trading of those Securities, if they are physically issued outside The Netherlands and are not distributed in The Netherlands in the course of primary trading or immediately thereafter.

4. UNITED STATES OF AMERICA

No Securities of any Series have been, or will be, registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”), and trading in the Securities has not been approved by the United States Commodity Futures Trading Commission (the “**CFTC**”) under the United States Commodity Exchange Act as amended (the “**CEA**”). No Securities of any Series, or interests therein, may at any time be offered, sold, resold or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. person or to others for offer, sale, resale or delivery, directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. person.

Offers, sales, resales or deliveries of Securities of any Series, or interests therein, directly or indirectly, in the United States or to, or for the account or benefit of U.S. persons would constitute a violation of United States securities laws unless made in compliance with the registration requirements of the Securities Act or pursuant to an exemption therefrom. In addition, in the absence of relief from the CFTC, offers, sales, resales, trades or deliveries of Securities, or interests therein, directly or indirectly, in the United States or to, or for the account or benefit of, U.S. persons, may constitute a violation of United States law governing commodities trading.

Section 1.163-5(c)(2)(i)(D) (the “**D Rules**”) and, in accordance with the D Rules, may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. Treasury regulations. Section 1.163-5(c)(2)(i)(C) (the “**C Rules**”) and, in accordance with the C Rules, may not be offered, sold or delivered within the United States or its possessions, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 (the “**Code**”) and the U.S. Treasury regulations thereunder.

The Issuer will require each Dealer participating in the distribution of Securities subject to the D Rules:

- (a) except to the extent permitted under the D Rules, (i) to represent that it has not offered or sold, and agrees that during the restricted period it will not offer or sell, such Securities to a person who is within the United States or its possessions or to a United States person, and (ii) to represent that it has not delivered and agrees that it will not deliver within the United States or its possessions definitive Securities that are sold during the restricted period;

- (c) if it is a United States person, each Dealer represents that it is acquiring Securities for purposes of resale in connection with their original issuance and if it retains Securities for its own account, it will only do so in accordance with the requirements of U.S. Treas. Reg. Section 1.163-5(c)(2)(i)(D)(6);
- (d) with respect to each affiliate that acquires Securities from a Dealer for the purpose of offering or selling such Securities during the restricted period, to repeat and confirm the representations and agreements contained in subclauses (a), (b) and (c) of this paragraph on such affiliate's behalf; and
- (e) to agree that it will obtain from any distributor (within the meaning of U.S. Treas. Reg. Section 1.163-5(c)(2)(i)(D)(4)(ii)) that purchases any Securities subject to the D Rules from it pursuant to a written contract with such Dealer (except a distributor that is one of its affiliates or is another Dealer), for the benefit of the Issuer and each other Dealer, the representations contained in, and such distributor's agreement to comply with, the provisions of subclauses (a), (b), (c) and (d) of this paragraph insofar as they relate to the D Rules, as if such distributor were a Dealer hereunder.

The terms used in the preceding sentence have the meanings given to them by the Code and the U.S. Treasury regulations thereunder, including the D Rules.

The Issuer will require each Dealer participating in the distribution of Securities subject to the C Rules to agree that it will not at any time offer, sell, resell or deliver, directly or indirectly, the Securities in the United States or to others for offer, sale, resale or delivery, directly or indirectly, in the United States. Further, the Issuer and each Dealer to which it sells the Securities will represent and agree that in connection with the original issuance of such Securities that it has not

communicated, and will not communicate, directly or indirectly, with a prospective purchaser if such purchaser is within the United States and will not otherwise involve its U.S. office in the offer or sale of such Securities. 6. INDIA

Any purchase of the Securities relating to or linked to securities listed on a stock exchange in India or indices that reference such securities should be made on the understanding that the purchaser shall be deemed to acknowledge, represent, warrant and undertake to the Group that:

operating policies of an entity in any manner.

Notwithstanding the foregoing definition, in the case only where an entity's investments are being managed on a discretionary basis by an investment manager, such investment manager shall not be deemed to be such entity's controller for the purposes of this representation by reason only of it being able to control decision-making in relation to the entity's financial, investment and /or operating policies;

- (e) the Securities are not being purchased by, for the account of, or pursuant to or in connection with any back-to-back transaction with any entity or person that is not a "person regulated by an appropriate foreign regulatory authority" (as such term and/or requirements relating thereto are defined or otherwise interpreted for the purposes of Regulation 15A of the Securities and Exchange Board of India (Foreign Institutional Investors) Regulations, 1995) (a "**Regulated Entity**");
- (f) the Securities are not being purchased with the intent of circumventing or otherwise avoiding any requirements applicable under the Securities and Exchange Board of India (Foreign Institutional Investors) Regulations, 1995 (including, without limitation, any restrictions applying to foreign institutional investors in relation to their issuances and/or other dealings in the Securities with, Restricted Entities and persons/entities who are not Regulated Entities);

FORM OF THE SECURITIES

Information under this heading is applicable to Securities for which the Clearing Agent is specified to be Euroclear Bank S.A./N.V. and/or Clearstream Banking in the applicable Final Terms.

Initial Issue of Securities

Global Securities in bearer form

Global Securities in bearer form may be delivered on or prior to the original issue date of the related Series of Securities to a Clearing Agent or the depository for one or more Clearing Agents (the “**Common Depository**”).

Upon the initial deposit of a Global Security in bearer form with a Common Depository for a Clearing Agent, such Clearing Agent will credit each subscriber with a nominal amount or unit quantity of Securities equal to the nominal amount thereof for which it has subscribed and paid.

Securities that are initially deposited with the Common Depository for a Clearing Agent (the “**Relevant Clearing Agent**”) may also be credited to the accounts of subscribers with (if indicated in the relevant Final Terms) other Clearing Agents through direct or indirect accounts with the Relevant Clearing Agent held by such other Clearing Agents. Conversely, Securities that are initially deposited with any other Clearing Agent may similarly be credited to the accounts of subscribers with the Relevant Clearing Agent.

Relationship of Accountholders with Clearing Agents

For so long as any of the Securities is represented by a Global Security and such Global Security is held on behalf of one or more Clearing Agents, each person who is for the time being shown in the records of a Clearing Agent as the holder of a particular nominal amount or unit quantity of Securities (an “**Accountholder**”) shall be treated as the holder of that nominal amount or unit quantity of Securities for all purposes other than with respect to the payment or delivery of any amount on the Securities, the right to which shall be vested, as against the Issuer, solely in the bearer of a Global Security in accordance with and subject to its terms. Each Accountholder must look solely to the relevant Clearing Agent for its share of each payment or delivery made to the bearer of a Global Security.

The Issuer covenants in favour of each Accountholder that it will make all payments in respect of the nominal amount or unit quantity of Securities for the time being shown in the records of the relevant Clearing Agents as being held by the Accountholder and represented by a Global Security to the bearer of a Global Security in accordance with its terms and acknowledges that each Accountholder may take proceedings to enforce this covenant and any of the other rights which it has (described under the preceding

paragraph) directly against the Issuer.

- (i) if such temporary Global Security is held by a Clearing Agent and any such Clearing Agent is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention to cease business permanently or does in fact do so and the Holder is unable to settle such Securities through any non-affected Clearing Agent, in whole but not in part only, at the request of the bearer of such temporary Global Security, for Definitive Securities in bearer form (as defined below);
- (ii) if so specified in the Final Terms, General Conditions or Product Conditions of such temporary Global Security, in an aggregate nominal amount or unit quantity equal to the nominal amount or unit quantity of such temporary Global Security submitted for exchange, in whole but not in part only, at the request of the bearer of such temporary Global Security, for Definitive Securities in bearer form (as defined below); or
- (iii) free of charge to the Holder, in whole or from time to time in part, for interests in a permanent Global Security in bearer form,

provided that in each case, certification as to non-US beneficial ownership in the form required by the relevant Clearing Agent has been provided to such Clearing Agent with respect to such nominal amount or unit quantity submitted for such exchange.

Each permanent Global Security in bearer form will be exchangeable on or after its Exchange Date (as defined below), in whole but not in part, for Definitive Securities in bearer form (as defined below):

- (i) if such permanent Global Security is held by a Clearing Agent and any such Clearing Agent is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention to cease business permanently or does in fact do so and the Holder is unable to settle such Securities through any non-affected Clearing Agent; or
- (ii) if so specified in the Final Terms, General Conditions or Product Conditions of such permanent Global Security, in an aggregate nominal amount or unit quantity equal to the nominal amount or unit quantity of such permanent Global Security submitted for exchange,

provided that in each case, certification as to non-US beneficial ownership in the form required by the relevant Clearing Agent has been provided to the such Clearing Agent with respect to such nominal amount

or unit quantity submitted for such exchange.

Delivery of Securities

On or after any due date for exchange the holder of a Global Security may surrender such Global Security or, in the case of a partial exchange, present it for endorsement to or to the order of the Principal Agent. In exchange for any Global Security, or the part thereof to be exchanged, the Issuer will (i) in the case of a temporary Global Security exchangeable for a permanent Global Security, deliver, or procure the delivery of, a permanent Global Security in an aggregate nominal amount or unit quantity equal to that of the whole or that part of a temporary Global Security that is being exchanged or, in the case of a subsequent exchange, endorse, or procure the endorsement of, a permanent Global Security to reflect such exchange or (ii) in the case of a Global Security exchangeable for Definitive Securities, deliver, or procure the delivery of, an equal aggregate nominal amount or unit quantity of duly executed and authenticated Definitive Securities. In this Base Prospectus, “Definitive Securities” means, in relation to any Global Security the definitive bearer Securities, as applicable, for which such Global Security may be exchanged (if appropriate, having attached to them all Coupons in respect of interest that have not already been paid on the Global Security). Definitive Securities will be security printed in accordance with any applicable legal and stock exchange requirements in or substantially in the form available from the offices of the Issuer.

Exchange Date

“**Exchange Date**” means, in relation to a temporary Global Security in bearer form, the first day following the expiry of 40 days after the Issue Date and, in relation to a permanent Global Security in bearer form, following the giving of notice requiring exchange and on a day on which banks are open for business in the city in which the specified office of the Principal Agent is located and in the city in which the relevant Clearing Agent is located.

If any payment or delivery (as the case may be) is made in respect of any Security represented by a Global Security in bearer form (i) in full, the portion of such Global Security representing such Security shall be cancelled and the amount or unit quantity so cancelled shall be endorsed by or on behalf of the Principal Agent on such Global Security (such

endorsement being prima facie evidence that the payment or delivery in question has been made) or (ii) otherwise, a record of each such payment or delivery shall be endorsed by or on behalf of the Principal Agent on such Global Security (such endorsement being prima facie evidence that the payment or delivery in question has been made).

(ii) *Cancellation*

Cancellation of any Security represented by a temporary or permanent Global Security in bearer form that is required by the Conditions to be cancelled (other than upon its redemption) will be effected by reduction in the nominal amount or unit quantity of the relevant temporary or permanent Global Security.

(k) Description of the Securities

The notes are investment instruments which may or may not bear interest and which, at maturity or earlier termination, either pay a cash amount which may or may not be equal to the nominal amount of the relevant note, less certain expenses (the “**Cash Amount**”) or, in the case of exchangeable notes, permit the holder thereof (the “**Holder**”) to exchange his note for, depending on the terms of the relevant note, a defined amount of the Underlying (as defined below) or an amount in cash calculated by reference to the value of the

Underlying (the “**Conversion Amount**”). The amount of interest to be paid and/or the Cash Amount and/or the Conversion Amount may or may not be dependent upon the performance of an Underlying, be it underlying reference rate, share, index (including in the case of an index, the index and its constituent elements) or basket, in all cases, as provided in the terms of the relevant note. As such, each note will entail particular risks. Notes which are not capital protected may result in the Holder losing some or, in certain limited cases, all of his initial investment. Notes where the interest amount paid is dependent upon the performance of the Underlying may result in the Holder receiving no or only a limited periodic return on his investment.

The price at which a Holder will be able to sell notes prior to their redemption may potentially be at a substantial discount to the market value of the notes at the issue date, if, at such time and in addition to any other factors, the value of the Underlying is below, equal to or not sufficiently above the value of the Underlying at the issue date.

The types of note that may be issued under this Base Prospectus are described below.

Range accrual notes are interest bearing cash settled securities. Range accrual notes are redeemed at a percentage of their nominal amount. The amount of interest paid on a range accrual note depends on the performance of one or more underlying reference rates, as specified in the applicable Final Terms. Typically, interest will accrue for each relevant day in an interest period on which the Underlying performs in the manner specified in the Final Terms but will not accrue in respect of other days. Interest on a range accrual note may also be paid at a pre-determined specified rate for certain interest periods specified in the applicable Final Terms.

Ladder notes are interest bearing cash settled securities which may be called by the Issuer on specified dates. Ladder notes are redeemed at a percentage of their nominal amount. The amount of interest paid on a ladder note depends on the performance of an underlying reference rate, as specified in the applicable Final Terms. Typically, interest will be paid in respect of each interest period either at a pre-determined specified rate or at the difference between a pre-determined specified rate and an identified floating rate for the relevant interest period, subject in the latter case to any minimum rate specified for the relevant interest period, all as specified in the applicable Final Terms.

Target coupon notes are interest bearing cash settled securities. Target coupon notes are redeemed at a percentage of their nominal amount. The amount of interest paid on a target coupon note depends on the performance of one or more underlying shares, as specified in the applicable Final Terms. Typically, a target interest amount will be set which, if reached prior to maturity, may result in early termination of the securities. In certain cases additional interest amounts may also be paid as specified in the applicable Final Terms.

Rate notes are cash settled securities which may or may not bear interest and are redeemed at their nominal amount or a stated percentage thereof. The amount of interest paid on a rate note may depend on the

performance of one or more underlying reference rates and/or may be determined by reference to a fixed rate or rates, as specified in the applicable Final Terms.

Zero coupon notes are cash settled securities which are issued at a percentage of the nominal amount and which do not bear any interest.

Currency exchange notes are cash settled securities which may or may not bear interest and are redeemed at (i) their nominal amount or a stated percentage thereof or (ii) an amount equal to a percentage of the Underlying as specified in the applicable Final Terms. The amount of interest paid on a currency exchange note will depend on the performance of one or more underlying currency exchange rates, as specified in the applicable Final Terms.

Yield discovery notes are capital protected interest bearing cash settled securities. Yield discovery notes are redeemed at their nominal amount. The amount of interest paid on a yield discovery note depends on the performance of an underlying basket of shares, as specified in the applicable Final Terms. The maximum rate of interest so determined may be capped at the level specified in the applicable Final Terms. Interest on a yield discovery note may also be paid at a pre-determined specified rate for certain interest periods as specified in the applicable Final Terms. The rate of interest for certain interest periods may be at least the level of the previous year.

Certificate notes are cash settled securities which may or may not be interest bearing or capital protected. The Cash Amount payable at maturity of a certificate note will at least equal its nominal amount (if it is capital protected) plus a return (which may be zero) calculated by reference to the performance of one or more underlying certificates, as specified in the applicable Final Terms.

Index notes are cash settled securities which may be partially or fully capital protected and may be interest bearing. If applicable, interest may be payable at a rate specified in the applicable Final Terms. The Cash Amount payable at maturity on an index note will at least equal a specified percentage of its nominal amount but may be higher than that amount and may be subject to a capped maximum gain depending on the performance of the Underlying, as specified in the applicable Final Terms.

Inflation index notes are fixed-income securities that track an inflation index. The Cash Amount payable at maturity on an inflation index note may equal a specified percentage of its nominal amount but may depend on the performance of the inflation index, as specified in the applicable Final Terms.

Callable index notes are non-interest bearing cash settled securities. The Cash Amount payable on the note will depend on the performance of the underlying index specified in the applicable Final Terms. If during the life of the note the Issuer determines that an early redemption event has occurred, the note may be redeemed at an amount determined in the manner specified in the applicable Final Terms. If, by the maturity date, an early redemption event has not occurred, the Cash Amount paid in respect of the note will depend upon the performance of the Underlying at maturity and may be less than the nominal amount of the note.

Autocallable Notes are cash settled or physically settled (if specified in the applicable Final Terms) securities which may or may not be capital protected and may be interest bearing. The Cash Amount payable on, and the maturity date of, the note will depend on the performance of the Underlying specified in the applicable Final Terms. If on specified dates during the life of the note the level of the Underlying performs in a specified manner (an “**Early Termination Event**”), the note will be redeemed at its nominal amount plus an additional amount specified in the applicable Final Terms. If, by the maturity date, an Early Termination Event has not occurred, the Cash Amount paid in respect of the note will depend upon the performance of the Underlying at maturity and may be less than the nominal amount of the note.

Share notes are cash settled securities and may be interest bearing. If applicable, interest may be payable on a share note at a rate specified in the applicable Final Terms. The Cash Amount payable at maturity of a share note may be at least equal to a specified percentage of its nominal amount, may be subject to a capped gain and/or may depend on the performance of the Underlying, as specified in the applicable Final Terms.

Exchangeable notes may be cash settled or physically settled securities and may be interest bearing. If applicable, interest may be payable on an exchangeable note at a rate specified in the applicable Final Terms. The cash amount payable at maturity of a cash settled exchangeable note may be at least equal to a specified percentage of its nominal amount, may be subject to a capped gain and/or may depend on the performance of the Underlying, as specified in the applicable Final Terms. In the case of a physically settled exchangeable note, the share amount to be delivered will be determined by reference to the performance of the underlying share in the manner specified in the applicable Final Terms.

Multi-asset Basket Linked Notes are cash settled securities which may be partially or fully capital protected and may be interest bearing. If applicable, interest may be payable at a rate specified in the applicable Final Terms. The cash amount payable at maturity on a note will at least equal a specified percentage of its Nominal Amount but may be higher than that amount and may be subject to a capped maximum gain depending on the performance of the Underlying, as specified in the applicable Final Terms.

Fund linked notes are cash settled securities which may be partially or fully capital protected and may be interest bearing. If applicable, interest may be payable at a rate specified in the applicable Final Terms.

Basket related capital protected notes enable investors to participate in the performance of one or more baskets of different components relating to the relevant Series (including, without limitation and as specified in the applicable Final Terms, an index component, a real estate index component, a commodity component or a bond index component). In addition to capital protection, an investor may, as specified in the applicable Final Terms, receive an additional amount depending on the performance of one or more baskets of different components. If specified in the applicable Final Terms, an Interim Cash Settlement Amount or Interest Amount (each as defined in the applicable Final Terms) will be payable (subject to any applicable conditions being met) on the Interim Cash Settlement Amount Payment Date or each Interest Payment Date, as the case may be.

Commodity notes are cash settled securities which may be partially or fully capital protected and may or may not be interest bearing. The Cash Amount payable at maturity of a commodity note is calculated by reference to the performance of one or more underlying commodities, as specified in the applicable Final Terms.

PROPRIETARY INDEX DESCRIPTIONS

RBS VC Aquantum Pegasus Index (SEK) ER 6% (the “Index”)

The Index is calculated and maintained by Future Value Consultants Limited based on a methodology developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”) (which, for the avoidance of doubt, does not form part of this Index description).

The Index aims to track a notional strategy that applies a risk-stabilisation and currency conversion overlay to the Aquantum Pegasus Excess Return Index (USD) (which is a published index sponsored by Aquantum SARL (the “**Reference Index**”)) and includes the deduction of any costs incurred by the Index Sponsor, management fees and performance fees.

The currency conversion overlay involves the application of the Quampo™ technology. Quampo™ is a dynamic technology created by the Index Sponsor for dealing with currency risk exposures. Quampo™ implements an algorithm that converts the Reference Index’s original currency to another desired currency. As a result of applying this technology, only the change in value of an underlying asset is exposed to currency risk, instead of the full notional value as would be the case otherwise. In this Index, the technology allows the Index Sponsor to create an Index denominated in Swedish kronor from the Reference Index which is denominated in U.S. dollars.

The purpose of the risk-stabilization overlay is to dynamically adjust exposure to the Reference Index after the deduction of costs and fees and application of the currency conversion overlay (the “**Currency Converted Final Underlying**”) based on the Effective Realised Volatility of the Currency Converted Final Underlying.

The “Effective Realised Volatility” is calculated as the maximum Realised Volatility over 5 consecutive strategy calculation dates which are used as reference observation dates (each, an “**Observation Date**”). The “Realised Volatility” herein is specifically a measure of how much the daily returns of the Currency Converted Final Underlying have fluctuated around their average in the past over a defined time period. The time period is taken to be twenty (20) days and the average is calculated as the arithmetic mean.

Exposure to the Currency Converted Final Underlying is reduced if the Effective Realised Volatility of the Currency Converted Final Underlying increases to certain levels. Conversely, exposure to the Currency Converted Final Underlying is increased if the Effective Realised Volatility of the Currency Converted Final Underlying decreases to certain levels. The dynamic participation provides for the Index to have exposure to the Currency Converted Final Underlying within a range from a minimum of 0% to a maximum of 145.00%.

The dynamically adjusted exposure (the “**Dynamic Participation**”) is thus determined according to the range that the Effective Realised Volatility falls within. The ranges of the Effective Realised Volatility and the corresponding dynamic participation values are described in the methodology for the Index.

The final Index level is calculated daily by increasing or decreasing the exposure to the Reference Index by applying the Dynamic Participation, irrespective of whether the performance of the Reference Index is negative or positive. Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code RBSAQPK1.

A copy of the Index rules relating to the Index will be available upon request from the beginning of the Offer Period (if any) to the maturity date upon request at the offices of the Index Sponsor at The Royal Bank of Scotland plc, 250 Bishopsgate, London EC2M 4AA. RBS VC European Dynamic Analyst Index (EUR) ER 10% (the “Index”)

The Index is calculated and maintained by Future Value Consultants Limited, based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc and aims to track the performance of a rule-based long-short investment strategy (the “**Strategy**”) linked to the 50 largest securities in the Eurozone.

In the context of the Strategy, an economic interest in the positive performance of a basket of securities is acquired (the “**Long Basket**”). At the same time an economic interest in the negative performance of another basket of securities is acquired (the “**Short Basket**”).

On each quarterly selection date, the Strategy records a consensus estimated price target, as published by the Institutional Brokers’ Estimate System (the “**Price Target Estimate**”) for each security in the Euro Stoxx 50 Index (the “**Underlying Reference Index**”).

The 10 securities in the Underlying Reference Index that, on the relevant quarterly selection date, have the highest percentage difference between their price and the Price Target Estimate will form the Long Basket for the three month period starting on the next date the Long and Short Baskets are determined (the “**Index Rebalance Date**”).

The 10 securities in the Underlying Reference Index that, on the relevant quarterly selection date, have the lowest percentage difference between their price and the Price Target Estimate will form the Short Basket for the three month period starting on the next Index Rebalance Date.

The Index performance at any time during the three-month period from one Index Rebalance Date to the next Index Rebalance Date is the difference between the performance of the Long Basket and the Short Basket on the date on which the Index performance is measured.

Additionally, the exposure to the Long Basket and Short Basket is dynamic in response to the realised volatility of the Index compared to a target level of volatility. The dynamic response mechanism aims to keep the realised volatility of the Index close to a target level. Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code ABFVEDEU.

RBS VC Beta Centurion European Index (SEK) ER 16% (the “Index”)

The Index is calculated and maintained by Standard & Poor’s, a division of The McGraw-Hill Companies Inc. based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc and aims to track the performance of the rule-based trading strategy (the “**Strategy**”) Beta Centurion.

The Index is calculated at the close of business on each Index Calculation Date. The Index Calculation Agent determines that if the closing level of the SPEURO is greater than or equal to its 52-week moving average, the Strategy will invest in the Long Basket for an investment period, the duration of which is 1 week (the “**Investment Period**”). Otherwise, the Strategy will invest in the Short Basket for the following Investment Period.

For each Investment Period, a “Long Basket” will consist of those 20 securities which have experienced the weakest performance over the immediately preceding Investment Period (the “**Long Basket**”) and a “Short Basket” will consist of those 20 securities which have experienced the strongest performance over the preceding Investment Period (the “**Short Basket**”).

The performance of the Strategy will be reflected by a base index calculated in accordance with the provisions set out in the Index Rules (the “**Base Index**”). The performance of the Long Basket for an Investment Period will be determined by reference to the performance of the securities in the Long Basket for that Investment Period minus the performance of an investment in the 1-week STIBOR rate for such Investment Period. The performance of the Short Basket for an Investment Period will be determined by reference to the performance of the securities in the Short Basket for that Investment Period plus the performance of an investment in the 1-week STIBOR rate for such Investment Period. In either case, the relevant securities for each Investment Period must be taken from a list of eligible securities (the “**Component Securities**”) as determined by the Index Calculation Agent in accordance with the eligibility criteria, as set out in the Index Rules.

In addition, the Strategy includes a dynamic participation mechanism. On any Index Calculation Date, the exposure of the Base Index to the Strategy will be adjusted to reflect the 20-day realised volatility of the Base Index. A higher realised volatility of the Base Index will result in a reduction in the level of exposure to the Strategy and a lower realised volatility of the Base Index will result in an increase in the level of exposure to the Strategy. The dynamic participation mechanism aims to keep the realised volatility of the Index close to a target level. Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code RBSDBEK1.

RBS VC BRIC 11 Index (EUR) ER 16% (the “Index”)

The Index is calculated and maintained by Future Value Consultants Limited (“FVC” or the “**Strategy Calculation Agent**” as the context requires) based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Strategy Sponsor**”).

The Index synthetically invests in the RBS BRIC 11 Excess Return Asset (the “**Underlying Asset**”) using a dynamic participation mechanism, which is calculated daily by FVC. Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code RBSBBEE1.

The Underlying Asset represents exposure to an excess return investment in the RBS BRIC 11 Index (EUR) TR (Bloomberg Code: RBSYBRXI) which is designed to track the performance of 11 open ended certificates. Each open ended certificate is linked to the performance of an emerging equities market. The Underlying Asset is deemed an “excess return” investment because it represents the performance of the open ended certificates over the risk-free rate.

The final level of the Index is calculated daily by FVC using a dynamic participation mechanism. The purpose of the dynamic participation is to dynamically adjust exposure to the Underlying Asset based on the realised volatility of the Underlying Asset.

Exposure to the Underlying Asset is reduced if the realised volatility of the Underlying Asset increases to certain levels. Conversely, exposure to the Underlying Asset is increased if the Realised Volatility of the Underlying Asset decreases to certain levels.

The dynamic participation provides for the Index to have exposure to the Underlying Asset within a range from a minimum of 0% to a maximum of 150.00%.

The dynamic participation is a function of the effective realised volatility, which is calculated as the maximum realised volatility level for the Underlying Asset observed over 5 consecutive strategy calculation dates which are used as reference observation dates (each, an Observation Date). On each Observation Date, the realised volatility of the Underlying Asset is observed over the previous 20 most recent daily closing levels of the Underlying Asset up to and including the relevant Observation Date.

The dynamic participation is thus determined according to the range that the effective realised volatility falls within. The ranges of effective realised volatility and the corresponding dynamic participation values are described in the methodology for the Index.

The final Index level is calculated daily by increasing or decreasing the exposure to the Underlying Asset by applying the dynamic participation, irrespective of whether the performance of the Underlying Asset is negative or positive.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the Offer Period (if any) to the maturity date upon request at (i) the offices of the Index Sponsor at The Royal Bank of Scotland plc, 250 Bishopsgate, London EC2M 4AA and (ii) the office of any distributor. RBS Symbiosis Index (USD) ER (the “Index”)

The Index is calculated and maintained by Future Value Consultants Limited (“FVC” or the “**Index Calculation Agent**” as the context requires) based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index aims to track a dynamic long-short multi-asset strategy (the “**Strategy**”) developed by Index Sponsor. The Strategy sets specific weights and exposures to the Assets (as defined below) depending on the technical indicator for each Asset developed by the Index Sponsor (the Indicator). The Indicator measures each Asset’s risk-adjusted momentum based on the Asset’s closing prices over the previous 121 Index Calculation Dates (the “**Observation Period**”).

The Strategy ranks the Indicators against one another from greatest to least. Each Asset is then given a specific weight depending on its Indicator’s rank with respect to the other Asset Indicators. The Asset with the greatest Indicator is assigned a weight of 50%, the second greatest is assigned a weight of 35%, the third greatest is assigned a weight of 10% and finally the lowest is assigned a weight of 5%.

The exposure of the Strategy to each Asset is set depending whether the Indicator is positive or negative. If the Indicator is positive, it signifies that the Asset is in a positive trend and the Strategy’s exposure to the Asset will be long. If the Indicator is negative it signifies that the Asset is in a negative trend and the Strategy’s exposure to the Asset will be short.

The Strategy invests in the following Assets: the CYD Market Neutral Plus 5 Excess Return Index, the Excess Return ABZMCSY Asset, the RICI® EnhancedSM Index ER, and the World Excess Return Asset (each an “**Asset**” and together the “**Assets**”). The Assets represent exposure to the following markets and financial areas: a market neutral strategy (in respect of the CYD Market Neutral Plus 5 Excess Return Index), FX (in respect of the Excess Return ABZMCSY Asset), the commodity markets (in respect of the RICI® EnhancedSM Index ER) and the world equity market (in respect of the World Excess Return Asset).

The selection of the weights and the exposures of each Asset is determined at the end of each month on the selection date and maintained until the next selection date. Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code RBSDRYU1.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the Offer Period (if any) to the maturity date upon request at (i) the offices of the Index Sponsor at The Royal Bank of Scotland plc, 250 Bishopsgate, London EC2M 4AA and (ii) the office of any distributor. Investors should note that this description of the Index Rules is subject to the detailed provisions of the Index Rules. Investors should note that the Index Rules are subject to change from time to time. In certain circumstances, the Index Sponsor can change the method of calculating the Index, or may discontinue or suspend calculation or dissemination of the Index which could affect the return or principal amount paid on the Securities.

Risk Factor

The Index has either “long” or “short” exposure to each Asset. Each month, directional risk is dependent on the exposure to each Asset set by its Indicator. If the Indicator of an Asset is positive at the start of a certain month due to the historical performance of that Asset, (i.e. the relevant Indicator deems the Asset is in a positive trend), the exposure of the Index to that Asset is long for that month. If the Asset depreciates in value during that month, the Index will also depreciate in value. If the Indicator of an Asset is negative at the start of a certain month due to the historical performance of that Asset (i.e. the Indicator deems the Asset is in a negative trend), the exposure of the Index to that Asset is short for that month. If the Asset appreciates in value during that month, the Index will depreciate in value.

RBS VC Sweden Top 30 Index (SEK) ER 17% (the “Index”)

The Index is calculated and maintained by Future Value Consultants Limited (“FVC” or the “**Index Calculation Agent**” as the context requires) based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index synthetically invests in the Excess Return Sweden Top 30 Index (the “**Underlying Index**”) using a dynamic participation mechanism, which is calculated daily by FVC.

The Underlying Index aims to track a dynamic strategy linked to a rolling investment in front-month futures contracts (the “**Rolling Future**”) which are OMXS30 futures contracts, traded on SSE – Stockholm Stock Exchange and denominated in SEK (the “**Futures Contracts**”). The aim of the Underlying Index is to reflect the excess return performance of the Rolling Future.

The purpose of the dynamic participation is to dynamically adjust exposure to the Underlying Index based on the Realised Volatility of the Index.

“Realised Volatility” herein is specifically a measure of how much the daily returns of the Underlying Index have fluctuated around their average in the past over a defined time period. The time period is taken to be twenty (20) days and the average is assumed to be zero.

Exposure to the Index is reduced if the Realised Volatility of the Index increases to certain levels. Conversely, exposure to the Index is increased if the Realised Volatility decreases to certain levels. The dynamic participation provides for the Index to have exposure to the Underlying Index within a range from a minimum of 0% to a maximum of 141.50%.

The dynamic participation is a function of the effective Realised Volatility, which is calculated as the maximum Realised Volatility level for the Underlying Index observed over 5 consecutive strategy calculation dates which are used as reference observation dates (each, an “**Observation Date**”). On each Observation Date, the Realised Volatility of the Underlying Index is observed over the previous 20 most recent daily closing levels of the Underlying Index up to and including the relevant Observation Date.

The dynamic participation is thus determined according to the range that the effective realised volatility falls within. The ranges of the effective realised volatility and the corresponding dynamic participation values are described in the methodology for the Index.

The final Index level is calculated daily by increasing or decreasing the exposure to the Underlying Index by applying the dynamic participation, irrespective of whether the performance of the Underlying Index is negative or positive. Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code RBSBIOK1.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the Offer Period (if any) to the maturity date upon request at (i) the offices of the Index Sponsor at The Royal Bank of Scotland plc, 250 Bishopsgate, London EC2M 4AA and (ii) the office of the any Distributor. Investors should note that this description of the Index Rules is subject to the detailed provisions of the Index Rules. Investors should note that the Index Rules are subject to change from time to time. The Risk Stabilised BRIC 11 Strategy (the “Strategy”)

The Strategy is calculated and maintained by Future Value Consultants Limited (“FVC” or the “**Strategy Calculation Agent**” as the context requires) based on a methodology (the “**Strategy Rules**”) (which, for the avoidance of doubt, do not form part of this Strategy description) developed by The Royal Bank of Scotland plc (the “**Strategy Sponsor**”).

The Strategy synthetically invests in the RBS BRIC 11 Index (EUR) TR (Bloomberg Code: RBSYBRXI) (the “**Underlying Index**”) using a dynamic participation mechanism, which is calculated daily by FVC.

The Underlying Index is designed to track the performance of 11 Open Ended Certificates. Each Open Ended Certificate is linked to the performance of an emerging equities market. The Underlying Index is deemed an “excess return” investment because it represents the performance of the Open Ended Certificates over the risk-free rate.

The dynamic participation is thus determined according to the range that the effective Realised Volatility falls within. The ranges of effective Realised Volatility and the corresponding dynamic participation values are described in the methodology for the Strategy.

The final Strategy level is calculated daily by increasing or decreasing the exposure to the Underlying Index by applying the dynamic participation, irrespective of whether the performance of the Underlying Index is negative or positive. Information about the past and the future performance of the Strategy and its volatility can be obtained from Bloomberg code RISTBR11.

RBS VC Symbiosis II Index (USD) ER 11% (the “Index”)

The Index is calculated and maintained by Future Value Consultants Limited (“FVC” or the “**Index Calculation Agent**” as the context requires) based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index synthetically invests in the RBS Symbiosis II Index (USD) ER (the “**Underlying Index**”) using a dynamic participation mechanism calculated daily by the Index Calculation Agent. The Underlying Index is a strategy linked to the performance of a basket of assets that together provide a rule-based weighted exposure to different financial markets including commodities, FX and equities.

The purpose of the dynamic participation is to dynamically adjust exposure to the Underlying Index based on the Realised Volatility of the Underlying Index.

“**Realised Volatility**” herein is specifically a measure of how much the daily returns of the Underlying Index have fluctuated around their average in the past over a defined time period. The time period is taken to be twenty (20) days and the average is assumed to be zero.

Exposure to the Underlying Index is reduced if the Realised Volatility of the Underlying Index increases to certain levels. Conversely, exposure to the Underlying Index is increased if the Realised Volatility of the Underlying Index decreases to certain levels.

The dynamic participation provides for the Index to have exposure to the Underlying Index within a range from a minimum of 0% to a maximum of 183.33%. The dynamic participation is a function of the effective Realised Volatility. To determine the effective Realised Volatility in respect of a specific strategy calculation date, the maximum Realised Volatility level is measured by observing the Realised Volatility on that specific strategy calculation date and the previous 4 strategy calculation dates (each an “**Observation Date**”). The Realised Volatility attributable to an Observation Date is determined by using the 21 historical closing levels of the Underlying Index up to and including the closing level observed two strategy calculation dates immediately preceding such Observation Date, as displayed on Bloomberg page RBSDRYU2 Index.

The dynamic participation is thus determined according to the range that the effective Realised Volatility falls within. The ranges of effective Realised Volatility and the corresponding dynamic participation values are described in the methodology for the Index.

The final Index level is calculated daily and reflects the increase or decrease in exposure to the Underlying Index by applying the dynamic participation, irrespective of whether the performance of the Underlying Index is negative or positive. Trading costs and synthetic dividends are also reflected in the final Index level. Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code RBSDSYU2.

RBS Symbiosis II Index (USD) ER (the “Index”)

The Index is calculated and maintained by Future Value Consultants Limited (“FVC” or the “**Index Calculation Agent**” as the context requires) based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index aims to track a dynamic long-short multi-asset strategy (the “**Strategy**”) developed by Index Sponsor. The Strategy sets specific weights and exposures to the Assets (as defined below) depending on the technical indicator for each Asset developed by the Index Sponsor (the Indicator). The Indicator measures each Asset’s risk-adjusted momentum based on the Asset’s closing prices over the previous 121 Index Calculation Dates (the “**Observation Period**”).

The Strategy ranks the Indicators against one another from greatest to least. Each Asset is then given a specific weight depending on its Indicator’s rank with respect to the other Asset Indicators. The Asset with the greatest Indicator is assigned a weight of 50%, the second greatest is assigned a weight of 35%, the third greatest is assigned a weight of 10% and finally the lowest is assigned a weight of 5%. Where the same Indicator is calculated for one or more Assets, those Assets shall be ranked by two alternative methods. If either of the alternative ranking methods should fail to distinguish between the Assets, then the weights attributable to the Assets shall be added and divided equally across each of the Assets in question.

The exposure of the Strategy to each Asset is set depending whether the Indicator is positive or negative. If the Indicator is positive, it signifies that the Asset is in a positive trend and the Strategy’s exposure to the Asset will be long. If the Indicator is negative it signifies that the Asset is in a negative trend and the Strategy’s exposure to the Asset will be short.

The Strategy invests in the following Assets: the CYD Market Neutral Plus 5 Excess Return Index, the Excess Return ABZMCSY Asset, the RICI® EnhancedSM Index ER, and the World Excess Return Asset (each an “**Asset**” and together the “**Assets**”). The Assets represent exposure to the following markets and financial areas: a market neutral strategy (in respect of the CYD Market Neutral Plus 5 Excess Return Index), FX (in respect of the Excess Return ABZMCSY Asset), the commodity markets (in respect of the RICI® EnhancedSM Index ER) and the world equity market (in respect of the World Excess Return Asset).

The selection of the weights and the exposures of each Asset is determined at the end of each month on the selection date and maintained until the next selection date. Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code RBSDRYU2.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the Offer Period (if any) to the maturity date upon request at (i) the offices of the Index Sponsor at The Royal Bank of Scotland plc, 250 Bishopsgate, London EC2M 4AA and (ii) the office of any distributor. Investors should note that this description of the Index Rules is subject to the detailed provisions of the Index Rules. In order

to obtain the Index Rules, an investor may need to give certain non-disclosure representations to the Index Sponsor.

Investors should note that the Index Rules are subject to change from time to time. In certain circumstances, the Index Sponsor can change the method of calculating the Index, or may discontinue or suspend calculation or dissemination of the Index which could affect the return or principal amount paid on the Securities.

Risk Factor

The Index has either “long” or “short” exposure to each Asset. Each month, directional risk is dependent on the exposure to each Asset set by its Indicator. If the Indicator of an Asset is positive at the start of a certain month due to the historical performance of that Asset, (i.e. the relevant Indicator deems the Asset is in a positive trend), the exposure of the Index to that Asset is long for that month. If the Asset depreciates in value during that month, the Index will also depreciate in value. If the Indicator of an Asset is negative at the start of a certain month due to the historical performance of that Asset (i.e. the Indicator deems the Asset is in a negative trend), the exposure of the Index to that Asset is short for that month. If the Asset appreciates in value during that month, the Index will depreciate in value.

RBS VC Commodity Twister Index (SEK) ER 18% (the “Index”)

The Index is calculated and maintained by Future Value Consultants Limited (“FVC” or the “**Index Calculation Agent**” as the context requires) based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index’s objective is to track a risk-stabilised, dynamic long-short algorithm which is linked to the RICI® EnhancedSM Index ER (the “**ER Asset**”). The most current version of the ER Asset Rules is available from the Index Sponsor upon request.

The dynamic long-short algorithm means an algorithm that can have either a notionally long or short position in the ER Asset at a particular point in time, but not both simultaneously. If the algorithm has a long position, the level of the Index will increase if the ER Asset rises and decrease if the ER Asset falls. If the algorithm has a short position, the level of the Index will increase if the ER Asset falls and decrease if the ER Asset rises.

On each monthly trend observation date, the algorithm compares the level of the ER Asset at the valuation time (the “**ER Closing Price**”) to its average price over the preceding six months (the “**Moving Average Six**”) to determine market trend.

If the ER Closing Price on such trend observation date is greater than, or equal to, the Moving Average Six, then the market trend is deemed to be positive and the Index shall have a positive economic exposure to the ER Asset for the subsequent month. If the ER Closing Price on a trend observation date is lower than the Moving Average Six, then the market trend is deemed to be negative and the Index shall have a negative economic exposure to the ER Asset for the subsequent month.

The Index then applies QuampoTM technology and finally an overall dynamic participation mechanism. QuampoTM is a new dynamic technology created by the Index Sponsor for dealing with currency risk exposures. QuampoTM implements an algorithm that converts an underlying asset’s original currency to another desired currency. As a result of applying the algorithm only the change in value of an underlying asset is exposed to currency risk instead of the full notional value as would be the case otherwise. For the purposes of the Index, the QuampoTM technology changes the currency denomination from U.S. dollars to Swedish kronor of the monthly gains or losses realised by the exposure to the base strategy.

The dynamic participation adjusts on a daily basis in order to stabilise the volatility of the Index. The dynamic participation will vary between 0.00% and 200% and shall be dependent on the realised volatility of the currency converted underlying strategy. If the level of the realised volatility increases above a certain level, the dynamic participation in the currency converted underlying strategy will be decreased and if the realised volatility decreases below a certain level, the dynamic participation in the currency converted underlying strategy will be increased. As such, the Index aims to realise a target volatility of less than 18%

annualised. Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code RBSDTTK1.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the Offer Period (if any) to the maturity date upon request at (i) the offices of the Index Sponsor at The Royal Bank of Scotland plc, 250 Bishopsgate, London EC2M 4AA and (ii) the office of any distributor. Investors should note that the Index Rules are subject to change from time to time. RBS VC Symbiosis III Index (SEK) ER 11.5% (the “Index”)

The Index is calculated and maintained by Future Value Consultants Limited (FVC or the Index Calculation **Agent** as the context requires) based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index aims to track a dynamic long-short multi-asset strategy developed by the Index Sponsor. The Index sets specific weights and exposures to the Assets (as defined below) depending on the technical indicator for each Asset (the “**Indicator**”). The Indicator measures each Asset’s risk-adjusted momentum based on the Asset’s closing values over the previous 121 strategy calculation dates (the “**Observation Period**”).

The Index ranks the Indicators against one another from greatest to least. Each Asset is then given a specific weight depending on its Indicator’s rank with respect to the other Asset Indicators. The Asset with the greatest Indicator is assigned a weight of 50%, the second greatest is assigned a weight of 30%, the third greatest is assigned a weight of 20% and the lowest is assigned a weight of 0%.

The Index makes a notional investment in the assets listed below:

- The CYD Market Neutral Plus 5 Excess Return Index;
- The Alpha Centurion European Index (USD);
- The RICI® EnhancedSM Index ER; and
- The World Excess Return Asset,

(each an “**Asset**”, and together, the “**Assets**”).

The exposure of the Index to the first and second Assets in the list above is set depending whether the Indicator relative to each of those Assets is positive or negative. If the Indicator is positive, the Asset will be deemed to be in a positive trend and the Index’s exposure to the Asset will be long. If the Indicator is negative, the Asset will be deemed to not be in a positive trend and the Index’s exposure to the Asset will be zero.

The exposure of the Index to the third and fourth Assets in the list above is set depending whether the Indicator relative to each of those Assets is positive or negative. If the Indicator is positive, the Asset will be deemed to be in a positive trend and the Index’s exposure to the Asset will be long. If the Indicator is negative, the Asset will be deemed to be in a negative trend and the Index’s exposure to the Asset will be short.

The Assets represent exposure to the following markets and financial areas: a commodity market neutral strategy (in respect of the CYD Market Neutral Plus 5 Excess Return Index), an equity market neutral

strategy (in respect of the Alpha Centurion European Index USD), the commodity markets (in respect of the RICI[®] EnhancedSM Index ER) and the world equity market (in respect of the World Excess Return Asset).

The selection of the weights and the exposures of each Asset is determined at the end of each month on the selection date.

The Index then applies Quampo[™] technology and finally an overall dynamic participation mechanism. Quampo[™] is a new dynamic technology created by the Index Sponsor for dealing with currency risk exposures. Quampo[™] implements an algorithm that converts an underlying asset's original currency to another desired currency. As a result of applying the algorithm only the change in value of an underlying asset is exposed to currency risk instead of the full notional value as would be the case otherwise. For the purposes of the Index, the Quampo[™] technology changes the currency denomination from U.S. dollars to Swedish kronor of the monthly gains or losses realised by the exposure to the base strategy.

The dynamic participation adjusts on a daily basis in order to stabilise the volatility of the Index. The dynamic participation will vary between 0.00% and 176.92% and shall be dependent on the realised volatility of the currency converted underlying strategy. If the level of the realised volatility increases above a certain level, the dynamic participation in the currency converted underlying strategy will be decreased and if the realised volatility decreases below a certain level, the dynamic participation in the currency converted underlying strategy will be increased. As such, the Index aims to realise a target volatility of less than 12.5% annualised. Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code RBSDSYK3.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the Offer Period (if any) to the maturity date upon request at (i) the offices of the Index Sponsor at The Royal Bank of Scotland plc, 250 Bishopsgate, London EC2M 4AA and (ii) the office of any distributor. Investors should note that this description of the Index Rules is subject to the detailed provisions of the Index Rules. In order to obtain the Index Rules, an investor may need to give certain non-disclosure representations to the Index Sponsor.

Investors should note that the Index Rules are subject to change from time to time. In certain circumstances, the Index Sponsor can change the method of calculating the Index, or may discontinue or suspend calculation or dissemination of the Index which could affect the return or principal amount paid on the Securities.

Risk Factor

The Index has either "long" or "short" exposure to each Asset. Each month, directional risk is dependent on the exposure to each Asset set by its Indicator. If the Indicator of an Asset is positive at the start of a certain month due to the historical performance of that Asset, (i.e. the relevant Indicator deems the Asset is in a positive trend), the exposure of the Index to that Asset is long for that month. If the Asset depreciates in value during that month, the Index will also depreciate in value. If the Indicator of an Asset is negative at the

start of a certain month due to the historical performance of that Asset (i.e. the Indicator deems the Asset is in a negative trend), the exposure of the Index to that Asset is short for that month. If the Asset appreciates in value during that month, the Index will depreciate in value.

The Index only allows for “long” exposure to the Alpha Centurion European Index Asset and the CYD Market Neutral Plus Five Index Asset. Therefore, an investor in a product linked to the Index will not benefit from any short exposure to the Alpha Centurion European Index Asset and the CYD Market Neutral Plus Five Index Asset if the Indicator for those Assets is negative. If the Indicator for the Alpha Centurion European Index Asset or the CYD Market Neutral Plus Five Index Asset is negative, the Index’s exposure to those Assets is zero.

RBS VC Swedish Twister Index (SEK) ER 17% (the “Index”).

The Index is calculated by The Royal Bank of Scotland N.V. (formerly ABN Amro Bank N.V.), acting through its London Branch, or its successor (the “**Index Calculation Agent**”) based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index’s objective is to track a risk-stabilised, dynamic long-short algorithm which is linked to the Excess Return Sweden 30 Strategy (the “**ER Asset**”). The most current version of the ER Asset Rules is available from the Strategy Sponsor upon request.

The dynamic long-short algorithm means an algorithm that can have either a notionally long or short position in the ER Asset at a particular point in time, but not both simultaneously. If the algorithm has a long position, the level of the Index will increase if the ER Asset rises and decrease if the ER Asset falls. If the algorithm has a short position, the level of the Index will increase if the ER Asset falls and decrease if the ER Asset rises.

On each monthly trend observation date, the algorithm compares the level of the ER Asset at the valuation time (the “**ER Closing Price**”) to its average price over the preceding nine months (the “**Moving Average Nine**”) to determine market trend, and the Moving Average Nine to the preceding three months (the “**Moving Average Three**”) to determine the strength of the market trend.

If the ER Closing Price on such trend observation date is greater than, or equal to, the Moving Average Nine, then the market trend is deemed to be positive and the Index shall have a positive economic exposure to the ER Asset for the subsequent month. If the ER Closing Price on a trend observation date is lower than the Moving Average Nine, then the market trend is deemed to be negative and the Index shall have a negative economic exposure to the ER Asset for the subsequent month.

If the market trend is positive and the Moving Average Three is greater than, or equal to, the Moving Average Nine, then the long-exposure of the Index to the ER Asset will be 100%. In all other cases (i.e., the Moving Average Three is less than the Moving Average Nine), the long-exposure will be 50%. If the market trend is negative and the Moving Average Three is less than the Moving Average Nine, then the short-exposure of the Index to the ER Asset will be 100%. In all other cases (i.e., the Moving Average Three is more than the Moving Average Nine), the short-exposure will be 50%.

The Index invests in the algorithm using a dynamic participation that is adjusted on a daily basis in order to stabilise the volatility of the Index. The dynamic participation will vary between 0% and 200.00% and shall be dependent on the realised volatility of the ER Asset. If the level of the realised volatility increases above a certain level, the dynamic participation in the ER Asset will be decreased and if the realised volatility decreases below a certain level, the dynamic participation in the ER Asset will be increased. As such, the

Index aims to realise a target volatility of less than 17% annualised. Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code RBSDTOK1.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the Offer Period (if any) to the maturity date upon request at (i) the offices of the Index Sponsor at The Royal Bank of Scotland plc, 250 Bishopsgate, London EC2M 4AA and (ii) the office of any distributor. RBS Sweden 30 Index (SEK) ER (the “Index”) or (the “ER Asset”)

The ER Asset is calculated by The Royal Bank of Scotland N.V. (formerly ABN Amro Bank N.V.), acting through its London Branch, or its successor (the “**Asset Calculation Agent**”) based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Asset Sponsor**”).

The ER Asset aims to track a dynamic algorithm linked to a rolling investment in front-month futures contracts (the “**Rolling Future**”) which are (a) NASDAQ OMXS30 Index Futures Contracts; (b) traded on the OMX Nordic Exchange and (c) denominated in SEK (each, a “**Futures Contract**” together, the “**Futures Contracts**”).

The expiration date of each Futures Contract (the “**Futures Expiration Date**”) is indicated on the relevant Bloomberg page for each Futures Contract, and may also be made available through the website of the OMX Nordic Exchange (<http://nordic.nasdaqomxtrader.com/trading/>) (together, the “**Price Source**”). Two business days prior to any Futures Expiration Date (the “**Futures Contract Roll Date**”), the ER Asset will combine two elements: a notional divestment of Futures Contracts due to expire on such Futures Expiration Date and a simultaneous notional investment in Futures Contracts which are due to expire on the next following Futures Expiration Date.

The number of Futures Contracts which comprise the Rolling Future shall be rebalanced on each Futures Contract Roll Date by the Asset Sponsor acting in consultation with the Asset Calculation Agent (a “**Rebalancing**”). It is possible that the number of Futures Contracts to be included in the Rolling Future will remain the same after any Rebalancing. On any date on which the level of the ER Asset is calculated, the ER Asset is intended to reflect the price return performance of the Rolling Future.

In the event that the Asset Sponsor determines that, due to a disruption event, there will be less than two business days between a Futures Contract Roll Date and a Futures Expiration Date, the Asset Sponsor shall, in its sole and absolute discretion, select an alternative date to be a Futures Contract Roll Date and shall determine the value of the Futures Contracts in its sole and absolute discretion for the purposes of any Rebalancing.

If the Asset Sponsor determines in its sole and absolute discretion that any hedging activity will distort the performance of the ER Asset, the Asset Sponsor shall modify the Index Rules to ensure that the ER Asset continues to meet its investment objective. Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code RBSEROK1.

The Index objective is to track a risk-stabilised, dynamic long-short algorithm which is linked to the Excess Return UK 100 Strategy (the “**ER Asset**”). The most current version of the ER Asset rules is available from the Index Sponsor upon request.

The dynamic long-short algorithm means an algorithm that can have either a notionally long or short position in the ER Asset at a particular point in time, but not both simultaneously. If the algorithm has a long position, the level of the Index will increase if the ER Asset rises in value and decrease if the ER Asset falls in value. If the algorithm has a short position, the level of the Index will increase if the ER Asset falls and decrease if the ER Asset rises.

On each monthly trend observation date, the algorithm compares the level of the ER Asset at the valuation time (“**ER Closing Price**”) to its monthly average price over the preceding 12 months (the “**Moving Average Twelve**”) to determine market trend, and the Moving Average Twelve to the monthly average price over the preceding 3 months (the “**Moving Average Three**”) to determine the strength of the market trend.

If the ER Closing Price on such trend observation date is greater than, or equal to, the Moving Average Twelve, then the market trend is deemed to be positive and the Index shall have a positive economic exposure to the ER Asset for the subsequent month. If the ER Closing Price on a trend observation date is lower than the Moving Average Twelve, then the market trend is deemed to be negative and the Index shall have a negative economic exposure to the ER Asset for the subsequent month.

If the market trend is positive and the Moving Average Three is greater than, or equal to, the Moving Average Twelve, then the long-exposure of the Index to the ER Asset will be 125%. In all other cases (i.e., the Moving Average Three is less than the Moving Average Twelve), the long-exposure will be 75%. If the market trend is negative and the Moving Average Three is less than the Moving Average Twelve, then the short-exposure of the Index to the ER Asset will be 125%. In all other cases (i.e., the Moving Average Three is more than the Moving Average Twelve), the short-exposure will be 75%.

The Index invests in the algorithm using a dynamic participation that is adjusted on a daily basis in order to stabilise the volatility of the Index. The dynamic participation will vary between 0% and 100% and shall be dependent on the realised volatility of the ER Asset. If the level of the realised volatility increases above a certain level, the dynamic participation in the ER Asset will be decreased and if the realised volatility decreases below a certain level, the dynamic participation in the ER Asset will be increased. As such, the

Index aims to realise a target volatility of less than 12% annualised. Information about the past and the future performance of the Index and its volatility can be obtained on Bloomberg page RBSDTUG1 Index.

RBS UK Autopilot Index (GBP) PR (the “Index”)

The Index is calculated by The Royal Bank of Scotland N.V. (formerly ABN AMRO Bank N.V.), acting through its London Branch, or its successor (the “**Index Calculation Agent**”) based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index aims to track the return of a notional strategy that allocates between the following five constituents which may be comprised of one or more underlyings:

- (a) An equally-weighted basket of the FTSE 100 Index, S&P 500 Index, Nikkei 225 Stock Average and the EUROSTOXX 50 (Price) Index (“**Constituent 1**”);
- (b) iShares MSCI Emerging Market Index Fund (“**Constituent 2**”);
- (c) DJ AIG Commodity Excess Return Index (“**Constituent 3**”);
- (d) FTSE EPRA/NAREIT Europe Index (“**Constituent 4**”);

and the UK Retail Prices Index which is entitled “All Items NSA Inflation Index” (the “**Inflation Index**” or “**Constituent 5**” and Constituents 1, 2, 3, 4 and 5 shall be collectively referred to as the “**Constituents**”).

On or around the first calendar day of each month (“**Rebalancing Date**”) the Index Calculation Agent will rebalance the weight allocated to a Constituent and such weight will be effective following the Rebalancing Date. The weight to be allocated to each Constituent will be determined with reference to the value of each Constituent 1, 2, 3 and 4 taken on the first calculation date immediately preceding each Rebalancing Date (“**Determination Date**”).

On each Determination Date, the value of Constituents 1, 2, 3 and 4 will each be compared to its respective monthly average value over the preceding 12 months (“**Moving Average**”). If the relevant value of Constituent 1, 2, 3 and 4 is greater than its respective Moving Average, the Index Calculation Agent will allocate a weight of 25% of the notional value of the Index to such Constituent from the day immediately following the Rebalance Date up to and including the immediately following Rebalancing Date. Otherwise, the Index Calculation Agent shall allocate a weight of 25% of the notional value of the Index to the Inflation Index. Hence, each of Constituent 1, 2, 3 and 4 can have a weight of either 0% or 25% and Constituent 5 can have a weight of either 0%, 25%, 50%, 75% or 100%. In total, the weights shall sum to 100%.

In any monthly performance period which will commence on the day immediately following a Rebalancing Date and end on the following Rebalancing Date (“**Monthly Performance Period**”), the monthly return of each Constituent shall be determined by the Index Calculation Agent from the start of the Monthly Performance Period until the end of the Monthly Performance Period. With respect to Constituents 1, 2, 3 and 4 the monthly return will be capped at 7.00% and with respect to the Inflation Index, the monthly return

shall be fixed at one-twelfth of the annual return of Inflation Index. Information about the past and the future performance of the Index and its volatility can be obtained on Bloomberg page RBSDAPG1 Index.

RBS VC Denmark Top 20 Index (DKK) PR 15% (the “Index”)

The Index is calculated and maintained by Future Value Consultants Limited, based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index’s objective is to track the performance of a market capitalisation-weighted basket of up to 20 securities (the “**Underlying Strategy**”), after application of a performance reduction factor and a daily dynamic risk adjustment mechanism. The purpose of the Underlying Strategy is to provide exposure to the Danish stock market. The Underlying Strategy is composed of a maximum of 20 of the companies represented in the OMX Copenhagen Top 20 Index, subject to certain selection criteria and is rebalanced annually.

On each relevant calculation date, a performance reduction factor is applied to the Underlying Strategy to give a reference Underlying Strategy (the “**Reference Underlying Strategy**”), after which exposure to the Reference Underlying Strategy is adjusted dynamically based on the volatility of the Reference Underlying Strategy. Exposure to the Reference Underlying Strategy is reduced if the volatility of the Reference Underlying Strategy increases above a certain level. Conversely, exposure to the Reference Underlying Strategy is increased if the volatility of the Reference Underlying Strategy decreases below a certain level, subject to a maximum exposure of 150 per cent. in the Underlying Strategy, for a given investment amount. The Index performance is intended to be achieved without distorting market prices through hedging activity.

The Underlying Strategy will cease to be calculated if there are less than 13 component securities. The Index is subject to a performance reduction factor which reduces the actual level of performance of the Index from what it would be if the performance reduction factor did not exist. The performance reduction factor is set at pro-rata daily basis of 2.5% per annum. Information about the past and the future performance of the Strategy and its volatility can be obtained from Bloomberg code RBSBIKD1.

A copy of the Index Rules will be available for review from the beginning of the Offer Period (if any) to the maturity date upon request at (i) the offices of the Strategy Sponsor at The Royal Bank of Scotland plc, 250 Bishopsgate, London EC2M 4AA and (ii) the office of any distributor. RBS VC Alpha Beta Centurion European Index (SEK) ER 16% (the “Index”)

The Index is calculated and maintained by Standard & Poor’s, a division of The McGraw-Hill Companies, Inc., based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index’s objective is to track the performance of an equity market neutral and momentum strategy (the “**Underlying Strategy**”), and produce absolute returns based upon price signals determined from the S&P Europe 350 Index.

Each week, the Underlying Strategy measures the momentum (that is, the positive or negative trend) of the S&P Europe 350 Index. The indicator measuring momentum not only looks at the trend in the S&P Europe 350 Index, but also the relative strength of that trend as compared to previous performance. The indicator also takes into consideration the effects of volatility on momentum. That is, the Underlying Strategy discounts momentum strength as result of high volatility in an effort to try to calculate momentum strength based on more stable markets. Depending on this momentum the Underlying Strategy will gain a:

- (a) Long exposure to the 20 stocks with the worst past weekly performance (the Long Basket) if the momentum is strongly positive; or
- (b) Short exposure to the 20 stocks with the best past weekly performance (the Short Basket) if the momentum is strongly negative; or
- (c) A combination of both exposures above if neither a) nor b) occurs.

The Underlying Strategy will be calculated as the long exposure (either 100%, 50% or 0% depending on the indicator) to the Long Basket less 1 week STIBOR, plus the short exposure (either 100%, 50% or 0% depending on the indicator) to Short Basket plus 1 week STIBOR, less the relevant trading costs.

Any dividends notionally received from the Long Basket or notionally due on the Short Basket will be reinvested. Each basket of 20 stocks (whether the exposure is long, short or a combination of both) will be held for approximately one week before new baskets are selected. Gains made each week on the baskets are re-invested into the Index. Conversely, losses made each week on the baskets are reflected in the Index.

The stocks chosen for inclusion in the basket of 20 stocks (whether the exposure is long, short or a combination of both) are taken weekly from a list of the 100 largest European companies which fall within certain eligibility criteria. An eligible security must, among other things: have a free-float market capitalization requirement of at least £1,000,000,000 or its equivalent in a currency other than Sterling; have a daily traded value of at least £5,000,000 or its equivalent in a currency other than Sterling; not be a closed-end fund, exchange-traded fund (ETF), investment vehicle, royalty trust or REIT; and have a primary listing on an exchange in an eligible jurisdiction.

In addition, the Index implements a daily dynamic risk adjustment mechanism in order to stabilise the volatility of the Index. On each relevant calculation date, exposure to the Underlying Strategy will vary between 0% and 145% based on the volatility of the Underlying Strategy. Exposure to the Underlying Strategy is reduced if the volatility of the Underlying Strategy increases to a certain level. Conversely, exposure to the Underlying Strategy is increased if volatility of the Underlying Strategy decreases to a certain level, subject to a maximum exposure of 145 per cent. in each of the Long Basket and the Short Basket, for a given investment amount. The Index is intended to be achieved without distorting market prices by hedging activity.

The Index is calculated daily at the close of business, London time on each calculation date.

If the Index Sponsor determines in its sole and absolute discretion that any hedging activity will distort the performance of the Index, the Index Sponsor shall modify the Index Rules to ensure that the Index continues to meet its investment objective. Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code RBSDHEK1.

A copy of the Index Rules will be available for review from the beginning of the Offer Period (if any) to the maturity date upon request at (i) the offices of the Index Sponsor at The Royal Bank of Scotland plc, 250 Bishopsgate, London EC2M 4AA and (ii) the office of any distributor. In certain circumstances, the Index Sponsor can change the method of calculating the Index, or may discontinue or suspend calculation or dissemination of the Index which could affect the return or principal amount paid on the Securities.

RBS VC Emerging Markets SRI Index (SEK) ER 23% (the “Index”)

The Index is calculated and maintained by The Royal Bank of Scotland N.V. (formerly ABN AMRO Bank N.V.), acting through its London Branch based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index aims to track a notional strategy that applies a risk-stabilisation overlay to a base methodology. The base methodology reflects the performance of an underlying following the deduction of a performance adjustment (the “**Base Methodology**”).

The performance adjustment is the level of adjustment, applied to the Index level which represents the costs incurred by the Index Sponsor in linking (and therefore notionally exposing) the Index to the underlying (the “**Performance Adjustment**”). The Performance Adjustment will reduce the level of the Base Methodology and therefore the Index level.

The underlying is a published index, the RBS Emerging Markets Socially Responsible Investment Index (the “**Reference Index**”) which is sponsored by The Royal Bank of Scotland N.V. (formerly ABN AMRO Bank N.V.), London Branch and calculated daily (Bloomberg code RBSZEMSS Index).

The Index level is also reduced by trading costs which represent the costs incurred by the Index Sponsor from the bid-offer spread notionally payable to change the exposure in the Reference Index, and by a charity deduction fee which represents a variable fee payable to the Index Sponsor for the purpose of the Index Sponsor donating the charity deduction fee to a charity of its choice.

The purpose of the risk-stabilisation overlay is to dynamically adjust exposure to the Base Methodology based on the Maximum Realised Volatility (as defined below) of the Base Methodology.

The “**Maximum Realised Volatility**” is calculated as the maximum Realised Volatility (as defined below) over 5 consecutive strategy calculation dates which are used as reference observation dates (each, an “**Observation Date**”). The “**Realised Volatility**” herein is specifically a measure of how much the daily returns of the Base Methodology have fluctuated around their average in the past over a defined time period. The time period is taken to be twenty (20) days and the average is calculated as the arithmetic mean.

Exposure to the Base Methodology is reduced if the Maximum Realised Volatility of the Base Methodology increases to certain levels. Conversely, exposure to the Base Methodology is increased if the Maximum Realised Volatility of the Base Methodology decreases to certain levels. The dynamic participation provides for the Index to have exposure to the Base Methodology within a range from a minimum of 0% to a maximum of 150.00%.

The dynamically adjusted exposure (the “**Dynamic Participation**”) is thus determined according to the range that the Maximum Realised Volatility falls within. The ranges of the Maximum Realised Volatility and the corresponding dynamic participation values are described in the Index Rules.

The final Index level is calculated daily by increasing or decreasing the exposure to the Base Methodology by applying the Dynamic Participation, irrespective of whether the performance of the Base Methodology is negative or positive. Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code RBSBESK1 Index.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the relevant Offer Period (if any) to the maturity date upon request at the offices of the Index Sponsor at The Royal Bank of Scotland plc, 250 Bishopsgate, London EC2M 4AA. Investors should note that this description of the Index Rules is subject to the detailed provisions of the Index Rules. In order to obtain the Index Rules, an investor may need to give certain non-disclosure representations to the Index Sponsor.

RBS VC Gotham Alpha US Index (USD) ER 12% (the “Index”)

The Index is calculated by Standard & Poor’s Financial Services LLC, or its successor based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index aims to track a risk-stabilised notional strategy linked to a base methodology after the deduction of a management fee, which represents the costs charged by the Index Sponsor to produce and maintain the Index, and a trading cost, which represents the costs incurred by the Index Sponsor from the bid-offer spread notionally payable to change the exposure in the Reference Indices (as defined below). This is achieved by varying the exposure to the base methodology on a daily basis, depending on the Maximum Realised Volatility (as defined below) of the base methodology.

The “**Maximum Realised Volatility**” is calculated as the maximum Realised Volatility (as defined below) observed over 5 consecutive calculation dates. “**Realised Volatility**” herein is specifically a measure of how much the daily returns of the base methodology have fluctuated around the arithmetic mean of the daily returns of the base methodology over a defined time period that comprises the immediately preceding twenty (20) calculation dates.

Exposure to the base methodology is reduced if the Maximum Realised Volatility of the base methodology increases to an amount equal to or above certain levels. Conversely, exposure to the base methodology is increased if the Maximum Realised Volatility of the base methodology decreases to certain levels. The dynamic adjusted exposure (the “**Dynamic Participation**”) provides for the Index to have exposure to the base methodology within a range from a minimum of 0% to a maximum of 150%. The Dynamic Participation is thus determined according to the range that the Maximum Realised Volatility falls within.

The base methodology is linked to the performance of the Reference Indices in accordance with an algorithm following the deduction of an access cost in respect of each Reference Index which represents the costs incurred by the Index Sponsor in connection with investing in the Reference Indices. The “**Reference Indices**” are published indices, the RBS Gotham US Enhanced Value Index (USD) ER (Bloomberg page: RBSEGVU1 Index) (“**Reference Index 1**”) and the RBS US 500 Index (USD) ER (Bloomberg page: RBSERSU1 Index) (“**Reference Index 2**”) respectively.

On every rebalancing date, the algorithm obtains a long exposure to Reference Index 1 and a short exposure to Reference Index 2. The level of the base methodology should increase if the performance of Reference Index 1 is greater than the performance of Reference Index 2, notwithstanding the effects of the access costs in respect of each Reference Index.

RBS Gotham US Enhanced Value Index (USD) ER (the “Index”)

The Index is calculated by Standard & Poor’s Financial Services LLC, or its successor based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The performance adjustment is the level of adjustment, applied to the value of the Index which represents the costs incurred by the Index Sponsor in linking (and therefore notionally exposing) the Index to the Reference Index (the “**Performance Adjustment**”). RBS VC European Twister Plus Index (USD) ER 10% (the “Index”)

The Index is calculated by The Royal Bank of Scotland N.V. (formerly ABN AMRO Bank N.V.), acting through its London Branch, or its successor based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index’s objective is to track a dynamic long-short algorithm which is linked to the Risk Stabilised Europe Top 50 Strategy (the “**ER Asset**”) (Bloomberg page: EXREEUTP Index), which is sponsored by The Royal Bank of Scotland plc, after the deduction of a management fee.

The dynamic long-short algorithm means an algorithm that can have either a notionally long or short position in the ER Asset at a particular point in time, but not both simultaneously. If the algorithm has a long position, the level of the Index will increase if the ER Asset rises in value and decrease if the ER Asset falls in value. If the algorithm has a short position, the level of the Index will increase if the ER Asset falls and decrease if the ER Asset rises.

On each trend observation date, the algorithm compares the level of the ER Asset at a specified time (the “**ER Asset Value**”) to its average value derived from the immediately preceding 18 trend observation dates (the “**Moving Average Eighteen**”) to determine market trend, and the Moving Average Eighteen to the ER Asset average value derived from the immediately preceding 12 Trend Observation Dates (the “**Moving Average Twelve**”) to determine the strength of the market trend.

If the ER Asset Value on such trend observation date is greater than, or equal to, the Moving Average Eighteen, then the market trend is deemed to be positive and the Index shall have a long economic exposure to the ER Asset for the **subsequent** investment period. If the ER Asset Value on a trend observation date is lower than the Moving Average Eighteen, then the market trend is deemed to be negative and the Index shall have a short economic exposure to the ER Asset for the subsequent investment period.

If the market trend is positive and the Moving Average Twelve is greater than, or equal to, the Moving Average Eighteen, then the long-exposure of the Index to the ER Asset will be 125%. In all other cases (i.e., the Moving Average Twelve is less than the Moving Average Eighteen), the long-exposure will be 75%. If the market trend is negative and the Moving Average Twelve is less than the Moving Average Eighteen, then the short-exposure of the Strategy to the ER Asset will be 125%. In all other cases (i.e., the Moving Average Twelve is more than the Moving Average Eighteen), the short-exposure will be 75%.

Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code: RBSDTXU1 Index.

RBS VC Aurum IV Index (USD) ER 15% (the “Index”)

The Index is calculated by The Royal Bank of Scotland N.V. (formerly ABN AMRO Bank N.V.), acting through its London Branch, or its successor based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Strategy description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index aims to track a risk-stabilised notional strategy linked to the constituent after the deduction of a management fee which represents the costs charged by the Index Sponsor to produce and maintain the Index. This is achieved by varying the exposure to the constituent on a daily basis, depending on the Maximum Realised Volatility (as defined below) of the constituent.

The “**Maximum Realised Volatility**” is calculated as the maximum Realised Volatility (as defined below) observed over 5 consecutive calculation dates. “**Realised Volatility**” herein is specifically a measure of how much the daily returns of the constituent have fluctuated around the arithmetic mean of the daily returns of the constituent over a defined time period that comprises the immediately preceding twenty (20) calculation dates.

Exposure to the constituent is reduced if the Maximum Realised Volatility of the constituent increases to an amount equal to or above certain levels. Conversely, exposure to the constituent is increased if the Maximum Realised Volatility of the constituent decreases to certain levels. The dynamic adjusted exposure (the “**Dynamic Participation**”) provides for the Index to have exposure to the constituent within a range from a minimum of 0% to a maximum of 150%. The Dynamic Participation is thus determined according to the range that the Maximum Realised Volatility falls within.

The constituent is linked to the performance of the Reference Indices (as defined below) in accordance with an algorithm following the deduction of an access cost in respect of each Reference Index which represents the costs incurred by the Index Sponsor in connection with investing in the Reference Indices in order to maintain the Index. The “**Reference Indices**” are published indices, the RICI[®] EnhancedSM – Gold ER Index (Bloomberg page: RIEHGC Index) (“**Reference Index 1**”) and the RICI[®] EnhancedSM – Crude Oil ER Index (Bloomberg page: RIEHCRER Index) (“**Reference Index 2**”). On every determination date, defined as every alternating Tuesday or immediately following calculation date if such Tuesday is not a calculation date, the algorithm compares the level of the current price of Reference Index 1 (the “**Reference Index 1 Price**”) divided by the current price of Reference Index 2 (the “**Reference Index 2 Price**”) (the “**GO Ratio**”), to the average level of the GO Ratio over the last 60 calculation dates (the “**Moving Average**”). If the GO Ratio is greater than or equal to the Moving Average, the algorithm will have a positive economic exposure to Reference Index 1 starting from but excluding the calculation date immediately after such determination date (the “**Rebalancing Date**”). Otherwise, the algorithm will have a positive economic exposure to Reference Index 2. This exposure is maintained until the next Rebalancing Date.

Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code: RBSDARU4 Index.

RBS VC Multi Currency Index (USD) ER 12% (the “Index”)

The Index is calculated and maintained by The Royal Bank of Scotland N.V. (formerly ABN AMRO Bank N.V.), acting through its London Branch based on the methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index aims to track a notional strategy, after the deduction of a management fee and a trading cost and the application of a risk-stabilisation overlay to a base methodology. The base methodology reflects the performance of an underlying following the deduction of a performance adjustment.

The management fee represents the costs charged by the Index Sponsor to produce and maintain the Index and the trading cost represents the costs incurred by the Index Sponsor from the bid-offer spread notionally payable to change the exposure in the underlying. The management fee and the trading cost will reduce the level of the Index.

The performance adjustment represents the level of adjustment applied to the Reference Index (as defined below), which represents the costs incurred by the Index Sponsor in linking (and therefore notionally exposing) the Index to the Reference Index. The performance adjustment will reduce the level of the base methodology and therefore the level of the Index.

The “**Reference Index**” is a published index, the RBS Multi Currency Index (USD) TR, which is sponsored by The Royal Bank of Scotland N.V. (Bloomberg page: RBSXMCSY Index).

The purpose of the risk-stabilisation overlay is to dynamically adjust exposure to the base methodology based on the Maximum Realised Volatility (as defined below) of the base methodology.

The “**Maximum Realised Volatility**” is calculated as the maximum Realised Volatility (as defined below) observed over 5 consecutive calculation dates. “**Realised Volatility**” herein is specifically a measure of how much the daily returns of the base methodology have fluctuated around the arithmetic mean of the daily returns of the base methodology over a defined time period that comprises the immediately preceding twenty (20) calculation days.

Exposure to the base methodology is reduced if the Maximum Realised Volatility of the base methodology increases to an amount equal to or above certain levels. Conversely, exposure to the base methodology is increased if the Maximum Realised Volatility of the base methodology decreases to certain levels. The dynamic adjusted exposure (the “**Dynamic Participation**”) provides for the Index to have exposure to the base methodology within a range from a minimum of 0% to a maximum of 200%. The Dynamic Participation is thus determined according to the range that the Maximum Realised Volatility falls within.

RBS Sharpener Index (USD) ER (the “Index”)

The Index is calculated by The Royal Bank of Scotland N.V. (formerly ABN AMRO Bank N.V.), acting through its London Branch, or its successor based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index is linked to the performance of five Reference Indices (as defined below) (less an access cost and a trading cost) by the application of an algorithm. The access cost represents the costs charged and expenses incurred by the Index Sponsor in connection with investing in each Reference Index in order to maintain the Index. The trading cost represents the costs incurred by the Index Sponsor from the bid-offer spread notionally payable to change the weight in each Reference Index. Reference Index 1, reference index 2, reference index 3, reference index 4 and reference index 5 (each a “**Reference Index**” and together the “**Reference Indices**”) are, respectively, the following published indices, all of which are also sponsored by The Royal Bank of Scotland plc:

- (a) RBS VC Gotham Alpha US Index (USD) ER 12%;
- (b) RBS VC European Twister Plus Index (USD) ER 10%;
- (c) RBS VC Aurum IV Index (USD) ER 15%;
- (d) RBS VC Multi Currency Index (USD) ER 12%; and
- (e) RBS VC Trader Vic IV Index (USD) ER 15%.

On every determination date, defined as the first calculation date of every calendar month, the algorithm ranks the Sharpe ratio (the “**SR**”) of each Reference Index. The SR for each Reference Index is calculated as the price return of the Reference Index divided by the annualised volatility of the Reference Index, measured over a 40 day period. The five SRs will be ranked and a weighting will be allocated to each Reference Index in accordance with the numerical rank of its respective SR. The Reference Index with the highest SR will be allocated a weighting of 40%, the Reference Index with the second highest SR will be allocated a weighting of 30%, the Reference Index with the third highest SR will be allocated a weighting of 20%, the Reference Index with the fourth highest SR will be allocated a weighting of 10% and the Reference Index with the lowest SR will be allocated a weighting of 0% for the investment period. The investment period is the period over which the allocated weighting will be applied to each Reference Index and such period will extend from the valuation time on the calculation date immediately succeeding the relevant determination date (the “**Rebalance Date**”) to the valuation time on the next Rebalance Date.

RBS VC Sharpener Index (SEK) ER 9% (the “Index”)

The Index is calculated by Future Value Consultants Limited or its successor (the “**Index Calculation Agent**”) (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) based on a methodology developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index aims to track a notional strategy after the deduction of a management fee and trading costs and the application of a risk-stabilisation and currency conversion overlay to the Reference Indices (as defined below). The management fee represents the costs charged by the Index Sponsor to produce and maintain the Index and the trading costs represents the costs incurred by the Index Sponsor in linking the Index to the Currency Converted Final Underlying (as defined below) and which are derived from the bid-offer spread notionally payable to change the dynamically adjusted exposure to the Currency Converted Final Underlying. The management fee and the trading costs will reduce the level of the Index.

The “**Reference Index**” is a published index, the RBS Sharpener Index (USD) ER, which is sponsored by The Royal Bank Scotland plc (Bloomberg page: RBSSHBU1 Index).

The currency conversion overlay involves the application of the Quampo™ technology. Quampo™ is a dynamic technology created by the Index Sponsor for dealing with currency risk exposures. Quampo™ implements an algorithm that converts the Reference Index’s original currency to another desired currency. As a result of applying this technology, only the change in value of an underlying asset is exposed to currency risk, instead of the full notional value as would be the case otherwise. In this Index, the technology allows the Index Sponsor to create an Index denominated in Swedish kronor from the Reference Index which is denominated in U.S. dollars.

The purpose of the risk-stabilisation overlay is to dynamically adjust exposure to the Reference Index after the application of the currency conversion overlay (the “**Currency Converted Final Underlying**”).

The “**Maximum Realised Volatility**” is calculated as the maximum Realised Volatility (as defined below) observed over 5 consecutive calculation dates which are used as reference observation dates. The “**Realised Volatility**” herein is specifically a measure of how much the daily returns of the Currency Converted Final Underlying have fluctuated around their average in the past over a defined time period. The time period is taken to be twenty (20) days and the average is calculated as the arithmetic mean.

Exposure to the Currency Converted Final Underlying is reduced if the Maximum Realised Volatility of the Currency Converted Final Underlying increases to certain levels. Conversely, exposure to the Currency Converted Final Underlying is increased if the Maximum Realised Volatility of the Currency Converted Final Underlying decreases to certain levels. The dynamically adjusted exposure (the “**Dynamic Participation**”) provides for the Index to have exposure to the Currency Converted Final Underlying within a range from a minimum of 0% to a maximum of 130.00%. The Dynamic Participation is thus determined

according to the range that the Maximum Realised Volatility falls within. The Index aims to realise a volatility of less than 9.0% annualised.

Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code: RBSSHPK1 Index.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the relevant Offer Period (if any) to the maturity date upon request at the offices of the Index Sponsor at The Royal Bank of Scotland plc, 250 Bishopsgate, London EC2M 4AA. Investors should note that the Index Rules are subject to change from time to time. In certain circumstances, the Index Sponsor can change the method of calculating the Index, or may discontinue or suspend calculation or dissemination of the Index which could affect the return or principal amount paid on the Securities.

RBS Symbiosis IV Index (USD) ER (the “Index”)

The Index is calculated by Future Value Consultants Limited, or its successor, based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

Under normal conditions, the Index will be linked to the performance of three out of five possible underlyings (less an access cost, borrow cost and trading cost) by the application of an algorithm. The Index will always be linked to the performance of at least two underlyings and may, in certain circumstances (further described below), be linked to more than three underlyings.

The access cost represents the costs charged and expenses incurred by the Index Sponsor in connection with investing in each relevant underlying in order to maintain the Index. The borrow cost represents the costs incurred by the Index Sponsor in connection with borrowing the constituents of the Emerging Markets ER Asset underlying when taking a notional short exposure in such underlying. The trading cost represents the execution costs incurred by the Index Sponsor, which are calculated as the difference between the market buying price and the market selling price of the constituents of each relevant underlying, notionally payable to change the weight in such underlying.

The underlyings are the following indices: the World ER Asset, the Multi-Currency ER Asset, the RICI[®] EnhancedSM – Gold Index, the RICI[®] EnhancedSM – Crude Oil ER Index and the Emerging Markets ER Asset (each an “**Reference Index**” and together the “**Reference Indices**”). The Reference Indices represent exposure to the following markets and financial areas: equity markets (in respect of the World ER Asset and the Emerging Markets ER Asset); commodity markets (in respect of the RICI[®] EnhancedSM – Gold Index and the RICI[®] EnhancedSM – Crude Oil ER Index); and foreign exchange markets (in respect of the Multi-Currency ER Asset).

On every monthly determination date, the algorithm ranks the absolute momentum indicator (“**AMI**”) of each Reference Index. The AMI for each Reference Index is calculated as the absolute value of the momentum indicator (“**MI**”) for each Reference Index. The MI for each Reference Index is calculated as the arithmetic average of the 10-day price return (price return is otherwise described as the return of the Reference Index without taking into account interest and dividends related to that Reference Index or any components thereof) and the 90-day price return of the Reference Index.

The five AMIs will be ranked from highest to lowest and a weighting will be allocated to each Reference Index in accordance with the numerical rank of its respective AMI. The Reference Index with the highest AMI will be allocated a weighting of 50%, the Reference Index with the second highest AMI will be allocated a weighting of 40%, the Reference Index with the third highest AMI will be allocated a weighting of 10%, the Reference Index with the fourth highest AMI will be allocated a weighting of 0%, and the Reference Index with the lowest AMI will be allocated a weighting of 0% for the investment period. If two or more Reference Indices have equal AMIs, the corresponding weights for these Reference Indices will be

added together and then allocated equally amongst such Reference Indices. For example, where two Reference Indices share the third highest AMI (where such AMI would ordinarily result in a weighting of 10% being allocated to a Reference Index) such 10% weighting will be added to the 0% weighting ordinarily given to the fourth highest AMI, and allocated equally across the number of Reference Indices sharing the AMI. This means the Reference Indices with the same AMIs in this example would each be allocated a weighting of 5% and the Index would be linked to the performance of four out of the five possible Reference Indices for the investment period.

In relation to borrow costs if, following a rebalancing date: (i) the Index allocates a weighting above zero to the Emerging Markets ER Asset (ii) the Index has a short exposure to the Emerging Markets ER Asset and (iii) the borrow cost for the Emerging Markets ER Asset rises above a level of 2.00% annualised, the Index will require the short exposure to the Emerging Markets ER Asset to be notionally terminated immediately. This means that from the time the short position is terminated to and including the next rebalance date, the Index would not be linked to the performance of the Emerging Markets ER Asset and would only be linked to the performance of other Reference Indices (which may be limited to two Reference Indices) which have been allocated a weighting above zero.

The notional long or short exposure for each Reference Index is set according to whether the MI relative to each of those Reference Indices is positive or negative. If the MI of an Reference Index is positive, the Reference Index will be deemed to be in a positive trend and the Index will have a long exposure to the Reference Index. If the MI of a Reference Index is negative, the Reference Index will be deemed to be in a negative trend and the Index will have a short exposure to the Reference Index.

If the Index has a long exposure to an Reference Index, the level of the Index will increase if the level of the Reference Index rises in value and will decrease if the level of the Reference Index falls in value. If the Index has a short exposure to a Reference Index, the level of the Index will increase if the level of the Reference Index falls in value and will decrease if the level of the Reference Index rises in value.

The investment period is the period over which the allocated weighting and exposure will be applied to each Reference Index and such period will extend from the closing time on the calculation date immediately succeeding the relevant determination date (the “**Rebalance Date**”) to the closing time on the next Rebalance Date.

Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code RBSDRYU4.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the relevant Offer Period (if any) to the maturity date upon request at the offices of the Index Sponsor at The Royal Bank of Scotland plc, 250 Bishopsgate, London EC2M 4AA. RBS VC Symbiosis IV Index (SEK) ER 20% (the “Index”)

The Index is calculated by Future Value Consultants Limited, or its successor, based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index aims to track a notional strategy after the deduction of a management fee and trading costs and the application of a risk-stabilisation and currency conversion overlay to a base methodology.

The management fee represents the costs charged by the Index Sponsor to produce and maintain the Index and the trading cost represents the costs incurred by the Index Sponsor in linking the Index to the currency converted base methodology, and which are derived from the bid-offer spread notionally payable to change the dynamically adjusted exposure to the currency converted base methodology

The “**Base Methodology**” is a published index, the RBS Symbiosis IV Index (USD) ER, which is sponsored by The Royal Bank of Scotland plc (Bloomberg page: RBSDRYU4).

The currency conversion overlay involves the application of the Quampo™ technology. Quampo™ is a dynamic technology created by the Index Sponsor for dealing with currency risk exposures. Quampo™ implements an algorithm that converts the Base Methodology’s original currency to another desired currency. As a result of applying this technology, only the change in value of an underlying asset is exposed to currency risk, instead of the full notional value as would be the case otherwise. In this Index, the Quampo™ technology allows the Index Sponsor to create an Index denominated in Swedish kronor from the Base Methodology which is denominated in U.S. dollars.

The purpose of the risk-stabilisation overlay is to dynamically adjust exposure to the Base Methodology after the application of the currency conversion overlay. The dynamic participation adjusts on a daily basis in order to stabilise the volatility of the Index. The dynamic participation will vary between 0.00% and 150.00% and shall be dependent on the maximum realised volatility of the returns of a synthetic portfolio of the underlying components of the Base Methodology. The maximum realised volatility is calculated as the maximum realised volatility observed over 5 consecutive calculation dates. Realised volatility herein is specifically a measure of how much the daily portfolio returns have fluctuated in the past over a defined period of time. The portfolio returns are the returns of a synthetic portfolio of the underlying components of the Base Methodology weighted by the current weights as defined in the methodology of the Base Methodology.

If the level of the maximum realised volatility of the portfolio returns increases above a certain level, the exposure to the currency converted Base Methodology will be reduced and if the level of the maximum realised volatility of the portfolio returns decreases below a certain level, the exposure to the currency converted Base Methodology will be increased. As such, the Index aims to realise a target volatility of less than 20.00% annualised.

RBS VC BRIC Index (EUR) ER 16% (the “Index”)

The Index is calculated and maintained by Future Value Consultants Limited, or its successor (the “**Calculation Agent**”) based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Sponsor**”).

The Index aims to track a notional strategy that applies volatility control and circuit breaker mechanisms (as defined below) to the performance of the Base Methodology (as defined below) following the deduction of trading cost. The “**Base Methodology**” reflects the performance of the Reference Index following the deduction of the Performance Adjustment. The “**Reference Index**” is the DAXGlobal BRIC Net TR EUR Index which is sponsored and published by Deutsche Borse AG (Bloomberg code D1AZN Index).

The “**Performance Adjustment**” is the level of adjustment, applied to the Base Methodology which represents the costs incurred by the Sponsor in linking (and therefore notionally exposing) the Index to the Reference Index. The Performance Adjustment will reduce the level of the Base Methodology and therefore the Index level.

The Index level is reduced by trading costs which represent the costs incurred by the Sponsor from the bid-offer spread notionally payable to change the exposure in the Reference Index.

The purpose of the volatility-control mechanism is to dynamically adjust exposure to the Base Methodology based on the Maximum Realised Volatility (as defined below) of the Base Methodology.

The “**Maximum Realised Volatility**” is calculated as the maximum Realised Volatility (as defined below) over 5 consecutive calculation dates which are used as reference observation dates. The “**Realised Volatility**” herein is specifically a measure of how much the daily returns of the Base Methodology have fluctuated around their average in the past over a defined time period. The time period is taken to be twenty (20) calculation dates and the average is calculated as the arithmetic mean.

Exposure to the Base Methodology is reduced if the Maximum Realised Volatility of the Base Methodology increases to certain levels. Conversely, exposure to the Base Methodology is increased if the Maximum Realised Volatility of the Base Methodology decreases to certain levels.

The dynamically adjusted exposure (the “**Dynamic Participation**”) provides for the Index to have exposure to the Base Methodology within a range from a minimum of 0% to a maximum of 100.00%. The Dynamic Participation is thus determined according to the range that the Maximum Realised Volatility falls within.

In certain instances, the Dynamic Participation applied to the Base Methodology is reduced to zero irrespective of the Maximum Realised Volatility of the Base Methodology. This change in the Dynamic Participation occurs when the Base Methodology detects a sudden spike in the volatility of the Base Methodology along with fall in the value of the Base Methodology. When this spike occurs (known as a “**Circuit Breaker Trigger Event**”), the exposure to the Base Methodology will be zero from and including

the day upon which a Circuit Breaker Trigger Event occurs to and including the four consecutive calculation dates following such date.

RBS Environmental Strategy Index (GBP) PR 12% (the “Index”)

The Index is calculated and maintained by Standard & Poor’s, a division of The McGraw-Hill Companies Inc., or its successor (the “**Calculation Agent**”) based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Sponsor**”).

The Index aims to track a notional strategy that applies a volatility control mechanism (as defined below) to the performance of the Reference Asset (as defined below). The “**Reference Asset**” reflects the performance of the Reference Index following the deduction of the Performance Adjustment. The “**Reference Index**” is the RBS Environmental Base Total Return Index (Bloomberg code RBSZENVT Index).

The “**Performance Adjustment**” is the level of adjustment applied to the Reference Asset, which represents the amounts synthetically deducted by the Sponsor when creating the price return Index. The Performance Adjustment will reduce the level of the Reference Asset and therefore the Index level.

The purpose of the volatility-control mechanism is to dynamically adjust exposure to the Reference Asset based on the Maximum Realised Volatility (as defined below) of the Reference Asset.

The “**Maximum Realised Volatility**” is calculated as the maximum Realised Volatility (as defined below) over 5 consecutive calculation dates which are used as reference observation dates. The “**Realised Volatility**” herein is specifically a measure of how much the daily returns of the Reference Asset have fluctuated around their average in the past over a defined time period. The time period is taken to be twenty (20) calculation dates and the average is calculated as the arithmetic mean.

Exposure to the Reference Asset is reduced if the Maximum Realised Volatility of the Reference Asset increases to certain levels. Conversely, exposure to the Reference Asset is increased if the Maximum Realised Volatility of the Reference Asset decreases to certain levels.

The dynamically adjusted exposure (the “**Dynamic Participation**”) provides for the Index to have exposure to the Reference Asset within a range from a minimum of 0% to a maximum of 100.00%. The Dynamic Participation is thus determined according to the range that the Maximum Realised Volatility falls within.

Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code: RBSBEVG1 Index.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the relevant Offer Period (if any) to the maturity date upon request at the offices of the Index Sponsor at The Royal Bank of Scotland plc, 250 Bishopsgate, London EC2M 4AA. Investors should note that this description of the Index Rules is subject to the detailed provisions of the Index Rules. In order to obtain the Index Rules, an investor may need to give certain non-disclosure representations to the Index Sponsor.

Investors should note that the Index Rules are subject to change from time to time. In certain circumstances, the Index Sponsor can change the method of calculating the Index, or may discontinue or suspend calculation or dissemination of the Index which could affect the return or principal amount paid on the Securities.

RBS VC Trader Vic Index (USD) ER 10% (the “Index”)

The Index is calculated by The Royal Bank of Scotland N.V. (formerly ABN AMRO Bank N.V.), acting through its London Branch, or its successor based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”).

The Index aims to track a risk-stabilised notional strategy linked to the constituent. This is achieved by varying the exposure to the constituent on a daily basis, depending on the Maximum Realised Volatility of the constituent.

The “**Maximum Realised Volatility**” is calculated as the maximum Realised Volatility (as defined below) observed over 5 consecutive calculation dates. “**Realised Volatility**” herein is specifically a measure of how much the daily returns of the constituent have fluctuated around the arithmetic mean of the daily returns of the constituent over a defined time period that comprises the immediately preceding twenty (20) calculation dates.

Exposure to the constituent is reduced if the Maximum Realised Volatility of the constituent increases to an amount equal to or above certain levels. Conversely, exposure to the constituent is increased if the Maximum Realised Volatility of the constituent decreases to certain levels. The dynamic adjusted exposure (the “**Dynamic Participation**”) provides for the Index to have exposure to the constituent within a range from a minimum of 0% to a maximum of 150%. The Dynamic Participation is thus determined according to the range that the Maximum Realised Volatility falls within.

The constituent reflects the performance of the Reference Index (as defined below) following the deduction of an access cost which represents the costs charged and expenses incurred by the Index Sponsor in connection with investing in the Reference Index in order to maintain the Strategy. The “**Reference Index**” is a published index, the Trader Vic Index (USD) ER (Bloomberg page: TVICER Index).

RBS Volatility-Controlled Emerging Opportunities Strategy 3 (the “Strategy”)

The Strategy is calculated by The Royal Bank of Scotland N.V. based on a methodology (the “**Strategy Rules**”) (which, for the avoidance of doubt, does not form part of this Strategy description) developed by The Royal Bank of Scotland N.V. (the “**Strategy Sponsor**”). The Strategy aims to track a risk-stabilised notional investment in a basket comprising emerging markets funds and a commodities index (the “**Basket**”). Each constituent of the Basket is given a weighting and a notional investment in each constituent was made at the inception of the Strategy in accordance with such weighting. Each constituent’s value will vary over time but the Basket will be rebalanced every quarter (and interests in the constituents notionally bought or sold) such that each constituent once again has its original weighting.

The Strategy aims to achieve risk stabilisation by varying the exposure to the Basket on a daily basis, if necessary, depending on the Maximum Fund Basket Volatility of the constituent and whether the Stop Loss Period Trigger has been activated. Where exposure to the Basket is reduced, the exposure to a notional interest-bearing cash deposit is increased.

The “**Maximum Fund Basket Volatility**” is calculated as the highest annualised and realised 20 day volatility of the value of the basket observed over 5 consecutive calculation dates.

The “**Stop Loss Period Trigger**” is calculated on the basis of the Stop Loss Trigger on the 9 calculation dates falling on and prior to the second business day prior to the calculation date in question. The “**Stop Loss Trigger**” is a flag based on the combined signals given by the momentum of the Basket over a 5 day period and the volatility change of the Basket. Where the Stop Loss Period Trigger has been activated then the allocation to the Basket shall be reduced towards zero over a period of 9 days and all notional proceeds of the sale of the constituents will be invested in the notional cash deposit. If subsequently the 20 day moving average of the value of the Basket is less than the prevailing value of the Basket then there will be a reallocation of amounts to the Basket.

The Basket comprises the following four funds and one index: the Aberdeen Global – Emerging Markets Equity Fund (Bloomberg page: ABEFROA LX <Equity>), the Baring Global Emerging Markets Fund (Bloomberg page: BRGGEMI ID <Equity>), the Templeton Emerging Markets Bond Fund (Bloomberg page: TEMEFBA LX <Equity>), the MFS – Emerging Markets Debt Fund ((Bloomberg page: MFSEDA1 LX <Equity>) and the RICI Enhanced Index (Bloomberg page: RIEHGL <Index>), net of 85 bps per annum (Bloomberg page: RBSVCMD <Index>).

Information about the past and the future performance of the Strategy and its volatility can be obtained from Bloomberg code: RBSVEOS3<Index>.

A copy of the Strategy Rules relating to the Strategy will be available for review from the beginning of the relevant Offer Period (if any) to the maturity date upon request at the offices of the Strategy Sponsor at The Royal Bank of Scotland N.V., 250 Bishopsgate, London EC2M 4AA. Investors should note that the Strategy Rules are subject to change from time to time. RBS VC BRIC (EUR) ER 16% Index (the “Index”)

The Index is calculated and maintained by Future Value Consultants Limited, or its successor (the “**Calculation Agent**”) based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Sponsor**”).

The Index aims to track a notional strategy that applies volatility control and circuit breaker mechanisms (as defined below) to the performance of the Base Methodology (as defined below) following the deduction of trading cost. The “**Base Methodology**” reflects the performance of the Reference Index following the deduction of the Performance Adjustment. The “**Reference Index**” is the DAXGlobal BRIC Net TR EUR Index which is sponsored and published by Deutsche Borse AG (Bloomberg code D1AZN Index).

The “**Performance Adjustment**” is the level of adjustment, applied to the Base Methodology which represents the costs incurred by the Sponsor in linking (and therefore notionally exposing) the Index to the Reference Index. The Performance Adjustment will reduce the level of the Base Methodology and therefore the Index level.

The Index level is reduced by trading costs which represent the costs incurred by the Sponsor from the bid-offer spread notionally payable to change the exposure in the Reference Index.

The purpose of the volatility-control mechanism is to dynamically adjust exposure to the Base Methodology based on the Maximum Realised Volatility (as defined below) of the Base Methodology.

The “**Maximum Realised Volatility**” is calculated as the maximum Realised Volatility (as defined below) over 5 consecutive calculation dates which are used as reference observation dates. The “**Realised Volatility**” herein is specifically a measure of how much the daily returns of the Base Methodology have fluctuated around their average in the past over a defined time period. The time period is taken to be twenty (20) calculation dates and the average is calculated as the arithmetic mean.

Exposure to the Base Methodology is reduced if the Maximum Realised Volatility of the Base Methodology increases to certain levels. Conversely, exposure to the Base Methodology is increased if the Maximum Realised Volatility of the Base Methodology decreases to certain levels.

The dynamically adjusted exposure (the “**Dynamic Participation**”) provides for the Index to have exposure to the Base Methodology within a range from a minimum of 0% to a maximum of 100.00%. The Dynamic Participation is thus determined according to the range that the Maximum Realised Volatility falls within.

In certain instances, the Dynamic Participation applied to the Base Methodology is reduced to zero irrespective of the Maximum Realised Volatility of the Base Methodology. This change in the Dynamic Participation occurs when the Base Methodology detects a sudden spike in the volatility of the Base Methodology along with fall in the value of the Base Methodology. When this spike occurs (known as a “**Circuit Breaker Trigger Event**”), the exposure to the Base Methodology will be zero from and including

the day upon which a Circuit Breaker Trigger Event occurs to and including the four consecutive calculation dates following such date.

Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code: RBSBEBE1 Index.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the relevant Offer Period (if any) to the maturity date upon request at the offices of the Index Sponsor at The Royal Bank of Scotland plc, 250 Bishopsgate, London EC2M 4AA. RBS Environmental Strategy (GBP) PR 12% Index (the “Index”)

The Index is calculated and maintained by Standard & Poor’s, a division of The McGraw-Hill Companies Inc., or its successor (the “**Calculation Agent**”) based on a methodology (the “**Index Rules**”) (which, for the avoidance of doubt, do not form part of this Index description) developed by The Royal Bank of Scotland plc (the “**Sponsor**”).

The Index aims to track a notional strategy that applies a volatility control mechanism (as defined below) to the performance of the Reference Asset (as defined below). The “**Reference Asset**” reflects the performance of the Reference Index following the deduction of the Performance Adjustment. The “**Reference Index**” is the RBS Environmental Base Total Return Index (Bloomberg code RBSZENVT Index).

The “**Performance Adjustment**” is the level of adjustment applied to the Reference Asset, which represents the amounts synthetically deducted by the Sponsor when creating the price return Index. The Performance Adjustment will reduce the level of the Reference Asset and therefore the Index level.

The purpose of the volatility-control mechanism is to dynamically adjust exposure to the Reference Asset based on the Maximum Realised Volatility (as defined below) of the Reference Asset.

The “**Maximum Realised Volatility**” is calculated as the maximum Realised Volatility (as defined below) over 5 consecutive calculation dates which are used as reference observation dates. The “**Realised Volatility**” herein is specifically a measure of how much the daily returns of the Reference Asset have fluctuated around their average in the past over a defined time period. The time period is taken to be twenty (20) calculation dates and the average is calculated as the arithmetic mean.

Exposure to the Reference Asset is reduced if the Maximum Realised Volatility of the Reference Asset increases to certain levels. Conversely, exposure to the Reference Asset is increased if the Maximum Realised Volatility of the Reference Asset decreases to certain levels.

The dynamically adjusted exposure (the “**Dynamic Participation**”) provides for the Index to have exposure to the Reference Asset within a range from a minimum of 0% to a maximum of 100.00%. The Dynamic Participation is thus determined according to the range that the Maximum Realised Volatility falls within.

Information about the past and the future performance of the Index and its volatility can be obtained from Bloomberg code: RBSBEVG1 Index.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the relevant Offer Period (if any) to the maturity date upon request at the offices of the Index Sponsor at The Royal Bank of Scotland plc, 250 Bishopsgate, London EC2M 4AA. Investors should note that this description of the Index Rules is subject to the detailed provisions of the Index Rules. In order to obtain the Index Rules, an investor may need to give certain non-disclosure representations to the Index Sponsor.

Investors should note that the Index Rules are subject to change from time to time. In certain circumstances, the Index Sponsor can change the method of calculating the Index, or may discontinue or suspend calculation or dissemination of the Index which could affect the return or principal amount paid on the Securities.

RBS Global Metal & Mining Index (USD) TR (the “Index”)

The Index is based on a methodology (the “**Index Rules**”) developed by The Royal Bank of Scotland N.V. (the “**Index Sponsor**”).

The Index is initially equally weighted and tracks 30 companies which are operating in the Metal & Mining industry according to the S&P industry classification, as determined in the reasonable discretion of the index calculator (each a “**Metal & Mining Related Company**” and together “**Metal & Mining Related Companies**”).

To qualify for inclusion in the Index, a “**Share Company**” (a company which for the time being is included in the Index) must in addition to being a Metal and Mining Related Company, have a total market capitalisation of minimum USD 100,000,000 or the equivalent amount in another currency calculated by applying the exchange rate and have a 3 month average daily turnover of a minimum of USD 1,000,000 (the “**Selection Criteria**”).

On the index launch date the value of the Index (the “**Index Value**”) was USD 100.

The Index Value is calculated once a day on every business day. The Index Value is the weighted total of all the shares in the Index multiplied by the price of each share. All distributions made by a Share Company shall be notionally reinvested proportionally according to each share’s weight in the Index in order to preserve the weighting given to the stock of each share company included in the Index.

The Index shall be re-weighted annually. The existing shares shall be weighted equally with effect from the annual re-weighting date. The basis for the re-weighting shall be the prices of the shares from the annual re-weighting date taking into account the relevant exchange rate if necessary.

The Index shall comprise at any time of at least seven “**Qualifying Share Companies**” (meaning each Metal & Mining Related Company which complies with the Selection Criteria and which for the time being is included in the Index) and ceases to exist if there are less than seven Qualifying Share Companies eligible for inclusion.

The information above is a description of the methodology and material rules and risks relating to the Index. The Selection Criteria indicate the key criteria which must be fulfilled for inclusion in the Index, but is not intended to be exhaustive. The Index Sponsor makes no representation or warranty that the Index will achieve its stated investment objectives.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the offer period (if any) to the relevant maturity date upon request at the offices of the Index Sponsor at The Royal Bank of Scotland N.V. 250 Bishopsgate, London, EC2M 4AA. RBS Mongolia Opportunity Index (USD) TR (the “Index”)

The Index is based on a methodology (the “**Index Rules**”) developed by The Royal Bank of Scotland N.V. (the “**Index Sponsor**”).

The Index is a net total return index designed to reflect the performance of the securities of all companies that derive at least 50% of their revenues from Mongolia, or at least 50% of their property and other interests in mineral resource properties are held in Mongolia (each such company a “**Mongolia-related Company**” and together referred to as the “**Mongolia-related Companies**”). Only ordinary shares or preferred shares, American Depository Receipts or Global Depository Receipts of such Mongolia-related Companies are eligible for inclusion in the Index.

On each “**Determination Date**” (being 10 business days before each semi annual re-weighting date), the index calculator will determine which securities are eligible for inclusion in the Index. In addition to being a Mongolia Related Company, each issuer of a security must have a total market capitalisation of greater than USD 100,000,000 or the equivalent amount in another currency calculated by applying the exchange rate, the security must have a 3 month average daily value traded of greater than USD 500,000 (the “**Selection Criteria**”).

On the Index launch date the value of the Index was USD 100.

The index calculator shall compile a list of all Qualifying Share Companies (such list the “**Selection List**”). The securities that will be included in the Index effective at the open of trading on the relevant re-weighting date (the “**Prospective Shares**”) are selected from the Qualifying Shares on the Selection List in accordance with the following selection procedure (“**Selection Procedure**”):

If a “**Qualifying Share Company**” (meaning a company which is the issuer of a “**Qualifying Share**”, which is any security which complies with the Selection Criteria) has issued several classes of securities which are eligible based on the Selection Criteria, the index calculator shall remove the class of security with the lower liquidity measured by 3 month average daily value traded;

The Qualifying Share Companies in the Selection List are ranked in descending order by their market capitalisation in USD (or the equivalent amount in another currency calculated by applying the Exchange Rate) as published on Bloomberg. The Qualifying Share Company with the highest market capitalisation is listed first with a rank equal to 1;

If the Selection List includes 15 or more Qualifying Share Companies, the Qualifying Shares of the top 15 largest Qualifying Share Companies based on market capitalisation, or, where the Selection List includes less than 15 (but at least 7) Qualifying Share Companies, the Qualifying Shares of all Qualifying Share Companies are included in the Index, and the respective weight of each Prospective Share cannot exceed 15%.

The value of the index (“**Index Value**”) is calculated once a day on every business day. The Index Value is the weighted total of all the shares in the basket multiplied by the price of each share. All distributions made by a share company shall be notionally reinvested proportionally according to each share’s weight in the Index in order to preserve the weighting given to the stock of each share company included in the Index. The index calculator will calculate and publish the Index Value.

The composition of the Index is determined on each Determination Date and the Index is rebalanced on each semi annual re-weighting date. The Index shall initially and on each semi annual re-weighting date be modified market capitalisation weighted. The Index shall include at any time a minimum number of 7 shares and will cease to be calculated if there are less than 7 Qualifying Share Companies.

The information above is a description of the methodology and material rules and risks relating to the Index. The Selection Criteria indicate the key criteria which must be fulfilled for inclusion in the Index, but is not intended to be exhaustive. The Index Sponsor makes no representation or warranty that the Index will achieve its stated investment objectives.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the offer period (if any) to the relevant maturity date upon request at the offices of the Index Sponsor at The Royal Bank of Scotland N.V. 250 Bishopsgate, London, EC2M 4AA. Investors should note that this description of the Index Rules is subject to the detailed provisions of the Index Rules. In order to obtain the Index Rules, an investor may need to give certain non-disclosure representations to the Index Sponsor.

Investors should note that the Index Rules are subject to change from time to time. In certain circumstances, the Index Sponsor can change the method of calculating the Index, or may discontinue or suspend calculation or dissemination of the Index which could affect the return or principal amount paid on the Securities.

The Index is the intellectual property of the Index Sponsor.

Rare Metals Mining Index (USD) TR (the “Index”)

The Index is based on a methodology (the “**Index Rules**”) developed by The Royal Bank of Scotland N.V. (the “**Index Sponsor**”).

The Index is a total return index designed to reflect the performance of the securities of companies actively involved in mining or mineral exploration of beryllium, cobalt, lithium, molybdenum, rhodium, ruthenium, tantalum, or titanium (each such company a “**Rare Metals Mining Company**” and together referred to as the “**Rare Metals Mining Companies**”) that are included in the Index. New applications of such metals in catalysts and alloying agents as technological advances are made, may create new supply and demand patterns. Only ordinary or preference shares, American Depository Receipts or Global Depository Receipts of such Rare Metals Mining Companies are eligible for inclusion in the Index.

On each “**Determination Date**” (being 10 business days before the index launch date or each semi annual re-weighting date), the index calculator will determine which securities are eligible for inclusion in the Index. In addition to being a Rare Metals Mining Company, each issuer of a security must have a total market capitalisation of greater than USD 100,000,000 but less than USD 10,000,000,000 or the equivalent amount in another currency calculated by applying the exchange rate and the security must have a 3 month average daily value traded of greater than USD 1,000,000 (the “**Selection Criteria**”).

Between each Determination Date and the index launch date or the relevant semi annual re-weighting date, the index calculator shall compile a list of “**Qualifying Share Companies**” (meaning a company which is the issuer of a “**Qualifying Share**”, which is any security which complies with the Selection Criteria) (such list, the “**Selection List**”). The index components are selected in accordance with the following selection procedure (the “**Selection Procedure**”):

If a Qualifying Share Company has issued several classes of securities, the index calculator shall take the class of security which best represents the Qualifying Share Company, as determined by it at its sole and absolute discretion, and which complies with all of the Selection Criteria;

On the Determination Date, the Qualifying Share Companies on the Selection List are ranked in descending order by their market capitalisation in USD (or the equivalent amount in another currency calculated by applying the Exchange Rate) as published on Bloomberg. The Qualifying Share Company with the highest market capitalisation is listed first with a rank equal to 1;

If the Selection List comprises 15 or more Qualifying Share Companies, the top 15 Qualifying Share Companies using the above ranking, or, where the Selection List comprises less than 15 Qualifying Share Companies, all the Qualifying Share Companies, are included in the Index, and the respective weight of each index component cannot exceed 15%.

The value of the index (the “**Index Value**”) is calculated once a day on every business day. The Index Value is the weighted total of all the shares in the basket multiplied by the price of each share. All distributions

made by a share company shall be notionally reinvested proportionally according to each share's weight in the Index in order to preserve the weighting given to the stock of each share company included in the Index. The index calculator will calculate and publish the Index Value.

The index components will, initially and on each semi annual re-weighting date, be modified market capitalisation weighted, with a maximum weight of 15%.

The Index shall comprise at any time a minimum of 7 shares and will cease to be calculated if there are less than 7 Qualifying Share Companies.

The information above is a description of the methodology and material rules and risks relating to the Index. The Selection Criteria indicate the key criteria which must be fulfilled for inclusion in the Index, but is not intended to be exhaustive. The Index Sponsor makes no representation or warranty that the Index will achieve its stated investment objectives.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the offer period (if any) to the relevant maturity date upon request at the offices of the Index Sponsor at The Royal Bank of Scotland N.V. 250 Bishopsgate, London, EC2M 4AA. Investors should note that this description of the Index Rules is subject to the detailed provisions of the Index Rules. In order to obtain the Index Rules, an investor may need to give certain non-disclosure representations to the Index Sponsor.

Investors should note that the Index Rules are subject to change from time to time. In certain circumstances, the Index Sponsor can change the method of calculating the Index, or may discontinue or suspend calculation or dissemination of the Index which could affect the return or principal amount paid on the Securities.

RBS VC Commodity Autopilot Index (USD) PR 10% (the “Index”)

The Index is calculated by RBS Business Services Private Limited (the “**Calculation Agent**”) based on a methodology developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”). The Index is denominated in USD (the “**Base Currency**”).

The Index aims to track a Core Index (as defined below) after a volatility control overlay has been applied to the Core Index.

The purpose of the volatility control overlay is to dynamically adjust exposure to the Core Index based upon the maximum realised historical volatility (the “**Maximum Realised Volatility**”) of the Core Index. The Maximum Realised Volatility is calculated as the highest Realised Volatility observed over five (5) consecutive Calculation Dates. The Realised Volatility is a measure of how much the daily returns of the Core Index have fluctuated around their average in the past over a defined time period. The time period is taken to be twenty (20) days and the average is calculated as the arithmetic mean.

Exposure to the Core Index is reduced if the Maximum Realised Volatility of the Core Index increases to certain levels. Conversely, exposure to the Core Index is increased if the Maximum Realised Volatility of the Core Index decreases to certain levels. The dynamically adjusted exposure (the “**Dynamic Exposure**”) provides exposure to the Core Index within a range from a minimum of 0.0% to a maximum of 100.0%. The Dynamic Exposure depends upon the range that the Maximum Realised Volatility falls within. The Index aims to realise an annualised volatility of less than 10.0% annualised.

The “**Core Index**” is linked to the performance of an equally weighted basket of three following underlying assets by the application of an algorithm and deduction of an access cost:

RICI® EnhancedSM Energy Excess Return Index (“**Underlying 1**”);

RICI® EnhancedSM Agriculture Excess Return Index (“**Underlying 2**”); and

RICI® EnhancedSM Metals Excess Return Index (“**Underlying 3**”);

and each an “**Underlying U**” for U = 1 to 3 and together the “**Underlyings**”.

Access costs with respect to U = 1 to 3 will be deducted from the performance of the relevant Underlying, which will, in turn, reduce the level of the Core Index. The deduction of the access cost from the performance of the Underlying represents the costs charged and expenses incurred by the Index Sponsor when investing in each Underlying (for U = 1 to 3).

On each Calculation Date, the simple moving average of the levels of each Underlying (for U = 1 to 3) is calculated by using values up to and including that Calculation Date (each a “**Moving Average U**”). The number of Calculation Dates used to calculate the Moving Average may vary for each Underlying (for U = 1 to 3), (each a Moving Average Period). The Moving Average U is arrived at by the summation of the levels

of an Underlying U over the Moving Average Period (including the level on Calculation Date t) and dividing the result by the number of Calculation Dates in its Moving Average Period.

On each Calculation Date, the trend of an Underlying is reviewed. The Core Index will reference an economic long exposure to an Underlying U (for U = 1 to 3) if, on a given Calculation Date, it is observed that the level of an Underlying U (for U = 1 to 3) has been higher than its Moving Average U on each of the last 10 consecutive Calculation Dates. If the level of an Underlying U (for U = 1 to 3) have been equal to or less than the corresponding Moving Average U on each of the last 10 consecutive Calculation Dates, the Core Index will not have exposure to the Underlying U (for U = 1 to 3). When a level is above its Moving Average U for 10 consecutive Calculation Dates, an Underlying U (for U = 1 to 3) is said to be in a positive trend. When a level is equal to or below its Moving Average U for 10 consecutive Calculation Dates, the Underlying U (for U = 1 to 3) is said to be in a negative trend. A trend will revert (and therefore exposure to an Underlying will change) only if there have been 10 consecutive Calculation Dates where the levels of an Underlying have been uniformly (a) equal to or below the Moving Average U in the case of a trend reverting from positive to negative, or (b) above the Moving Average U in the case of a trend reverting from negative to positive.

The Core Index is rebalanced on the first Calculation Date of each calendar month so that the weighting of the Underlyings in the Core Index are equal.

The Index also accrues interest at the rate of 1 per cent. per annum.

The Index shall be calculated at the Valuation Time (“**Valuation Time**” being the time at which levels for all Underlyings are available on the relevant exchanges) on each scheduled trading day (i.e. a day on which each exchange (where trading of the Underlying principally occurs) and related exchange is scheduled to be open for its regular trading session) which is not a disrupted day (each such day being a “**Calculation Date**”).

The information above is a description of the methodology and material rules relating to the Index. The Index Sponsor makes no representation or warranty that the Index will achieve its stated investment objectives.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the offer period (if any) to the relevant maturity date upon request at the offices of the Index Sponsor at The Royal Bank of Scotland plc. 250 Bishopsgate, London, EC2M 4AA. Investors should note that this description of the Index Rules is subject to the detailed provisions of the Index Rules. In order to obtain the Index Rules, an investor may need to give certain non-disclosure representations to the Index Sponsor.

Investors should note that the Index Rules are subject to change from time to time. In certain circumstances, the Index Sponsor can change the method of calculating the Index, or may discontinue or suspend calculation or dissemination of the Index which could affect the return or principal amount paid on the Securities.

The Index is the intellectual property of the Index Sponsor.

RBS Waste Management Index (EUR) TR (the “Index”)

The Index is based on a methodology (the “**Index Rules**”) developed by The Royal Bank of Scotland N.V. (the “**Index Sponsor**”).

The Index is a total return index designed to reflect the performance of the securities of companies which generate more than 50% of total revenues from the collection, transport, processing, recycling or disposal of waste materials, or revenues more than EUR 1 billion from these activities (each such company a “**Waste Management Company**” and together referred to as the “**Waste Management Companies**”) that are included in the Index. Only ordinary or preference shares, American Depository Receipts or Global Depository Receipts of such Waste Management Companies are eligible for inclusion in the Index.

The index calculator will make determinations as regards the securities which are eligible for inclusion within the Index on the basis of certain criteria and will determine their weights. In addition to being a Waste Management Company, each issuer of a security must have a total market capitalisation of minimum EUR 500,000,000 or the equivalent amount in another currency calculated by applying the exchange rate and the security must have a 3 month average daily value traded of greater than EUR 1,000,000 (the “**Selection Criteria**”).

The Index will initially comprise the shares of 15 companies selected by the index calculator on the Index launch date which comply with the Selection Criteria (“**Qualifying Share Companies**”). On the Index launch date the value of the Index was EUR 100 (the “**Initial Index Value**”).

A list shall be compiled of Qualifying Share Companies (such list, the “**Selection List**”). The index components are selected in accordance with the following selection procedure (the “**Selection Procedure**”):

If a Qualifying Share Company has issued several classes of securities, the index calculator shall take the class of security which best represents the Qualifying Share Company, as determined by it at its sole and absolute discretion, and which complies with all of the Selection Criteria.

The Qualifying Share Companies on the Selection List are ranked in descending order by their market capitalisation in EUR (or the equivalent amount in another currency calculated by applying the Exchange Rate) as published on Bloomberg. The Qualifying Share Company with the highest market capitalisation is listed first with a rank equal to 1.

If the Selection List comprises 15 or more Qualifying Share Companies, the top 15 Qualifying Share Companies using the above ranking, or, where the Selection List comprises less than 15 Qualifying Share Companies, all the Qualifying Share Companies, are included in the Index, and the respective weight of each index component is calculated by dividing 1 by the number of index components.

The value of the index (the “**Index Value**”) is calculated once a day on every business day. The Index Value is the weighted total of all the shares in the basket multiplied by the price of each share. All distributions

shall be notionally reinvested proportionally according to each share's weight in the Index in order to preserve the initial weighting given to the stock of each share company included in the Index.

Following the initial composition of the Index when it is first launched, the index calculator will semi annually review the notional composition of the Index and re-weight the components of the Index subject to each component meeting the Selection Criteria.

The index components will, initially and on each semi annual re-weighting date be equal weighted.

The Index shall comprise at any time of a minimum of 8 shares and ceases to be calculated if there are less than 8 Qualifying Share Companies.

The information above is a description of the methodology and material rules and risks relating to the Index. The Selection Criteria indicate the key criteria which must be fulfilled for inclusion in the Index, but is not intended to be exhaustive. The Index Sponsor makes no representation or warranty that the Index will achieve its stated investment objectives.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the offer period (if any) to the relevant maturity date upon request at the offices of the Index Sponsor at The Royal Bank of Scotland N.V. 250 Bishopsgate, London, EC2M 4AA. Investors should note that this description of the Index Rules is subject to the detailed provisions of the Index Rules. In order to obtain the Index Rules, an investor may need to give certain non-disclosure representations to the Index Sponsor.

Investors should note that the Index Rules are subject to change from time to time. In certain circumstances, the Index Sponsor can change the method of calculating the Index, or may discontinue or suspend calculation or dissemination of the Index which could affect the return or principal amount paid on the Securities.

The Index is the intellectual property of the Index Sponsor.

RBS Climate Change & Environment Index (EUR) TR (the “Index”)

The Index is based on a methodology (the “**Index Rules**”) developed by The Royal Bank of Scotland N.V. (the “**Index Sponsor**”).

The Index is designed to reflect the performance of the securities of the “**Sector Companies**” (being companies which derive revenues from one or more of the following sectors: ethanol, geothermal power and other alternative fuels, hydroelectric power, platinum and palladium mining, solar power, water, waste management or wind power (collectively the “**Sectors**”) and are not classified on Bloomberg as being in any of the following industry groups: (i) Oil & Gas; (ii) Gas; or (iii) Coal), as determined at the sole and absolute discretion of the index calculator, after reasonable consideration of the available information, that are included in the Index. Only ordinary or preference shares, American Depository Receipts or Global Depository Receipts of such Sector Companies are eligible for inclusion in the Index.

The index calculator will make determinations as regards the securities which are eligible for inclusion within the Index on the basis of certain criteria and will determine the quantity of such securities to be included. In addition to being a Sector Company (with revenue generated from all of the Sectors being greater than 25% of the Sector Company’s total revenue), each issuer of a security must have a total market capitalisation of greater than EUR 600,000,000 or the equivalent amount in another currency calculated by applying the exchange rate and the security must have a 3 month average daily value traded of greater than EUR 1,000,000 (the “**Selection Criteria**”).

The Index will initially comprise the shares of 30 companies selected by the index calculator on the index launch date. On the index launch date the value of the Index was EUR 133.65 (the “**Initial Index Value**”). A list shall be compiled of “**Qualifying Share Companies**” (meaning a company which is the issuer of a “**Qualifying Share**”, which is any security which complies with the Selection Criteria) (such list, the “**Selection List**”). The Selection List is divided in 8 Sector Selection Lists. The index components are selected in accordance with the following selection procedure (the “**Selection Procedure**”):

If a Qualifying Share Company has issued several classes of securities, the index calculator shall take the class of security which best represents the Qualifying Share Company, as determined by it at its sole and absolute discretion, and which complies with the Selection Criteria.

The Qualifying Share Companies on the Sector Selection Lists are ranked in descending order by their market capitalisation in EUR (or the equivalent amount in another currency calculated by applying the Exchange Rate) as published on Bloomberg, inside the Sector Selection List. The Qualifying Share Company with the highest market capitalisation is listed first with a rank equal to 1.

The top 4 Qualifying Share Companies in each Sector Selection List using the above ranking are included in the Index, and the respective weights of each index components is calculated by dividing the weighting given to a particular Sector by the number of index components who share the same sector.

The value of the index (the “**Index Value**”) is calculated once a day on every business day. The Index Value is the weighted total of all the shares in the basket multiplied by the price of each share. All distributions shall be notionally reinvested proportionally according to each share’s weight in the Index in order to preserve the weighting given to the stock of each share company included in the Index. The index calculator will calculate and publish the Index Value.

The index components will initially be equal weighted inside each Sector, with the Sector weights determined by the index calculator fixed on the index launch date and evolving with the Sector market capitalisation, being for each Sector, the sum of the market capitalisations of the index components within such Sector.

Following the initial composition of the Index on the index launch date, the index calculator will, on each re-weighting date, review the notional composition of the Index and re-weight the index components subject to the requirement that each of the newly selected shares meet the Selection Criteria. The index components shall be notionally re-weighted with effect from the semi annual re-weighting date. The basis for a re-weighting shall be the prices of the shares from the re-weighting date.

In the case where less than 4 companies in a Sector meet the Selection Criteria, there will be less than 4 companies included in the Index for this Sector. In the case where no company in a specific Sector meets the Selection Criteria, this Sector will not be included.

The Index shall comprise at any time a minimum of 15 shares and ceases to be calculated if there are less than 15 Qualifying Share Companies. The index components shall also represent, at any time, a minimum of 5 sectors and ceases to be calculated if it, at any time, is representative of less than 5 out of the 8 Sectors.

The information above is a description of the methodology and material rules and risks relating to the Index. The Selection Criteria indicate the key criteria which must be fulfilled for inclusion in the Index, but is not intended to be exhaustive. The Index Sponsor makes no representation or warranty that the Index will achieve its stated investment objectives.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the offer period (if any) to the relevant maturity date upon request at the offices of the Index Sponsor at The Royal Bank of Scotland N.V. 250 Bishopsgate, London, EC2M 4AA. The value of the index (the “**Index Value**”) is calculated once a day on every business day. The Index Value is the weighted total of all the shares in the basket multiplied by the price of each share. All distributions made by a share company shall be notionally reinvested proportionally according to each share’s weight in the Index in order to preserve the weighting given to the stock of each share company included in the Index. The index calculator will calculate and publish the level of the Index once a day.

The index components will be initially equally weighted (each “**Share Company**” (being the companies included in the Index) at 10%) in the Index based on the price of the index components on the Index launch date.

The Index shall be re-weighted equally with effect from the annual re-weighting date. The shares of the largest India ADR/GDR Related Companies by market capitalisation that meet the Selection Criteria will be included in the Index. The basis for the re-weighting shall be the prices of the shares from the annual re-weighting date taking into account the relevant exchange rate if necessary.

The Index shall comprise at any time of at least seven “**Qualifying Share Companies**” (meaning each company which complies with the Selection Criteria and which for the time being is included in the Index) and ceases to exist if there are less than seven Qualifying Share Companies eligible.

The information above is a description of the methodology and material rules and risks relating to the Index. The Selection Criteria indicate the key criteria which must be fulfilled for inclusion in the Index, but is not intended to be exhaustive. The Index Sponsor makes no representation or warranty that the Index will achieve its stated investment objectives.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the offer period (if any) to the relevant maturity date upon request at the offices of the Index Sponsor at The Royal Bank of Scotland N.V. 250 Bishopsgate, London, EC2M 4AA. Investors should note that this description of

the Index Rules is subject to the detailed provisions of the Index Rules. In order to obtain the Index Rules, an investor may need to give certain non-disclosure representations to the Index Sponsor.

Investors should note that the Index Rules are subject to change from time to time. In certain circumstances, the Index Sponsor can change the method of calculating the Index, or may discontinue or suspend calculation or dissemination of the Index which could affect the return or principal amount paid on the Securities.

RBS Volatility Controlled High Yield Bond Strategy 2 (the “Index”)

The Index is calculated and maintained by The Royal Bank of Scotland plc (the “**Calculation Agent**”).

The Index is developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”) based on the rules and methodology explained in this description, as amended from time to time.

The Index aims to track a notional strategy that applies a volatility control overlay to a basket of bond funds (together, the “**Basket of Funds**”). The Basket of Funds is initially composed of four funds (each a “**Fund**”, and together, the “**Funds**”).

The level of the Index (“**Index Level**”) is determined, on each calculation date in reference to the index return reduced by a return adjustment (the “**Excess Return Adjustment**”). The Excess Return Adjustment is set to an annualised rate of 1.65%.

The index return is calculated principally based on the daily valuations of the Basket of Funds, the Index’s exposure to the Basket of Funds and/or the cash allocation, the interest rate and the spread. The values of these variables will in turn be determined in accordance with the methodology of the Index and be subject to the volatility control overlay and stop-loss mechanism.

The purpose of the volatility control overlay is to dynamically adjust exposure to the Basket of Funds based on the Maximum Fund Basket Volatility.

The “**Maximum Fund Basket Volatility**” in respect of the Basket of Funds is determined on each “**Calculation Date**” (being each day on which at least one Fund publishes the net asset value of the Fund as determined by the Calculation Agent) as the highest Realised Volatility observed in respect of the Calculation Date two days prior to the current Calculation Date (“**Calculation Date-2**”) and the four immediately preceding Calculation Dates to Calculation Date-2.

The “**Realised Volatility**” in respect of a Calculation Date is a measure of how much the daily returns of the Fund Basket Value (the “**Fund Basket Value**” is calculated by multiplying the initial value of the Basket of Funds by the sum of the net asset values of each of the Funds on each Calculation Date divided by the initial net value of each Fund multiplied by the weight given to each Fund) have fluctuated around their average over a defined time period. The time period for the returns is taken to be twenty one (21) consecutive historical Calculation Dates ending on the relevant Calculation Date. The average is calculated as the arithmetic mean.

The fund basket allocation (the “**Fund Basket Allocation**”) provides for the Index to have exposure to the Basket of Funds within a range from a minimum of 0% to a maximum of 150%. The Fund Basket Allocation is determined according to the range that the Maximum Fund Basket Volatility falls within. Generally, as the Maximum Fund Basket Volatility increases, the Fund Basket Allocation to the Basket of Funds decreases, while if the Maximum Fund Basket Volatility decreases, the Fund Basket Allocation to the Basket of Funds increases.

If the Maximum Fund Basket Volatility has increased above a certain level causing the notional exposure to the Basket of Funds to fall below 100%, the percentage difference (in absolute terms) between 100% and the actual exposure to the Basket of Funds will be allocated to a notional cash account, which will accrue interest at the interest rate (which is the USD overnight rate for the previous Calculation Date). The minimum exposure to the Basket of Funds is 0%, meaning that the maximum exposure allocated to the notional cash account is 100%.

If the Maximum Fund Basket Volatility has decreased below a certain level causing the notional exposure to the Basket of Funds to rise above 100%, the percentage difference between 100% and 150% (in absolute terms) will instead be funded by notionally borrowing cash at the Net Interest Rate (the “**Net Interest Rate**”, for the purposes of funding, is calculated by adding a spread of 125 basis points per annum to the interest rate). The maximum exposure to the Basket of Funds is 150%, meaning that the maximum exposure which would be funded by notionally borrowing cash is 50%.

If the sum of the Fund Basket Returns over a period of 5 calculation days is negative and the Fund Basket volatility has increased above a certain level, then a stop-loss trigger is activated causing the notional exposure to the Basket of Funds to be set to zero and a 100% exposure to a notional cash account. Following a stop loss event, the Index can only regain exposure to the Basket of Funds when the Index methodology deems that a positive trend is detected. To determine whether there is a positive trend, a 20-day moving average is monitored against the Fund Basket Value. When the Fund Basket Value is above the 20-day moving average, the Index deems that there is a positive trend and can re-instate the exposure to the Basket of Funds. If a stop-loss trigger is activated, the Index will not be exposed to the Basket of Funds for at least 10 Calculation Dates. The minimum exposure to the Basket of Funds is 0%, meaning that the maximum exposure allocated to the notional cash account is 100%.

Each Fund has a target weight and the Index is rebalanced on the 14th calendar day of February, May, August and November in each year (each a “**Rebalancing Date**”) so that the notional exposure to the underlying Funds meets the target weights. If the Rebalancing Date is not a calculation day, then the Rebalancing Date will be the next following calculation day which is not a disrupted day. Between each Rebalancing Date, the value of the Fund shares may increase or decrease in differing amounts. Therefore, the Index’s notional exposure to the Funds shares may not match the target weights from one Rebalancing Date to another Rebalancing Date. Only on each Rebalancing Date will the Index be notionally rebalanced intending to achieve the target weights.

It is not expected, as of the publication date, that any dividends will be payable in respect of the Funds. However, if any dividend proceeds are received, those proceeds (net of tax and all costs) will be reinvested into the relevant Fund as soon as reasonably practical and the Index Level will be adjusted accordingly.

The Index Level will be calculated in respect of each day on which at least one Fund publishes the Fund net asset value and/or such other days as may be determined by the Calculation Agent in its sole and absolute

discretion. The Calculation Agent will calculate the Index in respect of a Calculation Date at the Valuation Time and publish the Index Level in respect of such Calculation Date at the Publication Time. The “**Valuation Time**” (09:00 London time) and “**Publication Time**” (16:00 London time) in respect of a Calculation Date both occur on the same day which is two calculation days following Calculation Date. Because Fund net asset values are only available in arrears and may be delayed, the most recently published Fund net asset value may be used to calculate the Index for a certain Calculation Date. In limited circumstances, the publication of the Index Level may be delayed.

The information contained in this description describes the methodology and material rules and risks relating to the Index. This information is subject to change. The Index Sponsor makes no representation or warranty that the Index will achieve its stated investment objectives.

In some circumstances the Index Sponsor may modify the calculation of the Index without consent and change these rules.

RBS VC Bond Funds Basket Index 1 (USD) ER 6% (the “Index”)

The Index is calculated and maintained by The Royal Bank of Scotland plc (the “**Calculation Agent**”). The Index is developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”) based on the rules and methodology explained in the description, as amended from time to time.

The Index aims to track a notional strategy that applies a volatility control overlay to a basket of bond funds (together, the “**Basket of Funds**”). The Basket of Funds is initially composed of five funds (each a “**Fund**”, and together, the “**Funds**”).

The purpose of the volatility control overlay is to dynamically adjust exposure to the Basket of Funds based on the Maximum Fund Basket Volatility.

The “**Maximum Fund Basket Volatility**” in respect of the Basket of Funds is determined on each “**Calculation Date**” (being each day on which at least one Fund publishes the net asset value of the Fund as determined by the Calculation Agent) as the highest Realised Volatility observed in respect of the Calculation Date two days prior to the current Calculation Date (“**Calculation Date-2**”) and the four immediately preceding Calculation Dates to Calculation Date-2.

The “**Realised Volatility**” in respect of a Calculation Date is a measure of how much the daily returns of the value of the Basket of Funds have fluctuated around their average over a defined time period. The time period for the returns is taken to be twenty one (21) consecutive historical Calculation Dates ending on the relevant Calculation Date. The average is calculated as the arithmetic mean.

The “**Fund Basket Allocation**” provides for the Index to have exposure to the Basket of Funds within a range from a minimum of 0% to a maximum of 150%. The Fund Basket Allocation is determined according to the range that the Maximum Fund Basket Volatility falls within. Generally, as the Maximum Fund Basket Volatility increases the exposure to the Basket of Funds decreases and vice versa.

If the Maximum Fund Basket Volatility has increased above a certain level causing the notional exposure to the Basket of Funds to fall below 100%, the percentage difference (in absolute terms) between 100% and the actual exposure to the Basket of Funds will be allocated to a notional cash account, which will accrue interest daily at the “**Interest Rate**” (which is the USD overnight rate for the previous Calculation Date). The minimum Fund Basket Allocation is 0%, meaning that the maximum exposure allocated to the notional cash account is 100%.

If the Maximum Fund Basket Volatility has decreased below a certain level causing the Fund Basket Allocation to rise above 100%, the percentage difference between 100% and 150% (in absolute terms) will be funded by notionally borrowing cash at the “**Net Interest Rate**” (which, for the purposes of funding, is calculated by adding a spread of 125 basis points per annum to the Interest Rate). Interest for such notional cash borrowing is accrued daily. The maximum exposure to the Basket of Funds is 150%, meaning that the maximum exposure which would be funded by notionally borrowing cash is 50%.

The level of the Index is determined, on each calculation date in reference to the Index Return reduced by a return adjustment (the “**Excess Return Adjustment**”). The Excess Return Adjustment is set to an annualised rate of 1.95%.

Each Fund has a target weight and the Index is rebalanced on the 11th calendar day of March, June, September and December in each year (each a “**Rebalancing Date**”) so that the notional exposure to the underlying Funds meets their respective target weights. If the Rebalancing Date is not a calculation day, then the Rebalancing Date will be the next following calculation day unless such Calculation Date to be a disrupted day. Between each Rebalancing Date, the value of the Fund shares may increase or decrease in differing amounts. Therefore, the Index’s notional relative exposure to the different Funds shares may not match the target weights from one Rebalancing Date to another Rebalancing Date. Only on each Rebalancing Date will the Index be notionally rebalanced intending to achieve the target weights.

If a Fund has less than USD 1 billion assets under management, the Index Sponsor, acting in conjunction with the Calculation Agent, may, but is not obliged, substitute the affected Fund with an alternative fund that is substantially similar to the affected Fund.

It is not expected, as of the original publication date of the Index (11th April 2012), that any dividends will be payable in respect of the Funds. However, if any dividend proceeds are received, those proceeds (net of tax and all costs) will be reinvested into the relevant Fund as soon as reasonably practical and the value of the Index (the “**Index Level**”) will be adjusted accordingly.

The Index Level will be calculated in respect of each day on which at least one Fund publishes the Fund net asset values (“**Fund NAVs**”) and/or such other days as may be determined by the Calculation Agent in its sole and absolute discretion (each, a “**Calculation Date**”). The Calculation Agent will calculate the Index in respect of a Calculation Date at the Valuation Time and publish the Index Level in respect of such Calculation Date at the Publication Time. The “**Valuation Time**” (09:00 London time) and “**Publication Time**” (16:00 London time) in respect of a Calculation Date both occur on the same day which is two calculation days following Calculation Date. Because Fund NAVs are only available in arrears and may be delayed, the most recently published Fund NAV may be used to calculate the Index for a certain Calculation Date. In limited circumstances, the publication of the Index Level may be delayed.

Costs and expenses incurred by the Index Sponsor in connection with obtaining exposure to the underlying Funds may be deducted from the Index on a daily basis and may reduce the performance of the Index Level.

The information contained in this description describes the methodology and material rules and risks relating to the Index. This information is subject to change. The Index Sponsor makes no representation or warranty that the Index will achieve its stated investment objectives.

In some circumstances, the Index Sponsor may modify the calculation of the Index without consent and change these rules.

RBS VC TVI Index (USD) ER 10% (the “Index”)

The Index is calculated by RBS Business Services Private Limited (the “**Calculation Agent**”) based on a methodology developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”). The Index was first calculated on or around 28 August 2009 (the “**Live Date**”). The Index is denominated in USD (the “**Base Currency**”).

The Index aims to track a risk-stabilised notional Index linked to the component comprising the Index (the “**Constituent**”). This is achieved by varying the exposure to the Constituent on a daily basis, depending on the maximum realised historical volatility (“**Maximum Realised Historic Volatility**”) of the Constituent. In summary, if the level of the Maximum Realised Volatility has increased to an amount equal to or above a certain level, the exposure to the Constituent will be decreased, and if the Maximum Realised Volatility has decreased below a certain level, exposure to the Constituent will be increased.

The Constituent reflects the performance of the Underlying following the deduction of an access cost which represents the costs charged and expenses incurred by the Index Sponsor to maintain the Index. The Underlying is a published index, the Trader Vic Index Excess Return (Bloomberg page TVICER Index).

The Index shall be calculated at the “**Valuation Time**” (being the time at which prices for all Underlyings are available on the relevant exchanges) on each scheduled trading day (each such day being a “**Calculation Date**”).

The information above is a description of the methodology and material rules relating to the Index. The Index Sponsor makes no representation or warranty that the Index will achieve its stated investment objectives.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the offer period (if any) to the relevant maturity date upon request at the offices of the Index Sponsor at The Royal Bank of Scotland plc, 250 Bishopsgate, London, EC2M 4AA. Investors should note that this description of the Index Rules is subject to the detailed provisions of the Index Rules. In order to obtain the Index Rules, an investor may need to give certain non-disclosure representations to the Index Sponsor.

Investors should note that the Index Rules are subject to change from time to time. In certain circumstances, the Index Sponsor can change the method of calculating the Index, or may discontinue or suspend calculation or dissemination of the Index which could affect the return or principal amount paid on the Securities.

RBS UK Autopilot Index (GBP) PR (the “Index”)

The Index is calculated by RBS Business Services Private Limited (the “**Calculation Agent**”) based on a methodology developed by The Royal Bank of Scotland plc (the “**Index Sponsor**”). The Index was first calculated on or around 15 May 2009 (the “**Live Date**”). The Index is denominated in GBP (the “**Base Currency**”).

The Index aims to track the return of a notional strategy that allocates between the following five constituents which may be comprised of one or more underlyings:

- (a) An equally-weighted basket of the FTSE 100 Index, S&P 500 Index, Nikkei 225 Stock Average and the DJ EUROSTOXX 50 (Price) Index (“**Constituent 1**”);
- (b) iShares MSCI Emerging Market Index Fund (“**Constituent 2**”);
- (c) DJ AIG Commodity Excess Return Index (“**Constituent 3**”);
- (d) FTSE EPRA/NAREIT Europe Index (“**Constituent 4**”);and
- (e) the UK Retail Prices Index which is entitled “**All Items NSA Inflation Index**” (the “**Inflation Index**” or “**Constituent 5**” and Constituents 1, 2, 3, 4 and 5 shall be collectively referred to as the “**Constituents**”).

On or around the first calendar day of each month (“**Rebalancing Date**”) the Calculation Agent will rebalance the weight allocated to a Constituent and such weight will be effective following the Rebalancing Date. The weight to be allocated to each Constituent will be determined with reference to the value of each Constituent 1, 2, 3 and 4 taken on the first calculation date immediately preceding each Rebalancing Date (“**Determination Date**”).

On each Determination Date, the value of Constituents 1, 2, 3 and 4 will each be compared to its respective monthly average value over the preceding 12 months (the “**Moving Average**”). If the relevant value of Constituent 1, 2, 3 and 4 is greater than its respective Moving Average, the Calculation Agent will allocate a weight of 25% of the notional value of the Index to such Constituent from the day immediately following the Rebalance Date up to and including the immediately following Rebalancing Date. Otherwise, the Calculation Agent shall allocate a weight of 25% of the notional value of the Index to the Inflation Index. Hence, each of Constituent 1, 2, 3 and 4 can have a weight of either 0% or 25% and Constituent 5 can have a weight of either 0%, 25%, 50%, 75% or 100%. In total, the weights shall sum to 100%.

In any monthly performance period which will commence on the day immediately following a Rebalancing Date and end on the following Rebalancing Date (“**Monthly Performance Period**”), the monthly return of each Constituent shall be determined by the Calculation Agent from the start of the Monthly Performance Period until the end of the Monthly Performance Period. With respect to Constituents 1, 2, 3 and 4 the

monthly return shall be capped at 7.00% and with respect to the Inflation Index, the monthly return will be fixed at one-twelfth of the annual return of the Inflation Index.

The information above is a description of the methodology and material rules relating to the Index. The Index Sponsor makes no representation or warranty that the Index will achieve its stated investment objectives.

A copy of the Index Rules relating to the Index will be available for review from the beginning of the offer period (if any) to the relevant maturity date upon request at the offices of the Index Sponsor at The Royal Bank of Scotland plc. 250 Bishopsgate, London, EC2M 4AA. The Final Terms, the Product Conditions and the General Conditions together constitute the Conditions of the Securities and will be printed on any Definitive Securities and attached to any Global Security representing the Securities.

1. DEFINITIONS

Terms in capitals which are not defined in these General Conditions shall have the meanings ascribed to them in the Product Conditions or the applicable Final Terms and, if not so defined, shall be inapplicable. References in these General Conditions to interest and Coupons (and related expressions) shall be ignored in the case of Securities which do not bear interest. References in these General Conditions to the Conditions shall mean these General Conditions and, in relation to any Securities, the Product Conditions applicable to those Securities.

2. STATUS

The Securities constitute unsecured and unsubordinated obligations of the Issuer and rank *pari passu* among themselves and with all other present and future unsecured and unsubordinated obligations of the Issuer save for those preferred by mandatory provisions of law.

3. EARLY TERMINATION

- (a) The Issuer shall have the right to terminate the Securities if it shall have determined in its absolute discretion that its performance thereunder shall have become unlawful in whole or in part as a result of compliance in good faith by the Issuer with any applicable present or future law, rule, regulation, judgement, order or directive of any governmental, administrative, legislative or judicial authority or power (“**Applicable Law**”). In such circumstances the Issuer will, however, if and to the extent permitted by the Applicable Law, pay to each Holder in respect of each Security held by such Holder an amount calculated by it as the fair market value of the Security immediately prior to such termination (ignoring such illegality) less the cost to the Issuer of unwinding any related hedging arrangements. Payment will be made to the Holder in such manner as shall be notified to the Holder in accordance with General Condition 4.
- (b) The Issuer shall have the right to terminate the Securities if it shall have determined in its absolute discretion that payments made on the Securities are, in whole or in part, directly or indirectly contingent upon, or determined by reference to, the payment of a dividend from a

U.S. entity and that these payments have or will become subject to U.S. withholding tax. In such circumstances the Issuer will, however, if and to the extent permitted by the Applicable Law, pay to each Holder in respect of each Security held by such Holder an amount calculated by it as the fair market value of the Security immediately prior to such termination less the cost to the Issuer of unwinding any related hedging arrangements and of paying any required U.S. withholding tax. Payment will be made to the Holder in such manner as shall be notified to the Holder in accordance with General Condition 4.

4. NOTICES

- (a) With respect to Securities other than Securities cleared through CREST, Notices to Holders shall be given by the delivery of the relevant notice to the Clearing Agent(s) with an instruction from the Issuer to the Clearing Agent(s) to communicate such notice to the Holders. Where Securities are cleared through CREST, notices to Holders shall be given by the delivery of the relevant notice to the Registrar for communication to the Holders pursuant to the procedures for delivery of notices to accountholders in CREST as may be agreed between the Issuer, the Registrar and the Operator from time to time. The Issuer shall also ensure that notices are duly published, to the extent required, in a manner which complies (i) with the rules of any stock exchange or other relevant authority on which the Securities are for the time being listed or in the country in which such Securities have been admitted to trading and (ii) with any relevant legislation. In addition, for Securities listed on the SIX Swiss Exchange Ltd, the Issuer shall have the right but (without prejudice to the previous sentence) shall not be obliged to publish notices in electronic form on the internet website of the SIX Swiss Exchange Ltd (http://www.six-exchange-regulation.com/publications/communiqués/official_notices_en.html) if and so long as the Securities are listed on the SIX Swiss Exchange Ltd.
- (b) Any such notice issued pursuant to General Condition 4(a) by being delivered to the Clearing Agent(s) or the Registrar for communication to the Holders, as applicable, will be deemed to have been given on the date of the delivery of such notice to the Clearing Agent(s) or the Registrar, as applicable. Any such notice issued pursuant to General Condition 4(a) by being published will be deemed to have been given on the date of the first publication (for the avoidance of doubt, such notice having been published by any valid means) or, where required to be published in more than one newspaper, on the date of the first publication in all required newspapers.

5. HEDGING DISRUPTION

- (a) Notification. The Issuer shall as soon as reasonably practicable give instructions to the Calculation Agent to notify the Holders in accordance with General Condition 4(a): (i) if it

determines that a Hedging Disruption Event has occurred; and (ii) of the consequence of such Hedging Disruption Event as determined by the Issuer pursuant to General Condition 5(c).

- (b) Hedging Disruption Event. A “**Hedging Disruption Event**” shall occur if the Issuer, acting in good faith and in a commercially reasonable manner, determines that it is or has become not reasonably practicable or it has otherwise become undesirable, for any reason, for the Issuer or any Hedge Provider wholly or partially to (i) hold, acquire, establish, re-establish, substitute, maintain, unwind or dispose of a relevant hedging transaction (a “**Relevant Hedging Transaction**”) or asset it deems necessary, appropriate or desirable to hedge the Issuer’s obligations in respect of the Securities or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s). The reasons for such determination by the Issuer may include, but are not limited to, the following:
- (i) the Issuer or any Hedge Provider will, whether directly or indirectly, incur a material increase (as compared with circumstances existing on the Issue Date) in the amount of tax, duty, expense (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) or fee (other than brokerage commissions) provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer or the Hedge Provider shall not be considered for the purposes of this subparagraph (i); or
 - (ii) any material illiquidity in the market for, or any mandatory redemption in whole or in part of, the relevant instruments (the “**Disrupted Instrument**”) which from time to time are included in the reference asset to which the Securities relate; or
 - (iii) a change in any applicable law or regulation (including, without limitation, any tax law) or the promulgation of, or change in, the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority); or
 - (iv) a material decline in the creditworthiness of a party with whom the Issuer has entered into any such Relevant Hedging Transaction; or
 - (v) the general unavailability of: (A) market participants who will agree to enter into a Relevant Hedging Transaction; or (B) market participants who will so enter into a Relevant Hedging Transaction on commercially reasonable terms.

In the Conditions:

“Hedge Position” means any purchase, sale, entry into or maintenance of one or more (i) positions or contracts in reference assets to which the Securities relate, securities, options, futures, derivatives or foreign exchange, (ii) securities lending transactions or (iii) other instruments or arrangements (however described) by the Issuer in order to hedge the Issuer’s risk of issuing, and performing its obligations with respect to, the Securities; and

“Hedge Provider” includes but is not limited to the Issuer, any associate, subsidiary or affiliate thereof and/or any other party(ies) and/or any special purpose vehicle(s) holding or entering into a Hedge Position in connection with the Issuer’s hedging arrangements in respect of the Securities.

- (c) Consequences. The Issuer, in the event of a Hedging Disruption Event, may determine to:
- (i) terminate the Securities. In such circumstances the Issuer will, however, if and to the extent permitted by the Applicable Law, pay to each Holder in respect of each Security held by such Holder an amount calculated by it as the fair market value of the Security immediately prior to such termination less the cost to the Issuer of unwinding any related hedging arrangements. Where the Securities contain provisions which provide a minimum assured return of principal, howsoever expressed, on the Settlement Date or Maturity Date (as defined in the relevant Product Conditions, or otherwise, a date that is the Settlement Date) as applicable, or a minimum assured return of interest or coupons, howsoever expressed, on a relevant Interest Payment Date (if applicable), any such amount to be paid under this General Condition shall not be less than the present value of such minimum assured return of principal and/or interest or coupons having regard to prevailing market rates, credit spreads and market liquidity, such present value being determined by the Calculation Agent. Payment will be made to the Holder in such manner as shall be notified to the Holder in accordance with General Condition 4;
 - (ii) make an adjustment in good faith to the relevant reference asset by removing the Disrupted Instrument at its fair market value (which may be zero). Upon any such removal the Issuer may: (A) hold any notional proceeds (if any) arising as a consequence thereof and adjust the terms of payment and/or delivery in respect of the Securities; or (B) notionally reinvest such proceeds in other reference asset(s) if so permitted under the Conditions (including the reference asset(s) to which the Securities relate);
 - (iii) make any other adjustment to the Conditions as it considers appropriate in order to maintain the theoretical value of the Securities after adjusting for the relevant Hedging Disruption Event. Where the Securities contain provisions which provide a minimum assured return of principal, howsoever expressed, on the Settlement Date

or Maturity Date as applicable, or a minimum assured return of interest or coupons, howsoever expressed, on a relevant Interest Payment Date, any such adjustment will in no way affect the Issuer's obligations to make payment to the Holders not less than the minimum assured return of principal and/or interest or coupons on the relevant Settlement Date or Maturity Date, or Interest Payment Date, as applicable.

- (d) The Issuer may also make adjustments to the Conditions if it determines that an event has occurred which, whilst not a Hedging Disruption Event or other disruption event as specified in Product Condition 4, is likely to have a material adverse effect on the Issuer's Hedge Position. Where the Issuer makes adjustments to the Conditions pursuant to this General Condition 5(d), the Issuer shall notify the Holders thereof and shall offer to purchase from Holders for a period of not less than 10 days any Securities held by them at their fair market value (as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner and taking into account the proposed adjustment) less the cost to the Issuer of unwinding any Relevant Hedging Transaction.

6. PURCHASES, FURTHER ISSUES BY THE ISSUER AND PRESCRIPTION

- (a) Purchases. The Issuer or any affiliate may purchase Securities at any price in the open market or by tender or private treaty. Any Securities so purchased may be held, surrendered for cancellation or reissued or resold, and Securities so reissued or resold shall for all purposes be deemed to form part of the original series of Securities.
- (b) Further Issues. The Issuer shall be at liberty from time to time without the consent of the Holders or any of them to create and issue further securities so as to be consolidated with and form a single series with the Securities.
- (c) Prescription. Any Security or Coupon which is capable of presentation and is not so presented by its due date for presentation shall be void, and its value reduced to zero, if not so presented within five years of such due date. For the avoidance of doubt, any Securities which are subject to provisions relating to their exercise shall be void, and their value shall be zero, if not exercised in accordance with their provisions.

7. DETERMINATIONS AND MODIFICATIONS

- (a) Determinations.
 - (i) In making any determinations and calculations under these Conditions, the Issuer and the Calculation Agent shall act at all times in good faith and in a commercially reasonable manner. All such determinations and calculations by the Issuer and the Calculation Agent shall, in the absence of manifest error, be final and binding.

- (ii) Whilst it is intended that the Issuer and the Calculation Agent will employ the methodology described in the Conditions to make determinations in respect of the Securities, no assurance can be given that market, regulatory, judicial or fiscal circumstances or, without limitation, any other circumstances will not arise that would necessitate a modification or change in such methodology in order that the Securities replicate as closely as possible investments in the assets underlying the Securities and its components. The Issuer and the Calculation Agent may make any such modification or change to such methodology that it considers necessary to reflect such circumstances.
 - (iii) Calculations made by the Issuer or the Calculation Agent in respect of the Securities shall be made on the days specified herein; however, notwithstanding the foregoing or anything else contained in these Conditions, should the Issuer or the Calculation Agent determine that in order to give effect to the methodology described in these Conditions it is necessary to make calculations on a day or days other than that specified, then each of the Issuer and the Calculation Agent is permitted to make such calculations on such calendar day or days as it shall determine.

To the extent allowed by law, Holders may take concurrent Proceedings in any number of jurisdictions.
- (d) The Issuer agrees that the courts of England are the most appropriate and convenient courts to settle any Dispute and, accordingly, that it will not argue to the contrary.

then any Holder may, by written notice to the Issuer at the specified office of the Principal Agent, effective upon the date of receipt thereof by the Principal Agent, declare the Security held by the holder to be forthwith due and payable whereupon the same shall become forthwith due and payable at the Event of Default Early Termination Amount (as defined below), together with accrued interest (if any) to the date of repayment, without presentment, demand, protest or other notice of any kind.

21. **TRANSFER AND CONSISTENCY REGULATIONS WITH RESPECT TO SECURITIES CLEARED THROUGH CREST**

No provisions of any of the Conditions shall (notwithstanding anything contained therein) apply or have effect to the extent that it is in any respect inconsistent with (i) the holding of title to Securities cleared through CREST (ii) the transfer of title to Securities cleared through CREST by means of a relevant system, or (iii) the Regulations.

Without prejudice to the generality of the preceding sentence and notwithstanding anything contained in the Conditions, so long as Securities cleared through CREST are participating securities, (a) any such Securities which are not for the time being in all respects identical to, or do not for the time being have rights attached thereto identical in all respects to those attached to other Securities cleared through CREST of the same Series, shall be deemed to constitute a separate Series of Securities, (b) the Register (as defined in the relevant Product Conditions) relating to Securities cleared through CREST shall be maintained at all times in the United Kingdom, (c) Securities cleared through CREST will be issued in uncertificated form in accordance with and subject as provided in the Regulations, and (d) for the avoidance of doubt, and any Conditions in relation to any

- (e) Interest Accrual. If “Interest” is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms, each Security shall cease to accrue interest from and including the due date for redemption. No interest shall accrue after the Maturity Date or the Issuer Call Date, as the case may be, in the event that payment of any amount is postponed due to a Market Disruption Event.
- (f) Payment Day. If the date for payment of any amount in respect of the Securities is not a Payment Day, the Holder shall not be entitled to payment until either (a) if “Modified Following” is specified in the definition of Business Day Convention for the relevant Series in the applicable Final Terms, the next following Payment Day unless such Payment Day falls in the next calendar month in which case the date for payment will be the first preceding Payment Day or (b) if “Following” is specified in the definition of Business Day Convention for the relevant Series in the applicable Final Terms, the next following Payment Day and, in either case, the Holder shall not be entitled to any interest or other payment in respect of such delay or acceleration of payment.

- (h) Settlement Risk. Settlement of the Securities is subject to all applicable laws, regulations and practices in force at the relevant time and none of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall incur any liability whatsoever if it is unable to effect the transactions contemplated as a result of any such laws, regulations or practices. Where the Securities are cleared through CREST, General Condition 20 shall apply.

4. ADJUSTMENTS

- (a) Market Disruption. A “**Market Disruption Event**” means the situation in which Rate 1 and/or Rate 2, if applicable, is not available on the relevant Reference Spread Screen Page, in which case the relevant rate shall be determined by the

Calculation Agent, on the basis of quotations for the relevant rate or such other related rate as the Calculation Agent shall in its sole and absolute discretion specify provided by the Reference Banks at the Valuation Time for the relevant Business Day. The Issuer will request each Reference Bank to provide a quotation of the relevant rate. If at least three quotations are provided, the relevant rate will be the arithmetic mean of the quotations, eliminating the highest quotation (or in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest). If it is not possible to obtain quotations of the relevant rate by at least three of the Reference Banks then the Calculation Agent will determine Rate 1 and/or Rate 2 (if applicable) and/or the Reference Spread, if applicable, at its sole and absolute discretion.

- (b) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determination. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

The Final Terms applicable to any Series of Securities may specify amendments to these Product Conditions in so far as they apply to that Series. 4. ADJUSTMENTS

- (a) Market Disruption. The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred.

A “**Market Disruption Event**” means the situation in which the Reference Rate is not available on the relevant Screen Page specified in the definition of Interest Rate of the relevant Series in the applicable Final Terms, in which case the relevant rate shall be determined by the Calculation Agent, on the basis of the quotations for the Reference Rate or such other related rate as the Calculation Agent shall in its sole and absolute discretion specify provided by the Reference Banks at the Valuation Time on the relevant Valuation Date. The Issuer will request each Reference Bank to provide a quotation of the relevant rate. If at least three quotations are provided, the relevant rate will be the arithmetic mean of the quotations, eliminating the highest quotation (or in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest). If it is not possible to obtain quotations of the relevant rate from at least three of the Reference Banks then the Calculation Agent will determine the Reference Rate at its sole and absolute discretion.

- (b) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such

request. The Calculation Agent shall make available for inspection by Holders copies of any such determination. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

The Final Terms applicable to any Series of Securities may specify amendments to these Product Conditions in so far as they apply to that Series. Notwithstanding the foregoing, consideration will be given as to whether such amendments constitute “significant new factors” and consequently trigger the need for a supplement to the Base Prospectus (as defined in the Final Terms) under Article 16 of Directive 2003/71/EC.

Accordingly, in these Conditions, the term “**Holder**” means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

 - (2) determine the effective date of that adjustment.

The Calculation Agent may, but need not, determine the adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Shares traded on that options exchange. Upon making any such adjustment, the Calculation Agent shall notify the Holders in accordance with General Condition 4, stating the adjustment to be made to the Conditions and giving brief details of the Potential Adjustment Event.

“**Potential Adjustment Event**” means any of the following: (i) a subdivision, consolidation or reclassification of relevant Shares (unless resulting in a Merger Event) or a free distribution or dividend of any such Shares to existing holders by way of bonus, capitalisation or similar issue, (ii) a distribution, issue or dividend to existing holders of the relevant Shares of (A) such Shares, (B) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Share Company equally or proportionately with such payments to holders of such Shares, (C) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Share Company as a result of a spin-off or other similar transaction or (D) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Calculation Agent, (iii) an extraordinary dividend, (iv) a call by the Share Company in respect of relevant Shares that are not fully paid, (v) a repurchase by the Share Company or any of its subsidiaries of relevant Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise, (vi) with respect to the Share Company, an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the Share Company pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value (as determined by the Calculation Agent) provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights or (vii) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Share.

- (b) Merger Event, Hedging Disruption, Nationalisation, Insolvency, Insolvency Filing or Delisting. If a Merger Event (A) which is a Reverse Merger or (B) under which the consideration for the relevant Shares consists (or, at the option of the holder of such Shares, will consist) solely of New Shares, occurs in relation to a Share Company, the Calculation Agent shall make such adjustments to the terms and conditions of the Securities as it determines appropriate to account for the economic effect on the Securities of such Merger Event (provided that the Issuer may, but need not, determine the adjustment by reference to the adjustment in respect of such event made by an options exchange to options on the Shares traded on that options exchange) and determine the effective date of that adjustment. If the Calculation Agent determines that, as a result of the application of this provision, the number of different Shares in the Basket is reduced, Share Substitution will apply. Share Substitution shall also apply where a Merger Event other than those as set out in (A) and/or (B) of this Product Condition 4(b) occurs.

If any of Hedging Disruption, Nationalisation, Insolvency, Insolvency Filing or De-listing occurs in relation to a Share Company, Share Substitution shall apply.

“De-listing” means the Exchange announces that, pursuant to the rules of the Exchange, the Shares cease (or will cease) to be listed, traded or publicly quoted on the Exchange for any reason (other than a Merger Event or Tender Offer) and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as the Exchange (or, where the Shares have been listed on an exchange or quotation system within the European Union, in any member state of the European Union).

“Hedging Disruption” means the inability of the Issuer to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing its obligations with respect to any Securities or (B) realise, recover or remit the proceeds of any such transaction or asset.

“Insolvency” means that by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting a Share Company (A) all the Shares of that Share Company are required to be transferred to a trustee, liquidator or other similar official or (B) holders of the Shares of that Share Company become legally prohibited from transferring them.

“Insolvency Filing” means (A) a Share Company institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, (B) a Share Company consents to a proceeding seeking a judgement of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors’ rights, (C) a petition is presented for the winding-up or liquidation of a Share Company by it or such regulator, supervisor or similar official or (D) a Share Company consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by such Share Company shall not be deemed to be an Insolvency Filing.

“Merger Date” means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as is determined by the Calculation Agent.

“Merger Event” means any (i) reclassification or change of such Shares that results in a transfer of or an irrevocable commitment to transfer all or a majority of the outstanding Shares, (ii) consolidation, amalgamation, merger or binding share exchange of the Share Company with or into another entity (other than a consolidation, amalgamation, merger or binding share exchange in which such Share Company is the continuing entity and which

does not result in a reclassification or change to all of the outstanding Shares), (iii) takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Shares that results in a transfer of, or an irrevocable commitment to transfer a majority of the voting power of the Share Company to the offeror or (iv) consolidation, amalgamation, merger or binding share exchange of the Share Company or its subsidiary with or into another entity in which the Share Company is the continuing entity and which does not result in a reclassification or change of all such Shares outstanding but results in the holders of the outstanding Shares (other than Shares owned or controlled by such other entity) immediately prior to such event collectively owning less than 50 per cent. of the outstanding Shares immediately following such event (a “**Reverse Merger**”), in each case if the Merger Date is on or before the final Valuation Date.

“**Nationalisation**” means that all the Shares of a Share Company or all or substantially all the assets of a Share Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority or entity or instrumentality thereof.

“**New Share**” means ordinary or common shares, whether of the entity or person (other than the Merger Company) involved in the Merger Event or a third party that are, or that as of the Merger Date are promptly scheduled to be, (i) publicly quoted, traded or listed on an exchange or quotation system located in the same country as the Exchange and (ii) not subject to any currency exchange controls, trading restrictions or other trading limitations.

“**Share Substitution**” means on or after the relevant Merger Date or the date of the Nationalisation, Insolvency or Delisting or the date of the Insolvency Filing or Hedging Disruption (as the case may be), the Calculation Agent will adjust the Basket to include a share selected by it in good faith in accordance with the criteria for share selection set out below (the “**Substitute Shares**”) in place of the Shares which are affected by the Merger Event, Nationalisation, Insolvency, Delisting, Insolvency Filing or Hedging Disruption, and the Substitute Shares and their respective issuers will be deemed “**Shares**” and a “**Share Company**”, respectively, and the Calculation Agent will adjust any relevant terms and conditions hereunder accordingly, provided that (for the avoidance of doubt) the Initial Reference Spot of each Substitute Share will be determined in accordance with the formula set out as below:

$$\text{Initial Reference Spot} = A \times (B / C)$$

Where:

“A” is the official closing price of the relevant Substitute Share on the Substitution Date;

“B” is the Initial Reference Spot of the relevant affected Share; and

“C” is the official closing price of the relevant affected Share on the Substitution Date.

In order to be selected as Substitute Shares, the relevant shares shall (if practicable as selected by the Calculation Agent on a best efforts basis) meet all or some of the following criteria:

1. a share which is not already comprised in the Basket;
2. a share which belongs to a similar economic sector as the affected Share; and
3. a share which is of comparable market capitalisation, international standing and exposure as the affected Share.

After selecting each Substitute Share, the Calculation Agent will, as soon as reasonably practicable, notify the Holders in accordance with General Condition 4 of the occurrence of the relevant events and the identity of each affected share and the relevant adjustment to the Basket will be deemed to be effective as of the date selected by the Calculation Agent in its absolute discretion acting in good faith and in a commercially reasonable manner and specified in such notice (the “**Substitution Date**”) which may, but need not, be the day upon which the relevant event occurred.

“**Tender Offer**” means a takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing, or otherwise obtaining, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of a Share Company, as determined by the Calculation Agent, based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

- (c) In the event that any price quoted on the Exchange and which is utilised for any calculation or determination made hereunder is subsequently corrected and quoted or published by the Exchange within two Scheduled Trading Days of the previously published or quoted price, to the extent that the Calculation Agent is aware of the same, the Calculation Agent will take into account such correction when determining the relevant Coupon Amount and, to the extent necessary, the Calculation Agent will adjust the terms and conditions of the Securities to account for such correction.
- (d) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it consider it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt by it of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies

of any such determinations. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

The Final Terms applicable to any Series of Securities may specify amendments to these Product Conditions in so far as they apply to that Series. - (b) Dematerialised Form. Certain Securities will, where required by the rules and procedures of the Clearing Agent, be issued in dematerialised form and will be registered in the book-entry system of the Clearing Agent. Title to the Securities will pass by transfer between accountholders at the Clearing Agent perfected in accordance with the legislation, rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect

from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means a person in whose name a Security is registered in the book-entry settlement system of the Clearing Agent or any other person recognised as a holder of Securities pursuant to the Rules.

The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. Any reference to the “**Operator**” (as such term is used in the Regulations) shall be to CREST and shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator approved by the Issuer from time to time in accordance with the Regulations and notified to the relevant Holders in accordance with General Condition 4.

Any indication herein that the Operator “shall do”, or similar expression or phrase indicating that they are obliged to or will carry out any role or obligation described in the Conditions and/or the applicable Final Terms, as the case may be, is given without any assumption by

the Issuer, the relevant Registrar or the Calculation Agent of responsibility or liability for the performance of the Operator.

Title to the Intermediated Securities is construed and will pass in accordance with the legislation, in particular the FISA, rules and regulations applicable to and/or issued by the Clearing Agent, acting as Custodian, and any other custodian, if any, that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

The Holders shall at no time have the right to effect or demand (i) the retransformation of the Intermediated Securities into, and the delivery of, Dematerialised Securities in the case of Dematerialised Securities being the basis for the creation of Intermediated Securities, or (ii) the conversion of the Dematerialised Securities or the Global Security into definitive Securities.

Where the Securities are cleared through CREST, General Condition 20 shall apply.

4. ADJUSTMENTS

- (a) **Market Disruption.** The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred.

A “**Market Disruption Event**” means the situation in which an Underlying Rate is not available on the relevant Screen Page, in which case the relevant rate shall be determined by the Calculation Agent on the basis of quotations for the relevant rate, or such other related rate as the Calculation Agent shall in its sole and absolute discretion specify, provided by the Reference Banks at the Valuation Time for the relevant day. The Issuer will request the principal London office of each Reference Bank to provide a quotation of the relevant rate. The relevant rate will be the arithmetic mean of the quotations, eliminating the highest quotation (or in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest) if more than three quotations are provided. If it is not possible to obtain quotations of the relevant rate by at least three of the Reference Banks then the Calculation Agent will determine the relevant Underlying Rate at its sole and absolute discretion, which determination may be delayed for up to 180 days following the occurrence of an Emerging Market Disruption Event.

- (b) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determination. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

The Final Terms applicable to any Series of Securities may specify amendments to these Product Conditions in so far as they apply to that Series. Notwithstanding the foregoing, consideration will be given as to whether such amendments constitute “significant new factors” and consequently trigger the need for a supplement to the Base Prospectus (as defined in the Final Terms) under Article 16 of Directive 2003/71/EC.

The Securities are represented by a global security (the “**Global Security**”) which will be deposited with a Clearing Agent or the depositary for one or more Clearing Agents and will be transferable only in accordance with the applicable law and the rules and procedures of the relevant Clearing Agent through whose systems the Securities are transferred. Each person (other than another Clearing Agent) who is for the time being shown in the records of the relevant Clearing Agent as the owner of a particular nominal amount of the Securities (in which regard any certificate or other document issued by the relevant Clearing Agent as to the nominal amount of the Securities standing to the credit of the account of any person shall be conclusive and binding for all purposes except in the case of manifest error) shall be treated by the Issuer and each Agent as the holder of such nominal amount of the Securities (and the term “**Holder**” shall be construed accordingly) for all purposes, other than with respect to any payment and/or delivery obligations, the right to

which shall be vested as regards the Issuer and the Agents, solely in the bearer of the Global Security.

- (b) Dematerialised Form. Certain Securities will, where required by the rules and procedures of the Clearing Agent, be issued in dematerialised form and will be registered in the book-entry system of the Clearing Agent. Title to the Securities will pass by transfer between accountholders at the Clearing Agent perfected in accordance with the legislation, rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means a person in whose name a Security is registered in the book-entry settlement system of the Clearing Agent or any other person recognised as a holder of Securities pursuant to the Rules.

If CREST is specified as the Clearing Agent in the relevant Final Terms, the Securities will be cleared through CREST. Such Securities will be registered securities in dematerialised and uncertificated form, and will be (i) participating securities and (ii) uncertificated securities in accordance with the Uncertificated Securities Regulations 2001 (SI. No. 3755) as amended, supplemented or replaced from time to time (the “**Regulations**”).

The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. Any reference to the “**Operator**” (as such term is used in the Regulations) shall be to CREST and shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator approved by the Issuer from time to time in accordance with the Regulations and notified to the relevant Holders in accordance with General Condition 4.

Any indication herein that the Operator “shall do”, or similar expression or phrase indicating that they are obliged to or will carry out any role or obligation described in the Conditions and/or the applicable Final Terms, as the case may be, is given without any assumption by the Issuer, the relevant Registrar or the Calculation Agent of responsibility or liability for the performance of the Operator.

- (c) SIX SIS Ltd as Clearing Agent. If SIX SIS Ltd is specified as the Clearing Agent, Securities will, as specified in the applicable Final Terms, be issued in the form of (i) dematerialised securities (the “**Dematerialised Securities**”) or (ii) a bearer permanent Global Security and, in either case, will be transformed into intermediated securities (the “**Intermediated Securities**”) in accordance with article 6 of the Swiss Federal Intermediated Securities Act (the “**FISA**”).

For each issuance of Securities in the form of Dematerialised Securities, the Clearing Agent, acting as Custodian, will maintain the main register as defined in article 6 para. 2 FISA which is available to the public under <https://www.sec.sisclear.com/sec/cm/index/custody-settlement/mainregister.htm>.

Title to the Intermediated Securities is construed and will pass in accordance with the legislation, in particular the FISA, rules and regulations applicable to and/or issued by the Clearing Agent, acting as Custodian, and any other custodian, if any, that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

The Holders shall at no time have the right to effect or demand (i) the retransformation of the Intermediated Securities into, and the delivery of, Dematerialised Securities in the case of Dematerialised Securities being the basis for the creation of Intermediated Securities, or

The Holder shall be the only person entitled to receive payments of any amount paid in connection with the Securities and the Issuer will be discharged by payment to, or to the order of, the Holder in respect of the amount so paid. Where the Securities are cleared through CREST, General Condition 20 should apply.

The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. - (b) **Dematerialised Form.** Certain Securities will, where required by the rules and procedures of the Clearing Agent, be issued in dematerialised form and will be registered in the book-entry

system of the Clearing Agent. Title to the Securities will pass by transfer between accountholders at the Clearing Agent perfected in accordance with the legislation, rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means a person in whose name a Security is registered in the book-entry settlement system of the Clearing Agent or any other person recognised as a holder of Securities pursuant to the Rules.

The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. Any reference to the “**Operator**” (as such term is used in the Regulations) shall be to CREST and shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator approved by the Issuer from time to time in accordance with the Regulations and notified to the relevant Holders in accordance with General Condition 4.

Any indication herein that the Operator “shall do”, or similar expression or phrase indicating that they are obliged to or will carry out any role or obligation described in the Conditions and/or the applicable Final Terms, as the case may be, is given without any assumption by the Issuer, the relevant Registrar or the Calculation Agent of responsibility or liability for the performance of the Operator.

- (c) SIX SIS Ltd as Clearing Agent. If SIX SIS Ltd is specified as the Clearing Agent, Securities will, as specified in the applicable Final Terms, be issued in the form of (i) dematerialised securities (the “**Dematerialised Securities**”) or (ii) a bearer permanent Global Security and, in either case, will be transformed into intermediated securities (the “**Intermediated Securities**”) in accordance with article 6 of the Swiss Federal Intermediated Securities Act (the “**FISA**”).

For each issuance of Securities in the form of Dematerialised Securities, the Clearing Agent, acting as Custodian, will maintain the main register as defined in article 6 para. 2 FISA which is available to the public under <https://www.sec.sisclear.com/sec/cm/index/custody-settlement/mainregister.htm>.

Title to the Intermediated Securities is construed and will pass in accordance with the legislation, in particular the FISA, rules and regulations applicable to and/or issued by the Clearing Agent, acting as Custodian, and any other custodian, if any, that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

The Holders shall at no time have the right to effect or demand (i) the retransformation of the Intermediated Securities into, and the delivery of, Dematerialised Securities in the case of Dematerialised Securities being the basis for the creation of Intermediated Securities, or (ii) the conversion of the Dematerialised Securities or the Global Security into definitive Securities.

- (e) Payment Day. If the date for payment of any amount in respect of the Securities is not a Payment Day, the Holder shall not be entitled to payment until either (a) if “Modified Following” is specified in the definition of Business Day Convention for the relevant Series in the applicable Final Terms, the next following Payment Day unless such Payment Day falls in the next calendar month in which case the date for payment will be the first preceding Payment Day or (b) if “Following” is specified in the definition of Business Day Convention for the relevant Series in the applicable Final Terms, the next following Payment Day and, in either case, the Holder shall not be entitled to any interest or other payment in respect of such delay or acceleration of payment.

The purchase of Securities does not confer on any holder of such Securities any rights (whether in respect of voting, distributions or otherwise) attached to the Shares.

- (g) Settlement Risk. Settlement of the Securities is subject to all applicable laws, regulations and practices in force at the relevant time and none of the Issuer, any Agent nor where the

The Holder shall be the only person entitled to receive payments of any amount paid in connection with the Securities and the Issuer will be discharged by payment to, or to the order of, the Holder in respect of the amount so paid. Where the Securities are cleared through CREST, General Condition 20 shall apply.

4. ADJUSTMENTS

- (a) **Market Disruption.** The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred.

“Market Disruption Event” means:

- (i) the occurrence or existence on any Trading Day during the one hour period that ends at the official close of trading on the Exchange or any Related Exchange of any suspension of or limitation imposed on trading or the disruption or impairment in the ability of market participants in general to effect transactions (by reason of movements in price reaching or exceeding limits permitted by the relevant exchange or otherwise):

- (A) in the Shares on the Exchange or any other exchange on which the Shares are listed; or
- (B) in any options contracts or futures contracts or other derivatives contracts relating to the Shares on any Related Exchange if, in the determination of the Calculation Agent, such suspension or limitation is material; or
- (ii) a general moratorium is declared in respect of banking activities in the country in which the Exchange or any Related Exchange is located.

For the purposes of this definition, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the Exchange or any Related Exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the Exchange or any Related Exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

- (b) Potential Adjustment Events. Following a declaration by the Share Company of the terms of any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Share and, if so, will:
 - (i) make the corresponding adjustment, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate to account for that diluting or concentrative effect; and
 - (ii) determine the effective date of that adjustment.

The Calculation Agent may, but need not, determine the adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Shares traded on that options exchange. Upon making any such adjustment, the Calculation Agent shall notify the Holders in accordance with General Condition 4, stating the adjustment to be made to the Conditions and giving brief details of the Potential Adjustment Event.

“Potential Adjustment Event” means any of the following: (A) a subdivision, consolidation or reclassification of relevant Shares (unless a Merger Event) or a free distribution or dividend of such Shares to existing holders of the relevant Shares by way of bonus, capitalisation, recapitalisation or similar issue; (B) a distribution or dividend to existing holders of the relevant Shares of (aa) such Shares, or (bb) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Share Company equally or proportionately with such payments to holders of such Shares, or

(cc) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other) at less than the prevailing market price as determined by the Calculation Agent; (C) an extraordinary dividend; (D) a distribution of cash dividends on the Shares equal to or greater than 8 per cent. per annum of the then current market value of the Shares; (E) a call by the Share Company in respect of relevant Shares that are not fully paid; (F) a repurchase by the Share Company of relevant Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise; or (G) any other similar event that may have a diluting or concentrative effect on the theoretical value of the relevant Shares.

(c) De-listing, Merger Event, Nationalisation and Insolvency. If a De-listing, Merger Event, Nationalisation or Insolvency occurs in relation to the Share Company, the Issuer in its sole and absolute discretion may take the action described in (i), (ii) or (iii) below:

(i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the other terms of these Conditions to account for the De-listing, Merger Event, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment. The Calculation Agent may (but is under no obligation to) determine the appropriate adjustment by reference to the adjustment in respect of the De-listing, Merger Event, Nationalisation or Insolvency made by any Related Exchange to options contracts or futures contracts or other derivatives contracts on the Shares traded on such Related Exchange; or

(ii) cancel the Securities by giving notice to Holders in accordance with General Condition 4. If the Securities are to be cancelled the Issuer will pay an amount to each Holder in respect of each Security held by him which amount shall be the fair market value of a Security (taking into account the De-listing, Merger Event, Nationalisation or Insolvency (as the case may be)) on the day selected for cancellation as shall be selected by the Issuer in its sole and absolute discretion adjusted to account fully for any losses, expenses and costs to the Issuer and/or any affiliate of the Issuer of unwinding or adjusting any underlying or related hedging arrangements (including but not limited to any equity options or selling or otherwise realising any Shares or other instruments of any type whatsoever which the Issuer and/or any of its affiliates may hold as part of such hedging arrangements), all as determined by the Calculation Agent in its sole and absolute discretion. Payment will be made in such manner as shall be notified to the Holders in accordance with General Condition 4; or

- (iii) following any adjustment to the settlement of terms of options contracts or futures contracts or any other derivatives contracts on the Shares traded on any Related Exchange, require the Calculation Agent to make a corresponding adjustment to any of the other terms of these Conditions, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Related Exchange. If options contracts or futures contracts or other derivatives contracts on the Shares are not traded on the Related Exchange, the Calculation Agent will make such adjustment, if any, to any of the other terms of these Conditions as the Calculation Agent in its sole and absolute discretion determines appropriate, with reference to the rules and precedents (if any) set by the Related Exchange to account for the De-listing, Merger Event, Nationalisation or Insolvency (as the case may be) that in the determination of the Calculation Agent would have given rise to an adjustment by the Related Exchange if such options contracts or futures contracts or other derivatives contracts were so traded.

Upon the occurrence of a De-listing, Merger Event, Nationalisation or Insolvency, the Calculation Agent shall notify the Holders in accordance with General Condition 4, stating the occurrence of such De-listing, Merger Event, Nationalisation or Insolvency (as the case may be) and action proposed to be taken in relation thereto.

“De-listing” means a Share for any reason ceases to be listed or is suspended from listing on the Exchange or any other exchange on which the Shares are listed (and such cessation or suspension is continuing and such Share is not subsequently listed or quoted on another stock exchange or quotation system acceptable to the Issuer).

“Merger Date” means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Calculation Agent.

“Merger Event” means any (A) reclassification or change to the Shares that results in a transfer of or an irrevocable commitment to transfer all or a majority of outstanding Shares; (B) consolidation, amalgamation, merger or binding share exchange of a Share Company with or into another entity (other than a consolidation, amalgamation, merger or binding share exchange in which such Share Company is the continuing entity and which does not result in any such reclassification or change to all the outstanding Shares); or (C) take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Shares that results in a transfer of or an irrevocable commitment to transfer a majority of the voting power of the

Share Company to the offeror, in each case if the Merger Date is on or before the Valuation Date.

“**Nationalisation**” means that all the Shares of a Share Company or all the assets or substantially all the assets of a Share Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority or entity.

“**Insolvency**” means that by reason of the voluntary or involuntary liquidation, bankruptcy or insolvency of or any analogous proceeding affecting a Share Company (A) all the Shares are required to be transferred to a receiver, trustee, liquidator or other similar official or (B) holders of the Shares of that Share Company become legally prohibited from transferring them.

- (d) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determinations. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

The Final Terms applicable to any Series of Securities may specify amendments to these Product Conditions in so far as they apply to that Series. Notwithstanding the foregoing, consideration will be given as to whether such amendments constitute “significant new factors” and consequently trigger the need for a supplement to the Base Prospectus (as defined in the Final Terms) under Article 16 of Directive 2003/71/EC.

rules and procedures of the relevant Clearing Agent through whose systems the Securities are transferred. Each person (other than another Clearing Agent) who is for the time being shown in the records of the relevant Clearing Agent as the owner of a particular nominal amount of the Securities (in which regard any certificate or other document issued by the relevant Clearing Agent as to the nominal amount of the Securities standing to the credit of the account of any person shall be conclusive and binding for all purposes except in the case of manifest error) shall be treated by the Issuer and each Agent as the holder of such nominal amount of the Securities (and the term “**Holder**” shall be construed accordingly) for all purposes, other than with respect to any payment and/or delivery obligations, the right to which shall be vested as regards the Issuer and the Agents, solely in the bearer of the Global Security.

- (b) Dematerialised Form. Certain Securities will, where required by the rules and procedures of the Clearing Agent, be issued in dematerialised form and will be registered in the book-entry system of the Clearing Agent. Title to the Securities will pass by transfer between accountholders at the Clearing Agent perfected in accordance with the legislation, rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means a person in whose name a Security is registered in the book-entry settlement system of the Clearing Agent or any other person recognised as a holder of Securities pursuant to the Rules.

Such Securities will be registered securities in dematerialised and uncertificated form, and will be (i) participating securities and (ii) uncertificated securities in accordance with the Uncertificated Securities Regulations 2001 (SI. No. 3755) as amended, supplemented or replaced from time to time (the “**Regulations**”).

Securities cleared through CREST may be transferred in accordance with the Regulations and the rules, procedures and practices of the relevant Operator (as defined below). No transfer of such Securities will be valid unless and until entered on the relevant Operator register of corporate securities (as defined in and in accordance with, the Regulations).

In the case of Securities cleared through CREST, title to the Securities is recorded on the relevant Operator register of corporate securities (as defined in the Regulations). The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the

Regulations. - (e) Payment Day. If the date for payment of any amount in respect of the Securities is not a Payment Day, the Holder shall not be entitled to payment until either (a) if “Modified Following” is specified in the definition of Business Day Convention for the relevant Series in the applicable Final Terms, the next following Payment Day unless such Payment Day

falls in the next calendar month in which case the date for payment will be the first preceding Payment Day or (b) if “Following” is specified in the definition of Business Day Convention for the relevant Series in the applicable Final Terms, the next following Payment Day and, in either case, the Holder shall not be entitled to any interest or other payment in respect of such delay or acceleration of payment.

- (g) Settlement Risk. Settlement of the Securities is subject to all applicable laws, regulations and practices in force at the relevant time and none of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall incur any liability whatsoever if it is unable to effect the transactions contemplated as a result of any such laws, regulations or practices. Payments will be made via the Clearing Agent(s) and will be made in accordance with the Rules (if applicable). All payments will be subject to applicable fiscal and legal requirements applicable thereto.
- (i) Presentation and Surrender. Unless the Securities are cleared through CREST, the Issuer shall record payment of any amount in connection with the Securities made to the relevant Agent and such record shall be prima facie evidence that the payment in question has been made. The Holder shall be the only person entitled to receive payments of any amount paid in connection with the Securities and the Issuer will be discharged by payment to, or to the order of, the Holder in respect of the amount so paid. Where the Securities are cleared through CREST, General Condition 20 shall apply.

4. ADJUSTMENTS

(a) **Market Disruption.** The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred. A “**Market Disruption Event**” means:

- (i) the occurrence or existence on any Trading Day during the one hour period that ends at the official close of trading on the Exchange or any Related Exchange of any suspension of or limitation imposed on trading or the disruption or impairment in the ability of market participants in general to effect transactions (by reason of movements in price reaching or exceeding limits permitted by the relevant exchange or otherwise):
 - (A) in the Certificates on the Exchange or any other exchange on which the Certificates are traded; or
 - (B) in any options contracts or futures contracts or other derivatives contracts relating to the Certificates on any Related Exchange, if, in the determination of the Calculation Agent, such suspension or limitation is material; or
- (ii) a general moratorium is declared in respect of banking activities in the country in which the Exchange or any Related Exchange is located.

For the purposes of this definition, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the Exchange or any Related Exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the Exchange or any Related Exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

(b) **Potential Adjustment Events.** Following a declaration by the issuer of the Certificates of the terms of any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Certificates and, if so, will:

- (i) make the corresponding adjustment, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate to account for that diluting or concentrative effect; and
- (ii) determine the effective date of that adjustment.

The Calculation Agent may, but need not, determine the adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to

options on the Certificates traded on that options exchange. Upon making any such adjustment, the Calculation Agent shall notify the Holders in accordance with General Condition 4, stating the adjustment to be made to the Conditions and giving brief details of the Potential Adjustment Event.

“Potential Adjustment Event” means any event that may have a diluting or concentrative effect on the theoretical value of the Certificates.

- (c) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determinations. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

The Final Terms applicable to any Series of Securities may specify amendments to these Product Conditions in so far as they apply to that Series. Notwithstanding the foregoing, consideration will be given as to whether such amendments constitute “significant new factors” and consequently trigger the need for a supplement to the Base Prospectus (as defined in the Final Terms) under Article 16 of Directive 2003/71/EC.

Security”) which will be deposited with a Clearing Agent or the depositary for one or more Clearing Agents and will be transferable only in accordance with the applicable law and the rules and procedures of the relevant Clearing Agent through whose systems the Securities are transferred. Each person (other than another Clearing Agent) who is for the time being shown in the records of the relevant Clearing Agent as the owner of a particular nominal amount of the Securities (in which regard any certificate or other document issued by the relevant Clearing Agent as to the nominal amount of the Securities standing to the credit of the account of any person shall be conclusive and binding for all purposes except in the case of manifest error) shall be treated by the Issuer and each Agent as the holder of such nominal amount of the Securities (and the term “**Holder**” shall be construed accordingly) for all purposes, other than with respect to any payment and/or delivery obligations, the right to which shall be vested as regards the Issuer and the Agents, solely in the bearer of the Global Security.

- (b) Dematerialised Form. Certain Securities will, where required by the rules and procedures of the Clearing Agent, be issued in dematerialised form and will be registered in the book-entry system of the Clearing Agent. Title to the Securities will pass by transfer between accountholders at the Clearing Agent perfected in accordance with the legislation, rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect from time to time (the “**Rules**”). The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the

Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. Any reference to the “**Operator**” (as such term is used in the Regulations) shall be to CREST and shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator approved by the Issuer from time to time in accordance with the Regulations and notified to the relevant Holders in accordance with General Condition 4.

- (c) SIX SIS Ltd as Clearing Agent. If SIX SIS Ltd is specified as the Clearing Agent, Securities will, as specified in the applicable Final Terms, be issued in the form of (i) dematerialised securities (the “**Dematerialised Securities**”) or (ii) a bearer permanent Global Security and, in either case, will be transformed into intermediated securities (the “**Intermediated Securities**”) in accordance with article 6 of the Swiss Federal Intermediated Securities Act (the “**FISA**”).

3. RIGHTS AND PROCEDURES

- (a) Redemption on the Settlement Date. Unless previously redeemed or purchased and cancelled and subject as provided by the Conditions, each Security will be redeemed by the Issuer at the Cash Amount, such redemption to occur on the Settlement Date.
- (b) Issuer Call. If “Issuer Call” is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms, the Issuer may redeem the Securities in whole, but not in part, on any Issuer Call Date at the Issuer Call Cash Amount by giving Holders at least the Issuer Call Notice Period notice of its intention to redeem the Securities, such notice to be given at any time from (and including) the Issuer Call Commencement Date. Any such notice shall be given in accordance with the provisions of General Condition 4 and shall specify the Issuer Call Date.
- (c) Interest Amount. If “Interest” is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms, each Security shall bear interest at the Interest Rate. The Interest Amount is calculated by reference to the relevant Interest Period, the Interest Rate, the Nominal Amount and the Interest Rate Day Count Fraction, and is payable on each Interest Payment Date and the Issuer Call Date (if applicable), as the case may be.
- (d) Interest Accrual. If “Interest” is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms, each Security shall cease to accrue interest from and including the due date for redemption. No interest shall accrue after the Maturity Date or the Issuer Call Date, as the case may be, in the event that payment of any amount is postponed due to a Market Disruption Event.
- (e) Payment Day. If the date for payment of any amount in respect of the Securities is not a Payment Day, the Holder shall not be entitled to payment until either (a) if “Modified

Following” is specified in the definition of Business Day Convention for the relevant Series in the applicable Final Terms, the next following Payment Day unless such Payment Day falls in the next calendar month in which case the date for payment will be the first preceding Payment Day or (b) if “ Following” is specified in the definition of Business Day Convention for the relevant Series in the applicable Final Terms, the next following Payment Day and, in either case, the Holder shall not be entitled to any interest or other payment in respect of such delay or acceleration of payment.

- (f) General. In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent or any Agent shall have any responsibility for any errors or omissions in the calculation of the Cash Amount, any Issuer Call Cash Amount or any Interest Amount.
- (g) Settlement Risk. Settlement of the Securities is subject to all applicable laws, regulations and practices in force at the relevant time and none of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall incur any liability whatsoever if it is unable to effect the transactions contemplated as a result of any such laws, regulations or practices. None of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall under any circumstances be liable for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.
- (h) Method of Payment. Subject as provided below, where any amount paid in connection with the Securities is in a currency other than euro, such payments will be made by an Agent on behalf of the Issuer in the Settlement Currency to an account specified by the payee with, or by a cheque in such Settlement Currency drawn on, a bank in the principal financial centre of the country of such Settlement Currency; where any amount paid in connection with the Securities is in euro, payment of such amount will be made by an Agent on behalf of the Issuer by credit or transfer to a euro account or any account to which euro may be credited or transferred specified by the payee or, at the option of the payee, by a euro cheque. Payments will be made via the Clearing Agent(s) and will be made in accordance with the Rules (if applicable). All payments will be subject to applicable fiscal and legal requirements applicable thereto.
- (i) Presentation and Surrender. Unless the Securities are cleared through CREST, the Issuer shall record payment of any amount in connection with the Securities made to the relevant Agent and such record shall be prima facie evidence that the payment in question has been made. The Holder shall be the only person entitled to receive payments of any amount paid in connection with the Securities and the Issuer will be discharged by payment to, or to the

order of, the Holder in respect of the amount so paid. Where the Securities are cleared through CREST, General Condition 20 shall apply.

4. ADJUSTMENTS

- (a) **Market Disruption.** The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred.

In respect of an Index which is not a Commodity Index, “**Market Disruption Event**” means (i) a general moratorium is declared in respect of banking activities in the country in which the Exchange or any Related Exchange is located or (ii) the occurrence or existence on any Trading Day during the one hour period that ends at the official close of trading on the Exchange or any Related Exchange of any suspension of or limitation imposed on trading or the disruption or impairment in the ability of market participants in general to effect transactions (by reason of movements in price reaching or exceeding limits permitted by the relevant exchange or otherwise):

- (A) on any Exchange(s) in securities that comprise 20 per cent or more of the level of the relevant Index if, in the determination of the Calculation Agent, such suspension or limitation is material. For the purpose of determining whether such suspension or limitation is material, if trading in a security included in the Index is suspended or materially limited at that time, then the relevant percentage contribution of that security to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that security relative to (y) the overall level of the Index, in each case immediately before that suspension or limitation; or
- (B) on any Related Exchange in any options contracts or futures contracts or other derivatives contracts relating to the relevant Index.

In any event, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the relevant exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

In respect of a Commodity Index, “**Market Disruption Event**” means, in relation to the Commodity Index or its components:

- (i) **Price Source Disruption.** The failure by the Exchange to announce or publish the price of the Commodity Index or any of its components (or the information

- necessary for determining such price(s)) or the temporary or permanent discontinuance or unavailability of such price(s) by the Exchange; or
- (ii) **Trading Suspension.** The material suspension of trading on the Exchange; or
 - (iii) **Disappearance of Price.** The permanent discontinuation of trading in the Commodity Index or any of its components on the Exchange, disappearance of, or of trading in, the Commodity Index or any of its components or the disappearance or permanent discontinuance or unavailability of a reference price, notwithstanding the availability of the related price source or the status of trading in the Commodity Index or any of its components;
 - (iv) **Material Change in Formula.** The occurrence, since the Issue Date, of a material change in the basis for (including but not limited to the quantity, quality or currency), or method of, calculating the price of a component of the Commodity Index; or
 - (v) **Material Change in Content.** The occurrence, since the Issue Date, of a material change in the content or composition of a Commodity Index or any of its components; or
 - (vi) **De Minimis Trading.** The number of contracts traded on the Exchange with respect to a Commodity Index or any of its components is such that the Issuer declares that its ability to enter into hedging transactions with respect to the Commodity Index or any of its components has been impaired due to a lack of, or a material reduction in, trading in the Commodity Index or any of its components on the Exchange; or
 - (vii) **Tax Disruption.** The imposition of, change in, or removal of, an excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or similar tax on, or measured by reference to, a Commodity Index or any of its components (other than a tax on, or measured by reference to, overall gross or net income) by any government or taxation authority after the Issue Date, if the direct effect of such imposition, change or removal is to raise or lower the price of the Commodity Index or any of its components on the Valuation Date or Issuer Call Date, as the case may be, and/or on each of the three Trading Days following the Valuation Date or Issuer Call Date, as the case may be, from what it would have been without that imposition, change or removal; or
 - (viii) **Trading Limitation.** The material limitation imposed on trading in a Commodity Index or any of its components on any exchange or principal trading market; or

- (ix) **Moratorium.** A general moratorium is declared in respect of banking activities in the country in which the Exchange is located; or
 - (x) **Other Events.** Any other event similar to any of the above which could make it impracticable or impossible for the Issuer to perform its obligations in relation to the Securities.
- (b) Adjustments to Index. The Calculation Agent shall give notice as soon as practicable to the Holders in accordance with General Condition 4 of any determination made by it pursuant to paragraphs (1), (2), (3) or (4) below.
- (1) If any Index is (A) not calculated and announced by the Index Sponsor but is calculated and published by a successor to the Index Sponsor (the “**Successor Sponsor**”) acceptable to the Calculation Agent; or (B) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the relevant Index, then (in either case) the relevant Index will be deemed to be the index so calculated and announced by such Successor Sponsor or that successor index, as the case may be.
 - (2) If (A) on or prior to the Valuation Date the Index Sponsor or, if applicable, the Successor Sponsor makes a material change in the formula for or the method of calculating any Index or in any other way materially modifies an Index (other than a modification prescribed in that formula or method to maintain the Index in the event of changes in constituent securities or components, as the case may be, and other routine events); or (B) on or prior to the Valuation Date the Index Sponsor or, if applicable, the Successor Sponsor fails to calculate and/or publish any Index; then (in either case) the Calculation Agent shall determine the Final Reference Price using, in lieu of a published level for the relevant Index on the Valuation Date, the level for the relevant Index as determined by the Calculation Agent in accordance with the formula for and method of calculating the relevant Index last in effect prior to the change or failure, but using only those (a) in respect of an Index which is not a Commodity Index, securities that comprised the relevant Index immediately prior to the change or failure (other than those securities that have since ceased to be listed on the Exchange or any other exchange on which the Shares are listed); or (b) in respect of a Commodity Index, commodity components that comprised the Index immediately prior to the change or failure (other than those components that have since ceased to be traded on the Exchange or any other exchange) or, in the case of a material modification of the Index only, shall deem such modified Index to be the

Index so calculated and announced or shall (if so required by the Issuer), by giving notice in accordance with General Condition 4, terminate the Securities and pay to each Holder in respect of each Security held by such Holder an amount equal to the fair market value of the Security immediately prior to such material modification of the Index less the cost to the Issuer of unwinding any related hedging arrangements (as determined by the Issuer).

- (3) If, at any time, any of the events specified in (A) to (H) below occurs and the Index Sponsor or, if applicable, the Successor Sponsor has not in the opinion of the Calculation Agent made an appropriate adjustment to the level of the relevant Index (which term excludes, for these purposes of this paragraph (3), any Commodity Index) in order to account fully for such event, notwithstanding that the rules published or applied by the Index Sponsor or, if applicable, the Successor Sponsor pertaining to the Index have been applied, the Calculation Agent shall make such adjustment to the level of the relevant Index as it considers appropriate in order so to account for: (A) a distribution or dividend to existing holders of the Shares of (i) the Shares; or (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the issuer of the Shares equally or proportionately with such payments to holders of Shares or (iii) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price; (B) a free distribution or dividend of any Shares to existing holders of the Shares by way of bonus, capitalisation or similar issue; (C) an extraordinary dividend; (D) any cash dividends declared on the Shares at a time when the relevant issuer of the Shares has not previously declared or paid dividends on such Shares for the prior four quarterly periods; (E) any non-cash dividends declared on the Shares at a time when the relevant issuer of the Shares has not previously declared or paid dividends on such Shares for the prior four quarterly periods; (F) any other extraordinary cash or non-cash dividend on, or distribution with respect to, the Shares which is, by its terms or declared intent, declared and paid outside the normal operations or normal dividend procedures of the relevant issuer of the Shares, provided that, in all cases, the related ex-dividend date occurs during the period from but including the Issue Date up to and excluding the Valuation Date; (G) a distribution of cash dividends on the Shares equal to or greater than 8 per cent. per annum of the then current market value of the Shares; and (H) any other similar event having a dilutive or concentrative effect on the theoretical value of the Shares.
- (4) The Issuer reserves the right to issue further Securities, make adjustments or to distribute to the Holders any rights in connection with the Securities as it reasonably

believes are appropriate in circumstances where an event or events occur which the Issuer (in its absolute discretion and notwithstanding any adjustments previously made to the Securities) believes should, in the context of the issue of Securities and its obligations hereunder, give rise to such adjustment or distribution, provided that such adjustment is considered by the Calculation Agent either to be appropriate generally (without considering the individual circumstances of any Holder or the tax or other consequences of such adjustment in any particular jurisdiction) or to be required to take account of provisions of the laws of the relevant jurisdiction or the practices of the Exchange. The Issuer, in any event, reserves the right to in its absolute discretion terminate Securities linked to any Proprietary Index by giving notice in accordance with General Condition 4, in the event that the relevant Index Sponsor terminates, cancels or suspends, as the case may be, any such Proprietary Index.

- (c) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determinations. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

The Final Terms applicable to any Series of Securities may specify amendments to these Product Conditions in so far as they apply to that Series. Notwithstanding the foregoing, consideration will be given as to whether such amendments constitute “significant new factors” and consequently trigger the need for a supplement to the Base Prospectus (as defined in the Final Terms) under Article 16 of Directive 2003/71/EC.

2. FORM

- (a) **Global Form.** Except in the case of Securities issued in the form described in either Product Condition 2(b) or 2(c), the Securities will be issued in bearer form in the denomination of the Nominal Amount. The Securities are represented by a global security (the “**Global Security**”) which will be deposited with a Clearing Agent or the depositary for one or more Clearing Agents and will be transferable only in accordance with the applicable law and the rules and procedures of the relevant Clearing Agent through whose systems the Securities are transferred. Each person (other than another Clearing Agent) who is for the time being shown in the records of the relevant Clearing Agent as the owner of a particular nominal amount of the Securities (in which regard any certificate or other document issued by the relevant Clearing Agent as to the nominal amount of the Securities standing to the credit of the account of any person shall be conclusive and binding for all purposes except in the case of manifest error) shall be treated by the Issuer and each Agent as the holder of such nominal amount of the Securities (and the term “**Holder**” shall be construed accordingly) for all purposes, other than with respect to any payment and/or delivery obligations, the right to which shall be vested as regards the Issuer and the Agents, solely in the bearer of the Global Security.
- (b) **Dematerialised Form.** Certain Securities will, where required by the rules and procedures of the Clearing Agent, be issued in dematerialised form and will be registered in the book-entry system of the Clearing Agent. Title to the Securities will pass by transfer between accountholders at the Clearing Agent perfected in accordance with the legislation, rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means a person in whose name a Security is registered in the book-entry settlement system of the

Clearing Agent or any other person recognised as a holder of Securities pursuant to the Rules.

If CREST is specified as the Clearing Agent in the relevant Final Terms, the Securities will be cleared through CREST. Such Securities will be registered securities in dematerialised and uncertificated form, and will be (i) participating securities and (ii) uncertificated securities in accordance with the Uncertificated Securities Regulations 2001 (SI. No. 3755) as amended, supplemented or replaced from time to time (the “**Regulations**”).

Securities cleared through CREST may be transferred in accordance with the Regulations and the rules, procedures and practices of the relevant Operator (as defined below). No transfer of such Securities will be valid unless and until entered on the relevant Operator register of corporate securities (as defined in and in accordance with, the Regulations).

In the case of Securities cleared through CREST, title to the Securities is recorded on the relevant Operator register of corporate securities (as defined in the Regulations). The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. Subject to this requirement, (i) each person who is for the time being shown in the Register as the holder of such Securities shall be treated by the Issuer and the Registrar as the holder of such Securities for all purposes and (ii) neither the Issuer nor the Registrar shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Register which the Registrar maintains are in accordance with particulars entered in the Operator register of corporate securities relating to such Securities (and the expression “**Holder**” and related expressions shall be construed accordingly).

Any reference to the “**Operator**” (as such term is used in the Regulations) shall be to CREST and shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator approved by the Issuer from time to time in accordance with the Regulations and notified to the relevant Holders in accordance with General Condition 4.

Any indication herein that the Operator “shall do”, or similar expression or phrase indicating that they are obliged to or will carry out any role or obligation described in the Conditions and/or the applicable Final Terms, as the case may be, is given without any assumption by the Issuer, the relevant Registrar or the Calculation Agent of responsibility or liability for the performance of the Operator.

- (c) SIX SIS Ltd as Clearing Agent. If SIX SIS Ltd is specified as the Clearing Agent, Securities will, as specified in the applicable Final Terms, be issued in the form of (i) dematerialised securities (the “**Dematerialised Securities**”) or (ii) a bearer permanent Global Security and, in either case, will be transformed into intermediated securities (the “**Intermediated Securities**”) in accordance with article 6 of the Swiss Federal Intermediated Securities Act (the “**FISA**”).

The Intermediated Securities will be created (i) by deposit of a Global Security with the Clearing Agent, acting as custodian as defined in article 4 FISA (the “**Custodian**”), or registration of Dematerialised Securities in the main register of the Clearing Agent, acting as Custodian, and (ii) the Clearing Agent, acting as Custodian, crediting the respective rights to securities accounts of one or more of its participants with the Clearing Agent in accordance with articles 4 and 6 FISA. For each issuance of Securities in the form of Dematerialised Securities, the Clearing Agent, acting as Custodian, will maintain the main register as defined in article 6 para. 2 FISA which is available to the public under <https://www.sec.sisclear.com/sec/cm/index/custody-settlement/mainregister.htm>.

Title to the Intermediated Securities is construed and will pass in accordance with the legislation, in particular the FISA, rules and regulations applicable to and/or issued by the Clearing Agent, acting as Custodian, and any other custodian, if any, that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

The Holders shall at no time have the right to effect or demand (i) the retransformation of the Intermediated Securities into, and the delivery of, Dematerialised Securities in the case of Dematerialised Securities being the basis for the creation of Intermediated Securities, or (ii) the conversion of the Dematerialised Securities or the Global Security into definitive Securities.

None of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall under any circumstances be liable for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.

All payments will be subject to applicable fiscal and legal requirements applicable thereto.

- (i) Presentation and Surrender. Unless the Securities are cleared through CREST, the Issuer shall record payment of any amount in connection with the Securities made to the relevant Agent and such record shall be prima facie evidence that the payment in question has been made. The Holder shall be the only person entitled to receive payments of any amount paid in connection with the Securities and the Issuer will be discharged by payment to, or to the order of, the Holder in respect of the amount so paid. Where the Securities are cleared through CREST, General Condition 20 shall apply.

4. ADJUSTMENTS

Market Disruption. The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred. A “**Market Disruption Event**” means (i) a general moratorium is declared in respect of banking activities in the country in which the Exchange or any Related Exchange is located or (ii) the occurrence or existence during the one hour period that ends at the official close of trading on any relevant exchanges of any suspension of or limitation imposed on trading in relation to the relevant Inflation Index or the disruption or impairment in the ability of market participants in general to effect transactions (by reason of movements in price reaching or exceeding limits permitted by the relevant exchanges or otherwise):

- (A) on any relevant exchanges(s) in securities that comprise 20 per cent or more of the level of the relevant Inflation Index if, in the determination of the Calculation Agent, such suspension or limitation is material. For the purpose of determining whether such suspension or limitation is material, if trading in a security included in the Inflation Index is suspended or materially limited at that time, then the relevant percentage contribution of that security to the level of the Inflation Index shall be based on a comparison of (x) the portion of the level of the Inflation Index attributable to that security relative to (y) the overall level of the Inflation Index, in each case immediately before that suspension or limitation; or

- (B) on any relevant exchange in any options contracts or futures contracts or other derivatives contracts relating to the relevant Inflation Index. In any event, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the relevant exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.
- (a) Adjustments to Inflation Index. The Calculation Agent shall give notice as soon as practicable to the Holders in accordance with General Condition 4 of any determination made by it pursuant to paragraphs (1), (2) or (3) below.

 - (1) If any Inflation Index is (A) not calculated and announced in its usual way but is calculated and published in a different way but a in a way acceptable to the Calculation Agent; or (B) replaced by a successor inflation index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the relevant Inflation Index, then (in either case) the relevant Inflation Index will be deemed to be the inflation index so calculated and announced by that successor inflation index, as the case may be.
 - (2) If (A) on or prior to the Interest Payment Date there is a material change in the formula for or the method of calculating any Inflation Index or in any other way an Inflation Index is materially modified (other than a modification prescribed in that formula or method to maintain the Inflation Index in the event of changes in constituent securities and other routine events); or (B) on the Interest Payment Date there is a failure to calculate and/or publish any Inflation Index; then (in either case) the Calculation Agent shall determine the Inflation Index Level using, in lieu of a published level for the relevant Inflation Index on the Interest Payment Date, the level for the relevant Inflation Index as determined by the Calculation Agent in accordance with the formula for and method of calculating the relevant Inflation Index last in effect prior to the change or failure, but using only those securities that comprised the relevant Inflation Index immediately prior to the change or failure (other than those securities that have since ceased to be included in the Inflation Index) or, in the case of a material modification of the Inflation Index only, shall deem such modified Inflation Index to be the Inflation Index so calculated and announced or shall terminate the Securities by giving notice in accordance with General Condition 4.

- (3) The Issuer reserves the right to issue further Securities, make adjustments or to distribute to the Holders any rights in connection with the Securities as it reasonably believes are appropriate in circumstances where an event or events occur which the Issuer (in its absolute discretion and notwithstanding any adjustments previously made to the Securities) believes should, in the context of the issue of Securities and its obligations hereunder, give rise to such adjustment or distribution, provided that such adjustment is considered by the Calculation Agent either to be appropriate generally (without considering the individual circumstances of any Holder or the tax or other consequences of such adjustment in any particular jurisdiction) or to be required to take account of provisions of the laws of the relevant jurisdiction or the practices of the relevant exchange.
- (b) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determinations. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

The Final Terms applicable to any Series of Securities may specify amendments to these Product Conditions in so far as they apply to that Series. 2. FORM

- (a) **Global Form.** Except in the case of Securities issued in the form described in either Product Condition 2(b) or 2(c), the Securities will be issued in bearer form in the denomination of the Nominal Amount. The Securities are represented by a global security (the “**Global Security**”) which will be deposited with a Clearing Agent or the depositary for one or more Clearing Agents and will be transferable only in accordance with the applicable law and the rules and procedures of the relevant Clearing Agent through whose systems the Securities are transferred. Each person (other than another Clearing Agent) who is for the time being shown in the records of the relevant Clearing Agent as the owner of a particular nominal amount of the Securities (in which regard any certificate or other document issued by the relevant Clearing Agent as to the nominal amount of the Securities standing to the credit of the account of any person shall be conclusive and binding for all purposes except in the case of manifest error) shall be treated by the Issuer and each Agent as the holder of such nominal amount of the Securities (and the term “**Holder**” shall be construed accordingly) for all purposes, other than with respect to any payment and/or delivery obligations, the right to which shall be vested as regards the Issuer and the Agents, solely in the bearer of the Global Security.
- (b) **Dematerialised Form.** Certain Securities will, where required by the rules and procedures of the Clearing Agent, be issued in dematerialised form and will be registered in the book-entry system of the Clearing Agent. Title to the Securities will pass by transfer between accountholders at the Clearing Agent perfected in accordance with the legislation, rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means a person in whose name a Security is registered in the book-entry settlement system of the

Clearing Agent or any other person recognised as a holder of Securities pursuant to the Rules.

If CREST is specified as the Clearing Agent in the relevant Final Terms, the Securities will be cleared through CREST. Such Securities will be registered securities in dematerialised and uncertificated form, and will be (i) participating securities and (ii) uncertificated securities in accordance with the Uncertificated Securities Regulations 2001 (SI. No. 3755) as amended, supplemented or replaced from time to time (the “**Regulations**”).

Securities cleared through CREST may be transferred in accordance with the Regulations and the rules, procedures and practices of the relevant Operator (as defined below). No transfer of such Securities will be valid unless and until entered on the relevant Operator register of corporate securities (as defined in and in accordance with, the Regulations).

In the case of Securities cleared through CREST, title to the Securities is recorded on the relevant Operator register of corporate securities (as defined in the Regulations). The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. Subject to this requirement, (i) each person who is for the time being shown in the Register as the holder of such Securities shall be treated by the Issuer and the Registrar as the holder of such Securities for all purposes and (ii) neither the Issuer nor the Registrar shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Register which the Registrar maintains are in accordance with particulars entered in the Operator register of corporate securities relating to such Securities (and the expression “**Holder**” and related expressions shall be construed accordingly).

Any reference to the “**Operator**” (as such term is used in the Regulations) shall be to CREST and shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator approved by the Issuer from time to time in accordance with the Regulations and notified to the relevant Holders in accordance with General Condition 4.

Any indication herein that the Operator “shall do”, or similar expression or phrase indicating that they are obliged to or will carry out any role or obligation described in the Conditions and/or the applicable Final Terms, as the case may be, is given without any assumption by the Issuer, the relevant Registrar or the Calculation Agent of responsibility or liability for the performance of the Operator.

- (c) SIX SIS Ltd as Clearing Agent. If SIX SIS Ltd is specified as the Clearing Agent, Securities will, as specified in the applicable Final Terms, be issued in the form of (i) dematerialised securities (the “**Dematerialised Securities**”) or (ii) a bearer permanent Global Security and, in either case, will be transformed into intermediated securities (the “**Intermediated Securities**”) in accordance with article 6 of the Swiss Federal Intermediated Securities Act (the “**FISA**”).

The Intermediated Securities will be created (i) by deposit of a Global Security with the Clearing Agent, acting as custodian as defined in article 4 FISA (the “**Custodian**”), or registration of Dematerialised Securities in the main register of the Clearing Agent, acting as Custodian, and (ii) the Clearing Agent, acting as Custodian, crediting the respective rights to securities accounts of one or more of its participants with the Clearing Agent in accordance with articles 4 and 6 FISA. For each issuance of Securities in the form of Dematerialised Securities, the Clearing Agent, acting as Custodian, will maintain the main register as defined in article 6 para. 2 FISA which is available to the public under <https://www.sec.sisclear.com/sec/cm/index/custody-settlement/mainregister.htm>.

Title to the Intermediated Securities is construed and will pass in accordance with the legislation, in particular the FISA, rules and regulations applicable to and/or issued by the Clearing Agent, acting as Custodian, and any other custodian, if any, that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

The Holders shall at no time have the right to effect or demand (i) the retransformation of the Intermediated Securities into, and the delivery of, Dematerialised Securities in the case of Dematerialised Securities being the basis for the creation of Intermediated Securities, or (ii) the conversion of the Dematerialised Securities or the Global Security into definitive Securities.

Payments will be made via the Clearing Agent(s) and will be made in accordance with the Rules (if applicable). All payments will be subject to applicable fiscal and legal requirements applicable thereto.

- (h) Presentation and Surrender. Unless the Securities are cleared through CREST, the Issuer shall record payment of any amount in connection with the Securities made to the relevant Agent and such record shall be prima facie evidence that the payment in question has been made. The Holder shall be the only person entitled to receive payments of any amount paid in connection with the Securities and the Issuer will be discharged by payment to, or to the order of, the Holder in respect of the amount so paid.  - (1) If the Index is (A) not calculated and announced in its usual way but is calculated and published in a different way but in a way acceptable to the Calculation Agent; or (B) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the relevant Index, then (in either case) the relevant Index will be deemed to be the Index so calculated and announced by that successor index, as the case may be.
 - (2) If (A) on or prior to the Interest Payment Date there is a material change in the formula for or the method of calculating the Index or the Index Sponsor, in any other way, materially modifies the Index (other than a modification prescribed in that formula or method to maintain the Index in the event of changes in constituent securities and other routine events); or (B) on the Interest Payment Date there is a failure to calculate and/or publish any Index; then (in either case) the Calculation Agent shall (a) determine the Final Reference Price using, in lieu of a published level for the Index, the level for the Index as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner or, (b) shall deem such modified Index to be the Index so calculated and announced or (c) shall terminate the Securities by giving notice in accordance with General Condition 4.
 - (3) The Issuer reserves the right to issue further Securities, make adjustments or to distribute to the Holders any rights in connection with the Securities as it reasonably

believes are appropriate in circumstances where an event or events occur which the Issuer (in its absolute discretion and notwithstanding any adjustments previously made to the Securities) believes should, in the context of the issue of Securities and its obligations hereunder, give rise to such adjustment or distribution, provided that such adjustment is considered by the Calculation Agent either to be appropriate generally (without considering the individual circumstances of any Holder or the tax or other consequences of such adjustment in any particular jurisdiction) or to be required to take account of provisions of the laws of the relevant jurisdiction or the practices of the relevant exchange. The Issuer, in any event, reserves the right to in its absolute discretion terminate Securities linked to any Proprietary Index by giving notice in accordance with General Condition 4, in the event that the relevant Index Sponsor terminates, cancels or suspends, as the case may be, any such Proprietary Index.

- (c) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determinations. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

The Final Terms applicable to any Series of Securities may specify amendments to these Product Conditions in so far as they apply to that Series. Notwithstanding the foregoing, consideration will be given as to whether such amendments constitute “significant new factors” and consequently trigger the need for a supplement to the Base Prospectus (as defined in the Final Terms) under Article 16 of Directive 2003/71/EC.

2. FORM

- (a) Global Form. Except in the case of Securities issued in the form described in either Product Condition 2(b) or 2(c), the Securities will be issued in bearer form in the denomination of the Nominal Amount. The Securities are represented by a global security (the “**Global Security**”) which will be deposited with a Clearing Agent or the depositary for one or more Clearing Agents and will be transferable only in accordance with the applicable law and the rules and procedures of the relevant Clearing Agent through whose systems the Securities are transferred. Each person (other than another Clearing Agent) who is for the time being shown in the records of the relevant Clearing Agent as the owner of a particular nominal amount of the Securities (in which regard any certificate or other document issued by the relevant Clearing Agent as to the nominal amount of the Securities standing to the credit of the account of any person shall be conclusive and binding for all purposes except in the case of manifest error) shall be treated by the Issuer and each Agent as the holder of such nominal amount of the Securities (and the term “**Holder**” shall be construed accordingly) for all purposes, other than with respect to any payment and/or delivery obligations, the right to which shall be vested as regards the Issuer and the Agents, solely in the bearer of the Global Security.
- (b) Dematerialised Form. Certain Securities will, where required by the rules and procedures of the Clearing Agent, be issued in dematerialised form and will be registered in the book-entry system of the Clearing Agent. Title to the Securities will pass by transfer between accountholders at the Clearing Agent perfected in accordance with the legislation, rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means a person in whose name a Security is registered in the book-entry settlement system of the Clearing Agent or any other person recognised as a holder of Securities pursuant to the Rules.

If CREST is specified as the Clearing Agent in the relevant Final Terms, the Securities will be cleared through CREST. Such Securities will be registered securities in dematerialised and uncertificated form, and will be (i) participating securities and (ii) uncertificated securities in accordance with the Uncertificated Securities Regulations 2001 (SI. No. 3755) as amended, supplemented or replaced from time to time (the “**Regulations**”).

Securities cleared through CREST may be transferred in accordance with the Regulations and the rules, procedures and practices of the relevant Operator (as defined below). No transfer of such Securities will be valid unless and until entered on the relevant Operator register of corporate securities (as defined in and in accordance with, the Regulations).

In the case of Securities cleared through CREST, title to the Securities is recorded on the relevant Operator register of corporate securities (as defined in the Regulations). The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. Subject to this requirement, (i) each person who is for the time being shown in the Register as the holder of such Securities shall be treated by the Issuer and the Registrar as the holder of such Securities for all purposes and (ii) neither the Issuer nor the Registrar shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Register which the Registrar maintains are in accordance with particulars entered in the Operator register of corporate securities relating to such Securities (and the expression “**Holder**” and related expressions shall be construed accordingly).

Any reference to the “**Operator**” (as such term is used in the Regulations) shall be to CREST and shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator approved by the Issuer from time to time in accordance with the Regulations and notified to the relevant Holders in accordance with General Condition 4.

Any indication herein that the Operator “shall do”, or similar expression or phrase indicating that they are obliged to or will carry out any role or obligation described in the Conditions and/or the applicable Final Terms, as the case may be, is given without any assumption by the Issuer, the relevant Registrar or the Calculation Agent of responsibility or liability for the performance of the Operator.

- (c) SIX SIS Ltd as Clearing Agent. If SIX SIS Ltd is specified as the Clearing Agent, Securities will, as specified in the applicable Final Terms, be issued in the form of (i) dematerialised securities (the “**Dematerialised Securities**”) or (ii) a bearer permanent Global Security and, in either case, will be transformed into intermediated securities (the “**Intermediated Securities**”) in accordance with article 6 of the Swiss Federal Intermediated Securities Act (the “**FISA**”).

The Intermediated Securities will be created (i) by deposit of a Global Security with the Clearing Agent, acting as custodian as defined in article 4 FISA (the “**Custodian**”), or registration of Dematerialised Securities in the main register of the Clearing Agent, acting as Custodian, and (ii) the Clearing Agent, acting as Custodian, crediting the respective rights to securities accounts of one or more of its participants with the Clearing Agent in accordance

with articles 4 and 6 FISA. For each issuance of Securities in the form of Dematerialised Securities, the Clearing Agent, acting as Custodian, will maintain the main register as defined in article 6 para. 2 FISA which is available to the public under <https://www.sec.sisclear.com/sec/cm/index/custody-settlement/mainregister.htm>.

Title to the Intermediated Securities is construed and will pass in accordance with the legislation, in particular the FISA, rules and regulations applicable to and/or issued by the Clearing Agent, acting as Custodian, and any other custodian, if any, that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

The Holders shall at no time have the right to effect or demand (i) the retransformation of the Intermediated Securities into, and the delivery of, Dematerialised Securities in the case of Dematerialised Securities being the basis for the creation of Intermediated Securities, or (ii) the conversion of the Dematerialised Securities or the Global Security into definitive Securities.

- (d) General. In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent or any Agent shall have any responsibility for any errors or omissions in the calculation of the Cash Amount or the Early Redemption Amount.
- (e) Settlement Risk. Settlement of the Securities is subject to all applicable laws, regulations and practices in force at the relevant time and none of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall incur any liability whatsoever if it is unable to effect the transactions contemplated as a result of any such laws, regulations or practices. None of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall under any circumstances be liable for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.
- (f) Method of Payment. Subject as provided below, where any amount paid in connection with the Securities is in a currency other than euro, such payments will be made by an Agent on behalf of the Issuer in the Settlement Currency to an account specified by the payee with, or by a cheque in such Settlement Currency drawn on, a bank in the principal financial centre of the country of such Settlement Currency; where any amount paid in connection with the Securities is in euro, payment of such amount will be made by an Agent on behalf of the Issuer by credit or transfer to a euro account or any account to which euro may be credited or transferred specified by the payee or, at the option of the payee, by a euro cheque. Payments will be made via the Clearing Agent(s) and will be made in accordance with the Rules (if applicable). All payments will be subject to applicable fiscal and legal requirements applicable thereto.
- (g) Presentation and Surrender. Unless the Securities are cleared through CREST, the Issuer shall record payment of any amount in connection with the Securities made to the relevant Agent and such record shall be prima facie evidence that the payment in question has been made. The Holder shall be the only person entitled to receive payments of any amount paid in connection with the Securities and the Issuer will be discharged by payment to, or to the order of, the Holder in respect of the amount so paid. Where the Securities are cleared through CREST, General Condition 20 shall apply.

4. ADJUSTMENTS

- (a) Market Disruption. The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred.

In respect of an Index which is not a Commodity Index, “**Market Disruption Event**” means

- (i) a general moratorium is declared in respect of banking activities in the country in which the Exchange or any Related Exchange is located or
- (ii) the occurrence or existence on any

Trading Day during the one hour period that ends at the official close of trading on the Exchange or any Related Exchange of any suspension of or limitation imposed on trading or the disruption or impairment in the ability of market participants in general to effect transactions (by reason of movements in price reaching or exceeding limits permitted by the relevant exchange or otherwise):

- (A) on any Exchange(s) in securities that comprise 20 per cent or more of the level of the relevant Index if, in the determination of the Calculation Agent, such suspension or limitation is material. For the purpose of determining whether such suspension or limitation is material, if trading in a security included in the Index is suspended or materially limited at that time, then the relevant percentage contribution of that security to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that security relative to (y) the overall level of the Index, in each case immediately before that suspension or limitation; or
- (B) on any Related Exchange in any options contracts or futures contracts or other derivatives contracts relating to the relevant Index.

In any event, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the relevant exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

In respect of a Commodity Index, “**Market Disruption Event**” means, in relation to the Commodity Index or its components:

- (i) **Price Source Disruption.** The failure by the Exchange to announce or publish the price of the Commodity Index or any of its components (or the information necessary for determining such price(s)) or the temporary or permanent discontinuance or unavailability of such price(s) by the Exchange; or
- (ii) **Trading Suspension.** The material suspension of trading on the Exchange; or
- (iii) **Disappearance of Price.** The permanent discontinuation of trading in the Commodity Index or any of its components on the Exchange, disappearance of, or of trading in, the Commodity Index or any of its components or the disappearance or permanent discontinuance or unavailability of a reference price, notwithstanding the availability of the related price source or the status of trading in the Commodity Index or any of its components;

- (iv) **Material Change in Formula.** The occurrence, since the Issue Date, of a material change in the basis for (including but not limited to the quantity, quality or currency), or method of, calculating the price of a component of the Commodity Index; or
 - (v) **Material Change in Content.** The occurrence, since the Issue Date, of a material change in the content or composition of a Commodity Index or any of its components; or
 - (vi) **De Minimis Trading.** The number of contracts traded on the Exchange with respect to a Commodity Index or any of its components is such that the Issuer declares that its ability to enter into hedging transactions with respect to the Commodity Index or any of its components has been impaired due to a lack of, or a material reduction in, trading in the Commodity Index or any of its components on the Exchange; or
 - (vii) **Tax Disruption.** The imposition of, change in, or removal of, an excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or similar tax on, or measured by reference to, a Commodity Index or any of its components (other than a tax on, or measured by reference to, overall gross or net income) by any government or taxation authority after the Issue Date, if the direct effect of such imposition, change or removal is to raise or lower the price of the Commodity Index or any of its components on the Valuation Date or the Early Redemption Date, as the case may be, and/or on each of the three Trading Days following the Valuation Date or the Early Redemption Date, as the case may be, from what it would have been without that imposition, change or removal; or
 - (viii) **Trading Limitation.** The material limitation imposed on trading in a Commodity Index or any of its components on any exchange or principal trading market; or
 - (ix) **Moratorium.** A general moratorium is declared in respect of banking activities in the country in which the Exchange is located; or
 - (x) **Other Events.** Any other event similar to any of the above which could make it impracticable or impossible for the Issuer to perform its obligations in relation to the Securities.
- (b) **Adjustments to Index.** The Calculation Agent shall give notice as soon as practicable to the Holders in accordance with General Condition 4 of any determination made by it pursuant to paragraphs (1), (2), (3) or (4) below.
- (1) If the Index is: (A) not calculated and announced by the Index Sponsor but is calculated and published by a successor to the Index Sponsor (the “**Successor Sponsor**”) acceptable to the Calculation Agent; or (B) replaced by a successor index using in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the Index, then (in either case)

the Index will be deemed to be the index so calculated and announced by such Successor Sponsor or that successor index, as the case may be.

- (2) If (A) on or prior to the Valuation Date the Index Sponsor or, if applicable, the Successor Sponsor makes a material change in the formula for or the method of calculating the Index or in any other way materially modifies the Index (other than a modification prescribed in that formula or method to maintain the Index in the event of changes in constituent securities or components, as the case may be, and other routine events); or (B) on or prior to the Valuation Date the Index Sponsor or, if applicable the Successor Sponsor fails to calculate and/or publish the Index; then (in either case) the Calculation Agent shall determine the Final Reference Price using, in lieu of a published level for the Index on the Valuation Date, the level for the Index as determined by the Calculation Agent in accordance with the formula for and method of calculating the Index last in effect prior to the change or failure, but using only those (a) in respect of an Index which is not a Commodity Index, securities that comprised the Index immediately prior to the change or failure (other than those securities that have since ceased to be listed on the Exchange or any other exchange on which the Shares are listed); or (b) in respect of a Commodity Index, commodity components that comprised the Index immediately prior to the change or failure (other than those components that have since ceased to be traded on the Exchange or any other exchange) or, in the case of a material modification of the Index only, shall deem such modified Index to be the Index so calculated and announced or shall (if so required by the Issuer), by giving notice in accordance with General Condition 4, terminate the Securities and pay to each Holder in respect of each Security held by such Holder an amount equal to the fair market value of the Security immediately prior to such material modification of the Index less the cost to the Issuer of unwinding any related hedging arrangements (as determined by the Issuer).
- (3) If, at any time, any of the events specified in (A) to (H) below occurs and the Index Sponsor or, if applicable, the Successor Sponsor has not in the opinion of the Calculation Agent made an appropriate adjustment to the level of the Index (which term excludes, for these purposes of this paragraph (3), any Commodity Index) in order to account fully for such event, notwithstanding that the rules published or applied by the Index Sponsor or, if applicable, the Successor Sponsor pertaining to the Index have been applied, the Calculation Agent shall make such adjustment to the level of the Index as it considers appropriate in order so to account for: (A) a distribution or dividend to existing holders of the Shares of (i) the Shares; or (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the

issuer of the Shares equally or proportionately with such payments to holders of Shares or (iii) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price; (B) a free distribution or dividend of any Shares to existing holders of the Shares by way of bonus, capitalisation or similar issue; (C) an extraordinary dividend; (D) any cash dividends declared on the Shares at a time when the relevant issuer of the Shares has not previously declared or paid dividends on such Shares for the prior four quarterly periods; (E) any non-cash dividends declared on the Shares at a time when the relevant issuer of the Shares has not previously declared or paid dividends on such Shares for the prior four quarterly periods; (F) any other extraordinary cash or non-cash dividend on, or distribution with respect to, the Shares which is, by its terms or declared intent, declared and paid outside the normal operations or normal dividend procedures of the relevant issuer of the Shares, provided that, in all cases, the related ex-dividend date occurs during the period from but including the Issue Date up to and excluding the Valuation Date; (G) a distribution of cash dividends on the Shares equal to or greater than 8 per cent. per annum of the then current market value of the Shares; and (H) any other similar event having a dilutive or concentrative effect on the theoretical value of the Shares.

- (4) The Issuer reserves the right to issue further Securities, make adjustments or to distribute to the Holders any rights in connection with the Securities as it reasonably believes are appropriate in circumstances where an event or events occur which the Issuer (in its absolute discretion and notwithstanding any adjustments previously made to the Securities) believes should in the context of the issue of Securities and its obligations hereunder, give rise to such adjustment or distribution, provided that such adjustment is considered by the Calculation Agent either to be appropriate generally (without considering the individual circumstances of any Holder or the tax or other consequences of such adjustment in any particular jurisdiction) or to be required to take account of provisions of the laws of the relevant jurisdiction or the practices of the Exchange. The Issuer, in any event, reserves the right to in its absolute discretion terminate Securities linked to any Proprietary Index by giving notice in accordance with General Condition 4, in the event that the relevant Index Sponsor terminates, cancels or suspends, as the case may be, any such Proprietary Index.

- (c) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determinations. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

The Final Terms applicable to any Series of Securities may specify amendments to these Product Conditions in so far as they apply to that Series. Notwithstanding the foregoing, consideration will be given as to whether such amendments constitute “significant new factors” and consequently trigger the need for a supplement to the Base Prospectus (as defined in the Final Terms) under Article 16 of Directive 2003/71/EC.

2. FORM

- (a) Global Form. Except in the case of Securities issued in the form described in either Product Condition 2(b) or 2(c), the Securities will be issued in bearer form in the denomination of the Nominal Amount. The Securities are represented by a global security (the “**Global Security**”) which will be deposited with a Clearing Agent or the depositary for one or more Clearing Agents and will be transferable only in accordance with the applicable law and the rules and procedures of the relevant Clearing Agent through whose systems the Securities are transferred. Each person (other than another Clearing Agent) who is for the time being shown in the records of the relevant Clearing Agent as the owner of a particular nominal amount of the Securities (in which regard any certificate or other document issued by the relevant Clearing Agent as to the nominal amount of the Securities standing to the credit of the account of any person shall be conclusive and binding for all purposes except in the case of manifest error) shall be treated by the Issuer and each Agent as the holder of such nominal

amount of the Securities (and the term “**Holder**” shall be construed accordingly) for all purposes, other than with respect to any payment and/or delivery obligations, the right to which shall be vested as regards the Issuer and the Agents, solely in the bearer of the Global Security.

- (b) Dematerialised Form. Certain Securities will, where required by the rules and procedures of the Clearing Agent, be issued in dematerialised form and will be registered in the book-entry system of the Clearing Agent. Title to the Securities will pass by transfer between accountholders at the Clearing Agent perfected in accordance with the legislation, rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means a person in whose name a Security is registered in the book-entry settlement system of the Clearing Agent or any other person recognised as a holder of Securities pursuant to the Rules.

If CREST is specified as the Clearing Agent in the relevant Final Terms, the Securities will be cleared through CREST. Such Securities will be registered securities in dematerialised and uncertificated form, and will be (i) participating securities and (ii) uncertificated securities in accordance with the Uncertificated Securities Regulations 2001 (SI. No. 3755) as amended, supplemented or replaced from time to time (the “**Regulations**”).

Securities cleared through CREST may be transferred in accordance with the Regulations and the rules, procedures and practices of the relevant Operator (as defined below). No transfer of such Securities will be valid unless and until entered on the relevant Operator register of corporate securities (as defined in and in accordance with, the Regulations).

In the case of Securities cleared through CREST, title to the Securities is recorded on the relevant Operator register of corporate securities (as defined in the Regulations). The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. Subject to this requirement, (i) each person who is for the time being shown in the Register as the holder of such Securities shall be treated by the Issuer and the Registrar as the holder of such Securities for all purposes and (ii) neither the Issuer nor the Registrar shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Register which the Registrar maintains are in accordance with particulars entered in the Operator register of

corporate securities relating to such Securities (and the expression “**Holder**” and related expressions shall be construed accordingly).

Any reference to the “**Operator**” (as such term is used in the Regulations) shall be to CREST and shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator approved by the Issuer from time to time in accordance with the Regulations and notified to the relevant Holders in accordance with General Condition 4.

Any indication herein that the Operator “shall do”, or similar expression or phrase indicating that they are obliged to or will carry out any role or obligation described in the Conditions and/or the applicable Final Terms, as the case may be, is given without any assumption by the Issuer, the relevant Registrar or the Calculation Agent of responsibility or liability for the performance of the Operator.

- (c) SIX SIS Ltd as Clearing Agent. If SIX SIS Ltd is specified as the Clearing Agent, Securities will, as specified in the applicable Final Terms, be issued in the form of (i) dematerialised securities (the “**Dematerialised Securities**”) or (ii) a bearer permanent Global Security and, in either case, will be transformed into intermediated securities (the “**Intermediated Securities**”) in accordance with article 6 of the Swiss Federal Intermediated Securities Act (the “**FISA**”).

The Intermediated Securities will be created (i) by deposit of a Global Security with the Clearing Agent, acting as custodian as defined in article 4 FISA (the “**Custodian**”), or registration of Dematerialised Securities in the main register of the Clearing Agent, acting as Custodian, and (ii) the Clearing Agent, acting as Custodian, crediting the respective rights to securities accounts of one or more of its participants with the Clearing Agent in accordance with articles 4 and 6 FISA. For each issuance of Securities in the form of Dematerialised Securities, the Clearing Agent, acting as Custodian, will maintain the main register as defined in article 6 para. 2 FISA which is available to the public under <https://www.sec.sisclear.com/sec/cm/index/custody-settlement/mainregister.htm>.

Title to the Intermediated Securities is construed and will pass in accordance with the legislation, in particular the FISA, rules and regulations applicable to and/or issued by the Clearing Agent, acting as Custodian, and any other custodian, if any, that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

The Holders shall at no time have the right to effect or demand (i) the retransformation of the Intermediated Securities into, and the delivery of, Dematerialised Securities in the case

of Dematerialised Securities being the basis for the creation of Intermediated Securities, or (ii) the conversion of the Dematerialised Securities or the Global Security into definitive Securities.

- (f) Interest Accrual. If “Interest” is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms, each Security shall cease to accrue interest from and including the due date for redemption. No interest shall accrue after the Maturity Date or after the Valuation Date in respect of which an Early Redemption Event occurs, as the case may be, in the event that payment of any amount is postponed due to a Market Disruption Event.
- (g) Payment Day. If the date for payment of any amount in respect of the Securities is not a Payment Day, the Holder shall not be entitled to payment until either (a) if "Modified Following" is specified in the definition of Business Day Convention for the relevant Series in the applicable Final Terms, the next following Payment Day unless such Payment Day falls in the next calendar month in which case the date for payment will be the first preceding Payment Day or (b) if "Following" is specified in the definition of Business Day Convention for the relevant Series in the applicable Final Terms, the next following Payment Day and, in either case, the Holder shall not be entitled to any interest or other payment in respect of such delay or acceleration of payment.
- (h) General. In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent or any Agent shall have any responsibility for any errors or omissions in the calculation of the Cash Amount, any Interest Amount or the Early Redemption Amount.

- (i) Settlement Risk. Settlement of the Securities is subject to all applicable laws, regulations and practices in force at the relevant time and none of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall incur any liability whatsoever if it is unable to effect the transactions contemplated as a result of any such laws, regulations or practices. None of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall under any circumstances be liable for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.
- (j) Method of Payment. Subject as provided below, where any amount paid in connection with the Securities is in a currency other than euro, such payments will be made by an Agent on behalf of the Issuer in the Settlement Currency to an account specified by the payee with, or by a cheque in such Settlement Currency drawn on, a bank in the principal financial centre of the country of such Settlement Currency; where any amount paid in connection with the Securities is in euro, payment of such amount will be made by an Agent on behalf of the Issuer by credit or transfer to a euro account or any account to which euro may be credited or transferred specified by the payee or, at the option of the payee, by a euro cheque. Payments will be made via the Clearing Agent(s) and will be made in accordance with the Rules (if applicable). All payments will be subject to applicable fiscal and legal requirements applicable thereto.
- (k) Presentation and Surrender. Unless the Securities are cleared through CREST, the Issuer shall record payment of any amount in connection with the Securities made to the relevant Agent and such record shall be prima facie evidence that the payment in question has been made. The Holder shall be the only person entitled to receive payments of any amount paid in connection with the Securities and the Issuer will be discharged by payment to, or to the order of, the Holder in respect of the amount so paid. Where the Securities are cleared through CREST, General Condition 20 shall apply.

4. ADJUSTMENTS

- (c) Market Disruption. The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred.

In respect of an Index which is not a Commodity Index, “**Market Disruption Event**” means (i) a general moratorium is declared in respect of banking activities in the country in which the Exchange or any Related Exchange is located or (ii) the occurrence or existence on any Trading Day during the one hour period that ends at the official close of trading on the Exchange or any Related Exchange of any suspension of or limitation imposed on trading or the disruption or impairment in the ability of market participants in general to effect

transactions (by reason of movements in price reaching or exceeding limits permitted by the relevant exchange or otherwise):

- (i) on any Exchange(s) in securities that comprise 20 per cent or more of the level of the relevant Index if, in the determination of the Calculation Agent, such suspension or limitation is material. For the purpose of determining whether such suspension or limitation is material, if trading in a security included in the Index is suspended or materially limited at that time, then the relevant percentage contribution of that security to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that security relative to (y) the overall level of the Index, in each case immediately before that suspension or limitation; or
- (j) on any Related Exchange in any options contracts or futures contracts or other derivatives contracts relating to the relevant Index.

In any event, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the relevant exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

In respect of a Commodity Index, “**Market Disruption Event**” means, in relation to the Commodity Index or its components:

- (i) **Price Source Disruption.** The failure by the Exchange to announce or publish the price of the Commodity Index or any of its components (or the information necessary for determining such price(s)) or the temporary or permanent discontinuance or unavailability of such price(s) by the Exchange; or
- (ii) **Trading Suspension.** The material suspension of trading on the Exchange; or
- (iii) **Disappearance of Price.** The permanent discontinuation of trading in the Commodity Index or any of its components on the Exchange, disappearance of, or of trading in, the Commodity Index or any of its components or the disappearance or permanent discontinuance or unavailability of a reference price, notwithstanding the availability of the related price source or the status of trading in the Commodity Index or any of its components; or
- (iv) **Material Change in Formula.** The occurrence, since the Issue Date, of a material change in the basis for (including but not limited to the quantity, quality or currency), or method of, calculating the price of a component of the Commodity Index; or

- (v) **Material Change in Content.** The occurrence, since the Issue Date, of a material change in the content or composition of a Commodity Index or any component of the Commodity Index; or
 - (vi) **De Minimis Trading.** The number of contracts traded on the Exchange with respect to a Commodity Index or any of its components is such that the Issuer declares that its ability to enter into hedging transactions with respect to the Commodity Index or any of its components has been impaired due to a lack of, or a material reduction in, trading in the Commodity Index or any of its components on the Exchange; or
 - (vii) **Tax Disruption.** The imposition of, change in, or removal of, an excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or similar tax on, or measured by reference to, a Commodity Index or any of its components (other than a tax on, or measured by reference to, overall gross or net income) by any government or taxation authority after the Issue Date, if the direct effect of such imposition, change or removal is to raise or lower the price of the Commodity Index or any of its components on the Valuation Date and/or on each of the three Trading Days following the Valuation Date from what it would have been without that imposition, change or removal; or
 - (viii) **Trading Limitation.** The material limitation imposed on trading in a Commodity Index or any of its components on any exchange or principal trading market; or
 - (ix) **Moratorium.** A general moratorium is declared in respect of banking activities in the country in which the Exchange is located; or
 - (x) **Other Events.** Any other event similar to any of the above which could make it impracticable or impossible for the Issuer to perform its obligations in relation to the Securities.
- (d) **Adjustments to Index.** The Calculation Agent shall give notice as soon as practicable to the Holders in accordance with General Condition 4 of any determination made by it pursuant to paragraphs (1), (2), (3) or (4) below.
- (1) If the Index is: (A) not calculated and announced by the Index Sponsor but is calculated and published by a successor to the Index Sponsor (the “**Successor Sponsor**”) acceptable to the Calculation Agent; or (B) replaced by a successor index using in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the Index, then (in either case) the Index will be deemed to be the index so calculated and announced by such Successor Sponsor or that successor index, as the case may be.

- (2) If (A) on or prior to the Valuation Date the Index Sponsor or, if applicable, the Successor Sponsor makes a material change in the formula for or the method of calculating the Index or in any other way materially modifies the Index (other than a modification prescribed in that formula or method to maintain the Index in the event of changes in constituent securities or components, as the case may be, and other routine events); or (B) on or prior to the Valuation Date the Index Sponsor or, if applicable the Successor Sponsor fails to calculate and/or publish the Index; then (in either case) the Calculation Agent shall determine the Final Reference Price using, in lieu of a published level for the Index on the Valuation Date, the level for the Index as determined by the Calculation Agent in accordance with the formula for and method of calculating the Index last in effect prior to the change or failure, but using only those (a) in respect of an Index which is not a Commodity Index, securities that comprised the Index immediately prior to the change or failure (other than those securities that have since ceased to be listed on the Exchange or any other exchange on which the Shares are listed); or (b) in respect of a Commodity Index, commodity components that comprised the Index immediately prior to the change or failure (other than those components that have since ceased to be traded on the Exchange or any other exchange) or, in the case of a material modification of the Index only, shall deem such modified Index to be the Index so calculated and announced or shall (if so required by the Issuer), by giving notice in accordance with General Condition 4, terminate the Securities and pay to each Holder in respect of each Security held by such Holder an amount equal to the fair market value of the Security immediately prior to such material modification of the Index less the cost to the Issuer of unwinding any related hedging arrangements (as determined by the Issuer).
- (3) If, at any time, any of the events specified in (A) to (H) below occurs and the Index Sponsor or, if applicable, the Successor Sponsor has not in the opinion of the Calculation Agent made an appropriate adjustment to the level of the Index (which term excludes, for these purposes of this paragraph (iii), any Commodity Index) in order to account fully for such event, notwithstanding that the rules published or applied by the Index Sponsor or, if applicable, the Successor Sponsor pertaining to the Index have been applied, the Calculation Agent shall make such adjustment to the level of the Index as it considers appropriate in order so to account for: (A) a distribution or dividend to existing holders of the Shares of (i) the Shares; or (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the issuer of the Shares equally or proportionately with such payments to holders of Shares or (iii) any other type of securities, rights or warrants or other assets, in any case for

payment (in cash or otherwise) at less than the prevailing market price; (B) a free distribution or dividend of any Shares to existing holders of the Shares by way of bonus, capitalisation or similar issue; (C) an extraordinary dividend; (D) any cash dividends declared on the Shares at a time when the relevant issuer of the Shares has not previously declared or paid dividends on such Shares for the prior four quarterly periods; (E) any non-cash dividends declared on the Shares at a time when the relevant issuer of the Shares has not previously declared or paid dividends on such Shares for the prior four quarterly periods; (F) any other extraordinary cash or non-cash dividend on, or distribution with respect to, the Shares which is, by its terms or declared intent, declared and paid outside the normal operations or normal dividend procedures of the relevant issuer of the Shares, provided that, in all cases, the related ex-dividend date occurs during the period from but including the Issue Date up to and excluding the Valuation Date; (G) a distribution of cash dividends on the Shares equal to or greater than 8 per cent. per annum of the then current market value of the Shares; and (H) any other similar event having a dilutive or concentrative effect on the theoretical value of the Shares.

- (4) The Issuer reserves the right to issue further Securities, make adjustments or to distribute to the Holders any rights in connection with the Securities as it reasonably believes are appropriate in circumstances where an event or events occur which the Issuer (in its absolute discretion and notwithstanding any adjustments previously made to the Securities) believes should in the context of the issue of Securities and its obligations hereunder, give rise to such adjustment or distribution, provided that such adjustment is considered by the Calculation Agent either to be appropriate generally (without considering the individual circumstances of any Holder or the tax or other consequences of such adjustment in any particular jurisdiction) or to be required to take account of provisions of the laws of the relevant jurisdiction or the practices of the Exchange. The Issuer, in any event, reserves the right to in its absolute discretion terminate Securities linked to any Proprietary Index by giving notice in accordance with General Condition 4, in the event that the relevant Index Sponsor terminates, cancels or suspends, as the case may be, any such Proprietary Index.
- (e) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determinations. In making any determinations and calculations in respect of the

Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. as the holder of such Securities for all purposes and (ii) neither the Issuer nor the Registrar shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Register which the Registrar maintains are in accordance with particulars entered in the Operator register of corporate securities relating to such Securities (and the expression “**Holder**” and related expressions shall be construed accordingly).

Any reference to the “**Operator**” (as such term is used in the Regulations) shall be to CREST and shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator approved by the Issuer from time to time in accordance with the Regulations and notified to the relevant Holders in accordance with General Condition 4.

For each issuance of Securities in the form of Dematerialised Securities, the Clearing Agent, acting as Custodian, will maintain the main register as defined in article 6 para. 2 FISA which is available to the public under <https://www.sec.sisclear.com/sec/cm/index/custody-settlement/mainregister.htm>.

(b) Title to the Intermediated Securities is construed and will pass in accordance with the legislation, in particular the FISA, rules and regulations applicable to and/or issued by the Clearing Agent, acting as Custodian, and any other custodian, if any, that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**”

means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

(c) The Holders shall at no time have the right to effect or demand (i) the retransformation of the Intermediated Securities into, and the delivery of, Dematerialised Securities in the case of Dematerialised Securities being the basis for the creation of Intermediated Securities, or (ii) the conversion of the Dematerialised Securities or the Global Security into definitive Securities.

In the event that a Holder does not, in respect of a Security which is to be redeemed by delivery of the Share Amount, deliver or procure delivery of a Notice as set out above, prior to the date that is 30 calendar days after the Settlement Date, the Issuer shall have the right but not the obligation to sell the Shares comprised in the Share Amount in respect of such Security in the open market or otherwise at a price determined by the Issuer, in its sole discretion, to be the fair market value of the Shares, and shall hold the proceeds (the “**Realised Share Amount**”) for the account of the relevant Holder, until presentation of the relevant Notice. - (j) Determinations. If Physical Settlement is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms, failure properly to complete and deliver a Notice may result in such Notice being treated as null and void. Any determination as to whether any such Notice has been properly completed and delivered shall be made by the Principal Agent or, where the Securities are cleared through CREST, the Registrar and shall be conclusive and binding on the Issuer and the relevant Holder. Subject as set out below, any Notice so determined to be incomplete or not in proper form, or where applicable, which is not copied to the Principal Agent immediately after being delivered to a Clearing Agent or, where the Securities are cleared through CREST, which is not delivered to the Registrar as provided in the Conditions shall be void. If such Notice is subsequently corrected to the satisfaction of the Principal Agent or, where the Securities are cleared through CREST, the Registrar, it shall be deemed to be a new Notice submitted at the time such correction is delivered to such Clearing Agent and copied to the Principal Agent or the Swiss Agent or, where the Securities are cleared through CREST, at such time as correction is delivered to the Registrar. The Principal Agent or, where the Securities are cleared through CREST, the Registrar shall use its best efforts promptly to notify the Holder if it has determined that a Notice is incomplete or not in proper form. In the absence of gross negligence or wilful misconduct on its part, neither the Issuer, ~~nor~~ the Principal Agent nor, where the Securities are cleared through CREST, the Registrar shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Holder.
- (k) Intervening Period. If Physical Settlement is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms and redemption of a Security is to be by delivery of the Share Amount, for such period of time after the Settlement Date as the Issuer or any person on behalf of the Issuer shall continue to be the legal owner of the Shares comprising the relevant Share Amount (the “**Intervening Period**”), neither the Issuer nor any other such person shall (i) be under any obligation to deliver or procure delivery to the relevant Holder or any subsequent beneficial owner of any of such Shares document or payment whatsoever received by that person in its capacity as the holder of such Shares, (ii) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such Shares during the Intervening Period or (iii) be under any liability to the relevant Holder or any subsequent beneficial owner of such Shares or any other person in respect of any loss or damage which the relevant Holder or subsequent beneficial owner or any other person may sustain or suffers as a result, whether directly or indirectly, of the Issuer or any other such persons being the legal owner of such Shares during such Intervening Period.

- (l) Dividends. If Physical Settlement is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms, any dividend in respect of any Share Amount to be delivered will be payable to the party, as determined by the Issuer, that would receive such dividend in accordance with market practice for a sale of the Shares executed on the Settlement Date and to be delivered in the same manner as such Share Amount. An amount equal to any such dividend to be paid to a Holder shall be paid to the account specified in the relevant Notice.
- (m) Settlement Disruption. If Physical Settlement is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms and the Securities are to settle by delivery of the Share Amount and prior to delivery of the Share Amount in respect thereof in the opinion of the Calculation Agent, a Settlement Disruption Event is subsisting, then the Delivery Date for such Security shall be postponed to the first following Business Day on which no Settlement Disruption Event is subsisting. For so long as delivery of any Share Amount is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Security by payment of the Disruption Cash Settlement Price not later than on the third Business Day following the date that the notice of such election is given to the Holders in accordance with General Condition 4. The Calculation Agent shall give notice as soon as practicable to the Holders in accordance with General Condition 4 that a Settlement Disruption Event has occurred. No Holder or any other person shall be entitled to any payment (including but not limited to interest) in respect of a Security in the event of any delay in the delivery of any Share Amount relating thereto due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer.
- (n) Settlement Risk. Settlement of the Securities is subject to all applicable laws, regulations and practices in force at the relevant time and none of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall incur any liability whatsoever if it is unable to effect the transactions contemplated as a result of any such laws, regulations or practices. None of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall under any circumstances be liable for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.

Where the Securities are cleared through CREST, General Condition 20 shall apply.

4. ADJUSTMENTS

- (a) Market Disruption. The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred.

“Market Disruption Event” means:

- (1) the occurrence or existence on any Trading Day during the one hour period that ends at the official close of trading on the Exchange or any Related Exchange of any suspension of or limitation imposed on trading or the disruption or impairment in the ability of market participants in general to effect transactions (by reason of movements in price reaching or exceeding limits permitted by the relevant exchange or otherwise):
- (A) in the Shares on the Exchange or any other exchange on which the Shares are listed; or
 - (B) in any options contracts or futures contracts or other derivatives contracts relating to the Shares on any Related Exchange if, in the determination of the Calculation Agent, such suspension or limitation is material; or
- (2) a general moratorium is declared in respect of banking activities in the country in which the Exchange or any Related Exchange is located.

For the purposes of this definition, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the Exchange or any Related Exchange, but a limitation on trading

imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the Exchange or any Related Exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

- (b) Potential Adjustment Events. Following a declaration by the Share Company of the terms of any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Share and, if so, will:
- (1) make the corresponding adjustment, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate to account for that diluting or concentrative effect; and
 - (2) determine the effective date of that adjustment.

The Calculation Agent may, but need not, determine the adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Shares traded on that options exchange. Upon making any such adjustment, the Calculation Agent shall notify the Holders in accordance with General Condition 4, stating the adjustment to be made to the Conditions and giving brief details of the Potential Adjustment Event.

“Potential Adjustment Event” means any of the following: (A) a subdivision, consolidation or reclassification of relevant Shares (unless a Merger Event) or a free distribution or dividend of such Shares to existing holders of the relevant Shares by way of bonus, capitalisation, recapitalisation or similar issue; (B) a distribution or dividend to existing holders of the relevant Shares of (aa) such Shares, or (bb) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Share Company equally or proportionately with such payments to holders of such Shares, or (cc) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other) at less than the prevailing market price as determined by the Calculation Agent; (C) an extraordinary dividend; (D) a distribution of cash dividends on the Shares equal to or greater than 8 per cent. per annum of the then current market value of the Shares; (E) a call by the Share Company in respect of relevant Shares that are not fully paid; (F) a repurchase by the Share Company of relevant Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise; or (G) any other similar event that may have a diluting or concentrative effect on the theoretical value of the relevant Shares.

- (c) De-listing, Merger Event, Nationalisation and Insolvency. If a De-listing, Merger Event, Nationalisation or Insolvency occurs in relation to the Share Company, the Issuer in its sole and absolute discretion may take the action described in (1), (2) or (3) below:
- (1) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the other terms of these Conditions to account for the De-listing, Merger Event, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment. The Calculation Agent may (but is under no obligation to) determine the appropriate adjustment by reference to the adjustment in respect of the De-listing, Merger Event, Nationalisation or Insolvency made by any Related Exchange to options contracts or futures contracts or other derivatives contracts on the Shares traded on such Related Exchange; or
 - (2) cancel the Securities by giving notice to Holders in accordance with General Condition 4. If the Securities are to be cancelled, the Issuer will pay an amount to each Holder in respect of each Security held by him which amount shall be the fair market value of a Security (taking into account the De-listing, Merger Event, Nationalisation or Insolvency (as the case may be)) on the day selected for cancellation as shall be selected by the Issuer in its sole and absolute discretion adjusted to account fully for any losses, expenses and costs to the Issuer and/or any affiliate of the Issuer of unwinding or adjusting any underlying or related hedging arrangements (including but not limited to any equity options or selling or otherwise realising any Shares or other instruments of any type whatsoever which the Issuer and/or any of its affiliates may hold as part of such hedging arrangements), all as determined by the Calculation Agent in its sole and absolute discretion. Payment will be made in such manner as shall be notified to the Holders in accordance with General Condition 4; or
 - (3) following any adjustment to the settlement of terms of options contracts or futures contracts or any other derivatives contracts on the Shares traded on any Related Exchange, require the Calculation Agent to make a corresponding adjustment to any of the other terms of these Conditions, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Related Exchange. If options contracts or futures contracts or other derivatives contracts on the Shares are not traded on the Related Exchange, the Calculation Agent will make such adjustment, if any, to any of the other terms of these Conditions as the Calculation Agent in its sole and absolute discretion determines appropriate, with reference to the rules and precedents

(if any) set by the Related Exchange to account for the De-listing, Merger Event, Nationalisation or Insolvency (as the case may be) that in the determination of the Calculation Agent would have given rise to an adjustment by the Related Exchange if such options contracts or futures contracts or other derivatives contracts were so traded.

Upon the occurrence of a De-listing, Merger Event, Nationalisation or Insolvency, the Calculation Agent shall notify the Holders in accordance with General Condition 4, stating the occurrence of such De-listing, Merger Event, Nationalisation or Insolvency (as the case may be) and the action proposed to be taken in relation thereto.

“De-listing” means a Share for any reason ceases to be listed or is suspended from listing on the Exchange or any other exchange on which the Shares are listed (and such cessation or suspension is continuing and such Share is not subsequently listed or quoted on another stock exchange or quotation system acceptable to the Issuer).

“Merger Date” means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Calculation Agent.

“Merger Event” means any (1) reclassification or change to the Shares that results in a transfer of or an irrevocable commitment to transfer all or a majority of the outstanding Shares; (2) consolidation, amalgamation, merger or binding share exchange of a Share Company with or into another entity (other than a consolidation, amalgamation, merger or binding share exchange in which such Share Company is the continuing entity and which does not result in any such reclassification or change to all the outstanding Shares of a Share Company); or (3) take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Shares that results in a transfer of, or an irrevocable commitment to transfer a majority of the voting power of the Share Company to the offeror, in each case if the Merger Date is on or before the relevant Valuation Date.

“Nationalisation” means that all the Shares of a Share Company or all the assets or substantially all the assets of a Share Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority or entity.

“Insolvency” means that by reason of the voluntary or involuntary liquidation, bankruptcy or insolvency of or any analogous proceeding affecting a Share Company (1) all the Shares are required to be transferred to a receiver, trustee, liquidator or other similar official or (2) holders of the Shares of that Share Company become legally prohibited from transferring them.

- (d) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determinations. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

The Final Terms applicable to any Series of Securities may specify amendments to these Product Conditions in so far as they apply to that Series. Notwithstanding the foregoing, consideration will be given as to whether such amendments constitute “significant new factors” and consequently trigger the need for a supplement to the Base Prospectus (as defined in the Final Terms) under Article 16 of Directive 2003/71/EC.

Each person (other than another Clearing Agent) who is for the time being shown in the records of the relevant Clearing Agent as the owner of a particular nominal amount of the Securities (in which regard any certificate or other document issued by the relevant Clearing Agent as to the nominal amount of the Securities standing to the credit of the account of any person shall be conclusive and binding for all purposes except in the case of manifest error) shall be treated by the Issuer and each Agent as the holder of such nominal amount of the Securities (and the term “**Holder**” shall be construed accordingly) for all purposes, other than with respect to any payment and/or delivery obligations, the right to which shall be vested as regards the Issuer and the Agents, solely in the bearer of the Global Security.

- (b) Dematerialised Form. Certain Securities will, where required by the rules and procedures of the Clearing Agent, be issued in dematerialised form and will be registered in the book-entry system of the Clearing Agent. Title to the Securities will pass by transfer between accountholders at the Clearing Agent perfected in accordance with the legislation, rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means a person in whose name a Security is registered in the book-entry settlement system of the Clearing Agent or any other person recognised as a holder of Securities pursuant to the Rules.

In the case of Securities cleared through CREST, title to the Securities is recorded on the relevant Operator register of corporate securities (as defined in the Regulations). The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the

relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. Subject to this requirement, (i) each person who is for the time being shown in the Register as the holder of such Securities shall be treated by the Issuer and the Registrar as the holder of such Securities for all purposes and (ii) neither the Issuer nor the Registrar shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Register which the Registrar maintains are in accordance with particulars entered in the Operator register of corporate securities relating to such Securities (and the expression “**Holder**” and related expressions shall be construed accordingly).

Any reference to the “**Operator**” (as such term is used in the Regulations) shall be to CREST and shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator approved by the Issuer from time to time in accordance with the Regulations and notified to the relevant Holders in accordance with General Condition 4.

Any indication herein that the Operator “shall do”, or similar expression or phrase indicating that they are obliged to or will carry out any role or obligation described in the Conditions and/or the applicable Final Terms, as the case may be, is given without any assumption by the Issuer, the relevant Registrar or the Calculation Agent of responsibility or liability for the performance of the Operator.

3. RIGHTS AND PROCEDURES

 - (i) If an Early Redemption Event has not occurred, the Cash Amount; or
 - (ii) If an Early Redemption Event has occurred, the Early Redemption Amount, such redemption to occur on the Settlement Date.
- (b) Interest Amount. If “Interest” is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms, each Security shall bear interest at the Interest Rate. The Interest Amount is calculated by reference to the relevant Interest Period, the Interest Rate, the Nominal Amount and the Interest Rate Day Count Fraction, and is payable on each Interest Payment Date.
- (c) Interest Accrual. If “Interest” is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms, each Security shall cease to accrue interest from and including the due date for redemption. No interest shall accrue after the Maturity Date or after the Valuation Date in respect of which an Early Redemption Event occurs, as the case may be, in the event that payment of any amount is postponed due to a Market Disruption Event.
- (d) Payment Day. If the date for payment of any amount in respect of the Securities is not a Payment Day, the Holder shall not be entitled to payment until either (a) if “Modified Following” is specified in the definition of Business Day Convention for the relevant Series

in the applicable Final Terms, the next following Payment Day unless such Payment Day falls in the next calendar month in which case the date for payment will be the first preceding Payment Day or (b) if “ Following” is specified in the definition of Business Day Convention for the relevant Series in the applicable Final Terms, the next following Payment Day and, in either case, the Holder shall not be entitled to any interest or other payment in respect of such delay or acceleration of payment.

- (f) Settlement Risk. Settlement of the Securities is subject to all applicable laws, regulations and practices in force at the relevant time and none of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall incur any liability whatsoever if it is unable to effect the transactions contemplated as a result of any such laws, regulations or practices. None of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall under any circumstances be liable for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.
- (g) Method of Payment. Subject as provided below, where any amount paid in connection with the Securities is in a currency other than euro, such payments will be made by an Agent on behalf of the Issuer in the Settlement Currency to an account specified by the payee with, or by a cheque in such Settlement Currency drawn on, a bank in the principal financial centre of the country of such Settlement Currency; where any amount paid in connection with the Securities is in euro, payment of such amount will be made by an Agent on behalf of the Issuer by credit or transfer to a euro account or any account to which euro may be credited or transferred specified by the payee or, at the option of the payee, by a euro cheque. The Holder shall be the only person entitled to receive payments of any amount paid in connection with the Securities and the Issuer will be discharged by payment to, or to the order of, the Holder in respect of the amount so paid. Where the Securities are cleared through CREST, General Condition 20 shall apply.

4. ADJUSTMENTS

- (a) **Market Disruption.** The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred.

A “**Market Disruption Event**” means the situation in which the Reference Rate is not available on the Reference Rate Screen Page, in which case the relevant rate shall be determined by the Calculation Agent, on the basis of quotations for the relevant rate or such other related rate as the Calculation Agent shall in its sole and absolute discretion specify provided by the Reference Banks at the Valuation Time for the relevant Trading Day. The Issuer will request the principal London office of each of the Reference Banks to provide a quotation of the relevant rate. The relevant rate will be the arithmetic mean of the quotations, eliminating the highest quotation (or in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest) if more than three quotations are provided. If it is not possible to obtain quotations of the relevant rate by at least three of the Reference Banks then the Calculation Agent will determine the Reference Rate at its sole and absolute discretion.

- (b) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determination. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

The Final Terms applicable to any Series of Securities may specify amendments to these Product Conditions in so far as they apply to that Series. Notwithstanding the foregoing, consideration will be given as to whether such amendments constitute “significant new factors” and consequently trigger the need for a supplement to the Base Prospectus (as defined in the Final Terms) under Article 16 of Directive 2003/71/EC.

which shall be vested as regards the Issuer and the Agents, solely in the bearer of the Global Security.

- (b) Dematerialised Form. Certain Securities will, where required by the rules and procedures of the Clearing Agent, be issued in dematerialised form and will be registered in the book-entry system of the Clearing Agent. Title to the Securities will pass by transfer between accountholders at the Clearing Agent perfected in accordance with the legislation, rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect from time to time (the “**Rules**”). The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. Any reference to the “**Operator**” (as such term is used in the Regulations) shall be to CREST and shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator approved by the Issuer from time to time in accordance with the Regulations and notified to the relevant Holders in accordance with General Condition 4.

Title to the Intermediated Securities is construed and will pass in accordance with the legislation, in particular the FISA, rules and regulations applicable to and/or issued by the Clearing Agent, acting as Custodian, and any other custodian, if any, that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

The Holders shall at no time have the right to effect or demand (i) the retransformation of the Intermediated Securities into, and the delivery of, Dematerialised Securities in the case of Dematerialised Securities being the basis for the creation of Intermediated Securities, or

4. ADJUSTMENTS

- (a) Market Disruption. The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred.

“Market Disruption Event” means:

- (1) the occurrence or existence on any Trading Day during the one hour period that ends at the official close of trading on the Exchange or any Related Exchange of any suspension of or limitation imposed on trading or the disruption or impairment in the ability of market participants in general to effect transactions (by reason of movements in price reaching or exceeding limits permitted by the relevant exchange or otherwise):
 - (A) in the Shares on the Exchange or any other exchange on which the Shares are listed; or
 - (B) in any options contracts or futures contracts or other derivatives contracts relating to the Shares on any Related Exchange if, in the determination of the Calculation Agent, such suspension or limitation is material; or
- (2) a general moratorium is declared in respect of banking activities in the country in which the Exchange or any Related Exchange is located.

For the purposes of this definition, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the Exchange or any Related Exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the Exchange or any Related Exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

- (b) Potential Adjustment Events. Following a declaration by the Share Company of the terms of any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Share and, if so, will:
 - (1) make the corresponding adjustment, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate to account for that diluting or concentrative effect; and
 - (2) determine the effective date of that adjustment.

The Calculation Agent may, but need not, determine the adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Shares traded on that options exchange. Upon making any such adjustment, the Calculation Agent shall notify the Holders in accordance with General Condition 4, stating the adjustment to be made to the Conditions and giving brief details of the Potential Adjustment Event.

“Potential Adjustment Event” means any of the following: (A) a subdivision, consolidation or reclassification of relevant Shares (unless a Merger Event) or a free distribution or dividend of such Shares to existing holders by way of bonus, capitalisation, recapitalisation or similar issue; (B) a distribution or dividend to existing holders of the relevant Shares of the relevant Shares of (aa) such Shares, or (bb) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Share Company equally or proportionately with such payments to holders of such Shares, or (cc) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other) at less than the prevailing market price as determined by the Calculation Agent; (C) an extraordinary dividend; (D) a distribution of cash dividends on the Shares equal to or greater than 8 per cent. per annum of the then current market value of the Shares; (E) a call by the Share Company in respect of relevant Shares that are not fully paid; (F) a repurchase by the Share Company of relevant Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise; or (G) any other similar event that may have a diluting or concentrative effect on the theoretical value of the relevant Shares.

- (c) De-listing, Merger Event, Nationalisation and Insolvency. If a De-listing, Merger Event, Nationalisation or Insolvency occurs in relation to the Share Company, the Issuer in its sole and absolute discretion may take the action described in (1), (2) or (3) below:
- (1) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the other terms of these Conditions to account for the De-listing, Merger Event, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment. The Calculation Agent may (but is under no obligation to) determine the appropriate adjustment by reference to the adjustment in respect of the De-listing, Merger Event, Nationalisation or Insolvency made by any Related Exchange to options contracts or futures contracts or other derivatives contracts on the Shares traded on such Related Exchange; or
 - (2) cancel the Securities by giving notice to Holders in accordance with General Condition 4. If the Securities are to be cancelled the Issuer will pay an amount to each Holder in respect of each Security held by him which amount shall be the fair market value of a Security (taking into account the De-listing, Merger Event, Nationalisation or Insolvency (as the case may be)) on the day selected for cancellation as shall be selected by the Issuer in its sole and absolute discretion adjusted to account fully for any losses, expenses and costs to the Issuer and/or any affiliate of the Issuer of unwinding or adjusting any underlying or related hedging

arrangements (including but not limited to any equity options or selling or otherwise realising any Shares or other instruments of any type whatsoever which the Issuer and/or any of its affiliates may hold as part of such hedging arrangements), all as determined by the Calculation Agent in its sole and absolute discretion. Payment will be made in such manner as shall be notified to the Holders in accordance with General Condition 4; or

- (3) following any adjustment to the settlement of terms of options contracts or futures contracts or any other derivatives contracts on the Shares traded on any Related Exchange, require the Calculation Agent to make a corresponding adjustment to any of the other terms of these Conditions, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Related Exchange. If options contracts or futures contracts or other derivatives contracts on the Shares are not traded on the Related Exchange, the Calculation Agent will make such adjustment, if any, to any of the other terms of these Conditions as the Calculation Agent in its sole and absolute discretion determines appropriate, with reference to the rules and precedents (if any) set by the Related Exchange to account for the De-listing, Merger Event, Nationalisation or Insolvency (as the case may be) that in the determination of the Calculation Agent would have given rise to an adjustment by the Related Exchange if such options contracts or futures contracts or other derivatives contracts were so traded.

Upon the occurrence of a De-listing, Merger Event, Nationalisation or Insolvency, the Calculation Agent shall notify the Holders in accordance with General Condition 4, stating the occurrence of such De-listing, Merger Event, Nationalisation or Insolvency (as the case may be) and the action proposed to be taken in relation thereto.

“De-listing” means a Share for any reason ceases to be listed or is suspended from listing on the Exchange (and such cessation or suspension is continuing and such Share is not subsequently listed or quoted on another stock exchange or quotation system acceptable to the Issuer).

“Merger Date” means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Calculation Agent.

“Merger Event” means any (1) reclassification or change to the Shares that results in a transfer of or an irrevocable commitment to transfer all or a majority of the outstanding Shares; (2) consolidation, amalgamation, merger or binding share exchange of a Share

Company with or into another entity (other than a consolidation, amalgamation, merger or binding share exchange in which such Share Company is the continuing entity and which does not result in any such reclassification or change to all the outstanding Shares); or (3) take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Shares that results in a transfer of, or an irrevocable commitment to transfer a majority of the voting power of the Share Company to the offeror, in each case if the Merger Date is on or before the Issuer Call Date or Valuation Date, as applicable.

“**Nationalisation**” means that all the Shares of a Share Company or all the assets or substantially all the assets of a Share Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority or entity.

“**Insolvency**” means that by reason of the voluntary or involuntary liquidation, bankruptcy or insolvency of or any analogous proceeding affecting a Share Company, (1) all the Shares are required to be transferred to a receiver, trustee, liquidator or other similar official or (2) holders of the Shares of that Share Company become legally prohibited from transferring them.

- (d) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determinations. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

The Final Terms applicable to any Series of Securities may specify amendments to these Product Conditions in so far as they apply to that Series. Notwithstanding the foregoing, consideration will be given as to whether such amendments constitute “significant new factors” and consequently trigger the need for a supplement to the Base Prospectus (as defined in the Final Terms) under Article 16 of Directive 2003/71/EC.

In the case of Securities cleared through CREST, title to the Securities is recorded on the relevant Operator register of corporate securities (as defined in the Regulations). The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. Subject to this requirement, (i) each person who is for the time being shown in

the Register as the holder of such Securities shall be treated by the Issuer and the Registrar as the holder of such Securities for all purposes and (ii) neither the Issuer nor the Registrar shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Register which the Registrar maintains are in accordance with particulars entered in the Operator register of corporate securities relating to such Securities (and the expression “**Holder**” and related expressions shall be construed accordingly).

Any reference to the “**Operator**” (as such term is used in the Regulations) shall be to CREST and shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator approved by the Issuer from time to time in accordance with the Regulations and notified to the relevant Holders in accordance with General Condition 4.

Any indication herein that the Operator “shall do”, or similar expression or phrase indicating that they are obliged to or will carry out any role or obligation described in the Conditions and/or the applicable Final Terms, as the case may be, is given without any assumption by the Issuer, the relevant Registrar or the Calculation Agent of responsibility or liability for the performance of the Operator.

- (c) SIX SIS Ltd as Clearing Agent. If SIX SIS Ltd is specified as the Clearing Agent, Securities will, as specified in the applicable Final Terms, be issued in the form of (i) dematerialised securities (the “**Dematerialised Securities**”) or (ii) a bearer permanent Global Security and, in either case, will be transformed into intermediated securities (the “**Intermediated Securities**”) in accordance with article 6 of the Swiss Federal Intermediated Securities Act (the “**FISA**”).

(a) The Intermediated Securities will be created (i) by deposit of a Global Security with the Clearing Agent, acting as custodian as defined in article 4 FISA (the “**Custodian**”), or registration of Dematerialised Securities in the main register of the Clearing Agent, acting as Custodian, and (ii) the Clearing Agent, acting as Custodian, crediting the respective rights to securities accounts of one or more of its participants with the Clearing Agent in accordance with articles 4 and 6 FISA. For each issuance of Securities in the form of Dematerialised Securities, the Clearing Agent, acting as Custodian, will maintain the main register as defined in article 6 para. 2 FISA which is available to the public under <https://www.sec.sisclear.com/sec/cm/index/custody-settlement/mainregister.htm>.

(b) Title to the Intermediated Securities is construed and will pass in accordance with the legislation, in particular the FISA, rules and regulations applicable to and/or issued by the Clearing Agent, acting as Custodian, and any other custodian, if any, that are in force and

effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

(c) The Holders shall at no time have the right to effect or demand (i) the retransformation of the Intermediated Securities into, and the delivery of, Dematerialised Securities in the case of Dematerialised Securities being the basis for the creation of Intermediated Securities, or (ii) the conversion of the Dematerialised Securities or the Global Security into definitive Securities.

3. RIGHTS AND PROCEDURES

(a) Redemption on the Settlement Date. Unless previously exchanged, redeemed or purchased and cancelled and subject as provided by the Conditions and in the case of an Issuer Call (if applicable), each Security will be redeemed in respect of each Nominal Amount at:

- (i) the Cash Amount, on the Maturity Date;
- (ii) by delivery of the Share Amount, in the event of there being an Optional Exchange Right;
- (iii) if “Issuer Call” is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms, the Issuer Call Cash Amount in the event of there being an Issuer Call and the Issuer Call Cash Amount Condition specified in the definition of the relevant Series in the applicable Final Terms is satisfied; or
- (iv) if “Issuer Call” is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms, by delivery of the Share Amount in the event of there being an Issuer Call and the Issuer Call Share Amount Condition specified in the definition of the relevant Series in the applicable Final Terms is satisfied,

such redemption to occur, subject as provided below, on the Settlement Date.

(b) Interest Amount. If “Interest” is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms, in respect of each Interest Period, each Security shall bear interest at the Interest Rate. The Interest Amount is calculated by reference to the relevant Interest Period, the Interest Rate, the Nominal Amount and the Interest Rate Day Count Fraction and is payable on each Interest Payment Date. In respect of each Security, in the event that a Notice is delivered by the relevant Holder during an Interest Period then, in respect of that Interest Period and each subsequent Interest Period to the Maturity Date, no further Interest Amount shall be paid and any accrued unpaid Interest Amount shall be exchanged as provided in Product Condition 3(e).

- (c) Interest Accrual. If “Interest” is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms, each Security shall cease to accrue interest (A) from and including the due date for redemption, or (B) if a Notice is delivered, from and including the last day of the immediately preceding Interest Period. No interest shall accrue after the Maturity Date or any earlier date, as the case may be, in the event that payment of any amount, or delivery of any Share Amount or payment of any fraction of a Share, is postponed due to the occurrence of a Settlement Disruption Event or a Market Disruption Event. Further, no Interest Amount will be paid in respect of the Interest Period in which the Exchange Date or, if applicable, the Issuer Call Date falls.
- (d) Issuer Call. If “Issuer Call” is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms, the Issuer may terminate the Securities, in whole or in part, on any Business Day by giving Holders at least the Issuer Call Notice Period notice of its intention to terminate the Securities, such notice to be given at any time from (and including) the Issuer Call Commencement Date. Any such notice shall be given in accordance with the provisions of General Condition 4 and shall specify the Issuer Call Date.
- (e) Optional Exchange Right. Subject to an Issuer Call (if applicable), the Holder is entitled to exercise the Optional Exchange Right on any Business Day during the Exchange Period by giving at least the Optional Exchange Right Notice Period notice and by delivery of a valid Notice by the Exchange Time in accordance with Product Condition 3(h) at the specified office of any Agent. Upon any such valid exchange, the right of the relevant Holder to receive the Cash Amount and any Interest Amount not yet paid shall be extinguished and in consideration and exchange thereof the Issuer shall, except as otherwise provided in these Conditions, deliver the Share Amount on the Settlement Date.

In the event that the Holder does not hold an account with the Exchange on the Settlement Date, the Issuer shall use reasonable endeavours to sell the Share Amount on behalf of the Holder and pay the resultant proceeds of sale less Expenses to the Holder in such manner as it shall determine in its sole discretion.

- (f) Payment Day. If the date for payment of any amount in respect of the Securities is not a Payment Day, the Holder shall not be entitled to payment until either (a) if “Modified Following” is specified in the definition of Business Day Convention for the relevant Series in the applicable Final Terms, the next following Payment Day unless such Payment Day falls in the next calendar month in which case the date for payment will be the first preceding Payment Day or (b) if “Following” is specified in the definition of Business Day Convention for the relevant Series in the applicable Final Terms, the next following Payment

Day and, in either case, the Holder shall not be entitled to any interest or other payment in respect of such delay or acceleration of payment.

- (g) General. In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent or any Agent shall have any responsibility for any errors or omissions in the calculation of the Cash Amount, any Issuer Call Amount, any Interest Amount, the Share Amount or the Disruption Cash Settlement Price. The purchase of Securities does not confer on any holder of such Securities any rights (whether in respect of voting, distributions or otherwise) attached to the Shares.
- (h) Notice. Pursuant to Condition 3(e), to exercise the Optional Exchange Right, the relevant Holder must deliver to the Clearing Agent with a copy to the Principal Agent or Swiss Agent or deliver to the Registrar with a copy to the Issuer (where the Securities are cleared through CREST), a notice in the form obtainable from the Agents (the “**Notice**”). No Notice may be withdrawn after receipt of it by a Clearing Agent or the Principal Agent. After delivery of a Notice, Securities which are the subject of such Notice may not be transferred.

The Notice shall:

- (i) be dated and shall specify the aggregate Nominal Amount of the Securities which are the subject of such Notice;
- (ii) specify the number of the account with the Clearing Agent or the Operator and the Registrar (where the Securities are cleared through CREST) to be debited with such Securities and instruct the Clearing Agent or the Operator and the Registrar, as applicable, to debit such account on such date;
- (iii) specify the number of the account with the Clearing Agent to be credited with any Disruption Cash Settlement Price;
- (iv) certify that neither the person delivering the Notice nor any person on whose behalf the Notice is being delivered is a U.S. person or a person within the United States. As used herein, “**U.S. person**” means (A) an individual who is a resident or a citizen of the United States; (B) a corporation, partnership or other entity organised in or under the laws of the United States or any political subdivision thereof or which has its principal place of business in the United States; (C) any estate or trust which is subject to United States federal income taxation regardless of the source of its income; (D) any trust if a court within the United States is able to exercise primary supervision over the administration of the trust and if one or more United States trustees have the authority to control all substantial decisions of the trust; (E) a pension plan for the employees, officers or principals of a corporation, partnership or

other entity described in (B) above; (F) any entity organised principally for passive investment, 10 per cent. or more of the beneficial interests in which are held by persons described in (A) to (E) above if such entity was formed principally for the purpose of investment by such persons in a commodity pool the operator of which is exempt from certain requirements of Part 4 of the United States Commodity Futures Trading Commission's regulations by virtue of its participants being non-U.S. persons; or (G) any other "U.S. person" as such term may be defined in Regulation S under the United States Securities Act of 1933, as amended, or in regulations adopted under the United States Commodity Exchange Act;

- (v) include an undertaking to pay all Expenses and an irrevocable authority to the Clearing Agent or where the Securities are cleared through CREST, the Operator and the Registrar, to debit a specified account with the Clearing Agent in respect thereof or, as the case may be, to make a deduction from any amount payable; and
 - (vi) specify the Delivery Details.
- (i) Late Delivery of Notice. Any Notice to exercise the Optional Exchange Right delivered after the Exchange Time in the place of receipt on any Trading Day during the Exchange Period or on a day which is not a Trading Day will be deemed exercised on the following Trading Day during the Exchange Period. Any Notice delivered outside the Exchange Period shall be null and void. For the avoidance of doubt, no holder of Securities or any other person shall be entitled to any payment, whether of interest or otherwise, by reason of such Notice (or the copy thereof) being delivered late.
 - (j) Verification. In respect of any Notice, the relevant Holder must provide evidence to the Principal Agent or the Swiss Agent, in either case reasonably satisfactory to the Principal Agent or where the Securities are cleared through CREST, the Registrar, of its holding of such Securities.
 - (k) Delivery of the Share Amount. Subject as provided in the Conditions, the delivery of the Share Amount shall be made at the risk of the relevant Holder and shall be delivered and evidenced in such manner as the Issuer determines to be customary for the Share or in such other commercially reasonable manner as the Issuer shall determine to be appropriate for such delivery. The Issuer shall be under no obligation to register or procure the registration of any Holder or any other person as the registered holder in respect of the Shares comprised in any Share Amount in the register of members of the Share Company.
 - (l) Determinations. Failure properly to complete and deliver a Notice may result in such Notice being treated as null and void. Any determination as to whether any such Notice has been properly completed and delivered shall be made by the Principal Agent or, where the

Securities are cleared through CREST, the Registrar, and shall be conclusive and binding on the Issuer and the relevant Holder. Subject as set out below, any Notice so determined to be incomplete or not in proper form or, where applicable, which is not copied to the Principal Agent immediately after being delivered to a Clearing Agent or, where the Securities are cleared through CREST, which is not delivered to the Registrar as provided in the Conditions shall be void. If such Notice is subsequently corrected to the satisfaction of the Principal Agent or, where the Securities are cleared through CREST, the Registrar, it shall be deemed to be a new Notice submitted at the time such correction is delivered to such Clearing Agent and copied to the Principal Agent or the Swiss Agent or, where the Securities are cleared through CREST, at such time as correction is delivered to the Registrar. The Principal Agent or, where the Securities are cleared through CREST, the Registrar shall use its best efforts promptly to notify the Holder if it has determined that a Notice is incomplete or not in proper form. In the absence of gross negligence or wilful misconduct on its part, neither the Issuer, ~~nor~~ the Principal Agent nor, where the Securities are cleared through CREST, the Registrar, shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Holder.

- (m) **Intervening Period.** If redemption of a Security is to be by delivery of the Share Amount, for such period of time after the Maturity Date as the Issuer or any person on behalf of the Issuer shall continue to be the legal owner of the Share comprising the relevant Share Amount (the “**Intervening Period**”), neither the Issuer nor any other such person shall (i) be under any obligation to deliver or procure delivery to the relevant Holder or any subsequent beneficial owner of any document or payment whatsoever received by that person in its capacity as the holder of such Share, (ii) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such Shares during the Intervening Period or (iii) be under any liability to the relevant Holder or any subsequent beneficial owner of such Share or any other person in respect of any loss or damage which the relevant Holder or subsequent beneficial owner or any other person may sustain or suffers as a result, whether directly or indirectly, of the Issuer or any other such persons being the legal owner of such Share during such Intervening Period.
- (n) **Dividends.** Any dividend in respect of any Share Amount to be delivered will be payable to the party that would receive such dividend according to market practice for a sale of the Shares executed on the Exchange Date or Issuer Call Date, as applicable, and to be delivered in the same manner as such Share Amount. An amount equal to any such dividend to be paid to a Holder shall be paid to the account specified in the relevant Notice.

- (o) **Settlement Disruption.** If the Securities are to settle by delivery of the Share Amount and prior to the delivery of the Share Amount in respect thereof, in the opinion of the Calculation Agent, a Settlement Disruption Event is subsisting, then the delivery date for such Security shall be postponed to the first following Business Day on which no Settlement Disruption Event is subsisting. For so long as delivery of any Share Amount is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Security by payment of the Disruption Cash Settlement Price not later than on the third Business Day following the date that the notice of such election is given to the Holders in accordance with General Condition 4. The Calculation Agent shall give notice as soon as practicable to the Holders in accordance with General Condition 4 that a Settlement Disruption Event has occurred. No Holder or any other person shall be entitled to any payment (including but not limited to interest) in respect of a Security in the event of any delay in the delivery of any Share Amount relating thereto due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer.
- (p) **Settlement Risk.** Settlement of the Securities is subject to all applicable laws, regulations and practices in force at the relevant time and none of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall incur any liability whatsoever if it is unable to effect the transactions contemplated as a result of any such laws, regulations or practices. None of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall under any circumstances be liable for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.
- (q) **Method of Payment.** Subject as provided below, where any amount paid in connection with the Securities is in a currency other than euro, such payments will be made by an Agent on behalf of the Issuer in the Settlement Currency to an account specified by the payee with, or by a cheque in such Settlement Currency drawn on, a bank in the principal financial centre of the country of such Settlement Currency; where any amount paid in connection with the Securities is in euro, payment of such amount will be made by an Agent on behalf of the Issuer by credit or transfer to a euro account or any account to which euro may be credited or transferred specified by the payee or, at the option of the payee, by a euro cheque. Payments will be made via the Clearing Agent(s) and will be made in accordance with the Rules (if applicable). All payments will be subject to applicable fiscal and legal requirements applicable thereto.
- (r) **Presentation and Surrender.** Unless the Securities are cleared through CREST, the Issuer shall record payment of any amount in connection with the Securities made to the relevant Agent and such record shall be prima facie evidence that the payment in question has been

made. The Holder shall be the only person entitled to receive payments of any amount paid in connection with the Securities and the Issuer will be discharged by payment to, or to the order of, the Holder in respect of the amount so paid. Where the Securities are cleared through CREST, General Condition 20 shall apply.

4. ADJUSTMENTS

- (a) **Market Disruption.** The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred.

“Market Disruption Event” means:

- (1) the occurrence or existence on any Trading Day during the one hour period that ends at the official close of trading on the Exchange or any Related Exchange of any suspension of or limitation imposed on trading or the disruption or impairment in the ability of market participants in general to effect transactions (by reason of movements in price reaching or exceeding limits permitted by the relevant exchange or otherwise):
 - (A) in the Shares on the Exchange or any other exchange on which the Shares are listed; or
 - (B) in any options contracts or futures contracts or other derivatives contracts relating to the Share on any Related Exchange, if, in the determination of the Calculation Agent, such suspension or limitation is material; or
- (2) a general moratorium is declared in respect of banking activities in the country in which the Exchange or any Related Exchange is located.

For the purposes of this definition, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the Exchange or any Related Exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the Exchange or any Related Exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

- (b) **Potential Adjustment Events.** Following a declaration by the Share Company of the terms of any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Share and, if so, will:

- (1) make the corresponding adjustment, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate to account for that diluting or concentrative effect; and
- (2) determine the effective date of that adjustment.

The Calculation Agent may, but need not, determine the adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Shares traded on that options exchange. Upon making any such adjustment, the Calculation Agent shall notify the Holders in accordance with General Condition 4, stating the adjustment to be made to the Conditions and giving brief details of the Potential Adjustment Event.

“Potential Adjustment Event” means any of the following: (A) a subdivision, consolidation or reclassification of relevant Shares (unless a Merger Event), or, a free distribution or dividend of such Shares to existing holders by way of bonus, capitalisation, recapitalisation or similar issue; (B) a distribution or dividend to existing holders of the relevant Shares of (aa) such Shares, or (bb) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Share Company equally or proportionately with such payments to holders of such Shares, or (cc) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other) at less than the prevailing market price as determined by the Calculation Agent; (C) an extraordinary dividend; (D) a distribution of cash dividends on the Shares equal to or greater than 8 per cent. per annum of the then current market value of the Shares; (E) a call by the Share Company in respect of relevant Shares that are not fully paid; (F) a repurchase by the Share Company of relevant Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise; or (G) any other similar event that may have a diluting or concentrative effect on the theoretical value of the relevant Shares.

- (c) De-listing, Merger Event, Nationalisation and Insolvency. If a De-listing, Merger Event, Nationalisation or Insolvency occurs in relation to the Share Company, the Issuer in its sole and absolute discretion may take the action described in (1), (2) or (3) below:
 - (1) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the other terms of these Conditions to account for the De-listing, Merger Event, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment. The Calculation Agent may (but is under no obligation to) determine the appropriate adjustment by reference to the adjustment in respect of the De-listing, Merger Event,

Nationalisation or Insolvency made by any Related Exchange to options contracts or futures contracts or other derivatives contracts on the Shares traded on such Related Exchange; or

- (2) cancel the Securities by giving notice to Holders in accordance with General Condition 4. If the Securities are to be cancelled the Issuer will pay an amount to each Holder in respect of each Security held by him which amount shall be the fair market value of a Security (taking into account the De-listing, Merger Event, Nationalisation or Insolvency (as the case may be)) on the day selected for cancellation as shall be selected by the Issuer in its sole and absolute discretion adjusted to account fully for any losses, expenses and costs to the Issuer and/or any affiliate of the Issuer of unwinding or adjusting any underlying or related hedging arrangements (including but not limited to any equity options or selling or otherwise realising any Shares or other instruments of any type whatsoever which the Issuer and/or any of its affiliates may hold as part of such hedging arrangements), all as determined by the Calculation Agent in its sole and absolute discretion. Payment will be made in such manner as shall be notified to the Holders in accordance with General Condition 4; or
- (3) following any adjustment to the settlement of terms of options contracts or futures contracts or any other derivatives contracts on the Shares traded on any Related Exchange, require the Calculation Agent to make a corresponding adjustment to any of the other terms of these Conditions, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Related Exchange. If options contracts or futures contracts or other derivatives contracts on the Shares are not traded on the Related Exchange, the Calculation Agent will make such adjustment, if any, to any of the other terms of these Conditions as the Calculation Agent in its sole and absolute discretion determines appropriate, with reference to the rules and precedents (if any) set by the Related Exchange to account for the De-listing, Merger Event, Nationalisation or Insolvency (as the case may be) that in the determination of the Calculation Agent would have given rise to an adjustment by the Related Exchange if such options contracts or futures contracts or other derivatives contracts were so traded.

Upon the occurrence of a De-listing, Merger Event, Nationalisation or Insolvency, the Calculation Agent shall notify the Holders in accordance with General Condition 4, stating the occurrence of such De-listing, Merger Event, Nationalisation or Insolvency (as the case may be) and action proposed to be taken in relation thereto.

“**De-listing**” means a Share for any reason ceases to be listed or is suspended from listing on the Exchange (and such cessation or suspension is continuing and such Share is not subsequently listed or quoted on another stock exchange or quotation system acceptable to the Issuer).

“**Merger Date**” means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Calculation Agent.

“**Merger Event**” means any (1) reclassification or change to the Shares that results in a transfer of or an irrevocable commitment to transfer all or a majority of the outstanding Shares; (2) consolidation, amalgamation, merger or binding share exchange of a Share Company with or into another entity (other than a consolidation, amalgamation, merger or binding share exchange in which such Share Company is the continuing entity and which does not result in any such reclassification or change to all the outstanding Shares); or (3) take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Shares that results in a transfer of, or an irrevocable commitment to transfer a majority of the voting power of the Share Company to the offeror, in each case if the Merger Date is on or before the Valuation Date.

“**Nationalisation**” means that all the Shares of a Share Company or all the assets or substantially all the assets of a Share Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority or entity.

“**Insolvency**” means that by reason of the voluntary or involuntary liquidation, bankruptcy or insolvency of or any analogous proceeding affecting a Share Company, (1) all the Shares are required to be transferred to a receiver, trustee, liquidator or other similar official or (2) holders of the Shares of that Share Company become legally prohibited from transferring them.

- (d) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determinations. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

The Final Terms applicable to any Series of Securities may specify amendments to these Product Conditions in so far as they apply to that Series. Notwithstanding the foregoing, consideration will be given as to whether such amendments constitute “significant new factors” and consequently trigger the need for a supplement to the Base Prospectus (as defined in the Final Terms) under Article 16 of Directive 2003/71/EC.

CONDITIONS: PRODUCT CONDITIONS

In that case (i) the last day of the Relevant Number of Trading Days shall be deemed to be the Early Termination Date (regardless of the Market Disruption Event); and (ii) the Calculation Agent shall determine the Final Index Level having regard to the then prevailing market conditions, the last reported trading price of the Shares and such other factors as the Calculation Agent determines to be relevant;

purposes, other than with respect to any payment and/or delivery obligations, the right to which shall be vested as regards the Issuer and the Agents, solely in the bearer of the Global Security.

Accordingly, in these Conditions, the term “**Holder**” means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

The Holders shall at no time have the right to effect or demand (i) the retransformation of the Intermediated Securities into, and the delivery of, Dematerialised Securities in the case of Dematerialised Securities being the basis for the creation of Intermediated Securities, or

- (j) Verification. In respect of any Notice, the relevant Holder must provide evidence to the Principal Agent or the Swiss Agent, in either case reasonably satisfactory to the Principal Agent of its holding of such Securities.

In respect of an Index which is not a Commodity Index, “**Market Disruption Event**” means (i) a general moratorium is declared in respect of banking activities in the country in which the Exchange or any Related Exchange is located or (ii) the occurrence or existence on any Trading Day during the one hour period that ends at the official close of trading on any Exchange or any Related Exchange of any suspension of or limitation imposed on trading or the disruption or impairment in the ability of market participants in general to effect transactions (by reason of movements in price reaching or exceeding limits permitted by the relevant exchange or otherwise):

- (A) on any Exchange(s) in securities that comprise 20 per cent or more of the level of the relevant Index if, in the determination of the Calculation Agent, such suspension or limitation is material. For the purpose of determining whether such suspension or limitation is material, if trading in a security included in the Index is suspended or materially limited at that time, then the relevant percentage contribution of that security to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that security relative to (y) the overall level of the Index, in each case immediately before that suspension or limitation; or
- (B) on any Related Exchange in any options contracts or futures contracts or other derivatives contracts relating to the relevant Index. In any event, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the relevant exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

In respect of a Commodity Index, “**Market Disruption Event**” means, in relation to the Commodity Index or its components:

- (i) **Price Source Disruption.** The failure by the Exchange to announce or publish the price of the Commodity Index or any of its components (or the information

necessary for determining such price(s)) or the temporary or permanent discontinuance or unavailability of such price(s) by the Exchange; or

- (ii) **Trading Suspension.** The material suspension of trading on the Exchange; or
- (iii) **Disappearance of Price.** The permanent discontinuation of trading in the Commodity Index or any of its components on the Exchange, disappearance of, or of trading in, the Commodity Index or any of its components or the disappearance or permanent discontinuance or unavailability of a reference price, notwithstanding the availability of the related price source or the status of trading in the Commodity Index or any of its components;
- (iv) **Material Change in Formula.** The occurrence, since the Issue Date, of a material change in the basis for (including but not limited to the quantity, quality or currency), or method of, calculating the price of a component of the Commodity Index; or
- (v) **Material Change in Content.** The occurrence, since the Issue Date, of a material change in the content or composition of a Commodity Index or any of its components; or
- (vi) **De Minimis Trading.** The number of contracts traded on the Exchange with respect to a Commodity Index or any of its components is such that the Issuer declares that its ability to enter into hedging transactions with respect to the Commodity Index or any of its components has been impaired due to a lack of, or a material reduction in, trading in the Commodity Index or any of its components on the Exchange; or
- (vii) **Tax Disruption.** The imposition of, change in, or removal of, an excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or similar tax on, or measured by reference to, a Commodity Index or any of its components (other than a tax on, or measured by reference to, overall gross or net income) by any government or taxation authority after the Issue Date, if the direct effect of such imposition, change or removal is to raise or lower the price of the Commodity Index or any of its components on the Valuation Date, Issuer Call Date or the Early Termination Date, as the case may be, and/or on each of the three Trading Days following the Valuation Date, Issuer Call Date or the Early Termination Date, as the case may be, from what it would have been without that imposition, change or removal; or
- (viii) **Trading Limitation.** The material limitation imposed on trading in a Commodity Index or any of its components on any exchange or principal trading market; or

- (ix) **Moratorium.** A general moratorium is declared in respect of banking activities in the country in which the Exchange is located; or
 - (x) **Other Events.** Any other event similar to any of the above which could make it impracticable or impossible for the Issuer to perform its obligations in relation to the Securities.
- (b) Adjustments to Index. The Calculation Agent shall give notice as soon as practicable to the Holders in accordance with General Condition 4 of any determination made by it pursuant to paragraphs (1), (2), (3) or (4) below:
- (1) If the Index is (A) not calculated and announced by the Index Sponsor but is calculated and published by a successor to the Index Sponsor (the “**Successor Sponsor**”) acceptable to the Calculation Agent; or (B) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the Index, then (in either case) the Index will be deemed to be the index so calculated and announced by such Successor Sponsor or that successor index, as the case may be.
 - (2) If (A) on or prior to the Early Termination Date or Issuer Call Date, as the case may be, the Index Sponsor or, if applicable, the Successor Sponsor makes a material change in the formula for or the method of calculating the Index or in any other way materially modifies the Index (other than a modification prescribed in that formula or method to maintain the Index in the event of changes in constituent securities or components, as the case may be, and other routine events); or (B) on or prior to the Early Termination Date or Issuer Call Date, as the case may be, the Index Sponsor or, if applicable, the Successor Sponsor fails to calculate and/or publish the Index, then (in either case) the Calculation Agent shall determine the Final Index Level using, in lieu of a published level for the Index on the Early Termination Date or the Issuer Call Date, as the case may be, the level for the Index as determined by the Calculation Agent in accordance with the formula for and method of calculating the Index last in effect prior to the change or failure, but using only those (a) in respect of an Index which is not a Commodity Index, securities that comprised the Index immediately prior to the change or failure (other than those securities that have since ceased to be listed on the Exchange or any other exchange on which the Shares are listed); or (b) in respect of a Commodity Index, commodity components that comprised the Index immediately prior to the change or failure (other than those components that have since ceased to be traded on the Exchange or any other exchange) or, in the case of a material modification of the Index only, shall deem

such modified Index to be the Index so calculated and announced or shall (if so required by the Issuer), by giving notice in accordance with General Condition 4, terminate the Securities and pay to each Holder in respect of each Security held by such Holder an amount equal to the fair market value of the Security immediately prior to such material modification of the Index less the cost to the Issuer of unwinding any related hedging arrangements (as determined by the Issuer).

- (3) If, at any time, any of the events specified in (A) to (H) below occurs and the Index Sponsor or, if applicable, the Successor Sponsor has not in the opinion of the Calculation Agent made an appropriate adjustment to the level of the Index (which term excludes, for these purposes of this paragraph (3), any Commodity Index) in order to account fully for such event, notwithstanding that the rules published or applied by the Index Sponsor or, if applicable, the Successor Sponsor pertaining to the Index have been applied, the Calculation Agent shall make such adjustment to the level of the Index as it considers appropriate in order so to account for: (A) a distribution or dividend to existing holders of the Shares of (i) Shares; or (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the issuer of the Shares equally or proportionately with such payments to holders of Shares or (iii) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price; (B) a free distribution or dividend of any Shares to existing holders of the Shares by way of bonus, capitalisation or similar issue; (C) an extraordinary dividend; (D) any cash dividends declared on the Shares at a time when the relevant issuer of the Shares has not previously declared or paid dividends on such Shares for the prior four quarterly periods; (E) any non-cash dividends declared on the Shares at a time when the relevant issuer of the Shares has not previously declared or paid dividends on such Shares for the prior four quarterly periods; (F) any other extraordinary cash or non-cash dividend on, or distribution with respect to, the Shares which is, by its terms or declared intent, declared and paid outside the normal operations or normal dividend procedures of the relevant issuer of the Shares, provided that, in all cases, the related ex-dividend date occurs during the period from but including the Issue Date up to and excluding the Valuation Date; (G) a distribution of cash dividends on the Shares equal to or greater than 8 per cent. per annum of the then current market value of the Shares; and (H) any other similar event having dilutive or concentrative effect on the theoretical value of the Shares.
- (4) The Issuer reserves the right to issue further Securities, make adjustments or to distribute to the Holders any rights in connection with the Securities as it reasonably

believes are appropriate in circumstances where an event or events occur which the Issuer (in its absolute discretion and notwithstanding any adjustments previously made to the Securities) believes should, in the context of the issue of Securities and its obligations hereunder, give rise to such adjustment or distribution, provided that such adjustment is considered by the Calculation Agent either to be appropriate generally (without considering the individual circumstances of any Holder or the tax or other consequences of such adjustment in any particular jurisdiction) or to be required to take account of provisions of the laws of the relevant jurisdiction or the practices of the Exchange. The Issuer, in any event, reserves the right to in its absolute discretion terminate Securities linked to any Proprietary Index by giving notice in accordance with General Condition 4, in the event that the relevant Index Sponsor terminates, cancels or suspends, as the case may be, any such Proprietary Index.

- (c) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determinations. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

Accordingly, in these Conditions, the term “**Holder**” means a person in whose name a Security is registered in the book-entry settlement system of the Clearing Agent or any other person recognised as a holder of Securities pursuant to the Rules.

If CREST is specified as the Clearing Agent in the relevant Final Terms, the Securities will be cleared through CREST. Such Securities will be registered securities in dematerialised and uncertificated form, and will be (i) participating securities and (ii) uncertificated securities in accordance with the Uncertificated Securities Regulations 2001 (SI. No. 3755) as amended, supplemented or replaced from time to time (the “**Regulations**”).

Securities cleared through CREST may be transferred in accordance with the Regulations and the rules, procedures and practices of the relevant Operator (as defined below). No

transfer of such Securities will be valid unless and until entered on the relevant Operator register of corporate securities (as defined in and in accordance with, the Regulations).

In the case of Securities cleared through CREST, title to the Securities is recorded on the relevant Operator register of corporate securities (as defined in the Regulations). The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. Subject to this requirement, (i) each person who is for the time being shown in the Register as the holder of such Securities shall be treated by the Issuer and the Registrar as the holder of such Securities for all purposes and (ii) neither the Issuer nor the Registrar shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Register which the Registrar maintains are in accordance with particulars entered in the Operator register of corporate securities relating to such Securities (and the expression “**Holder**” and related expressions shall be construed accordingly).

Any reference to the “**Operator**” (as such term is used in the Regulations) shall be to CREST and shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator approved by the Issuer from time to time in accordance with the Regulations and notified to the relevant Holders in accordance with General Condition 4.

Any indication herein that the Operator “shall do”, or similar expression or phrase indicating that they are obliged to or will carry out any role or obligation described in the Conditions and/or the applicable Final Terms, as the case may be, is given without any assumption by the Issuer, the relevant Registrar or the Calculation Agent of responsibility or liability for the performance of the Operator.

- (c) SIX SIS Ltd as Clearing Agent. If SIX SIS Ltd is specified as the Clearing Agent, Securities will, as specified in the applicable Final Terms, be issued in the form of (i) dematerialised securities (the “**Dematerialised Securities**”) or (ii) a bearer permanent Global Security and, in either case, will be transformed into intermediated securities (the “**Intermediated Securities**”) in accordance with article 6 of the Swiss Federal Intermediated Securities Act (the “**FISA**”).

The Intermediated Securities will be created (i) by deposit of a Global Security with the Clearing Agent, acting as custodian as defined in article 4 FISA (the “**Custodian**”), or registration of Dematerialised Securities in the main register of the Clearing Agent, acting as

Custodian, and (ii) the Clearing Agent, acting as Custodian, crediting the respective rights to securities accounts of one or more of its participants with the Clearing Agent in accordance with articles 4 and 6 FISA. For each issuance of Securities in the form of Dematerialised Securities, the Clearing Agent, acting as Custodian, will maintain the main register as defined in article 6 para. 2 FISA which is available to the public under <https://www.sec.sisclear.com/sec/cm/index/custody-settlement/mainregister.htm>.

Title to the Intermediated Securities is construed and will pass in accordance with the legislation, in particular the FISA, rules and regulations applicable to and/or issued by the Clearing Agent, acting as Custodian, and any other custodian, if any, that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

The Holders shall at no time have the right to effect or demand (i) the retransformation of the Intermediated Securities into, and the delivery of, Dematerialised Securities in the case of Dematerialised Securities being the basis for the creation of Intermediated Securities, or (ii) the conversion of the Dematerialised Securities or the Global Security into definitive Securities.

- (g) Settlement Risk. Settlement of the Securities is subject to all applicable laws, regulations and practices in force at the relevant time and none of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall incur any liability whatsoever if it is unable to effect the transactions contemplated as a result of any such laws, regulations or practices. None of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall under any circumstances be liable for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.
- (h) Method of Payment. Payments will be made via the Clearing Agent(s) and will be made in accordance with the Rules (if

applicable). All payments will be subject to applicable fiscal and legal requirements applicable thereto.

- (i) **Presentation and Surrender.** Unless the Securities are cleared through CREST, the Issuer shall record payment of any amount in connection with the Securities made to the relevant Agent and such record shall be prima facie evidence that the payment in question has been made. The Holder shall be the only person entitled to receive payments of any amount paid in connection with the Securities and the Issuer will be discharged by payment to, or to the order of, the Holder in respect of the amount so paid. Where the Securities are cleared through CREST, General Condition 20 shall apply.

4 ADJUSTMENTS

- (a) **Disruption Event.** Following a Disruption Event, the Calculation Agent will determine the effect of such Disruption Event and shall as soon as reasonably practicable under the circumstances notify the Issuer of such occurrence. The Calculation Agent will account for such occurrence as it sees fit which may include but is not limited to delaying calculation of the Cash Amount, the Issuer Call Cash Amount or any Interest Amount or making the appropriate adjustment to the calculation of the Cash Amount or any Interest Amount, all in the determination of the Calculation Agent.

“Disruption Event” means:

- (i) a Market Disruption Event; or
 - (ii) an Index Adjustment Event; or
 - (iii) an Additional Disruption Event.
- (b) **Market Disruption.** The Issuer or the Calculation Agent on its behalf shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred.

In this Product Condition 4(b), **“Market Disruption Event”** means

- (i) In respect of an Index which is not a Commodity Index, (i) a general moratorium is declared in respect of banking activities in the country in which the Exchange or Related Exchange is located or (ii) the occurrence or existence on any Trading Day during the one hour period that ends at the official close of trading on the Exchange or any Related Exchange of any suspension of or limitation imposed on trading or the disruption or impairment in the ability of market participants in general to effect transactions (by reason of movements in price reaching or exceeding limits permitted by the relevant exchange or otherwise):

- (A) on any Exchange(s) in securities that comprise 20 per cent. or more of the level of the relevant Index, if in the determination of the Calculation Agent, such suspension or limitation is material. For the purpose of determining whether such suspension or limitation is material, if trading in a security included in the Index is suspended or materially limited at that time, then the relevant percentage contribution of that security to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that security relative to (y) the overall level of the Index, in each case immediately before that suspension or limitation; or
- (B) on any Related Exchange in any options contracts or futures contracts or other derivatives contracts relating to the relevant Index.

In any event, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the relevant exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

 - (vi) **De Minimis Trading.** The number of contracts traded on the Exchange with respect to a Commodity Index or any of its components is such that the Issuer declares that its ability to enter into hedging transactions with respect to the Commodity Index or any of its components has been impaired due to a lack of, or a material reduction in, trading in the Commodity Index or any of its components on the Exchange; or
 - (vii) **Tax Disruption.** The imposition of, change in, or removal of, an excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or similar tax on, or measured by reference to, a Commodity Index or any of its components (other than a tax on, or measured by reference to, overall gross or net income) by any government or taxation authority after the Issue Date, if the direct effect of such imposition, change or removal is to raise or lower the price of the Commodity Index or any of its components on the Valuation Date or Issuer Call Date, as the case may be, and/or on each of the three Trading Days following the Valuation Date or Issuer Call Date, as the case may be, from what it would have been without that imposition, change or removal; or
 - (viii) **Trading Limitation.** The material limitation imposed on trading in a Commodity Index or any of its components on any exchange or principal trading market; or
 - (ix) **Moratorium.** A general moratorium is declared in respect of banking activities in the country in which the Exchange is located; or

- (E) Material Change in Content. The occurrence, since the Issue Date, of a material change in the content, composition of each Strategy Component; or
- (F) De Minimis Trading. The number of contracts traded on the relevant Exchange with respect to each Strategy Component is such that the Issuer declares that its ability to enter into hedging transactions with respect to the relevant Strategy Component has been impaired due to a lack of, or, a material reduction in, trading in the relevant Strategy Component on the relevant Exchange; or
- (G) Tax Disruption. The imposition of, change in, or removal of an excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or similar tax on, or measured by reference to, the relevant Strategy Component (other than a tax on, or measured by reference to, overall gross or net income) by any government or taxation authority after the Issue Date, if the direct effect of such imposition, change or removal is to raise or lower the price of the relevant Strategy Component on the Valuation Date and/or on each of the three Trading Days following the Valuation Date from what it would have been without that imposition, change or removal; or
- (H) Trading Limitation. The material limitation imposed on trading in the relevant Strategy Component with respect to it or any contract with respect thereto on any exchange or principal trading market; or
- (I) Any other event similar to any of the above, which could make it impracticable or impossible for the Issuer to perform its obligations in relation to the Securities.

- (c) Index Adjustment Event. The Issuer or the Calculation Agent on its behalf shall give notice as soon as practicable to the Holders in accordance with General Condition 4 of any determination made by it pursuant to paragraphs (i), (ii), (iii) or (iv) below:
- (i) If the Index is: (A) not calculated and announced by the Index Sponsor but is calculated and published by a successor to the Index Sponsor (the “**Successor Sponsor**”) acceptable to the Calculation Agent; or (B) replaced by a successor index using in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the Index, then (in either case) the Index will be deemed to be the index so calculated and announced by such Successor Sponsor or that successor index, as the case may be.
 - (ii) If: (A) on or prior to the Valuation Date or, if applicable, the Issuer Call Date, as the case may be, the Index Sponsor or, if applicable, the Successor Sponsor, makes a material change in the formula for or the method of calculating the Index or in any other way materially modifies the Index (other than a modification prescribed in that formula or method to maintain the Index in the event of changes in constituent securities or components, as the case may be, and other routine events); or (B) on or prior to the Valuation Date or, if applicable, the Issuer Call Date, as the case may be, the Index Sponsor or, if applicable the Successor Sponsor, fails to calculate and/or publish the Index; then (in either case) the Calculation Agent shall determine the Final Reference Value using, in lieu of a published level(s) for the Index on the Valuation Date or, if applicable, the Issuer Call Date, as the case may be, the level for the Index as determined by the Calculation Agent in accordance with the formula for and method of calculating the Index last in effect prior to the change or failure, but using only those (a) in respect of an Index which is not a Commodity Index, securities that comprised the Index immediately prior to the change or failure (other than those securities that have since ceased to be listed on the Exchange or any other exchange on which the Shares are listed); or (b) in respect of a Commodity Index, commodity components that comprised the Index immediately prior to the change or failure (other than those components that have since ceased to be traded on the Exchange or any other exchange) or in the case of a material modification of the Index only, the Calculation Agent shall deem such modified Index to be the Index so calculated and announced or shall (if so required by the Issuer), by giving notice in accordance with General Condition 4, terminate the Securities and pay to each Holder in respect of each Security held by such Holder an amount equal to the fair market value of the Security immediately prior to such material modification of the

Index less the cost to the Issuer of unwinding any related hedging arrangements (as determined by the Issuer).

- (iii) If, at any time, any of the events specified in (A) to (I) below occurs and the Index Sponsor or, if applicable, the Successor Sponsor, has not in the opinion of the Calculation Agent made an appropriate adjustment to the level of the Index (which term excludes, for these purposes of this paragraph (iii), any Commodity Index) in order to account fully for such event, notwithstanding that the rules published or applied by the Index Sponsor or, if applicable, the Successor Sponsor, pertaining to the Index have been applied, the Calculation Agent shall make such adjustment to the level of the Index as it considers appropriate in order so to account for:
 - (A) (i) a distribution or dividend to existing holders of the Shares; or (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the issuer of the Shares equally or proportionately with such payments to holders of Shares or (iii) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price; (B) a free distribution or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price; (C) a free distribution or dividend of any Shares to existing holders of the Shares by way of bonus, capitalisation or similar issue; (D) an extraordinary dividend; (E) any cash dividends declared on the Shares at a time when the relevant issuer of the Shares has not previously declared or paid dividends on such Shares for the prior four quarterly periods; (F) any non-cash dividends declared on the Shares at a time when the relevant issuer of the Shares has not previously declared or paid dividends on such Shares for the prior four quarterly periods; (G) any other extraordinary cash or non-cash dividend on, or distribution with respect to, the Shares which is, by its terms or declared intent, declared and paid outside the normal operations or normal dividend procedures of the relevant issuer of the Shares, provided that, in all cases, the related ex-dividend date occurs during the period from but including the Issue Date up to and excluding the Valuation Date or the Issuer Call Date, if applicable; (H) a distribution of cash dividends on the Shares equal to or greater than 8 per cent. per annum of the then current market value of the Shares; (I) any other similar event having dilutive or concentrative effect on the theoretical value of the Shares.
- (iv) The Issuer reserves the right to make adjustments or to distribute to the Holders any rights in connection with the Securities as it reasonably believes are appropriate in circumstances where an event or events occur which the Issuer (in its absolute discretion and notwithstanding any adjustments previously made to the Securities)

believes should in the context of the issue of Securities and its obligations hereunder, give rise to such adjustment or distribution, provided that such adjustment is considered by the Calculation Agent to be appropriate generally (without considering the individual circumstances of any Holder or the tax or other consequences of such adjustment in any particular jurisdiction) or is required to take account of provisions of the laws of the relevant jurisdiction or the practices of the Exchange. The Issuer, in any event, reserves the right to in its absolute discretion terminate Securities linked to any Proprietary Index by giving notice in accordance with General Condition 4, in the event that the relevant Index Sponsor terminates, cancels or suspends, as the case may be, any such Proprietary Index.

(i), (ii) and (iv) above shall apply in the same context to the Strategy.

(d) Fund Events. Each of the following events constitutes a “**Fund Event**”. The Fund Events are for the benefit of the Issuer in order that the Issuer is protected against any adverse effects of such Fund Events on its Hedge Position. The Issuer, or the Calculation Agent on its behalf, shall make all determinations in respect of such Fund Events including as to whether such Fund Event has occurred and the effective date of such occurrence. In order to constitute a Fund Event, the Issuer or the Calculation Agent on its behalf must conclude that the event in question either has resulted or is reasonably likely to result in an adverse effect on the value of the Fund Reference Assets or the NAV of the Fund or on the rights of any investor therein with respect to the Fund Reference Assets or the Fund or otherwise has materially adversely affected its Hedge Position.

- (E) (i) In respect of any Fund Reference Asset, the occurrence of any event affecting such Fund Reference Asset that, in the determination of the Issuer or the Calculation Agent on its behalf, would make it impossible or impracticable for the Issuer or the Calculation Agent to determine the value of such Fund Reference Asset, and the Issuer or the Calculation Agent on its behalf determines that such event will not be, or has not been, resolved within 15 calendar days from the occurrence of such event; (ii) any failure of the Fund, any Fund Service Provider or any director of the Fund to deliver, or cause to be delivered, (A) information that such person has agreed to deliver, or cause to be delivered, to the Issuer, the Calculation Agent, any of the Issuer's affiliates or any Hedge Provider in respect of the Fund (including, without limitation, any information required by the Issuer or the Calculation Agent in the execution of its duties and obligations under the Securities or required by the Issuer or the Calculation Agent in order to determine whether any Fund Event has occurred or to make any other determination permitted by it in respect of the Securities) or (B) information that has been previously delivered to the Issuer, the Calculation Agent, any of the Issuer's affiliates or any Hedge Provider, in accordance with such person's, or its authorised representative's, normal practice and that the Issuer or the Calculation Agent deems necessary for it to perform its duties and obligations under the Securities or that the Issuer or the Calculation Agent deems is required by it in order to determine whether any Fund Event has occurred or to make any other determination permitted by it in respect of the Securities (including, in either case, monitoring the Fund's compliance with any Portfolio Guidelines, asset allocation methodologies, the occurrence of any Fund Event or any other similar policies relating to such Fund Reference Assets).

(iii) Fund Reference Assets:

Any of the following events relating to the Fund Reference Assets occurs:

- (A) a subdivision, reclassification or distribution of Fund Reference Assets which has a diluting or concentrative or other effect on the value (theoretical or otherwise) of the Fund Reference Assets;
- (B) a portion of each Fund Reference Asset is converted (whether by way of redemption and re-issue or otherwise) into new securities participating in the capital of the Fund, which securities are subject to lock-up periods during which they may not be redeemed and which relate to any segregated assets of the Fund, or the Fund creates any other form of “side-pocket” which affects the Fund Reference Assets;
- (C) a (i) dividend (including cash and whether ordinary or extraordinary), (ii) distribution or (iii) issue of Fund Reference Assets, capital, securities, rights or other assets or interests to existing holders of Fund Reference Assets which has or is likely to have an adverse effect on the value (theoretical or otherwise) of the Fund Reference Assets;
- (D) any suspension or limitation on the trading of the relevant currencies in which the Fund Reference Assets are denominated or any amendment to the currency of denomination of the Fund Reference Assets so that their price is no longer calculated in the same currency as at the Inclusion Date of the Fund; or

(iv) Trading and Fees:

- (A) In respect of the Fund Reference Assets, the Fund or any Fund Service Provider increases the level of any redemption fee, subscription fee, management fee, performance fee or a bid/offer spread (or other charge however described) above the level that would have been applicable to any Fund Reference Assets held by any of the Issuer, any affiliate of the Issuer or any Hedge Provider on the Inclusion Date (regardless of whether any such person actually holds any Fund Reference Assets as of such date).
- (B) Any suspension of or limitation imposed on trading of the Fund or on trading in the Fund Reference Assets (for any reason, including, without limitation, by reason of liquidity restrictions) or any dealing request made

by any investor or prospective investor in the Fund or the Fund Reference Assets is deferred in whole or in part or is made at a value other than the related NAV or price, as applicable.

- (C) The frequency at which Fund Reference Assets can be traded is amended or the timing for subscription or redemption of Fund Reference Assets is amended, in each case so that it is no longer that specified in the Fund Documents and/or Fund Prospectus as they prevailed on the Inclusion Date, including, without limitation, an amendment to the timetable for payment of redemption proceeds upon redemption.
- (D) If any of the Issuer, any of its affiliates or any Hedge Provider redeems Fund Reference Assets or is entitled to any other amount and:
 - (I) does not receive the full proceeds of such redemption or amount in cash in accordance with the timing set out in the Fund Documents or the Fund Prospectus; or
 - (II) receives any in-kind distribution in full or part satisfaction of the redemption proceeds or such other amount paid or payable to it, or the Issuer or the Calculation Agent on its behalf determines that either (I) or (II) above would be applicable were the Issuer, any of its affiliates or any Hedge Provider to redeem Fund Reference Assets or be entitled to actual payment of any such other amount.

 - (A) The Fund Adviser indicates or acknowledges that in its opinion the strategy/investment objective of the Fund will not be, or is no longer able to be, met.

personnel of any Fund Service Provider occurs which the Issuer or the Calculation Agent on its behalf considers materially adversely affects the ability of such Fund Service Provider to carry out its duties with respect to the Fund.

(D) The Issuer or the Calculation Agent on its behalf becomes aware of any failure by the Fund or any person on its behalf to disclose to the Issuer or the Calculation Agent on its behalf, on or before the Inclusion Date, any information, event or circumstance that was in existence on such date and that would have been necessary to enable the Issuer or the Calculation Agent to make an informed assessment of the assets and liabilities, financial position and prospects of the Fund and of the rights attaching to the Fund Reference Assets.

(vi) General: Any other event occurs which the Issuer or the Calculation Agent on its behalf determines is analogous to any of the events specified in sub-paragraphs (i) to (v) above.

(e) Consequences of a Fund Event.

In respect of each Fund Event, following the occurrence of such an event (and regardless of whether or not such event is then continuing) the Issuer or the Calculation Agent on its behalf may take any of following actions (each, a “**Permitted Action**”):

(i) (A) make such adjustments to any variable, calculation methodology, valuation, settlement or payment terms or any other terms and conditions of the Securities as the Issuer or the Calculation Agent on its behalf determines appropriate to account for the economic effect on the Securities of such Fund Event and (B) determine the effective date of the relevant adjustments; or

(ii) select a Replacement Fund and a Substitution Date. Following any such selection (A) the Replacement Fund shall replace the affected Fund on the Substitution Date, (B) references herein to the name of the affected Fund shall be deemed to be references to the name of the Replacement Fund with effect from the Substitution Date and (C) the Issuer or the Calculation Agent on its behalf may make such adjustment as it determines to be appropriate, if any, to any variable, calculation methodology, valuation, settlement or payment terms or any other terms and conditions in relation to the Securities to reflect such substitution; or

- (iii) terminate all, but not some only, of the Securities, on the date notified to Holders in accordance with General Condition 4 and redeem the Securities at their fair market value immediately prior to such Fund Event less (i) the cost to the Issuer of unwinding any related hedging and funding arrangements (as determined by the Issuer); and (ii) the deduction of taxes, expenses and other similar charges; or
- (iv) make such adjustments to any variable, calculation methodology, valuation, settlement or payment terms or any other terms and conditions of the Securities as the Issuer or the Calculation Agent on its behalf determines are necessary to reflect a notional liquidation of all of the Fund Reference Assets (with the timing of such notional liquidations being the same timing as would be the case on an actual liquidation of Fund Reference Assets at the relevant time) and a notional investment of the liquidation proceeds in either (A) a zero coupon bond, or equivalent, such that, if the proceeds allow, the amount payable at redemption of such zero coupon bond is at least an amount per Security equal to the Issue Price of the Security, (B) an interest bearing deposit bearing interest at prevailing rates that would be offered by the Issuer in respect of such a deposit as determined by the Issuer or the Calculation Agent on its behalf, or (C) commercial paper rated at least A1/P1 or above by Moody's Investors Service, Inc. (any transaction costs that would be incurred in respect of an actual such investment may be notionally charged to the Securities) (any of (A), (B) or (C), a "**Suspension Asset**").

Notwithstanding that the Issuer or the Calculation Agent on its behalf may have previously determined not to take a Permitted Action, or to take one Permitted Action, it shall not be prevented from subsequently or concurrently deciding to adopt an additional or different Permitted Action in respect of the same Fund Event (whether on one or any number of occasions). In such respect, the Issuer or the Calculation Agent on its behalf may make such adjustments to any variable, calculation methodology, valuation, settlement or payment terms or any other terms and conditions of the Securities as it determines appropriate to account for the decision subsequently or concurrently made.

Notwithstanding anything in this sub-paragraph 4(d), neither the Issuer nor the Calculation Agent is under any obligation to determine that a Fund Event has occurred or to take any or all of the Permitted Actions. Any determinations made by the Issuer or the Calculation Agent on its behalf in respect of any of the Permitted Actions shall, in the absence of manifest error, be binding.

- (f) Fund Event Methodology and Determinations:

- (i) If, in respect of any determination or calculation hereunder which is made by reference to an official or estimated NAV of a Fund provided or published by or on behalf of the Fund or, where the Fund is an exchange traded fund, the last reported trading price of the Fund Reference Asset on the Exchange in respect of a particular date, the Issuer or the Calculation Agent on its behalf determines that such value does not fairly represent the value of the Fund or Fund Reference Asset as of such date, or that no such value is provided or published, then the Issuer or the Calculation Agent on its behalf may use such other value as it determines as representing a fair NAV or price, as applicable, as of such date or, alternatively, may use a preceding official or estimated value where it believes that such preceding official or estimated value gives a fairer representation than the more recent figure.
- (ii) Should the Fund operate equalisation procedures in respect of performance or incentive based fees, the Issuer or the Calculation Agent on its behalf may make such adjustments to these Product Conditions as the Issuer or the Calculation Agent on its behalf determines appropriate to account for such equalisation in an equitable manner and, where such equalisation procedures operate by the issuance of different classes of shares in the Fund, then each of the Issuer and the Calculation Agent is permitted to deem any notional subscription or redemption on behalf of the Securities to be in such order and in respect of such classes as appear to it to be equitable and reasonable or to deem the return of such shares to be based on a benchmark or average of the different classes.
- (iii) For the avoidance of doubt and notwithstanding any other Condition, the Issuer and the Calculation Agent on its behalf shall be entitled to make any determination, waiver, declaration or decision with regard to a Fund Event and, without limitation, may make such determination, waiver, declaration or decision by reference to the establishment, operation and/or efficacy (whether actual or anticipated) of any Relevant Hedging Transaction. Neither the Issuer nor the Calculation Agent is under any obligation to monitor or determine whether or not a Fund Event has occurred and will not be required to, and will not be responsible for any failure to, make any determination, waiver, declaration or decision whatsoever in relation to a Fund Event. In making or omitting to make any such determination, waiver, declaration or decision, neither the Issuer nor the Calculation Agent shall be under any fiduciary duty towards the Holders and, for the avoidance of doubt, neither the Issuer nor the Calculation Agent shall be responsible for any loss, underperformance or opportunity cost suffered or incurred by Holders in connection with the Securities as a result thereof, howsoever arising. The Calculation Agent may make adjustments to

the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determinations. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

The Final Terms applicable to any Series of Securities may specify amendments to these Product Conditions in so far as they apply to that Series. Notwithstanding the foregoing, consideration will be given as to whether such amendments constitute “significant new factors” and consequently trigger the need for a supplement to the Base Prospectus (as defined in the Final Terms) under Article 16 of Directive 2003/71/EC.

Each person (other than another Clearing Agent) who is for the time being shown in the records of the relevant Clearing Agent as the owner of a particular nominal amount of the Securities (in which regard any certificate or other document issued by the relevant Clearing Agent as to the nominal amount of the Securities standing to the credit of the account of any person shall be conclusive and binding for all purposes except in the case of manifest error) shall be treated by the Issuer and each Agent as the holder of such nominal amount of the Securities (and the term **“Holder”** shall be construed accordingly) for all purposes, other than with respect

to any payment and/or delivery obligations, the right to which shall be vested as regards the Issuer and the Agents, solely in the bearer of the Global Security.

- (b) Dematerialised Form. Certain Securities will, where required by the rules and procedures of the Clearing Agent, be issued in dematerialised form and will be registered in the book-entry system of the Clearing Agent. Title to the Securities will pass by transfer between accountholders at the Clearing Agent perfected in accordance with the legislation, rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means a person in whose name a Security is registered in the book-entry settlement system of the Clearing Agent or any other person recognised as a holder of Securities pursuant to the Rules.

If CREST is specified as the Clearing Agent in the relevant Final Terms, the Securities will be cleared through CREST. Such Securities will be registered securities in dematerialised and uncertificated form, and will be (i) participating securities and (ii) uncertificated securities in accordance with the Uncertificated Securities Regulations 2001 (SI. No. 3755) as amended, supplemented or replaced from time to time (the “**Regulations**”).

No transfer of such Securities will be valid unless and until entered on the relevant Operator register of corporate securities (as defined in and in accordance with, the Regulations).

In the case of Securities cleared through CREST, title to the Securities is recorded on the relevant Operator register of corporate securities (as defined in the Regulations). The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. Subject to this requirement, (i) each person who is for the time being shown in the Register as the holder of such Securities shall be treated by the Issuer and the Registrar as the holder of such Securities for all purposes and (ii) neither the Issuer nor the Registrar shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Register which the Registrar maintains are in accordance with particulars entered in the Operator register of corporate securities relating to such Securities (and the expression “**Holder**” and related expressions shall be construed accordingly).

Any reference to the “**Operator**” (as such term is used in the Regulations) shall be to CREST and shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator approved by the Issuer from time to time in accordance with the Regulations and notified to the relevant Holders in accordance with General Condition 4.

Any indication herein that the Operator “shall do”, or similar expression or phrase indicating that they are obliged to or will carry out any role or obligation described in the Conditions and/or the applicable Final Terms, as the case may be, is given without any assumption by the Issuer, the relevant Registrar or the Calculation Agent of responsibility or liability for the performance of the Operator.

If SIX SIS Ltd is specified as the Clearing Agent, Securities will, as specified in the applicable Final Terms, be issued in the form of (i) dematerialised securities (the “**Dematerialised Securities**”) or (ii) a bearer permanent Global Security and, in either case, will be transformed into intermediated securities (the “**Intermediated Securities**”) in accordance with article 6 of the Swiss Federal Intermediated Securities Act (the “**FISA**”).

The Intermediated Securities will be created (i) by deposit of a Global Security with the Clearing Agent, acting as custodian as defined in article 4 FISA (the “**Custodian**”), or registration of Dematerialised Securities in the main register of the Clearing Agent, acting as Custodian, and (ii) the Clearing Agent, acting as Custodian, crediting the respective rights to securities accounts of one or more of its participants with the Clearing Agent in accordance with articles 4 and 6 FISA. For each issuance of Securities in the form of Dematerialised Securities, the Clearing Agent, acting as Custodian, will maintain the main register as defined in article 6 para. 2 FISA which is available to the public under <https://www.sec.sisclear.com/sec/cm/index/custody-settlement/mainregister.htm>.

Title to the Intermediated Securities is construed and will pass in accordance with the legislation, in particular the FISA, rules and regulations applicable to and/or issued by the Clearing Agent, acting as Custodian, and any other custodian, if any, that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “Holder” means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

The Holders shall at no time have the right to effect or demand (i) the retransformation of the Intermediated Securities into, and the delivery of, Dematerialised Securities in the case of Dematerialised Securities being the basis for the creation of Intermediated Securities, or

(ii) the conversion of the Dematerialised Securities or the Global Security into definitive Securities.

Payments will be made via the Clearing Agent(s) and will be made in accordance with the Rules (if applicable). All payments will be subject to applicable fiscal and legal requirements applicable thereto.

The Holder shall be the only person entitled to receive payments of any amount paid in connection with the Securities and the Issuer will be discharged by payment to, or to the order of, the Holder in respect of the amount so paid. Where the Securities are cleared through CREST, General Condition 20 shall apply.

4. ADJUSTMENTS

- (a) **Market Disruption in relation to a Share.** The Issuer or the Calculation Agent on its behalf shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred.

In this Product Condition 4(a), a "**Market Disruption Event**" means:

- (1) the occurrence or existence on any Trading Day during the one hour period that ends at the official close of trading on the Exchange or any Related Exchange of any suspension of or limitation imposed on trading or the disruption or impairment in the ability of market participants in general to effect transactions (by reason of movements in price reaching or exceeding limits permitted by the relevant exchange or otherwise):
 - (A) in the Shares on the Exchange or any other exchange on which the Shares are listed; or
 - (B) in any options contracts or futures contracts or other derivatives contracts relating to the Shares on any Related Exchange if, in the determination of the Calculation Agent, such suspension or limitation is material; or
- (2) a general moratorium is declared in respect of banking activities in the country in which the Exchange or any Related Exchange is located.

For the purposes of this definition, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the Exchange or any Related Exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the Exchange or any Related Exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event. (b) Market Disruption in relation to an Index. The Issuer or the Calculation Agent on its behalf shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred.

In this Product Condition 4(b), in respect of an Index which is not a Commodity Index, a "**Market Disruption Event**" means (i) a general moratorium is declared in respect of banking activities in the country in which the Exchange or Related Exchange is located or (ii) the occurrence or existence on any Trading Day during the one hour period that ends at the official close of trading on the Exchange or any Related Exchange of any suspension of or limitation imposed on trading or the disruption or impairment in the ability of market participants in general to effect transactions (by reason of movements in price reaching or exceeding limits permitted by the relevant exchange or otherwise):

- (1) on any Exchange(s) in securities that comprise 20 per cent or more of the level of the relevant Index if, in the determination of the Calculation Agent, such suspension or limitation is material. For the purpose of determining whether such suspension or

limitation is material, if trading in a security included in the Index is suspended or materially limited at that time, then the relevant percentage contribution of that security to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that security relative to (y) the overall level of the Index, in each case immediately before that suspension or limitation; or

- (2) on any Related Exchange in any options contracts or futures contracts or other derivatives contracts relating to the relevant Index. In any event, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the relevant exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

In this Product Condition 4(b) in respect of a Commodity Index, “**Market Disruption Event**” means, in relation to the Commodity Index or its components:

- (i) **Price Source Disruption.** The failure by the Exchange to announce or publish the price of the Commodity Index or any of its components (or the information necessary for determining such price(s)) or the temporary or permanent discontinuance or unavailability of such price(s) by the Exchange; or

- (iii) **Disappearance of Price.** The permanent discontinuation of trading in the Commodity Index or any of its components on the Exchange, disappearance of, or of trading in, the Commodity Index or any of its components or the disappearance or permanent discontinuance or unavailability of a reference price, notwithstanding the availability of the related price source or the status of trading in the Commodity Index or any of its components;
- (iv) **Material Change in Formula.** The occurrence, since the Issue Date, of a material change in the basis for (including but not limited to the quantity, quality or currency), or method of, calculating the price of a relevant component of the Commodity Index; or

- (vi) **De Minimis Trading.** The number of contracts traded on the Exchange with respect

to a Commodity Index or any of its components is such that the Issuer declares that its ability to enter into hedging transactions with respect to the Commodity Index or any of its components has been impaired due to a lack of, or a material reduction in, trading in the Commodity Index or any of its components on the Exchange; or

- (vii) **Tax Disruption.** The imposition of, change in, or removal of, an excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or similar tax on, or measured by reference to, a Commodity Index or any of its components (other than a tax on, or measured by reference to, overall gross or net income) by any government or taxation authority after the Issue Date, if the direct effect of such imposition, change or removal is to raise or lower the price of the Commodity Index or any of its components on the Valuation Date or Issuer Call Date, as the case may be, and/or on each of the three Trading Days following the Valuation Date or Issuer Call Date, as the case may be, from what it would have been without that imposition, change or removal; or
 - (viii) **Trading Limitation.** The material limitation imposed on trading in a Commodity Index or any of its components on any exchange or principal trading market; or
 - (ix) **Moratorium.** A general moratorium is declared in respect of banking activities in the country in which the Exchange is located; or

- (c) Market Disruption in relation to an Index Future. The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred. In this Product Condition 4(c), a Market Disruption Event means:
- (a) **Price Source Disruption.** The failure by the Exchange to announce or publish the Index Future Price (or the information necessary for determining such price), or the temporary or permanent discontinuance or unavailability of such price by the Exchange on a Valuation Date; or
 - (b) **Trading Suspension.** The material suspension of trading on the Exchange or any Related Exchange; or
 - (c) **Disappearance of Price.** The failure of trading to commence, or the permanent discontinuation of trading of the Index Future on the Exchange; or

- (d) Material Change in Formula. The occurrence, since the Pricing Date, of a material change in the basis for (including but not limited to the quantity, quality or currency), or method of, calculating the Index Future Price; or
 - (e) Material Change in Content. The occurrence, since the Pricing Date, of a material change in the content or composition of the Index Future Price; or
 - (f) De Minimis Trading. The number of contracts traded on the Exchange with respect to the Index Future is such that the Issuer declares that its ability to enter into hedging transactions with respect to the Index Future has been impaired due to a lack of, or a material reduction in, trading in the Index Future on the Exchange; or
 - (g) Tax Disruption. The imposition of, change in, or removal of, an excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or similar tax on, or measured by reference to, the Index Future (other than a tax on, or measured by reference to, overall gross or net income) by any government or taxation authority after the Pricing Date, if the direct effect of such imposition, change or removal is to raise or lower the Index Future Price on a Valuation Date and/or on each of the three Trading Days following a Valuation Date from what it would have been without that imposition, change or removal; or
 - (h) Trading Limitation. The material limitation imposed on trading in the Index Future with respect to it or any contract with respect to it on any exchange or principal trading market; or
 - (i) Moratorium. A general moratorium is declared in respect of banking activities in the country in which the Exchange or Related Exchange is located; or
 - (j) Other Events. Any other event similar to any of the above, which could make it impracticable or impossible for the Issuer to perform its obligations in relation to the Securities.
- (d) Potential Adjustment Events in relation to a Share. Following a declaration by the Share Company of the terms of any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Share and, if so, will:
- (1) make the corresponding adjustment, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate to account for that diluting or concentrative effect; and
 - (2) determine the effective date of that adjustment.

The Calculation Agent may, but need not, determine the adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Shares traded on that options exchange. Upon making any such adjustment, the Calculation Agent shall notify the Holders in accordance with General Condition 4, stating the adjustment to be made to the Conditions and giving brief details of the Potential Adjustment Event.

“Potential Adjustment Event” in this Product Condition 4(d) means any of the following: (A) a subdivision, consolidation or reclassification of relevant Shares (unless a Merger Event) or a free distribution or dividend of such Shares to existing holders of the relevant Shares by way of bonus, capitalisation, recapitalisation or similar issue; (B) a distribution or dividend to existing holders of the relevant Shares of (aa) such Shares, or (bb) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Share Company equally or proportionately with such payments to holders of such Shares, or (cc) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other) at less than the prevailing market price as determined by the Calculation Agent; (C) an extraordinary dividend; (D) a distribution of cash dividends on the Shares equal to or greater than 8 per cent. per annum of the then current market value of the Shares; (E) a call by the Share Company in respect of relevant Shares that are not fully paid; (F) a repurchase by the Share Company of relevant Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise; or (G) any other similar event that may have a diluting or concentrative effect on the theoretical value of the relevant Shares.

- (e) De-listing, Merger Event, Nationalisation and Insolvency. If a De-listing, Merger Event, Nationalisation or Insolvency occurs in relation to the Share Company, the Issuer in its sole and absolute discretion may take the action described in (1), (2) or (3) below:
- (1) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the other terms of these Conditions to account for the De-listing, Merger Event, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment. The Calculation Agent may (but is under no obligation to) determine the appropriate adjustment by reference to the adjustment in respect of the De-listing, Merger Event, Nationalisation or Insolvency made by any Related Exchange to options contracts or futures contracts or other derivatives contracts on the Shares traded on such Related Exchange; or

- (2) cancel the Securities by giving notice to Holders in accordance with General Condition 4. If the Securities are to be cancelled the Issuer will pay an amount to each Holder in respect of each Security held by him which amount shall be the fair market value of a Security (taking into account the De-listing, Merger Event, Nationalisation or Insolvency (as the case may be)) on the day selected for cancellation as shall be selected by the Issuer in its sole and absolute discretion adjusted to account fully for any losses, expenses and costs to the Issuer and/or any affiliate of the Issuer of unwinding or adjusting any underlying or related hedging arrangements (including but not limited to any equity options or selling or otherwise realising any Shares or other instruments of any type whatsoever which the Issuer and/or any of its affiliates may hold as part of such hedging arrangements), all as determined by the Calculation Agent in its sole and absolute discretion. Payment will be made in such manner as shall be notified to the Holders in accordance with General Condition 4; or
- (3) following any adjustment to the settlement of terms of options contracts or futures contracts or any other derivatives contracts on the Shares traded on any Related Exchange, require the Calculation Agent to make a corresponding adjustment to any of the other terms of these Conditions, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Related Exchange. If options contracts or futures contracts or other derivatives contracts on the Shares are not traded on the Related Exchange, the Calculation Agent will make such adjustment, if any, to any of the other terms of these Conditions as the Calculation Agent in its sole and absolute discretion determines appropriate, with reference to the rules and precedents (if any) set by the Related Exchange to account for the De-listing, Merger Event, Nationalisation or Insolvency (as the case may be) that in the determination of the Calculation Agent would have given rise to an adjustment by the Related Exchange if such options contracts or futures contracts or other derivatives contracts were so traded.

Upon the occurrence of a De-listing, Merger Event, Nationalisation or Insolvency, the Calculation Agent shall notify the Holders in accordance with General Condition 4, stating the occurrence of such De-listing, Merger Event, Nationalisation or Insolvency (as the case may be) and the action proposed to be taken in relation thereto.

“**De-listing**”, in this Product Condition 4(e) only, means a Share for any reason ceases to be listed or is suspended from listing on the Exchange or any other exchange on which the Shares are listed (and such cessation or suspension is continuing and such Share is not

subsequently listed or quoted on another stock exchange or quotation system acceptable to the Issuer).

“**Merger Date**” means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Calculation Agent.

“**Merger Event**”, in this Product Condition 4(e) only, means any (1) reclassification or change to the Shares that results in a transfer of or an irrevocable commitment to transfer all or a majority of outstanding Shares; (2) consolidation, amalgamation, merger or binding share exchange of a Share Company with or into another entity (other than a consolidation, amalgamation, merger or binding share exchange in which such Share Company is the continuing entity and which does not result in any such reclassification or change to all the outstanding Shares); or (3) take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Shares that results in a transfer of, or an irrevocable commitment to transfer a majority of the voting power in the Share Company to the offeror, in each case if the Merger Date is on or before the relevant Valuation Date.

“**Nationalisation**” means that all the Shares of a Share Company or all the assets or substantially all the assets of a Share Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority or entity.

“**Insolvency**” means that by reason of the voluntary or involuntary liquidation, bankruptcy or insolvency of or any analogous proceeding affecting a Share Company (1) all the Shares are required to be transferred to a receiver, trustee, liquidator or other similar official or (2) holders of the Shares of that Share Company become legally prohibited from transferring them.

(f) Potential Adjustment Events in relation to an Index. The Calculation Agent shall give notice as soon as practicable to the Holders in accordance with General Condition 4 of any determination made by it pursuant to paragraphs (1), (2), (3) or (4) below. In this Product Condition 4(f) “**Potential Adjustment Event**” means:

(1) If any Index is (A) not calculated and announced by the Index Sponsor but is calculated and published by a successor to the Index Sponsor (the “**Successor Sponsor**”) acceptable to the Calculation Agent; or (B) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the relevant Index, then (in either case) the relevant Index will be deemed to be the

index so calculated and announced by such Successor Sponsor or that successor index, as the case may be.

- (2) If (A) on or prior to the relevant Valuation Date the Index Sponsor or, if applicable, the Successor Sponsor makes a material change in the formula for or the method of calculating any Index or in any other way materially modifies an Index (other than a modification prescribed in that formula or method to maintain the Index in the event of changes in constituent securities or components, as the case may be, and other routine events); or (B) on or prior to the relevant Valuation Date the Index Sponsor or, if applicable, the Successor Sponsor fails to calculate and/or publish any Index; then (in either case) the Calculation Agent shall determine the Index Final Reference Price using, in lieu of a published level for the relevant Index on the relevant Valuation Date, the level for the relevant Index as determined by the Calculation Agent in accordance with the formula for and method of calculating the relevant Index last in effect prior to the change or failure, but using only those (a) in respect of an Index which is not a Commodity Index, securities that comprised the relevant Index immediately prior to the change or failure (other than those securities that have since ceased to be listed on the Exchange or any other exchange on which the Index Shares are listed); or (b) in respect of a Commodity Index, commodity components that comprised the Index immediately prior to the change or failure (other than those components that have since ceased to be traded on the Exchange or any other exchange) or, in the case of a material modification of the Index only, shall deem such modified Index to be the Index so calculated and announced or shall (if so required by the Issuer), by giving notice in accordance with General Condition 4, terminate the Securities and pay to each Holder in respect of each Security held by such Holder an amount equal to the fair market value of the Security immediately prior to such material modification of the Index less the cost to the Issuer of unwinding any related hedging arrangements (as determined by the Issuer).
- (3) If, at any time, any of the events specified in (A) to (H) below occurs and the Index Sponsor or, if applicable, the Successor Sponsor has not in the opinion of the Calculation Agent made an appropriate adjustment to the level of the relevant Index (which term excludes, for these purposes of this paragraph (3), any Commodity Index) in order to account fully for such event, notwithstanding that the rules published or applied by the Index Sponsor or, if applicable, the Successor Sponsor pertaining to the Index have been applied, the Calculation Agent shall make such adjustment to the level of the relevant Index as it considers appropriate in order so to account for: (A) a distribution or dividend to existing holders of the Index Shares of

(i) the Index Shares; or (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the issuer of the Index Shares equally or proportionately with such payments to holders of the Index Shares of Index Shares or (iii) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price; (B) a free distribution or dividend of any Index Shares to existing holders of the Index Shares by way of bonus, capitalisation or similar issue; (C) an extraordinary dividend; (D) any cash dividends declared on the Index Shares at a time when the relevant issuer of the Index Shares has not previously declared or paid dividends on such Index Shares for the prior four quarterly periods; (E) any non-cash dividends declared on the Index Shares at a time when the relevant issuer of the Index Shares has not previously declared or paid dividends on such Index Shares for the prior four quarterly periods; (F) any other extraordinary cash or non-cash dividend on, or distribution with respect to, the Index Shares which is, by its terms or declared intent, declared and paid outside the normal operations or normal dividend procedures of the relevant issuer of the Index Shares, provided that, in all cases, the related ex-dividend date occurs during the period from but including the Issue Date up to and excluding the relevant Valuation Date; (G) a distribution of cash dividends on the Index Shares equal to or greater than 8 per cent. per annum of the then current market value of the Index Shares; and (H) any other similar event having a dilutive or concentrative effect on the theoretical value of the Index Shares.

- (4) The Issuer reserves the right to issue further Securities, make adjustments or to distribute to the Holders any rights in connection with the Securities as it reasonably believes are appropriate in circumstances where an event or events occur which the Issuer (in its absolute discretion and notwithstanding any adjustments previously made to the Securities) believes should, in the context of the issue of Securities and its obligations hereunder, give rise to such adjustment or distribution, provided that such adjustment is considered by the Calculation Agent either to be appropriate generally (without considering the individual circumstances of any Holder or the tax or other consequences of such adjustment in any particular jurisdiction) or to be required to take account of provisions of the laws of the relevant jurisdiction or the practices of the Exchange. The Issuer, in any event, reserves the right to in its absolute discretion terminate Securities linked to any Proprietary Index by giving notice in accordance with General Condition 4, in the event that the relevant Index Sponsor terminates, cancels or suspends, as the case may be, any such Proprietary Index.

(g) Fund Events. Each of the following events constitutes a “**Fund Event**”. The Fund Events are for the benefit of the Issuer in order that the Issuer is protected against any adverse effects of such Fund Events on its Hedge Position. The Issuer, or the Calculation Agent on its behalf, shall make all determinations in respect of such Fund Events including as to whether such Fund Event has occurred and the effective date of such occurrence. In order to constitute a Fund Event, the Issuer or the Calculation Agent on its behalf must conclude that the event in question either has resulted or is reasonably likely to result in an adverse effect on the value of the Reference Assets or the NAV of the Fund or on the rights of any investor therein with respect to the Reference Assets or the Fund or otherwise has materially adversely affected its Hedge Position.

- (J) (a) any change occurs in the legal, tax, accounting or regulatory treatment of (i) the Issuer, any of its affiliates or any Hedge Provider by reason of its investment in the Fund or the Reference Assets or (ii) the Fund or any Fund Service Provider, in each case from that which was applicable at the Inclusion Date or (b) the Issuer or the Calculation Agent on its behalf determines that any of Issuer, its affiliates or any Hedge Provider is or may in the future be unable, or it may be unduly onerous or impractical for any such entity, to perform any obligation (including, without limitation, any regulatory or accounting reporting obligation) imposed on any such entity by the law or regulation of any relevant jurisdiction, any relevant regulatory or administrative body or any court of competent jurisdiction, in each case by reason of its investment in the Fund or the Reference Assets or (c) the Issuer, any of its affiliates or any Hedge Provider deems it necessary or appropriate, in order to comply with or remain within (i) any applicable legal and/or regulatory limits on the amounts of Reference Assets that it may hold and/or (ii) any internal exposure limits governing the maximum exposure (direct and indirect) that the Issuer, any relevant affiliate or the Hedge Provider as the case may be, is permitted to have to the Fund, to redeem all or some of the Reference Assets held by them.

- (L) A significant market, trading or exchange disruption and/or crisis in the major financial markets occurs.

(ii) NAV/Price and Reporting:

- (A) There is (a) a failure to calculate and/or publish the NAV of the Fund on any day on which such calculation or publication was scheduled to be made in accordance with the Fund Documents and/or the Fund Prospectus as they prevailed on the Inclusion Date or (b) a failure to calculate and publish the NAV of the Fund with the frequency set out in the Fund Documents and/or the Fund Prospectus as they prevailed on the Inclusion Date or (c) where the Fund is an exchange traded fund, a failure to publish the trading price of the Reference Assets on the Exchange.

- (E) (i) In respect of any Reference Asset, the occurrence of any event affecting such Reference Asset that, in the determination of the Issuer or the Calculation Agent on its behalf, would make it impossible or impracticable

(iii) Reference Assets:

Any of the following events relating to the Reference Assets occurs:

- (B) a portion of each Reference Asset is converted (whether by way of redemption and re-issue or otherwise) into new securities participating in the capital of the Fund, which securities are subject to lock-up periods during which they may not be redeemed and which relate to any segregated assets of the Fund, or the Fund creates any other form of "side-pocket" which affects the Reference Assets;

- (C) a (i) dividend (including cash and whether ordinary or extraordinary), (ii) distribution or (iii) issue of Reference Assets, capital, securities, rights or other assets or interests to existing holders of Reference Assets which has or is likely to have an adverse effect on the value (theoretical or otherwise) of the Reference Assets;
 - (D) any suspension or limitation on the trading of the relevant currencies in which the Reference Assets are denominated or any amendment to the currency of denomination of the Reference Assets so that their price is no longer calculated in the same currency as at the Inclusion Date of the Fund;
or
- (iv) Trading and Fees:
- (A) In respect of the Reference Assets, the Fund or any Fund Service Provider increases the level of any redemption fee, subscription fee, management fee, performance fee or a bid/offer spread (or other charge however described) above the level that would have been applicable to any Reference Assets held by any of the Issuer, any affiliate of the Issuer or any Hedge Provider on the Inclusion Date (regardless of whether any such person actually holds any Reference Assets as of such date).
 - (B) Any suspension of or limitation imposed on trading of the Fund or on trading in the Reference Assets (for any reason, including, without limitation, by reason of liquidity restrictions) or any dealing request made by any investor or prospective investor in the Fund or the Reference Assets is deferred in whole or in part or is made at a value other than the related NAV or price, as applicable.
 - (C) The frequency at which Reference Assets can be traded is amended or the timing for subscription or redemption of Reference Assets is amended, in each case so that it is no longer that specified in the Fund Documents and/or Fund Prospectus as they prevailed on the Inclusion Date, including, without limitation, an amendment to the timetable for payment of redemption proceeds upon redemption.
 - (D) If any of the Issuer, any of its affiliates or any Hedge Provider redeems Reference Assets or is entitled to any other amount and:

- (I) does not receive the full proceeds of such redemption or amount in cash in accordance with the timing set out in the Fund Documents or the Fund Prospectus; or
 - (II) receives any in-kind distribution in full or part satisfaction of the redemption proceeds or such other amount paid or payable to it,
- or the Issuer or the Calculation Agent on its behalf determines that either (I) or (II) above would be applicable were the Issuer, any of its affiliates or any Hedge Provider to redeem Reference Assets or be entitled to actual payment of any such other amount.

- (A) The Fund Adviser indicates or acknowledges that in its opinion the strategy/investment objective of the Fund will not be, or is no longer able to be, met.

 - (D) The Issuer or the Calculation Agent on its behalf becomes aware of any failure by the Fund or any person on its behalf to disclose to the Issuer or the Calculation Agent on its behalf, on or before the Inclusion Date, any information, event or circumstance that was in existence on such date and that would have been necessary to enable the Issuer or the Calculation Agent to make an informed assessment of the assets and liabilities, financial position and prospects of the Fund and of the rights attaching to the Reference Assets.

- (vi) General: Any other event occurs which the Issuer or the Calculation Agent on its behalf determines is analogous to any of the events specified in sub-paragraphs (i) to (v) above.

(h) Consequences of a Fund Event.

In respect of each Fund Event, following the occurrence of such an event (and regardless of whether or not such event is then continuing) the Issuer or the Calculation Agent on its behalf may take any of following actions (each, a “**Permitted Action**”):

- (i) (A) make such adjustments to any variable, calculation methodology, valuation, settlement or payment terms or any other terms and conditions of the Securities as the Issuer or the Calculation Agent on its behalf determines appropriate to account for the economic effect on the Securities of such Fund Event and (B) determine the effective date of the relevant adjustments; or
- (ii) select a Replacement Fund and a Substitution Date. Following any such selection (A) the Replacement Fund shall replace the affected Fund on the Substitution Date, (B) references herein to the name of the affected Fund shall be deemed to be references to the name of the Replacement Fund with effect from the Substitution Date and (C) the Issuer or the Calculation Agent on its behalf may make such adjustment as it determines to be appropriate, if any, to any variable, calculation methodology, valuation, settlement or payment terms or any other terms and conditions in relation to the Securities to reflect such substitution; or
- (iii) terminate all, but not some only, of the Securities, on the date notified to Holders in accordance with General Condition 4 and redeem the Securities at their fair market value immediately prior to such Fund Event less (i) the cost to the Issuer of unwinding any related hedging and funding arrangements (as determined by the Issuer); and (ii) the deduction of taxes, expenses and other similar charges; or
- (iv) make such adjustments to any variable, calculation methodology, valuation, settlement or payment terms or any other terms and conditions of the Securities as the Issuer or the Calculation Agent on its behalf determines are necessary to reflect a notional liquidation of all of the Reference Assets (with the timing of such notional liquidations being the same timing as would be the case on an actual liquidation of Reference Assets at the relevant time) and a notional investment of the liquidation proceeds in either (A) a zero coupon bond, or equivalent, such that, if the proceeds allow, the amount payable at redemption of such zero coupon bond is at least an amount per Security equal to the Issue Price of the Security, (B) an interest bearing deposit bearing interest at prevailing rates that would be offered by the Issuer in

respect of such a deposit as determined by the Issuer or the Calculation Agent on its behalf, or (C) commercial paper rated at least A1/P1 or above by Moody's Investors Service, Inc. (any transaction costs that would be incurred in respect of an actual such investment may be notionally charged to the Securities) (any of (A), (B) or (C), a "**Suspension Asset**").

Notwithstanding that the Issuer or the Calculation Agent on its behalf may have previously determined not to take a Permitted Action, or to take one Permitted Action, it shall not be prevented from subsequently or concurrently deciding to adopt an additional or different Permitted Action in respect of the same Fund Event (whether on one or any number of occasions). In such respect, the Issuer or the Calculation Agent on its behalf may make such adjustments to any variable, calculation methodology, valuation, settlement or payment terms or any other terms and conditions of the Securities as it determines appropriate to account for the decision subsequently or concurrently made.

Notwithstanding anything in this sub-paragraph 4(g), neither the Issuer nor the Calculation Agent is under any obligation to determine that a Fund Event has occurred or to take any or all of the Permitted Actions. Any determinations made by the Issuer or the Calculation Agent on its behalf in respect of any of the Permitted Actions shall, in the absence of manifest error, be binding.

(i) Fund Event Methodology and Determinations:

- (i) If, in respect of any determination or calculation hereunder which is made by reference to an official or estimated NAV of a Fund provided or published by or on behalf of the Fund or, where the Fund is an exchange traded fund, the last reported trading price of the Reference Asset on the Exchange in respect of a particular date, the Issuer or the Calculation Agent on its behalf determines that such value does not fairly represent the value of the Fund or Reference Asset as of such date, or that no such value is provided or published, then the Issuer or the Calculation Agent on its behalf may use such other value as it determines as representing a fair NAV or price, as applicable, as of such date or, alternatively, may use a preceding official or estimated value where it believes that such preceding official or estimated value gives a fairer representation than the more recent figure.
- (ii) Should the Fund operate equalisation procedures in respect of performance or incentive based fees, the Issuer or the Calculation Agent on its behalf may make such adjustments to these Product Conditions as the Issuer or the Calculation Agent on its behalf determines appropriate to account for such equalisation in an equitable

manner and, where such equalisation procedures operate by the issuance of different classes of shares in the Fund, then each of the Issuer and the Calculation Agent is permitted to deem any notional subscription or redemption on behalf of the Securities to be in such order and in respect of such classes as appear to it to be equitable and reasonable or to deem the return of such shares to be based on a benchmark or average of the different classes.

- (iii) For the avoidance of doubt and notwithstanding any other Condition, the Issuer and the Calculation Agent on its behalf shall be entitled to make any determination, waiver, declaration or decision with regard to a Fund Event and, without limitation, may make such determination, waiver, declaration or decision by reference to the establishment, operation and/or efficacy (whether actual or anticipated) of any Relevant Hedging Transaction. Neither the Issuer nor the Calculation Agent is under any obligation to monitor or determine whether or not a Fund Event has occurred and will not be required to, and will not be responsible for any failure to, make any determination, waiver, declaration or decision whatsoever in relation to a Fund Event. - (i) a Market Disruption Event has occurred on that day with respect to any Basket Constituent, in which case the Valuation Date shall be the first succeeding Trading Day on which the Issuer or the Calculation Agent on its behalf determines that there is no Market Disruption Event unless the Calculation Agent determines that there is a Market Disruption Event occurring on each of the Relevant Number of Trading Days immediately following the original date which (but for the Market Disruption Event) would have been a Valuation Date. In that case (a) the last day of the Relevant Number of Trading Days shall be deemed to be the Valuation Date (regardless of the Market Disruption Event); and (b) the Issuer or the Calculation Agent on its behalf shall determine the price, level or NAV, as applicable, having regard to the then prevailing market conditions, the last reported trading price of the Basket Constituent and such other factors as the Issuer or the Calculation Agent on its behalf determines to be relevant; or

2. FORM

- (a) Global Form. Except in the case of Securities issued in the form described in either Product Condition 2(b) or 2(c), the Securities will be issued in bearer form in the denomination of the Nominal Amount. The Securities are represented by a global security (the “**Global Security**”) which will be deposited with a Clearing Agent or the depositary for one or more Clearing Agents and will be transferable only in accordance with the applicable law and the rules and procedures of the relevant Clearing Agent through whose systems the Securities are transferred. Each person (other than another Clearing Agent) who is for the time being shown in the records of the relevant Clearing Agent as the owner of a particular nominal amount of the Securities (in which regard any certificate or other document issued by the relevant Clearing Agent as to the nominal amount of the Securities standing to the credit of the account of any person shall be conclusive and binding for all purposes except in the case of manifest error) shall be treated by the Issuer and each Agent as the holder of such nominal amount of the Securities (and the term “**Holder**” shall be construed accordingly) for all purposes, other than with respect to any payment and/or delivery obligations, the right to which shall be vested as regards the Issuer and the Agents, solely in the bearer of the Global Security.

- (b) Dematerialised Form. Certain Securities will, where required by the rules and procedures of the Clearing Agent, be issued in dematerialised form and will be registered in the book-entry system of the Clearing Agent. Title to the Securities will pass by transfer between accountholders at the Clearing Agent perfected in accordance with the legislation, rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means a person in whose name a Security is registered in the book-entry settlement system of the Clearing Agent or any other person recognised as a holder of Securities pursuant to the Rules.

If CREST is specified as the Clearing Agent in the relevant Final Terms, the Securities will be cleared through CREST. Such Securities will be registered securities in dematerialised and uncertificated form, and will be (i) participating securities and (ii) uncertificated securities in accordance with the Uncertificated Securities Regulations 2001 (SI. No. 3755) as amended, supplemented or replaced from time to time (the “**Regulations**”).

Securities cleared through CREST may be transferred in accordance with the Regulations and the rules, procedures and practices of the relevant Operator (as defined below). No transfer of such Securities will be valid unless and until entered on the relevant Operator register of corporate securities (as defined in and in accordance with, the Regulations).

In the case of Securities cleared through CREST, title to the Securities is recorded on the relevant Operator register of corporate securities (as defined in the Regulations). The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. Subject to this requirement, (i) each person who is for the time being shown in the Register as the holder of such Securities shall be treated by the Issuer and the Registrar as the holder of such Securities for all purposes and (ii) neither the Issuer nor the Registrar shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Register which the Registrar maintains are in accordance with particulars entered in the Operator register of corporate securities relating to such Securities (and the expression “**Holder**” and related expressions shall be construed accordingly).

Any reference to the “**Operator**” (as such term is used in the Regulations) shall be to CREST and shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator approved by the Issuer from time to time in

accordance with the Regulations and notified to the relevant Holders in accordance with General Condition 4.

Any indication herein that the Operator “shall do”, or similar expression or phrase indicating that they are obliged to or will carry out any role or obligation described in the Conditions and/or the applicable Final Terms, as the case may be, is given without any assumption by the Issuer, the relevant Registrar or the Calculation Agent of responsibility or liability for the performance of the Operator.

- (c) SIX SIS Ltd as Clearing Agent. If SIX SIS Ltd is specified as the Clearing Agent, Securities will, as specified in the applicable Final Terms, be issued in the form of (i) dematerialised securities (the “**Dematerialised Securities**”) or (ii) a bearer permanent Global Security and, in either case, will be transformed into intermediated securities (the “**Intermediated Securities**”) in accordance with article 6 of the Swiss Federal Intermediated Securities Act (the “**FISA**”).

The Intermediated Securities will be created (i) by deposit of a Global Security with the Clearing Agent, acting as custodian as defined in article 4 FISA (the “**Custodian**”), or registration of Dematerialised Securities in the main register of the Clearing Agent, acting as Custodian, and (ii) the Clearing Agent, acting as Custodian, crediting the respective rights to securities accounts of one or more of its participants with the Clearing Agent in accordance with articles 4 and 6 FISA. For each issuance of Securities in the form of Dematerialised Securities, the Clearing Agent, acting as Custodian, will maintain the main register as defined in article 6 para. 2 FISA which is available to the public under <https://www.sec.sisclear.com/sec/cm/index/custody-settlement/mainregister.htm>.

Title to the Intermediated Securities is construed and will pass in accordance with the legislation, in particular the FISA, rules and regulations applicable to and/or issued by the Clearing Agent, acting as Custodian, and any other custodian, if any, that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

The Holders shall at no time have the right to effect or demand (i) the retransformation of the Intermediated Securities into, and the delivery of, Dematerialised Securities in the case of Dematerialised Securities being the basis for the creation of Intermediated Securities, or (ii) the conversion of the Dematerialised Securities or the Global Security into definitive Securities.

3. RIGHTS AND PROCEDURES

- (a) Redemption on the Settlement Date. Unless previously redeemed or purchased and cancelled and subject as provided by the Conditions, each Security will be redeemed by the Issuer at the Cash Amount, such redemption to occur on the Settlement Date.
- (b) Issuer Call. If “Issuer Call” is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms, the Issuer may redeem the Securities in whole, but not in part, on any Issuer Call Date at the Issuer Call Cash Amount by giving Holders at least the Issuer Call Notice Period notice of its intention to redeem the Securities, such notice to be given at any time from (and including) the Issuer Call Commencement Date. Any such notice shall be given in accordance with the provisions of General Condition 4 and shall specify the Issuer Call Date.
- (c) Interest Amount. If “Interest” is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms, each Security shall bear interest at the Interest Rate. The Interest Amount is calculated by reference to the relevant Interest Period, the Interest Rate, the Nominal Amount and the Interest Rate Day Count Fraction, and is payable on each Interest Payment Date and the Issuer Call Date (if applicable), as the case may be.
- (d) Interest Accrual. If “Interest” is specified as being “Applicable” in the definition of the relevant Series in the applicable Final Terms, each Security shall cease to accrue interest from and including the due date for redemption. No interest shall accrue after the Maturity Date or the Issuer Call Date, as the case may be, in the event that payment of any amount is postponed due to a Market Disruption Event or Fund Event, as applicable.
- (e) Payment Day. If the date for payment of any amount in respect of the Securities is not a Payment Day, the Holder shall not be entitled to payment until either (a) if “Modified Following” is specified in the definition of Business Day Convention for the relevant Series in the applicable Final Terms, the next following Payment Day unless such Payment Day falls in the next calendar month in which case the date for payment will be the first preceding Payment Day or (b) if “Following” is specified in the definition of Business Day Convention for the relevant Series in the applicable Final Terms, the next following Payment Day and, in either case, the Holder shall not be entitled to any interest or other payment in respect of such delay or acceleration of payment.
- (f) General. In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent or any Agent shall have any responsibility for any errors or omissions in the calculation of the Cash Amount, any Issuer Call Cash Amount or any Interest Amount.

- (g) Settlement Risk. Settlement of the Securities is subject to all applicable laws, regulations and practices in force at the relevant time and none of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall incur any liability whatsoever if it is unable to effect the transactions contemplated as a result of any such laws, regulations or practices. None of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall under any circumstances be liable for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.
- (h) Method of Payment. Subject as provided below, where any amount paid in connection with the Securities is in a currency other than euro, such payments will be made by an Agent on behalf of the Issuer in the Settlement Currency to an account specified by the payee with, or by a cheque in such Settlement Currency drawn on, a bank in the principal financial centre of the country of such Settlement Currency; where any amount paid in connection with the Securities is in euro, payment of such amount will be made by an Agent on behalf of the Issuer by credit or transfer to a euro account or any account to which euro may be credited or transferred specified by the payee or, at the option of the payee, by a euro cheque. Payments will be made via the Clearing Agent(s) and will be made in accordance with the Rules (if applicable). All payments will be subject to applicable fiscal and legal requirements applicable thereto.
- (i) Presentation and Surrender. Unless the Securities are cleared through CREST, the Issuer shall record payment of any amount in connection with the Securities made to the relevant Agent and such record shall be prima facie evidence that the payment in question has been made. The Holder shall be the only person entitled to receive payments of any amount paid in connection with the Securities and the Issuer will be discharged by payment to, or to the order of, the Holder in respect of the amount so paid. Where the Securities are cleared through CREST, General Condition 20 shall apply.

4. ADJUSTMENTS

- (a) Market Disruption in relation to a Commodity. The Issuer or the Calculation Agent on its behalf shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred.

In this Product Condition 4(a), a “**Market Disruption Event**” means:

- (i) Price Source Disruption. The failure by the Exchange to announce or publish the price for the Commodity (or the information necessary for determining such price), or the temporary or permanent discontinuance or unavailability of such price by the Exchange; or

- (ii) Trading Suspension. The material suspension of trading on the Exchange or any Related Exchange; or
 - (iii) Disappearance of Price. The failure of trading to commence, or the permanent discontinuation of trading of the Commodity on the Exchange; or
 - (iv) Material Change in nature of or pricing method. The occurrence, since the Issue Date, of a material change in the basis for (including but not limited to the quantity, quality or currency), or method of calculating the price of the Commodity; or
 - (v) Material Change in Content. The occurrence, since the Issue Date, of a material change in the content, composition of the Commodity; or
 - (vi) De Minimis Trading. The number of contracts traded on the Exchange with respect to the Commodity is such that the Issuer declares that its ability to enter into hedging transactions with respect to the Commodity has been impaired due to a lack of, or, a material reduction in, trading in the Commodity on the Exchange; or
 - (vii) Tax Disruption. The imposition of, change in, or removal of an excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or similar tax on, or measured by reference to, the Commodity (other than a tax on, or measured by reference to, overall gross or net income) by any government or taxation authority after the Issue Date, if the direct effect of such imposition, change or removal is to raise or lower the price of the Commodity on the Valuation Date and/or on each of the three Trading Days following the Valuation Date from what it would have been without that imposition, change or removal; or
 - (viii) Trading Limitation. The material limitation imposed on trading in the Commodity with respect to it or any contract with respect thereto on any exchange or principal trading market; or
 - (ix) Any other event similar to any of the above, which could make it impracticable or impossible for the Issuer to perform its obligations in relation to the Securities.
- (b) Market Disruption in relation to an FX Rate. The Issuer or the Calculation Agent on its behalf shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred. In this Product Condition 4(b), a “**Market Disruption Event**” means:
- (a) Price Source Disruption. If it becomes impossible to obtain any one or more FX Rates on the Valuation Date; or
 - (b) Governmental Default. If with respect to any security or indebtedness for money borrowed or guaranteed by any Governmental Authority, there occurs a default,

event of default or other similar condition or event (howsoever described) including, but not limited to, (i) the failure of timely payment in full of principal, interest or other amounts due (without giving effect to any applicable grace periods) in respect of any such security indebtedness for money borrowed or guarantee, (ii) a declared moratorium, standstill, waiver, deferral, repudiation or rescheduling of any principal, interest or other amounts due in respect of any such security, indebtedness for money borrowed or guarantee or (iii) the amendment or modification of the terms and conditions of payment of any principal, interest or other amounts due in respect of any such security, indebtedness for money borrowed or guarantee without the consent of all holders of such obligation. The determination of the existence or occurrence of any default, event of default or other similar condition or event shall be made without regard to any lack or alleged lack of authority or capacity of such Governmental Authority to issue or enter into such security, indebtedness for money borrowed or guarantee; or

- (c) Inconvertibility/non-transferrability. The occurrence of any event which (i) generally makes it impossible to convert the currencies in any one or more FX Rates through customary legal channels for conducting such conversion in the principal financial centre of a Basket Constituent Currency or (ii) generally makes it impossible to deliver a Basket Constituent Currency from accounts in the country of the principal financial centre of that Basket Constituent Currency to accounts outside such jurisdiction or the Settlement Currency between accounts in such jurisdiction or to a party that is a non-resident of such jurisdiction; or
- (d) Nationalisation. Any expropriation, confiscation, requisition, nationalization or other action by any Governmental Authority which deprives the Issuer (or any of its affiliates), of all or substantially all of its assets in the country of the principal financial centre of a Basket Constituent Currency; or
- (e) Illiquidity. Any impossibility in obtaining a firm quote for any one or more FX Rates or the Settlement Currency for an amount which the Issuer considers necessary to discharge its obligations under the Securities; or
- (f) Change in Law. A change in law in the country of the principal financial centre of a Basket Constituent Currency which may affect the ownership in and/or the transferability of that Basket Constituent Currency; or
- (g) Imposition of Tax/Levy. The imposition of any tax and/or levy with punitive character which is imposed in the country of the principal financial centre of a Basket Constituent Currency; or

- (h) Unavailability of Settlement Currency. The unavailability of the Settlement Currency in the country of the principal financial centre of a Basket Constituent Currency; or
- (i) Other Events. Any other event similar to any of the above, which could make it impracticable or impossible for the Issuer to perform its obligations in relation to the Securities.

For this purpose a “**Governmental Authority**” is any de facto or de jure government (or agency or instrumentality thereof, court, tribunal, administrative or other governmental authority) or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) in the country of the principal financial centre of the Settlement Currency.

- (c) Market Disruption in relation to a Certificate and a Share. The Issuer or the Calculation Agent on its behalf shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred.

In this Product Condition 4(c), a “**Market Disruption Event**” means:

- (1) the occurrence or existence on any Trading Day during the one hour period that ends at the official close of trading on the Exchange or any Related Exchange of any suspension of or limitation imposed on trading or the disruption or impairment in the ability of market participants in general to effect transactions (by reason of movements in price reaching or exceeding limits permitted by the relevant exchange or otherwise):
 - (A) in the Shares or Certificates, as applicable, on the Exchange or any other exchange on which the Shares are listed; or
 - (B) in any options contracts or futures contracts or other derivatives contracts relating to the Shares or Certificates, as applicable, on any Related Exchange if, in the determination of the Calculation Agent, such suspension or limitation is material; or
- (2) a general moratorium is declared in respect of banking activities in the country in which the Exchange or any Related Exchange is located.

For the purposes of this definition, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the Exchange or any Related Exchange, but a limitation on trading

imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the Exchange or any Related Exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

- (d) Market Disruption in relation to an Index. The Issuer or the Calculation Agent on its behalf shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred.

In this Product Condition 4(d), in respect of an Index which is not a Commodity Index, “**Market Disruption Event**” means (i) a general moratorium is declared in respect of banking activities in the country in which the Exchange or Related Exchange is located or (ii) the occurrence or existence on any Trading Day during the one hour period that ends at the official close of trading on the Exchange or any Related Exchange of any suspension of or limitation imposed on trading or the disruption or impairment in the ability of market participants in general to effect transactions (by reason of movements in price reaching or exceeding limits permitted by the relevant exchange or otherwise):

- (1) on any Exchange(s) in securities that comprise 20 per cent or more of the level of the relevant Index if, in the determination of the Calculation Agent, such suspension or limitation is material. For the purpose of determining whether such suspension or limitation is material, if trading in a security included in the Index is suspended or materially limited at that time, then the relevant percentage contribution of that security to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that security relative to (y) the overall level of the Index, in each case immediately before that suspension or limitation; or
- (2) on any Related Exchange in any options contracts or futures contracts or other derivatives contracts relating to the relevant Index.

In any event, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the relevant exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

In this Product Condition 4(d), in respect of a Commodity Index, “**Market Disruption Event**” means, in relation to the Commodity Index or its components:

- (i) **Price Source Disruption.** The failure by the Exchange to announce or publish the price

of the Commodity Index or any of its components (or the information necessary for determining such price(s)) or the temporary or permanent discontinuance or unavailability of such price(s) by the Exchange; or

(ii) **Trading Suspension.** The material suspension of trading on the Exchange; or

(iii) **Disappearance of Price.** The permanent discontinuation of trading in the Commodity Index or any of its components on the Exchange, disappearance of, or of trading in, the Commodity Index or any of its components or the disappearance or permanent discontinuance or unavailability of a reference price, notwithstanding the availability of the related price source or the status of trading in the Commodity Index or any of its components;

(iv) **Material Change in Formula.** The occurrence, since the Issue Date, of a material change in the basis for (including but not limited to the quantity, quality or currency), or method of, calculating the price of a component of the Commodity Index; or

(v) **Material Change in Content.** The occurrence, since the Issue Date, of a material change in the content or composition of a Commodity Index or any of its components; or

(vi) **De Minimis Trading.** The number of contracts traded on the Exchange with respect to a Commodity Index or any of its components is such that the Issuer declares that its ability to enter into hedging transactions with respect to the Commodity Index or any of its components has been impaired due to a lack of, or a material reduction in, trading in the Commodity Index or any of its components on the Exchange; or

(vii) **Tax Disruption.** The imposition of, change in, or removal of, an excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or similar tax on, or measured by reference to, a Commodity Index or any of its components (other than a tax on, or measured by reference to, overall gross or net income) by any government or taxation authority after the Issue Date, if the direct effect of such imposition, change or removal is to raise or lower the price of the Commodity Index or any of its components on the Valuation Date or Issuer Call Date, as the case may be, and/or on each of the three Trading Days following the Valuation Date or Issuer Call Date, as the case may be, from what it would have been without that imposition, change or removal; or

(viii) **Trading Limitation.** The material limitation imposed on trading in a Commodity Index or any of its components on any exchange or principal trading market; or

(ix) **Moratorium.** A general moratorium is declared in respect of banking activities in the country in which the Exchange is located; or

(x) **Other Events.** Any other event similar to any of the above which could make it

impracticable or impossible for the Issuer to perform its obligations in relation to the Securities.

- (e) Potential Adjustment Events. Following a declaration by the issuer of the Certificates of the terms of any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Certificates and, if so, will:
- (i) make the corresponding adjustment, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate to account for that diluting or concentrative effect; and
 - (ii) determine the effective date of that adjustment.

The Calculation Agent may, but need not, determine the adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Certificates traded on that options exchange. Upon making any such adjustment, the Calculation Agent shall notify the Holders in accordance with General Condition 4, stating the adjustment to be made to the Conditions and giving brief details of the Potential Adjustment Event.

In this Product Condition 4(e), “**Potential Adjustment Event**” means any event that may have a diluting or concentrative effect on the theoretical value of the Certificates.

- (f) Potential Adjustment Events in relation to a Share. Following a declaration by the Share Company of the terms of any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Share and, if so, will:
- (1) make the corresponding adjustment, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate to account for that diluting or concentrative effect; and
 - (2) determine the effective date of that adjustment.

The Calculation Agent may, but need not, determine the adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Shares traded on that options exchange. Upon making any such adjustment, the Calculation Agent shall notify the Holders in accordance with General Condition 4, stating the adjustment to be made to the Conditions and giving brief details of the Potential Adjustment Event.

In this Product Condition 4(f), “**Potential Adjustment Event**” means any of the following: (A) a subdivision, consolidation or reclassification of relevant Shares (unless a Merger Event) or a free distribution or dividend of such Shares to existing holders of the relevant Shares by way of bonus, capitalisation, recapitalisation or similar issue; (B) a distribution or dividend to existing holders of the relevant Shares of (aa) such Shares, or (bb) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Share Company equally or proportionately with such payments to holders of such Shares, or (cc) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other) at less than the prevailing market price as determined by the Calculation Agent; (C) an extraordinary dividend; (D) a distribution of cash dividends on the Shares equal to or greater than 8 per cent. per annum of the then current market value of the Shares; (E) a call by the Share Company in respect of relevant Shares that are not fully paid; (F) a repurchase by the Share Company of relevant Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise; or (G) any other similar event that may have a diluting or concentrative effect on the theoretical value of the relevant Shares.

- (g) De-listing, Merger Event, Nationalisation and Insolvency. If a De-listing, Merger Event, Nationalisation or Insolvency occurs in relation to the Share Company, the Issuer in its sole and absolute discretion may take the action described in (1), (2) or (3) below:
- (1) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the other terms of these Conditions to account for the De-listing, Merger Event, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment. The Calculation Agent may (but is under no obligation to) determine the appropriate adjustment by reference to the adjustment in respect of the De-listing, Merger Event, Nationalisation or Insolvency made by any Related Exchange to options contracts or futures contracts or other derivatives contracts on the Shares traded on such Related Exchange; or
 - (2) cancel the Securities by giving notice to Holders in accordance with General Condition 4. If the Securities are to be cancelled the Issuer will pay an amount to each Holder in respect of each Security held by him which amount shall be the fair market value of a Security (taking into account the De-listing, Merger Event, Nationalisation or Insolvency (as the case may be)) on the day selected for cancellation as shall be selected by the Issuer in its sole and absolute discretion adjusted to account fully for any losses, expenses and costs to the Issuer and/or any affiliate of the Issuer of unwinding or adjusting any underlying or related hedging

arrangements (including but not limited to any equity options or selling or otherwise realising any Shares or other instruments of any type whatsoever which the Issuer and/or any of its affiliates may hold as part of such hedging arrangements), all as determined by the Calculation Agent in its sole and absolute discretion. Payment will be made in such manner as shall be notified to the Holders in accordance with General Condition 4; or

- (3) following any adjustment to the settlement of terms of options contracts or futures contracts or any other derivatives contracts on the Shares traded on any Related Exchange, require the Calculation Agent to make a corresponding adjustment to any of the other terms of these Conditions, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Related Exchange. If options contracts or futures contracts or other derivatives contracts on the Shares are not traded on the Related Exchange, the Calculation Agent will make such adjustment, if any, to any of the other terms of these Conditions as the Calculation Agent in its sole and absolute discretion determines appropriate, with reference to the rules and precedents (if any) set by the Related Exchange to account for the De-listing, Merger Event, Nationalisation or Insolvency (as the case may be) that in the determination of the Calculation Agent would have given rise to an adjustment by the Related Exchange if such options contracts or futures contracts or other derivatives contracts were so traded.

Upon the occurrence of a De-listing, Merger Event, Nationalisation or Insolvency, the Calculation Agent shall notify the Holders in accordance with General Condition 4, stating the occurrence of such De-listing, Merger Event, Nationalisation or Insolvency (as the case may be) and the action proposed to be taken in relation thereto.

“De-listing”, in this Product Condition 4(g) only, means a Share for any reason ceases to be listed or is suspended from listing on the Exchange or any other exchange on which the Shares are listed (and such cessation or suspension is continuing and such Share is not subsequently listed or quoted on another stock exchange or quotation system acceptable to the Issuer).

“Merger Date” means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Calculation Agent.

“Merger Event”, in this Product Condition 4(g) only, means any (1) reclassification or change to the Shares that results in a transfer of or an irrevocable commitment to transfer all

or a majority of the outstanding Shares; (2) consolidation, amalgamation, merger or binding share exchange of a Share Company with or into another entity (other than a consolidation, amalgamation, merger or binding share exchange in which such Share Company is the continuing entity and which does not result in any such reclassification or change to all the outstanding Shares); or (3) take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Shares that results in a transfer of, or an irrevocable commitment to transfer a majority of the voting power of the Share Company to the offeror, in each case if the Merger Date is on or before the relevant Valuation Date.

“**Nationalisation**” means that all the Shares of a Share Company or all the assets or substantially all the assets of a Share Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority or entity.

“**Insolvency**” means that by reason of the voluntary or involuntary liquidation, bankruptcy or insolvency of or any analogous proceeding affecting a Share Company (1) all the Shares are required to be transferred to a receiver, trustee, liquidator or other similar official or (2) holders of the Shares of that Share Company become legally prohibited from transferring them.

- (h) Potential Adjustment Events in relation to an Index. The Calculation Agent shall give notice as soon as practicable to the Holders in accordance with General Condition 4 of any determination made by it pursuant to paragraphs (1), (2), (3) or (4) below.
- (1) If any Index is (A) not calculated and announced by the Index Sponsor but is calculated and published by a successor to the Index Sponsor (the “**Successor Sponsor**”) acceptable to the Calculation Agent; or (B) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the relevant Index, then (in either case) the relevant Index will be deemed to be the index so calculated and announced by such Successor Sponsor or that successor index, as the case may be.
- (2) If (A) on or prior to the Valuation Date the Index Sponsor or, if applicable, the Successor Sponsor makes a material change in the formula for or the method of calculating any Index or in any other way materially modifies an Index (other than a modification prescribed in that formula or method to maintain the Index in the event of changes in constituent securities or components, as the case may be, and other routine events); or (B) on the Valuation Date the Index Sponsor or, if applicable, the Successor Sponsor fails to calculate and/or publish any Index; then (in either case) the Calculation Agent shall determine the Index Final Reference Price using, in lieu of a published level

for the relevant Index on the Valuation Date, the level for the relevant Index as determined by the Calculation Agent in accordance with the formula for and method of calculating the relevant Index last in effect prior to the change or failure, but using only (a) in respect of an Index which is not a Commodity Index, those securities that comprised the relevant Index immediately prior to the change or failure (other than those securities that have since ceased to be listed on the Exchange or any other exchange on which the Shares are listed) or (b) in respect of a Commodity Index, commodity components that comprised the Index immediately prior to the change or failure (other than those components that have since ceased to be traded on the Exchange or any other exchange) or, in the case of a material modification of the Index only, shall deem such modified Index to be the Index so calculated and announced or shall (if so required by the Issuer), by giving notice in accordance with General Condition 4, terminate the Securities and pay to each Holder in respect of each Security held by such Holder an amount equal to the fair market value of the Security immediately prior to such material modification of the Index less the cost to the Issuer of unwinding any related hedging arrangements (as determined by the Issuer).

- (3) If, at any time, any of the events specified in (A) to (H) below occurs and the Index Sponsor or, if applicable, the Successor Sponsor has not in the opinion of the Calculation Agent made an appropriate adjustment to the level of the relevant Index (which term excludes, for these purposes of this paragraph (3), any Commodity Index) in order to account fully for such event, notwithstanding that the rules published or applied by the Index Sponsor or, if applicable, the Successor Sponsor pertaining to the Index have been applied, the Calculation Agent shall make such adjustment to the level of the relevant Index as it considers appropriate in order so to account for: (A) a distribution or dividend to existing holders of the Index Shares of (i) the Index Shares; or (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the issuer of the Index Shares equally or proportionately with such payments to holders of Index Shares or (iii) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price; (B) a free distribution or dividend of any Index Shares to existing holders of the Index Shares by way of bonus, capitalisation or similar issue; (C) an extraordinary dividend; (D) any cash dividends declared on the Index Shares at a time when the relevant issuer of the Index Shares has not previously declared or paid dividends on such Index Shares for the prior four quarterly periods; (E) any non-cash dividends declared on the Index Shares at a time when the relevant issuer of the Index Shares has not previously declared or paid dividends on such Index Shares for the prior

four quarterly periods; (F) any other extraordinary cash or non-cash dividend on, or distribution with respect to, the Index Shares which is, by its terms or declared intent, declared and paid outside the normal operations or normal dividend procedures of the relevant issuer of the Index Shares, provided that, in all cases, the related ex-dividend date occurs during the period from but including the Issue Date up to and excluding the Valuation Date; (G) a distribution of cash dividends on the Index Shares equal to or greater than 8 per cent. per annum of the then current market value of the Index Shares; and (H) any other similar event having a dilutive or concentrative effect on the theoretical value of the Index Shares.

(4) The Issuer reserves the right to issue further Securities, make adjustments or to distribute to the Holders any rights in connection with the Securities as it reasonably believes are appropriate in circumstances where an event or events occur which the Issuer (in its absolute discretion and notwithstanding any adjustments previously made to the Securities) believes should, in the context of the issue of Securities and its obligations hereunder, give rise to such adjustment or distribution, provided that such adjustment is considered by the Calculation Agent either to be appropriate generally (without considering the individual circumstances of any Holder or the tax or other consequences of such adjustment in any particular jurisdiction) or to be required to take account of provisions of the laws of the relevant jurisdiction or the practices of the Exchange.

(i) Adjustments to the Basket

If a De-Listing occurs with respect to a Fund, Certificate or a Share, as applicable or a Fund, Certificate or Share, as applicable is for any reason cancelled or ceases to exist, the Calculation Agent may determine in its sole discretion to either (A) replace the de-listed or cancelled Fund, Certificate or Share, as applicable by a successor fund, certificate or share, as applicable which has in the determination of the Calculation Agent the same or substantially similar structure and a substantially similar economic impact, and is linked to the same asset as such Fund, Certificate or Share, as applicable (B) remove the de-listed or cancelled Fund, Certificate or Share, as applicable and allocate the Fund Final Reference, Certificate Final Reference Price or Share Final Reference Price, as applicable of such Fund, Certificate or Share, as applicable as of the effective date of the de-listing or cancellation, pro rata to the remaining Funds, Certificates or Shares, as applicable or (C) make such other adjustments to the Conditions as the Calculation Agent sees fit, acting in its absolute discretion.

The Calculation Agent shall give notice as soon as practicable to the Holders in accordance with General Condition 4 of any determination made pursuant to the foregoing paragraph.

“**De-listing**” means, for the purpose of the foregoing paragraph, a Basket Constituent for any reason ceases to be listed or is suspended from listing on the Exchange or any other exchanges on which the Basket Constituents are listed (and such cessation or suspension is continuing and such Basket Constituent is not subsequently listed or quoted on another stock exchange or quotation system acceptable to the Issuer).

(j) Fund Events. Each of the following events constitutes a “**Fund Event**”. The Fund Events are for the benefit of the Issuer in order that the Issuer is protected against any adverse effects of such Fund Events on its Hedge Position. The Issuer, or the Calculation Agent on its behalf, shall make all determinations in respect of such Fund Events including as to whether such Fund Event has occurred and the effective date of such occurrence. In order to constitute a Fund Event, the Issuer or the Calculation Agent on its behalf must conclude that the event in question either has resulted or is reasonably likely to result in an adverse effect on the value of the Reference Assets or the NAV of the Fund or on the rights of any investor therein with respect to the Reference Assets or the Fund or otherwise has materially adversely affected its Hedge Position.

- (J) (a) any change occurs in the legal, tax, accounting or regulatory treatment of (i) the Issuer, any of its affiliates or any Hedge Provider by reason of its investment in the Fund or the Reference Assets or (ii) the Fund or any Fund Service Provider, in each case from that which was applicable at the Inclusion Date or (b) the Issuer or the Calculation Agent on its behalf determines that any of Issuer, its affiliates or any Hedge Provider is or may in the future be unable, or it may be unduly onerous or impractical for any such entity, to perform any obligation (including, without limitation, any regulatory or accounting reporting obligation) imposed on any such entity by the law or regulation of any relevant jurisdiction, any relevant regulatory or administrative body or any court of competent jurisdiction, in each case by reason of its investment in the Fund or the Reference Assets or (c) the Issuer, any of its affiliates or any Hedge Provider deems it necessary or appropriate, in order to comply with or remain within (i) any applicable legal and/or regulatory limits on the amounts of Reference Assets that it may hold and/or (ii) any internal exposure limits governing the maximum exposure (direct and indirect) that the Issuer, any relevant affiliate or the Hedge Provider as the case may be, is permitted to have to the Fund, to redeem all or some of the Reference Assets held by them.

 - (L) A significant market, trading or exchange disruption and/or crisis in the major financial markets occurs.
- (ii) NAV/Price and Reporting:
- (A) There is (a) a failure to calculate and/or publish the NAV of the Fund on any day on which such calculation or publication was scheduled to be made in accordance with the Fund Documents and/or the Fund Prospectus as they prevailed on the Inclusion Date or (b) a failure to calculate and publish the NAV of the Fund with the frequency set out in the Fund Documents and/or the Fund Prospectus as they prevailed on the Inclusion Date or (c) where the Fund is an exchange traded fund, a failure to publish the trading price of the Reference Assets on the Exchange.

not reflect the NAV of such Fund as it would have been determined by the independent auditors of that Fund using the generally accepted accounting standards adopted by the Fund.

- (E) (i) In respect of any Reference Asset, the occurrence of any event affecting such Reference Asset that, in the determination of the Issuer or the Calculation Agent on its behalf, would make it impossible or impracticable for the Issuer or the Calculation Agent to determine the value of such Reference Asset, and the Issuer or the Calculation Agent on its behalf determines that such event will not be, or has not been, resolved within 15 calendar days from the occurrence of such event; (ii) any failure of the Fund, any Fund Service Provider or any director of the Fund to deliver, or cause to be delivered, (A) information that such person has agreed to deliver, or cause to be delivered, to the Issuer, the Calculation Agent, any of the Issuer's affiliates or any Hedge Provider in respect of the Fund (including, without limitation, any information required by the Issuer or the Calculation Agent in the execution of its duties and obligations under the Securities or required by the Issuer or the Calculation Agent in order to determine whether any Fund Event has occurred or to make any other determination permitted by it in respect of the Securities) or (B) information that has been previously delivered to the Issuer, the Calculation Agent, any of the Issuer's affiliates or any Hedge Provider, in accordance with such person's, or its authorised representative's, normal practice and that the Issuer or the Calculation Agent deems necessary for it to perform its duties and obligations under the Securities or that the Issuer or the Calculation Agent deems is required by it in order to determine whether any Fund Event has occurred or to make any other determination permitted by it in respect of the Securities (including, in either case, monitoring the Fund's compliance with any Portfolio Guidelines, asset allocation methodologies, the occurrence of any Fund Event or any other similar policies relating to such Reference Assets).
- (iii) Reference Assets:
- Any of the following events relating to the Reference Assets occurs:
- (A) a subdivision, reclassification or distribution of Reference Assets which has a diluting or concentrative or other effect on the value (theoretical or otherwise) of the Reference Assets;

- (B) a portion of each Reference Asset is converted (whether by way of redemption and re-issue or otherwise) into new securities participating in the capital of the Fund, which securities are subject to lock-up periods during which they may not be redeemed and which relate to any segregated assets of the Fund, or the Fund creates any other form of “side-pocket” which affects the Reference Assets;
 - (C) a (i) dividend (including cash and whether ordinary or extraordinary), (ii) distribution or (iii) issue of Reference Assets, capital, securities, rights or other assets or interests to existing holders of Reference Assets which has or is likely to have an adverse effect on the value (theoretical or otherwise) of the Reference Assets;
 - (D) any suspension or limitation on the trading of the relevant currencies in which the Reference Assets are denominated or any amendment to the currency of denomination of the Reference Assets so that their price is no longer calculated in the same currency as at the Inclusion Date of the Fund;
or
- (iv) Trading and Fees:
- (A) In respect of the Reference Assets, the Fund or any Fund Service Provider increases the level of any redemption fee, subscription fee, management fee, performance fee or a bid/offer spread (or other charge however described) above the level that would have been applicable to any Reference Assets held by any of the Issuer, any affiliate of the Issuer or any Hedge Provider on the Inclusion Date (regardless of whether any such person actually holds any Reference Assets as of such date).
 - (B) Any suspension of or limitation imposed on trading of the Fund or on trading in the Reference Assets (for any reason, including, without limitation, by reason of liquidity restrictions) or any dealing request made by any investor or prospective investor in the Fund or the Reference Assets is deferred in whole or in part or is made at a value other than the related NAV or price, as applicable.
 - (C) The frequency at which Reference Assets can be traded is amended or the timing for subscription or redemption of Reference Assets is amended, in each case so that it is no longer that specified in the Fund Documents and/or Fund Prospectus as they prevailed on the Inclusion Date, including, without

limitation, an amendment to the timetable for payment of redemption proceeds upon redemption.

(D) If any of the Issuer, any of its affiliates or any Hedge Provider redeems Reference Assets or is entitled to any other amount and:

(I) does not receive the full proceeds of such redemption or amount in cash in accordance with the timing set out in the Fund Documents or the Fund Prospectus; or

(II) receives any in-kind distribution in full or part satisfaction of the redemption proceeds or such other amount paid or payable to it,

or the Issuer or the Calculation Agent on its behalf determines that either (I) or (II) above would be applicable were the Issuer, any of its affiliates or any Hedge Provider to redeem Reference Assets or be entitled to actual payment of any such other amount.

(v) Fund Adviser and Fund Service Provider Failures:

(A) The Fund Adviser indicates or acknowledges that in its opinion the strategy/investment objective of the Fund will not be, or is no longer able to be, met.

(B) Any representations, covenants or agreements of the Fund Adviser under the investment management agreement or investment advisory agreement (howsoever described) relating to the Fund have been breached and not cured.

(C) Any of: (a) the resignation, termination of appointment or replacement of the Fund Adviser from its role as such occurs or the resignation, termination of appointment or replacement of any other Fund Service Provider from its role as such occurs with respect to the Fund or (b) any change in the personnel of any Fund Service Provider occurs which the Issuer or the Calculation Agent on its behalf considers materially adversely affects the ability of such Fund Service Provider to carry out its duties with respect to the Fund.

(D) The Issuer or the Calculation Agent on its behalf becomes aware of any failure by the Fund or any person on its behalf to disclose to the Issuer or the Calculation Agent on its behalf, on or before the Inclusion Date, any information, event or circumstance that was in existence on such date and that would have been necessary to enable the Issuer or the Calculation

Agent to make an informed assessment of the assets and liabilities, financial position and prospects of the Fund and of the rights attaching to the Reference Assets.

- (vi) General: Any other event occurs which the Issuer or the Calculation Agent on its behalf determines is analogous to any of the events specified in sub-paragraphs (i) to (v) above.

(k) Consequences of a Fund Event.

In respect of each Fund Event, following the occurrence of such an event (and regardless of whether or not such event is then continuing) the Issuer or the Calculation Agent on its behalf may take any of following actions (each, a “**Permitted Action**”):

- (i) (A) make such adjustments to any variable, calculation methodology, valuation, settlement or payment terms or any other terms and conditions of the Securities as the Issuer or the Calculation Agent on its behalf determines appropriate to account for the economic effect on the Securities of such Fund Event and (B) determine the effective date of the relevant adjustments; or
- (ii) select a Replacement Fund and a Substitution Date. Following any such selection (A) the Replacement Fund shall replace the affected Fund on the Substitution Date, (B) references herein to the name of the affected Fund shall be deemed to be references to the name of the Replacement Fund with effect from the Substitution Date and (C) the Issuer or the Calculation Agent on its behalf may make such adjustment as it determines to be appropriate, if any, to any variable, calculation methodology, valuation, settlement or payment terms or any other terms and conditions in relation to the Securities to reflect such substitution; or
- (iii) terminate all, but not some only, of the Securities, on the date notified to Holders in accordance with General Condition 4 and redeem the Securities at their fair market value immediately prior to such Fund Event less (i) the cost to the Issuer of unwinding any related hedging and funding arrangements (as determined by the Issuer); and (ii) the deduction of taxes, expenses and other similar charges; or
- (iv) make such adjustments to any variable, calculation methodology, valuation, settlement or payment terms or any other terms and conditions of the Securities as the Issuer or the Calculation Agent on its behalf determines are necessary to reflect a notional liquidation of all of the Reference Assets (with the timing of such notional liquidations being the same timing as would be the case on an actual liquidation of Reference Assets at the relevant time) and a notional investment of the liquidation proceeds in either (A) a zero coupon bond, or equivalent, such that, if the proceeds

allow, the amount payable at redemption of such zero coupon bond is at least an amount per Security equal to the Issue Price of the Security, (B) an interest bearing deposit bearing interest at prevailing rates that would be offered by the Issuer in respect of such a deposit as determined by the Issuer or the Calculation Agent on its behalf, or (C) commercial paper rated at least A1/P1 or above by Moody's Investors Service, Inc. (any transaction costs that would be incurred in respect of an actual such investment may be notionally charged to the Securities) (any of (A), (B) or (C), a "**Suspension Asset**").

Notwithstanding that the Issuer or the Calculation Agent on its behalf may have previously determined not to take a Permitted Action, or to take one Permitted Action, it shall not be prevented from subsequently or concurrently deciding to adopt an additional or different Permitted Action in respect of the same Fund Event (whether on one or any number of occasions). In such respect, the Issuer or the Calculation Agent on its behalf may make such adjustments to any variable, calculation methodology, valuation, settlement or payment terms or any other terms and conditions of the Securities as it determines appropriate to account for the decision subsequently or concurrently made.

Notwithstanding anything in this sub-paragraph 4(j), neither the Issuer nor the Calculation Agent is under any obligation to determine that a Fund Event has occurred or to take any or all of the Permitted Actions. Any determinations made by the Issuer or the Calculation Agent on its behalf in respect of any of the Permitted Actions shall, in the absence of manifest error, be binding.

- (l) Fund Event Methodology and Determinations:
 - (i) If, in respect of any determination or calculation hereunder which is made by reference to an official or estimated NAV of a Fund provided or published by or on behalf of the Fund or, where the Fund is an exchange traded fund, the last reported trading price of the Reference Asset on the Exchange in respect of a particular date, the Issuer or the Calculation Agent on its behalf determines that such value does not fairly represent the value of the Fund or Reference Asset as of such date, or that no such value is provided or published, then the Issuer or the Calculation Agent on its behalf may use such other value as it determines as representing a fair NAV or price, as applicable, as of such date or, alternatively, may use a preceding official or estimated value where it believes that such preceding official or estimated value gives a fairer representation than the more recent figure.

- (ii) Should the Fund operate equalisation procedures in respect of performance or incentive based fees, the Issuer or the Calculation Agent on its behalf may make such adjustments to these Product Conditions as the Issuer or the Calculation Agent on its behalf determines appropriate to account for such equalisation in an equitable manner and, where such equalisation procedures operate by the issuance of different classes of shares in the Fund, then each of the Issuer and the Calculation Agent is permitted to deem any notional subscription or redemption on behalf of the Securities to be in such order and in respect of such classes as appear to it to be equitable and reasonable or to deem the return of such shares to be based on a benchmark or average of the different classes.
- (iii) For the avoidance of doubt and notwithstanding any other Condition, the Issuer and the Calculation Agent on its behalf shall be entitled to make any determination, waiver, declaration or decision with regard to a Fund Event and, without limitation, may make such determination, waiver, declaration or decision by reference to the establishment, operation and/or efficacy (whether actual or anticipated) of any Relevant Hedging Transaction. Neither the Issuer nor the Calculation Agent is under any obligation to monitor or determine whether or not a Fund Event has occurred and will not be required to, and will not be responsible for any failure to, make any determination, waiver, declaration or decision whatsoever in relation to a Fund Event. In making or omitting to make any such determination, waiver, declaration or decision, neither the Issuer nor the Calculation Agent shall be under any fiduciary duty towards the Holders and, for the avoidance of doubt, neither the Issuer nor the Calculation Agent shall be responsible for any loss, underperformance or opportunity cost suffered or incurred by Holders in connection with the Securities as a result thereof, howsoever arising.
- (m) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determinations. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

The Final Terms applicable to any Series of Securities may specify amendments to these Product Conditions in so far as they apply to that Series. Notwithstanding the foregoing, consideration will be given as to whether such amendments constitute “significant new factors” and consequently trigger the need for a supplement to the Base Prospectus (as defined in the Final Terms) under Article 16 of Directive 2003/71/EC.

Accordingly, in these Conditions, the term “**Holder**” means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

- (E) (i) In respect of any Reference Asset, the occurrence of any event affecting such Reference Asset that, in the determination of the Issuer or the Calculation Agent on its behalf, would make it impossible or impracticable for the Issuer or the Calculation Agent to determine the value of such Reference Asset, and the Issuer or the Calculation Agent on its behalf determines that such event will not be, or has not been, resolved within 15 calendar days from the occurrence of such event; (ii) any failure of the Fund, any Fund Service Provider or any director of the Fund to deliver, or

(iii) Reference Assets:

Any of the following events relating to the Reference Assets occurs:

- (A) a subdivision, reclassification or distribution of Reference Assets which has a diluting or concentrative or other effect on the value (theoretical or otherwise) of the Reference Assets;
- (B) a portion of each Reference Asset is converted (whether by way of redemption and re-issue or otherwise) into new securities participating in the capital of the Fund, which securities are subject to lock-up periods during which they may not be redeemed and which relate to any segregated assets of the Fund, or the Fund creates any other form of "side-pocket" which affects the Reference Assets;
- (C) a (i) dividend (including cash and whether ordinary or extraordinary), (ii) distribution or (iii) issue of Reference Assets, capital, securities, rights or other assets or interests to existing holders of Reference Assets which has or

is likely to have an adverse effect on the value (theoretical or otherwise) of the Reference Assets;

- (D) any suspension or limitation on the trading of the relevant currencies in which the Reference Assets are denominated or any amendment to the currency of denomination of the Reference Assets so that their price is no longer calculated in the same currency as at the Inclusion Date of the Fund; or

(iv) Trading and Fees:

- (A) In respect of the Reference Assets, the Fund or any Fund Service Provider increases the level of any redemption fee, subscription fee, management fee, performance fee or a bid/offer spread (or other charge however described) above the level that would have been applicable to any Reference Assets held by any of the Issuer, any affiliate of the Issuer or any Hedge Provider on the Inclusion Date (regardless of whether any such person actually holds any Reference Assets as of such date).
- (B) Any suspension of or limitation imposed on trading of the Fund or on trading in the Reference Assets (for any reason, including, without limitation, by reason of liquidity restrictions) or any dealing request made by any investor or prospective investor in the Fund or the Reference Assets is deferred in whole or in part or is made at a value other than the related NAV or price, as applicable.
- (C) The frequency at which Reference Assets can be traded is amended or the timing for subscription or redemption of Reference Assets is amended, in each case so that it is no longer that specified in the Fund Documents and/or Fund Prospectus as they prevailed on the Inclusion Date, including, without limitation, an amendment to the timetable for payment of redemption proceeds upon redemption.
- (D) If any of the Issuer, any of its affiliates or any Hedge Provider redeems Reference Assets or is entitled to any other amount and:
 - (I) does not receive the full proceeds of such redemption or amount in cash in accordance with the timing set out in the Fund Documents or the Fund Prospectus; or

- (II) receives any in-kind distribution in full or part satisfaction of the redemption proceeds or such other amount paid or payable to it, or the Issuer or the Calculation Agent on its behalf determines that either (I) or (II) above would be applicable were the Issuer, any of its affiliates or any Hedge Provider to redeem Reference Assets or be entitled to actual payment of any such other amount.

 - (D) The Issuer or the Calculation Agent on its behalf becomes aware of any failure by the Fund or any person on its behalf to disclose to the Issuer or the Calculation Agent on its behalf, on or before the Inclusion Date, any information, event or circumstance that was in existence on such date and that would have been necessary to enable the Issuer or the Calculation Agent to make an informed assessment of the assets and liabilities, financial position and prospects of the Fund and of the rights attaching to the Reference Assets.
- (vi) General: Any other event occurs which the Issuer or the Calculation Agent on its behalf determines is analogous to any of the events specified in sub-paragraphs (i) to (v) above.

(c) Consequences of a Fund Event.

In respect of each Fund Event, following the occurrence of such an event (and regardless of whether or not such event is then continuing) the Issuer or the Calculation Agent on its behalf may take any of following actions (each, a “**Permitted Action**”):

- (i) (A) make such adjustments to any variable, calculation methodology, valuation, settlement or payment terms or any other terms and conditions of the Securities as the Issuer or the Calculation Agent on its behalf determines appropriate to account for the economic effect on the Securities of such Fund Event and (B) determine the effective date of the relevant adjustments; or
- (ii) select a Replacement Fund and a Substitution Date. Following any such selection (A) the Replacement Fund shall replace the affected Fund on the Substitution Date, (B) references herein to the name of the affected Fund shall be deemed to be references to the name of the Replacement Fund with effect from the Substitution Date and (C) the Issuer or the Calculation Agent on its behalf may make such adjustment as it determines to be appropriate, if any, to any variable, calculation methodology, valuation, settlement or payment terms or any other terms and conditions in relation to the Securities to reflect such substitution; or
- (iii) terminate all, but not some only, of the Securities, on the date notified to Holders in accordance with General Condition 4 and redeem the Securities at their fair market value immediately prior to such Fund Event less (i) the cost to the Issuer of unwinding any related hedging and funding arrangements (as determined by the Issuer); and (ii) the deduction of taxes, expenses and other similar charges; or
- (iv) make such adjustments to any variable, calculation methodology, valuation, settlement or payment terms or any other terms and conditions of the Securities as the Issuer or the Calculation Agent on its behalf determines are necessary to reflect a notional liquidation of all of the Reference Assets (with the timing of such notional liquidations being the same timing as would be the case on an actual liquidation of Reference Assets at the relevant time) and a notional investment of the liquidation proceeds in either (A) a zero coupon bond, or equivalent, such that, if the proceeds allow, the amount payable at redemption of such zero coupon bond is at least an amount per Security equal to the Issue Price of the Security, (B) an interest bearing deposit bearing interest at prevailing rates that would be offered by the Issuer in respect of such a deposit as determined by the Issuer or the Calculation Agent on its behalf, or (C) commercial paper rated at least A1/P1 or above by Moody’s Investors

Service, Inc. (any transaction costs that would be incurred in respect of an actual such investment may be notionally charged to the Securities) (any of (A), (B) or (C), a “**Suspension Asset**”).

Notwithstanding that the Issuer or the Calculation Agent on its behalf may have previously determined not to take a Permitted Action, or to take one Permitted Action, it shall not be prevented from subsequently or concurrently deciding to adopt an additional or different Permitted Action in respect of the same Fund Event (whether on one or any number of occasions). In such respect, the Issuer or the Calculation Agent on its behalf may make such adjustments to any variable, calculation methodology, valuation, settlement or payment terms or any other terms and conditions of the Securities as it determines appropriate to account for the decision subsequently or concurrently made.

Notwithstanding anything in this sub-paragraph 4(c), neither the Issuer nor the Calculation Agent is under any obligation to determine that a Fund Event has occurred or to take any or all of the Permitted Actions. Any determinations made by the Issuer or the Calculation Agent on its behalf in respect of any of the Permitted Actions shall, in the absence of manifest error, be binding.

(d) Fund Event Methodology and Determinations:

- (i) If, in respect of any determination or calculation hereunder which is made by reference to an official or estimated NAV of a Fund provided or published by or on behalf of the Fund or, where the Fund is an exchange traded fund, the last reported trading price of the Reference Asset on the Exchange in respect of a particular date, the Issuer or the Calculation Agent on its behalf determines that such value does not fairly represent the value of the Fund or Reference Asset as of such date, or that no such value is provided or published, then the Issuer or the Calculation Agent on its behalf may use such other value as it determines as representing a fair NAV or price, as applicable, as of such date or, alternatively, may use a preceding official or estimated value where it believes that such preceding official or estimated value gives a fairer representation than the more recent figure.
- (ii) Should the Fund operate equalisation procedures in respect of performance or incentive based fees, the Issuer or the Calculation Agent on its behalf may make such adjustments to these Product Conditions as the Issuer or the Calculation Agent on its behalf determines appropriate to account for such equalisation in an equitable manner and, where such equalisation procedures operate by the issuance of different

classes of shares in the Fund, then each of the Issuer and the Calculation Agent is permitted to deem any notional subscription or redemption on behalf of the Securities to be in such order and in respect of such classes as appear to it to be equitable and reasonable or to deem the return of such shares to be based on a benchmark or average of the different classes.

(iii) For the avoidance of doubt and notwithstanding any other Condition, the Issuer and the Calculation Agent on its behalf shall be entitled to make any determination, waiver, declaration or decision with regard to a Fund Event and, without limitation, may make such determination, waiver, declaration or decision by reference to the establishment, operation and/or efficacy (whether actual or anticipated) of any Relevant Hedging Transaction. Neither the Issuer nor the Calculation Agent is under any obligation to monitor or determine whether or not a Fund Event has occurred and will not be required to, and will not be responsible for any failure to, make any determination, waiver, declaration or decision whatsoever in relation to a Fund Event. In making or omitting to make any such determination, waiver, declaration or decision, neither the Issuer nor the Calculation Agent shall be under any fiduciary duty towards the Holders and, for the avoidance of doubt, neither the Issuer nor the Calculation Agent shall be responsible for any loss, underperformance or opportunity cost suffered or incurred by Holders in connection with the Securities as a result thereof, howsoever arising.

(e) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determinations. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

The Final Terms applicable to any Series of Securities may specify amendments to these Product Conditions in so far as they apply to that Series. Notwithstanding the foregoing, consideration will be given as to whether such amendments constitute “significant new factors” and consequently trigger the need for a supplement to the Base Prospectus (as defined in the Final Terms) under Article 16 of Directive 2003/71/EC.

The Securities are represented by a global security (the “**Global Security**”) which will be deposited with a Clearing Agent or the depositary for one or more Clearing Agents and will be transferable only in accordance with the applicable law and the rules and procedures of the relevant Clearing Agent through whose systems the Securities are transferred. Each person (other than another Clearing Agent) who is for the time being shown in the records of the relevant Clearing Agent as the owner of a particular nominal amount of the Securities (in which regard any certificate or other document issued by the relevant Clearing Agent as to the nominal amount of the Securities standing to the credit of the account of any person shall be conclusive and binding for all purposes except in the case of manifest error) shall be treated by the Issuer and each Agent as the holder of such nominal amount of the Securities (and the term “**Holder**” shall be construed accordingly) for all purposes, other than with respect to any payment and/or delivery obligations, the right to

which shall be vested as regards the Issuer and the Agents, solely in the bearer of the Global Security.

- (b) Dematerialised Form. Certain Securities will, where required by the rules and procedures of the Clearing Agent, be issued in dematerialised form and will be registered in the book-entry system of the Clearing Agent. Title to the Securities will pass by transfer between accountholders at the Clearing Agent perfected in accordance with the legislation, rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means a person in whose name a Security is registered in the book-entry settlement system of the Clearing Agent or any other person recognised as a holder of Securities pursuant to the Rules.

If CREST is specified as the Clearing Agent in the relevant Final Terms, the Securities will be cleared through CREST. Such Securities will be registered securities in dematerialised and uncertificated form, and will be (i) participating securities and (ii) uncertificated securities in accordance with the Uncertificated Securities Regulations 2001 (SI. No. 3755) as amended, supplemented or replaced from time to time (the “**Regulations**”).

Securities cleared through CREST may be transferred in accordance with the Regulations and the rules, procedures and practices of the relevant Operator (as defined below). No transfer of such Securities will be valid unless and until entered on the relevant Operator register of corporate securities (as defined in and in accordance with, the Regulations).

In the case of Securities cleared through CREST, title to the Securities is recorded on the relevant Operator register of corporate securities (as defined in the Regulations). The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. Subject to this requirement, (i) each person who is for the time being shown in the Register as the holder of such Securities shall be treated by the Issuer and the Registrar as the holder of such Securities for all purposes and (ii) neither the Issuer nor the Registrar shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Register which the Registrar maintains are in accordance with particulars entered in the Operator register of corporate securities relating to such Securities (and the expression “**Holder**” and related expressions shall be construed accordingly).

Any reference to the “**Operator**” (as such term is used in the Regulations) shall be to CREST and shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator approved by the Issuer from time to time in accordance with the Regulations and notified to the relevant Holders in accordance with General Condition 4.

Any indication herein that the Operator “shall do”, or similar expression or phrase indicating that they are obliged to or will carry out any role or obligation described in the Conditions and/or the applicable Final Terms, as the case may be, is given without any assumption by the Issuer, the relevant Registrar or the Calculation Agent of responsibility or liability for the performance of the Operator.

- (c) SIX SIS Ltd as Clearing Agent. If SIX SIS Ltd is specified as the Clearing Agent, Securities will, as specified in the applicable Final Terms, be issued in the form of (i) dematerialised securities (the “**Dematerialised Securities**”) or (ii) a bearer permanent Global Security and, in either case, will be transformed into intermediated securities (the “**Intermediated Securities**”) in accordance with article 6 of the Swiss Federal Intermediated Securities Act (the “**FISA**”).

The Intermediated Securities will be created (i) by deposit of a Global Security with the Clearing Agent, acting as custodian as defined in article 4 FISA (the “**Custodian**”), or registration of Dematerialised Securities in the main register of the Clearing Agent, acting as Custodian, and (ii) the Clearing Agent, acting as Custodian, crediting the respective rights to securities accounts of one or more of its participants with the Clearing Agent in accordance with articles 4 and 6 FISA. For each issuance of Securities in the form of Dematerialised Securities, the Clearing Agent, acting as Custodian, will maintain the main register as defined in article 6 para. 2 FISA which is available to the public under <https://www.sec.sisclear.com/sec/cm/index/custody-settlement/mainregister.htm>.

Title to the Intermediated Securities is construed and will pass in accordance with the legislation, in particular the FISA, rules and regulations applicable to and/or issued by the Clearing Agent, acting as Custodian, and any other custodian, if any, that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

The Holders shall at no time have the right to effect or demand (i) the retransformation of the Intermediated Securities into, and the delivery of, Dematerialised Securities in the case of Dematerialised Securities being the basis for the creation of Intermediated Securities, or

(ii) the conversion of the Dematerialised Securities or the Global Security into definitive Securities.

- (g) General. In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent, or any Agent shall have any responsibility for any errors or omissions in the calculation of the Cash Amount, any Interest Amount, Issuer Call Cash Amount or any Interim Cash Settlement Amount.
- (h) Settlement Risk. Settlement of the Securities is subject to all applicable laws, regulations and practices in force at the relevant time and none of the Issuer, any Agent nor where the Securities are cleared through CREST, the Registrar shall incur any liability whatsoever if it is unable to effect the transactions contemplated as a result of any such laws, regulations or practices. Payments will be made via the Clearing Agent(s) and will be made in accordance with the Rules (if applicable). All payments will be subject to applicable fiscal and legal requirements applicable thereto.
- (j) Presentation and Surrender. Unless the Securities are cleared through CREST, the Issuer shall record payment of any amount in connection with the Securities made to the relevant Agent and such record shall be prima facie evidence that the payment in question has been made. The Holder shall be the only person entitled to receive payments of any amount paid in connection with the Securities and the Issuer will be discharged by payment to, or to the order of, the Holder in respect of the amount so paid. Where the Securities are cleared through CREST, General Condition 20 shall apply.

4. ADJUSTMENTS

- a) **Market Disruption.** The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Holders in accordance with General Condition 4 if it determines that a Market Disruption Event has occurred.

A “**Market Disruption Event**” relating to a Commodity (if applicable) means:

- (a) **Price Source Disruption.** The failure by the Exchange to announce or publish the price for the Commodity (or the information necessary for determining such price), or the temporary or permanent discontinuance or unavailability of such price by the Exchange; or
- (b) **Trading Suspension.** The material suspension of trading on the Exchange or any Related Exchange; or
- (c) **Disappearance of Price.** The failure of trading to commence, or the permanent discontinuation of trading of the Commodity on the Exchange; or
- (d) **Material Change in Formula.** The occurrence, since the Issue Date, of a material change in the basis for (including but not limited to the quantity, quality or currency), or method of calculating the price of the Commodity; or
- (e) **Material Change in Content.** The occurrence, since the Issue Date, of a material change in the content or composition of the Commodity; or
- (f) **De Minimis Trading.** The number of contracts traded on the Exchange with respect to the Commodity is such that the Issuer declares that its ability to enter into hedging transactions with respect to the Commodity has been impaired due to a lack of, or, a material reduction in, trading in the Commodity on the Exchange; or
- (g) **Tax Disruption.** The imposition of, change in, or removal of an excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or similar tax on, or measured by reference to, the Commodity (other than a tax on, or measured by reference to, overall gross or net income) by any government or taxation authority after the Issue Date if the direct effect of such imposition, change or removal is to raise or lower the price of the Commodity on the Interim Cash Settlement Amount Valuation Date, the relevant Valuation Date or the Final Valuation Date as the case may be and/or on each of the three Trading Days following the Interim Cash Settlement Amount Valuation Date, the relevant Valuation Date or the Final Valuation Date as the case may be from what it would have been without that imposition, change or removal; or
- (h) **Trading Limitation.** The material limitation imposed on trading in the Commodity with respect to it or any contract with respect thereto on any exchange or principal trading market; or

- (i) Moratorium. A general moratorium is declared in respect of banking activities in the country in which the Exchange or Related Exchange is located; or

In respect of an Index (if applicable) which is not a Commodity Index, “**Market Disruption Event**” means:

- (a) a general moratorium is declared in respect of banking activities in the country in which the Exchange or Related Exchange is located;
- (b) the occurrence or existence on any Trading Day during the one hour period that ends at the official close of trading on the Exchange or any Related Exchange of any suspension of or limitation imposed on trading or the disruption or impairment in the ability of market participants in general to effect transactions (by reason of movements in price reaching or exceeding limits permitted by the relevant exchange or otherwise);
- (c) on any Exchange(s) in securities that comprise 20 per cent or more of the level of the relevant Index if, in the determination of the Calculation Agent, such suspension or limitation is material. For the purpose of determining whether such suspension or limitation is material, if trading in a security included in the Index is suspended or materially limited at that time, then the relevant percentage contribution of that security to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that security relative to (y) the overall level of the Index, in each case immediately before that suspension or limitation; or
- (d) on any Related Exchange in any options contracts or futures contracts or other derivatives contracts relating to the relevant Index. In any event, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the relevant exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

In respect of a Commodity Index (if applicable), “**Market Disruption Event**” means, in relation to the Commodity Index or its components:

- (i) **Price Source Disruption.** The failure by the Exchange to announce or publish the price of the Commodity Index or any of its components (or the information necessary for determining such price(s)) or the temporary or permanent discontinuance or unavailability of such price(s) by the Exchange; or

- (ii) **Trading Suspension.** The material suspension of trading on the Exchange; or
- (iii) **Disappearance of Price.** The permanent discontinuation of trading in the Commodity Index or any of its components on the Exchange, disappearance of, or of trading in, the Commodity Index or any of its components or the disappearance or permanent discontinuance or unavailability of a reference price, notwithstanding the availability of the related price source or the status of trading in the Commodity Index or any of its components;
- (iv) **Material Change in Formula.** The occurrence, since the Issue Date, of a material change in the basis for (including but not limited to the quantity, quality or currency), or method of, calculating the price of a component of the Commodity Index; or
- (v) **Material Change in Content.** The occurrence, since the Issue Date, of a material change in the content or composition of a Commodity Index or any of its components; or
- (vi) **De Minimis Trading.** The number of contracts traded on the Exchange with respect to a Commodity Index or any of its components is such that the Issuer declares that its ability to enter into hedging transactions with respect to the Commodity Index or any of its components has been impaired due to a lack of, or a material reduction in, trading in the Commodity Index or any of its components on the Exchange; or
- (vii) **Tax Disruption.** The imposition of, change in, or removal of, an excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or similar tax on, or measured by reference to, a Commodity Index or any of its components (other than a tax on, or measured by reference to, overall gross or net income) by any government or taxation authority after the Issue Date, if the direct effect of such imposition, change or removal is to raise or lower the price of the Commodity Index or any of its components on the Valuation Date or Issuer Call Date, as the case may be, and/or on each of the three Trading Days following the Valuation Date or Issuer Call, as the case may be, from what it would have been without that imposition, change or removal; or
- (viii) **Trading Limitation.** The material limitation imposed on trading in a Commodity Index or any of its components on any exchange or principal trading market; or
- (ix) **Moratorium.** A general moratorium is declared in respect of banking activities in the country in which the Exchange is located; or

- b) Adjustments to the Commodity (if applicable) and the Index (if applicable)
 - (1) If a Commodity (an “**Affected Commodity**”) for any reason ceases to exist, the Calculation Agent may determine in its sole discretion to either (A) replace that Affected Commodity by a successor commodity which has in the determination of the Calculation Agent the same or substantially similar structure and a substantially similar economic impact as such Affected Commodity and is of a similar type to such Affected Commodity or (B) remove the Affected Commodity from the Basket and allocate the price of such Affected Commodity, pro rata to the remaining Commodities in the Basket.
 - (2) Adjustments to the Index. The Calculation Agent shall give notice as soon as practicable to the Holders in accordance with General Condition 4 of any determination made by it pursuant to paragraphs (i), (ii), (iii) or (iv) below.
 - (i) If any Index is (A) not calculated and announced by the Index Sponsor but is calculated and published by a successor to the Index Sponsor (the “**Successor Sponsor**”) acceptable to the Calculation Agent; or (B) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the relevant Index, then (in either case) the relevant Index will be deemed to be the index so calculated and announced by such Successor Sponsor or that successor index, as the case may be.
 - (ii) If (A) on or prior to the Interim Cash Settlement Amount Valuation Date, the relevant Valuation Date or the Issuer Call Date, as the case may be the Index Sponsor or, if applicable, the Successor Sponsor makes a material change in the formula for or the method of calculating any Index or in any other way materially modifies an Index (other than a modification prescribed in that formula or method to maintain the Index in the event of changes in constituent securities or components, as the case may be, and other routine events); or (B) on or prior to the Interim Cash Settlement Amount Valuation Date, the relevant Valuation Date or the Issuer Call Date, as the case may be the Index Sponsor or, if applicable, the Successor Sponsor fails to calculate and/or publish any Index; then (in either case) the Calculation Agent shall determine the level of the Index using, in lieu of a published level for the relevant Index on the Interim Cash Settlement Amount Valuation Date, the relevant Valuation Date or the Issuer Call Date, as the case may be, the level for the relevant Index as determined by the Calculation Agent in accordance with the formula for and method of calculating the relevant Index last in

effect prior to the change or failure, but using only those (a) in respect of an index which is not a Commodity Index, securities that comprised the relevant Index immediately prior to the change or failure (other than those securities that have since ceased to be listed on the Exchange or any other exchange on which the Shares are listed); or (b) in respect of a Commodity Index, commodity components that comprised the Index immediately prior to the change or failure (other than those components that have since ceased to be traded on the Exchange or any other exchange) or, in the case of a material modification of the Index only, shall deem such modified Index to be the Index so calculated and announced or shall (if so required by the Issuer), by giving notice in accordance with General Condition 4, terminate the Securities and pay to each Holder in respect of each Security held by such Holder an amount equal to the fair market value of the Security immediately prior to such material modification of the Index less the cost to the Issuer of unwinding any related hedging arrangements (as determined by the Issuer).

(iii) If, at any time, any of the events specified in (A) to (H) below occurs and the Index Sponsor or, if applicable, the Successor Sponsor has not in the opinion of the Calculation Agent made an appropriate adjustment to the level of the relevant Index (which term excludes, for these purposes of this paragraph (iii), any Commodity Index) in order to account fully for such event, notwithstanding that the rules published or applied by the Index Sponsor or, if applicable, the Successor Sponsor pertaining to the Index have been applied, the Calculation Agent shall make such adjustment to the level of the relevant Index as it considers appropriate in order so to account for: (A) a distribution or dividend to existing holders of the Shares of (i) the Shares; or (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the issuer of the Shares equally or proportionately with such payments to holders of Shares or (iii) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price; (B) a free distribution or dividend of any Shares to existing holders of the Shares by way of bonus, capitalisation or similar issue; (C) an extraordinary dividend; (D) any cash dividends declared on the Shares at a time when the relevant issuer of the Shares has not previously declared or paid dividends on such Shares for the prior four quarterly periods; (E) any non-cash dividends declared on the Shares at a time when the relevant issuer of the Shares has not previously declared or paid dividends on such Shares for the prior four quarterly periods; (F) any other extraordinary cash or non-cash dividend on, or distribution with respect to, the Shares which is, by its terms or declared intent, declared and paid outside the normal operations or normal dividend procedures of the relevant issuer of the Shares, provided that, in all cases, the related ex-dividend date occurs

during the period from but including the Issue Date up to and excluding the Interim Cash Settlement Amount Valuation Date, the relevant Valuation Date or the Issuer Call Date, as the case may be; (G) a distribution of cash dividends on the Shares equal to or greater than 8 per cent. per annum of the then current market value of the Shares; and (H) any other similar event having a dilutive or concentrative effect on the theoretical value of the Shares.

- (iv) The Issuer reserves the right to issue further Securities, make adjustments or to distribute to the Holders any rights in connection with the Securities as it reasonably believes are appropriate in circumstances where an event or events occur which the Issuer (in its absolute discretion and notwithstanding any adjustments previously made to the Securities) believes should, in the context of the issue of Securities and its obligations hereunder, give rise to such adjustment or distribution, provided that such adjustment is considered by the Calculation Agent either to be appropriate generally (without considering the individual circumstances of any Holder or the tax or other consequences of such adjustment in any particular jurisdiction) or to be required to take account of provisions of the laws of the relevant jurisdiction or the practices of the Exchange. The Issuer, in any event, reserves the right to in its absolute discretion terminate Securities linked to any Proprietary Index by giving notice in accordance with General Condition 4, in the event that the relevant Index Sponsor terminates, cancels or suspends, as the case may be, any such Proprietary Index.

The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determinations. In making any such determination and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and in a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

Notwithstanding the foregoing, consideration will be given as to whether such amendments constitute “significant new factors” and consequently trigger the need for a supplement to the Base Prospectus (as defined in the Final Terms) under Article 16 of Directive 2003/71/EC.

Title to the Securities will pass by transfer between accountholders at the Clearing Agent perfected in accordance with the legislation, rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means a person in whose name a Security is registered in the book-entry settlement system of the Clearing Agent or any other person recognised as a holder of Securities pursuant to the Rules.

The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. Any reference to the “**Operator**” (as such term is used in the Regulations) shall be to CREST and shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator approved by the Issuer from time to time in accordance with the Regulations and notified to the relevant Holders in accordance with General Condition 4.

Title to the Intermediated Securities is construed and will pass in accordance with the legislation, in particular the FISA, rules and regulations applicable to and/or issued by the Clearing Agent, acting as Custodian, and any other custodian, if any, that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

The Holders shall at no time have the right to effect or demand (i) the retransformation of the Intermediated Securities into, and the delivery of, Dematerialised Securities in the case of Dematerialised Securities being the basis for the creation of Intermediated Securities, or (ii) the conversion of the Dematerialised Securities or the Global Security into definitive Securities.

Each person (other than another Clearing Agent) who is for the time being shown in the records of the relevant Clearing Agent as the owner of a particular nominal amount of the Securities (in which regard any certificate or other document issued by the relevant Clearing Agent as to the nominal amount of the Securities standing to the credit of the account of any person shall be conclusive and binding for all purposes except in the case of manifest error) shall be treated by the Issuer and each Agent as the holder of such nominal amount of the Securities (and the term “**Holder**” shall be construed accordingly) for all purposes, other than with respect to any payment and/or delivery obligations, the right to which shall be vested as regards the Issuer and the Agents, solely in the bearer of the Global Security.
- (b) Dematerialised Form. Certain Securities will, where required by the rules and procedures of the Clearing Agent, be issued in dematerialised form and will be registered in the book-entry system of the Clearing Agent. Title to the Securities will pass by transfer between accountholders at the Clearing Agent perfected in accordance with the legislation, rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect from time to time (the “**Rules**”). Accordingly, in these Conditions, the term “**Holder**” means a person in whose name a Security is registered in the book-entry settlement system of the

The Registrar on behalf of the Issuer will maintain a register of such Securities recorded on the relevant Operator register of corporate securities (the “**Register**”) and shall procure that the Register is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator and the Regulations. Any reference to the “**Operator**” (as such term is used in the Regulations) shall be to CREST and shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator approved by the Issuer from time to time in accordance with the Regulations and notified to the relevant Holders in accordance with General Condition 4.

Any indication herein that the Operator “shall do”, or similar expression or phrase indicating that they are obliged to or will carry out any role or obligation described in the Conditions and/or the applicable Final Terms, as the case may be, is given without any assumption by the Issuer, the relevant Registrar or the Calculation Agent of responsibility or liability for the performance of the Operator.

- (c) SIX SIS Ltd as Clearing Agent. If SIX SIS Ltd is specified as the Clearing Agent, Securities will, as specified in the applicable Final Terms, be issued in the form of (i) dematerialised securities (the “**Dematerialised Securities**”) or (ii) a bearer permanent Global Security and, in either case, will be transformed into intermediated securities (the “**Intermediated Securities**”) in accordance with article 6 of the Swiss Federal Intermediated Securities Act (the “**FISA**”).

Accordingly, in these Conditions, the term “**Holder**” means any person recognised as a holder of the Intermediated Securities pursuant to the Rules.

The Holders shall at no time have the right to effect or demand (i) the retransformation of the Intermediated Securities into, and the delivery of, Dematerialised Securities in the case of Dematerialised Securities being the basis for the creation of Intermediated Securities, or (ii) the conversion of the Dematerialised Securities or the Global Security into definitive Securities.

- (A) on any Exchange(s) in securities that comprise 20 per cent or more of the level of the relevant Index if, in the determination of the Calculation Agent, such suspension or limitation is material. For the purpose of determining whether such suspension or limitation is material, if trading in a security included in the Index is suspended or materially limited at that time, then the relevant percentage contribution of that security to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that security relative to (y) the overall level of the Index, in each case immediately before that suspension or limitation; or
- (B) on any Related Exchange in any options contracts or futures contracts or other derivatives contracts relating to the relevant Index.

In any event, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the relevant exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

In respect of a Commodity Index, “**Market Disruption Event**” means, in relation to the Commodity Index or its components:

- (i) **Price Source Disruption.** The failure by the Exchange to announce or publish the price of the Commodity Index or any of its components (or the information necessary for determining such price(s)) or the temporary or permanent discontinuance or unavailability of such price(s) by the Exchange; or
- (ii) **Trading Suspension.** The material suspension of trading on the Exchange; or
- (iii) **Disappearance of Price.** The permanent discontinuation of trading in the Commodity Index or any of its components on the Exchange, disappearance of, or of trading in, the Commodity Index or any of its components or the disappearance or permanent discontinuance or unavailability of a reference price, notwithstanding the availability of the related price source or the status of trading in the Commodity Index or any of its components;
- (iv) **Material Change in Formula.** The occurrence, since the Issue Date, of a material change in the basis for (including but not limited to the quantity, quality or currency), or method of, calculating the price of a relevant component of the Commodity Index; or
- (v) **Material Change in Content.** The occurrence, since the Issue Date, of a material change in the content or composition of a Commodity Index or any of its components; or
- (vi) **De Minimis Trading.** The number of contracts traded on the Exchange with respect to a Commodity Index or any of its components is such that the Issuer declares that its ability to enter into hedging transactions with respect to the Commodity Index or any of its components has been impaired due to a lack of, or a material reduction in, trading in the Commodity Index or any of its components on the Exchange; or
- (vii) **Tax Disruption.** The imposition of, change in, or removal of, an excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or similar tax on, or measured by reference to, a Commodity Index or any of its components (other than a tax on, or measured by reference to, overall gross or net income) by any government or taxation authority after the Issue Date, if the direct effect of such imposition, change or removal is to raise or lower the price of the Commodity Index or any of its components on the Valuation Date and/or on each of the three Trading Days following the Valuation Date, as the case may be, from what it would have been without that imposition, change or removal; or

- (viii) **Trading Limitation.** The material limitation imposed on trading in a Commodity Index or any of its components on any exchange or principal trading market; or
- (ix) **Moratorium.** A general moratorium is declared in respect of banking activities in the country in which the Exchange is located; or
- (x) **Other Events.** Any other event similar to any of the above which could make it impracticable or impossible for the Issuer to perform its obligations in relation to the Securities.

“**Market Disruption Event**”, in relation to an Inflation Index, means the Index Sponsor fails to calculate and announce the level of the Inflation Index.

- (b) Adjustments to Index. The Calculation Agent shall give notice as soon as practicable to the Holders in accordance with General Condition 4 of any determination made by it pursuant to paragraphs (1), (2), (3) or (4) below.
 - (i) If a relevant Index is (A) not calculated and announced by the Index Sponsor but is calculated and announced by a successor to the Index Sponsor (the “**Successor Sponsor**”) acceptable to the Calculation Agent; or (B) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the Index, then (in either case) the Index will be deemed to be the index so calculated and announced by such Successor Sponsor or that successor index, as the case may be.
 - (ii) If (A) on or prior to the Valuation Date, the Index Sponsor or, if applicable, the Successor Sponsor, makes a material change in the formula for or the method of calculating a relevant Index or in any other way materially modifies the Index (other than a modification prescribed in that formula or method to maintain the Index in the event of changes in constituent securities or components, as the case may be, and other routine events); or (B) on or prior to the Valuation Date the Index Sponsor or, if applicable, the Successor Sponsor fails to calculate and/or publish a relevant Index; then (in either case) the Calculation Agent shall determine the Index Final Reference Price using, in lieu of a published level(s) for the Index on the Valuation Date the level for the Index as determined by the Calculation Agent in accordance with the formula for and method of calculating the Index last in effect prior to the change or failure, but using only those (a) in respect of an Index which is not a Commodity Index, securities that comprised the Index immediately prior to the change or failure (other than those securities that have since ceased to be listed on the Exchange or any other exchange on which the Shares are listed); or (b) in respect of a Commodity Index, commodity components that comprised the Index

immediately prior to the change or failure (other than those components that have since ceased to be traded on the Exchange or any other exchange) or, in the case of a material modification of the Index only, the Calculation Agent shall deem such modified Index to be the Index so calculated and announced or shall (if so required by the Issuer), by giving notice in accordance with General Condition 4, terminate the Securities and pay to each Holder in respect of each Security held by such Holder an amount equal to the fair market value of the Security immediately prior to such material modification of the Index less the cost to the Issuer of unwinding any related hedging arrangements (as determined by the Issuer).

- (iii) If, at any time, any of the events specified in (A) to (H) below occurs and the Index Sponsor or, if applicable, the Successor Sponsor has not in the opinion of the Calculation Agent made an appropriate adjustment to the level of the relevant Index (which term excludes, for these purposes of this paragraph (iii), any Commodity Index) in order to account fully for such event, notwithstanding that the rules published or applied by the Index Sponsor or, if applicable, the Successor Sponsor pertaining to the Index have been applied, the Calculation Agent shall make such adjustment to the level of the Index as it considers appropriate in order so to account for: (A) a distribution or dividend to existing holders of the Shares of (i) Shares; or (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the issuer of the Shares equally or proportionately with such payments to holders of Shares or (iii) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price; (B) a free distribution or dividend of any Shares to existing holders of the Shares by way of bonus, capitalisation or similar issue; (C) an extraordinary dividend; (D) any cash dividends declared on the Shares at a time when the relevant issuer of the Shares has not previously declared or paid dividends on such Shares for the prior four quarterly periods; (E) any non-cash dividends declared on the Shares at a time when the relevant issuer of the Shares has not previously declared or paid dividends on such Shares for the prior four quarterly periods; (F) any other extraordinary cash or non-cash dividend on, or distribution with respect to, the Shares which is, by its terms or declared intent, declared and paid outside the normal operations or normal dividend procedures of the relevant issuer of the Shares, provided that, in all cases, the related ex-dividend date occurs during the period from and including the Issue Date up to but excluding the Valuation Date; (G) a distribution of cash dividends on the Shares equal to or greater than 8 per cent. per annum of the then current market value of the Shares; (H) any

other similar event having dilutive or concentrative effect on the theoretical value of the Shares.

- (c) Adjustments to the Inflation Index. The Calculation Agent shall give notice as soon as practicable to the Holders in accordance with General Condition 4 of any determination made by it pursuant to paragraphs (1), (2) or (3) below.
- (1) If the Inflation Index is (A) not calculated and announced in its usual way but is calculated and published in a different way but in a way acceptable to the Calculation Agent; or (B) replaced by a successor inflation index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the relevant Inflation Index, then (in either case) the relevant Inflation Index will be deemed to be the Inflation Index so calculated and announced by that successor index, as the case may be.
- (2) If (A) on or prior to any calculation of the level of the Inflation Index there is a material change in the formula for or the method of calculating the Inflation Index or the Index Sponsor, in any other way, materially modifies the Inflation Index (other than a modification prescribed in that formula or method to maintain the Inflation Index in the event of changes in constituent securities and other routine events) then the Calculation Agent shall (a) determine the Inflation Index level using, in lieu of a published level for the Inflation Index, the level for the Inflation Index as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner or, (b) shall deem such modified Inflation Index to be the Inflation Index so calculated and announced or (c) shall terminate the Securities by giving notice in accordance with General Condition 4.
- (d) (1) The Issuer reserves the right to issue further Securities, make adjustments or to distribute to the Holders any rights in connection with the Securities as it reasonably believes are appropriate in circumstances where an event or events occur which the Issuer (in its absolute discretion and notwithstanding any adjustments previously made to the Securities) believes should, in the context of the issue of Securities and its obligations hereunder, give rise to such adjustment or distribution, provided that such adjustment is considered by the Calculation Agent either to be appropriate generally (without considering the individual circumstances of any Holder or the tax or other consequences of such adjustment in any particular jurisdiction) or to be required to take account of provisions of the laws of the relevant jurisdiction or the practices of the relevant exchange. The Issuer, in any event, reserves the right to in its absolute discretion terminate Securities linked to any Proprietary

Index by giving notice in accordance with General Condition 4, in the event that the relevant Index Sponsor terminates, cancels or suspends, as the case may be, any such Proprietary Index.

- (2) The Calculation Agent may make adjustments to the Conditions in order to account for any such event if it considers it appropriate to do so. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Holder of any determination made by it pursuant to this Product Condition 4 on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Holders copies of any such determinations. In making any determinations and calculations in respect of the Securities, the Calculation Agent shall act at all times in good faith and a commercially reasonable manner.

5. EFFECT OF FINAL TERMS

The Final Terms applicable to any Series of Securities may specify amendments to these Product Conditions in so far as they apply to that Series. Notwithstanding the foregoing, consideration will be given as to whether such amendments constitute “significant new factors” and consequently trigger the need for a supplement to the Base Prospectus (as defined in the Final Terms) under Article 16 of Directive 2003/71/EC.

ADDITIONAL CONDITIONS

The following provisions shall, if applicable, amend the General Conditions and the Product Conditions (as appropriate) as described:

1. **SECURITIES LISTED ON MOT**

In such circumstances the Issuer will, however, if and to the extent permitted by the Applicable Law, pay to each Holder in respect of each Security held by such Holder an amount equal to the Nominal Amount of the Security plus a pro rata amount equal to any accrued Interest Amount since the last Interest Payment Date as determined by the Calculation Agent who shall act at all times in good faith and a commercially reasonable manner. ADDITIONAL INFORMATION

The statements herein regarding taxation are based on the laws in force in Italy as at the date of this Final Terms and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective investors are advised to consult their own tax advisers concerning the overall tax consequences of their interest in the Securities.

[This summary does not describe the tax consequences for an investor with respect to Securities that will be redeemed by physical delivery. Prospective investors are advised to consult their own tax advisers concerning the overall tax consequences under Italian tax law, under the tax laws of the country in which they are resident for tax purposes and of any other potentially relevant jurisdiction of acquiring, holding and disposing of Securities and receiving payments of yield, principal and/or other amounts under the Securities, including in particular the effect of any state, regional or local tax laws.]¹

In accordance with the Italian tax regime currently in force, where the Italian resident Holder is (i) an individual not engaged in an entrepreneurial activity to which the Securities are connected, (ii) a non-commercial partnership with the exception of general partnership, limited partnership and similar entities, (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate interest, premium and other income accrued during the relevant holding period are subject to a 20 per cent substitute tax (*imposta sostitutiva*) (20 per cent for interest, premium and other income accrued as of or following 1 January 2012) pursuant to the legislative decree 1 April 1996 n. 239.

Where an Italian resident Holder is a company or similar commercial entity, or the Italian permanent establishment of a foreign commercial entity to which the Securities are effectively connected, interest, premium and other income arising from the Securities will not be subject to *imposta sostitutiva*, but must be included in the relevant Holder's income tax return and are therefore subject to Italian corporate tax.

No Italian *imposta sostitutiva* is applied on payments to a non-Italian resident Holder of interest or premium relating to the Securities provided that, if the Securities are held in Italy, the non Italian resident Holder declares itself to be a non-Italian resident according to Italian tax regulations.

Any capital gains realised by Holders included in the above (i) to (iv) from the sale of the Securities are subject to a substitutive tax (*imposta sostitutiva*) applied at a rate of 20 per cent. pursuant to the legislative

¹ Include for physically settled notes only

decree 21 November 1997 n. 461 as amended from time to time.

Particular provisions apply to Securities held or managed by a qualified intermediary; the recipient may opt for two different tax regime: (1) under the "*risparmio amministrato*" regime, Italian resident individuals holding the Securities not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on each capital gains realised on the Securities; (2) under the "*risparmio gestito*" regime any capital gains realised or accrued by the Italian resident individuals holding the Securities not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Securities, will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 20 per cent. substitute tax, to be paid by the managing authorised intermediary.

Under some conditions and limitations, Holders may set off capital losses (decrease in value for the *risparmio gestito* regime) with capital gains (increase in value for the *risparmio gestito* regime). Capital losses realised (decrease in value accrued for the *risparmio gestito* regime) before 1 January 2012 may be carried forward to be offset against subsequent capital gains (increase in value accrued for the *risparmio gestito* regime) of the same nature for an overall amount of 62.5 per cent. of the relevant capital losses.

Where an Italian resident Holder is a company or similar commercial entity, or the Italian permanent establishment of a foreign commercial entity to which the Securities are effectively connected, capital gains arising from the Securities will not be subject to *imposta sostitutiva*, but must be included in the relevant Holder's income tax return and are therefore subject to Italian corporate tax.

Capital gains realised by non-Italian resident Holders from the sale, early redemption or redemption of the Securities are not subject to Italian taxation, provided that the Securities (i) are transferred on regulated markets, or (ii) if not transferred on regulated markets, are held outside Italy.

Stamp duty

Pursuant to Article 19(1) of Decree No. 201 of 6 December 2011 ("Decree 201"), a proportional stamp duty applies on an annual basis to the periodic reporting communications sent by financial intermediaries to their clients for the Securities deposited therewith. The stamp duty applies at a rate of 0.1 per cent. for year 2012 and at 0.15 per cent. for subsequent years; this stamp duty is determined on the basis of the market value or – if no market value figure is available – the nominal value or redemption amount of the Securities held. The stamp duty can be no lower than €34.20 and, for the year 2012 only, it cannot exceed €1,200. Although the stamp duty is already applicable, certain aspects of the relevant discipline should be clarified and implemented by a Decree of the Ministry of Economy and Finance. Under a preliminary interpretation of the law, it may be understood that the stamp duty applies both to Italian resident and non-Italian resident Holders, to the extent that the Securities are held with an Italian-based financial intermediary.

Wealth Tax on securities deposited abroad

Pursuant to Article 19(18) of Decree 201, Italian resident individuals holding the Securities outside the Italian territory are required to pay an additional tax at a rate of 0.1 per cent. for 2011 and 2012, and at 0.15 per cent. for subsequent years. This tax is calculated on the market value of the Securities at the end of the relevant year or – if no market value figure is available – the nominal value or the redemption value of such financial assets held outside the Italian territory. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due). Although the wealth tax is already applicable, certain aspects of the relevant discipline should be clarified and implemented by a Decree of the Ministry of Economy and Finance.

[The following shall be applicable to all Final Terms.]
